Good wine,
they say, needeth
no bush. Well, that
may be. But the stern-post
of hammered steel that serves
your liner in her four days' battle with
Atlantic storms shows mark of birth in heat
of crucible and ringing blow of steel on steel.
¶ The lesson of the technologist is the logic of the
natural cause to its inexorable result. Placing this book
into your hands, we admit its foundation, somewhere, upon
the facts. In the broad state of Indiana there is a great school
with profs. and fellows much as hereinafter pictured. Unless there
were they, no such Debris as this could flower forth to an expectant world
in the season of returning birds and buds. ¶ And so this book is the result and
record of what we have lived and felt and learned in that magic span of
four—our college years. Our care has been to set down facts, sugar-
coating the pellets with such fancy as was within us. ¶ Herein is
testimony of our affection and proof of our respect for all the
great and true lives that have illumined ours. ¶ Those
who have drawn too near the furnace-fires of our
outraged patience have been roasted, and the
hammer has fallen gently where we
thought knocking was needed. We
have praised and we have scold-
ed. ¶ Mr. Reader, let us
introduce you to The
REAL PURDUE!

THE 1908 DEBRIS.

The University Calendar

1908.

Examinations for Admission to the University, Monday, June 8.

8:30 a. m.; Wednesday, September 2, 8:30 a. m.

Commencement Day, Wednesday, June 10.

Registration for First Semester, September 5, 7, 8, 9.

First Semester begins Wednesday, September 9, 10:00 a. m.

Thanksgiving Recess, November 25, 12:00 m. to November 30, 1 p. m.

Christmas Holiday begins Wednesday, December 23, 12:00 m.

1909.

Christmas Holiday ends Tuesday, January 5, 1 p. m.

First Semester ends Saturday, January 30, 12:00 m.

Second Semester begins Monday, February 1, 8 a. m.

Commencement Day, Wednesday, June 9.

HISTORY OF PURDUE.

The foundation for Purdue University was laid July 2, 1862, when Mr. Morrell and Senator Wade succeeded in passing through the United States Congress an amended form of the original "Land Grant Bill." By the act each State accepting the bill was entitled to 30,000 acres of land for each Senator and Representative in Congress, according to the census of 1860. This land was to be sold and the money used in the maintenance of a college whose leading objects should be, without excluding other classical and scientific subjects, and including military tactics, to teach such branches as related to Agriculture and the Mechanic Arts.

In 1865 the State of Indiana accepted the bill and by the sale of lands and subsequent investments an endowment of \$340,000 was founded, yielding an annual income of \$17,000. The school was first called the Indiana Agricultural College, but upon the acceptance by the State of the donation in 1869 of \$150,000 from John Purdue the name was changed to Purdue University. At the same time the donations of \$50,000 from Tippecanoe county and 100 acres of land from the citizens of West Lafayette were accepted and the present site was decided upon as the best location for the University.

Under the able guidance of Presidents—

| | |
|-----------------------|-----------|
| Richard Owen | 1872-1874 |
| A. C. Shortridge..... | 1874-1875 |
| E. E. White..... | 1875-1883 |
| J. H. Smart..... | 1883-1900 |
| W. E. Stone..... | 1900- |

the University has made rapid strides, growing from a small handful of students to a magnificent total of over 2,000 and from a faculty of six members to one of over two hundred.

The preparatory department, which was at first an important adjunct to the University, has long since been abolished and forgotten and from elementary courses in Agriculture and Science the steady progress has continued until now the University comprises schools of Agriculture, Science, Mechanical, Civil and Electrical Engineering, Pharmacy and Medicine.

To maintain the University in proper standing requires with the strictest economy a large amount of money. The estimated income for this purpose from the various sources is as follows:—

| | |
|--|-----------|
| Interest on Endowment Fund | \$ 17,000 |
| Proceeds of Educational Tax | 150,000 |
| From National Government (Morrell Fund)..... | 25,000 |
| From Miscellaneous Sources | 65,000 |
| | \$257,000 |

For the erection of new buildings special appropriations have been made from time to time by the General Assembly of the State and so generous have these appropriations been that the nucleus of six scattered buildings has grown to an imposing row of twenty-five, with more to be added in the future.

HISTORY OF THE PAST YEAR.

The events of the past year form another link in the chain of years of the steady progress and growth of our Alma Mater, and when we stop to think of the unfavorable conditions and hindrances that have attended this progress it is with no small pride that we recall her success. Through financial necessity progress of a material nature has been limited, but the broad strides made in the moral, social and intellectual field have to a great degree made up this deficiency.

The Memorial Building, which, since the fateful wreck of five years ago, has held a large share of the attention of every loyal Purdue man, has at last assumed tangible form. From the first it was evident that a building combining both memorial and gymnasium features would best satisfy existing conditions. With this in view the architects, Messrs. R. P. Daggett & Company, of Indianapolis, have prepared plans for a building which will admirably fulfill all requirements and can be built for the amount already subscribed. It is to be 85 x 165 feet in the main wing with a projecting portion to the front 35 x 70 feet. This front is to contain the entrance hall, lounging rooms, trophy room, offices, etc., leaving the main body of the building clear for the gymnasium floor, which will contain approximately 14,000 square feet of floor area. A running track will be suspended around the gymnasium on a level with the main entrance, and beneath the entrance hall will be a swimming pool 30 x 60 feet, shower baths, lockers, team quarters and all the features accompanying a first class modern gymnasium. The plans have been accepted by the building committee of the University and the completion of the building is awaited with impatience by the student body.

The new Agricultural Experiment Station for which the last General Assembly provided \$100,000.00 is rapidly nearing completion

and the excellent work of the staff will be greatly facilitated by the commodious quarters and modern conveniences which the new building will afford. The ground floor will contain storage and mailing quarters for the station bulletin department, a general laboratory and laboratories for Botany, Animal Husbandry, Horticulture and Agronomy. The first floor includes the office of the Director of the Station, general offices and laboratories and offices of the State Chemist and department of Agricultural Extension. The second floor contains a large library, the Chemical laboratory and the departments of Dairying and Horticulture.

The department of Chemistry, since the foundation of the University, has been one of the strongest and there is much satisfaction in seeing it at last provided with a building wherein its work may be carried out unhampered to its maximum efficiency. The building is modern in every respect and forms quite an addition to the University.

The contemplated addition to the engineering laboratories, forming an east wing to correspond to the testing laboratory, will eventually accommodate the air brake rack and automobile testing plant. It is to be as the other laboratories, one story in height and 35 x 96 feet in area, and comes as a much needed relief to a very overcrowded department.

In the death of Professor C. P. Mathews and the resignation of Dean W. F. M. Goss the engineering schools suffered a severe blow, but the manner in which Dean C. H. Benjamin and Professor C. F. Harding have taken up their respective duties portends much for the continued progress of the University.

The standing of a University is not only judged by the quality of the men that it turns out, but equally as much by the quality of

HISTORY OF THE PAST YEAR—(Continued).

those which it attracts to it. It speaks well for the reputation of Purdue that while the qualifications have been so raised during the past year that graduation from a commissioned high school and the completion of a thorough course in solid geometry are required for entrance, more applications for all classes are being received than at any previous time and many more than can be adequately taken care of. Courses in Forestry and Chemical Engineering have been added to the curriculum during the past year, while the Pharmacy course has been increased to two full years.

By all lovers of sport the resumption of athletic relations with Indiana University was hailed with joy. The hatchet has been buried and the "Old Gold and Black" will again contest with the "Crimson and White" for the athletic supremacy of Indiana. Let us hope that it will be with the old-time spirit of loyalty and fair-play.

At the suggestion of the Senior class and through the untiring efforts of their committee the Alumni of Purdue have at last been able to fill the long-felt want of some means of recognition between old grads. The selection of the Purdue Ring was only made after an exhaustive examination of many designs ranging from ideas original with students about the campus to samples setting forth the conceptions of experts from the foremost jewelers of the country.

The Freshman class in adopting the green cap as the official Freshman headgear have inaugurated a custom worthy of being perpetuated and one which will do much to keep their memories green long after they have left the campus.

Owing to the low standard to which it had been allowed to degenerate and to the degrading features which had crept in, it was deemed advisable by the faculty council this year to abolish the Senior custom of Mechanics Burning. It was only after a determined struggle on the part of the present Senior class and much

persuasion that they were allowed to give it another trial. So thoroughly was the entire ceremony carried out and so completely did the grotesque and humorous replace the ironical and vituperative that the burning of "McAnnix" has been raised to its proper place as a Senior ceremony.

For reasons of much the same nature it was also decided to abolish the annual Freshman-Sophomore Tank Scrap, but it is to be hoped some means may be devised when the time comes to also preserve this custom which is fast becoming dear to the hearts of all Purdue men.

In line with the continued progress of the University has been the attendance roll. During the year, 1,796 attended the University at Lafayette exclusive of those who attended the Corn School or Winter Agricultural Courses; these total over 1,200 in themselves. The distribution of regular students was as follows: 577 Freshmen, 448 Sophomores, 322 Juniors, 263 Seniors, 88 pharmacy, 57 graduate, and 35 specials. The marked yearly increases in enrollment have resulted in a seriously overcrowded condition in all shops and laboratories and it is to be hoped that much needed relief will be given shortly.

At the close of the last school year the '07 class was graduated at which time degrees were granted as follows: In Science, 17; in Agriculture, 8; in Mechanical Engineering, 86; in Civil Engineering, 59, and in Electrical Engineering, 76. The degree of Doctor of Medicine was conferred upon seventy graduates of the School of Medicine and the title Graduate in Pharmacy upon forty-six graduates of the School of Pharmacy.

Advanced degrees were conferred as follows: Master of Science, 4; Mechanical Engineer, 3; Civil Engineer, 6; Electrical Engineer, 8.

GOVERNING COUNCIL.

The President; Professors Ayres, Benjamin, Coulter, Evans, Golden, Hatt, Kenyon, Latta, McRae, Moran, Waldo.

STUDENT COUNCIL.

For the Faculty:—Professors Moran and Kenyon.

STANDING COMMITTEES.

Alumni—Professors Kenyon, Fisher, Golden and Miss Shoemaker.
Athletics—Professors Moran, Coulter, Esterline, Golden, Jamison.
Attendance—Professors Evans, Ayres and C. M. Smith.
Catalogue—Professors Ayres and Ferry; Mr. Davis.
Discipline—Professors Coulter, Golden, Sackett, Topping and Turner.
Entrance Examinations—Professors Ayres, Cooper, Test and Mr. Morris.
Expenditures—Professors Moran, McRae, Test.
Graduate Students—Professors Coulter, Benjamin, Hatt and Kenyon.

Irregular and Delinquent Students—Professors Kenyon, Jones, Ludy and Middleton.
Lecture Course—Professors Waldo, Arthur, Ayres, McRae.
Library—Mr. Hepburn; Professors Benjamin, McRae, Moran.
Military—Captain Lutz; Professors Alford, Fluegel and Albert Smith.
Special Students—Professors Coulter, Fry and Skimmer.
Student Dishonesty—Professors Hatt, Beckett and Plumb.
Student Organization—Professors Burrage, Waldo, Young and Mr. Zehring.
Student Domiciles—Professors Hoffman, Green, Ransom and Troop.

PRESIDENT W. E. STONE

AGRICULTURE

Robert Alexander Craig.

Professor of Veterinary Science. Veterinary to the Indiana Experiment Station, D.V.M., Iowa State College, 1897. Resident State Secretary of the American Veterinary Medical Association; Member of the Indiana Veterinary Medical Association.

John Harrison Skinner
Dean of the School of Agriculture. Professor of Animal Husbandry. B.S., Purdue University, 1897. Secretary of the Indiana Live Stock Breeders' Association; Member of the American Breeders' Association.

James Troop.

Professor of Horticulture and Entomology. B.S., Michigan Agricultural College, 1878; M.S., 1882; Post Graduate Work at Harvard and Cornell Universities. Member of the American Forestry Congress; Member of the American Pomological Society.

Alfred Theodore Wiancko.

Professor of Agronomy. B.S.A., Toronto University, 1895. Member of the American Breeders' Association.

Otto Fred Hunziker, M.S.

Professor of Dairying. B.S.A., Cornell University, 1900; M.S.A., 1901.

Martin Luther Fisher.

Assistant Professor of Agronomy. B.S., Purdue University, 1902. Graduate Student of the University of Wisconsin. Member of the American Breeders' Association; Member American Society of Agronomists.

William Wesley Smith.

Assistant Professor of Animal Husbandry. B.S.A., Iowa State College, 1903; M.S.A., 1906.

John DeMoss Jarvis.

Assistant in Dairying. B.S.A., University of Wisconsin, 1905.

Charles Goodrich Woodbury, M.S.

Assistant Horticulturist. B.S., Michigan Agricultural College, 1904; M.S., 1906.

William McEwen Nye.

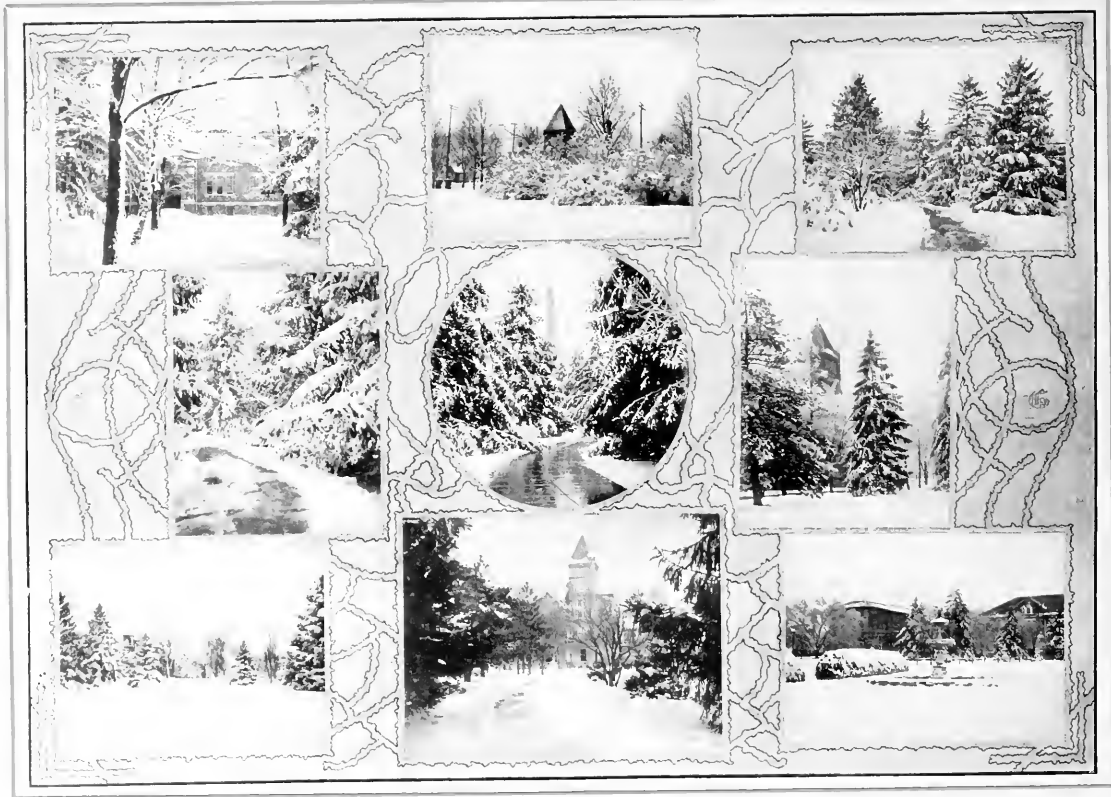

Instructor in Farm Engineering. B.S., Purdue University, 1900.

Samuel Dicken Conner.

Instructor in Agricultural Chemistry. B.S., Purdue University, 1894; M.S., 1907. Assistant Chemist Indiana Agricultural Experiment Station.

Clare N. Arnett.

Assistant Instructor in Animal Husbandry. B.S., Purdue University, 1907.

Berkheiser—Just call for Schlitz.

Stanley Coultter. 1911.

Dean of the School of Science; Professor of Biology and Director of the Biological Laboratory. A.B., Hanover College, 1871; A.M., 1874; Ph.D., 1879. Fellow of the Indiana Academy of Science; Fellow of the American Association for the Advancement of Science; Director of the National Society for the Protection of Wild Plants; Member of the Indiana State Board of Forestry; Lecturer on Botany, Summer School, University of Wisconsin, 1893; President of the Indiana Academy of Science, 1897; Member of the State College Association; Member of the Association of Colleges and Secondary Schools of the Northwest; President of the State Audubon Society, 1901-1902; Member of the Association for the Promotion of Engineering Education; Member of the Central Botanists Association, and Chairman, of the Science Teachers' Association, and its first President; Lecturer on Plant Life, Cornell University, Summer Sessions, 1903-1904.

Percy Norton Evans.

Professor of Chemistry and Director of the Chemical Laboratory, B.S., McGill University, 1890; Exhibition of 1891, Science Scholar (London) 1891-1893. Ph.D., University of Leipsic, 1893; Fellow of the Indiana Academy of Science; Member of the American Chemical Society.

Ervin Sidney Ferry. MKE. ΣΣ.

Professor of Physics, B.S., Cornell University, 1889; Member of the American Physical Society; Member Societe Francaise de Physique; Member of the American Astronomical and Astrophysical Society; Member of the American Electrochemical Society.

James Harvey Ransom.

Professor of General Chemistry, B.S., Wabash College, 1890; M.A., 1893; Ph.D., University of Chicago, 1899; Member of the American Chemical Society; Fellow of the Indiana Academy of Science; Member of the State College Association; Member of the Association of Colleges and Secondary Schools of Indiana; Member of the Society for the Promotion of Engineering Education; Member of the American Association for the Advancement of Science.

Severance Burrage. AKE.

Assistant Professor of Sanitary Science, B.S., Massachusetts Institute of Technology, 1892; Member of the Indiana Delta Kappa Epsilon Association; Lecturer on Sanitation at the Training School for Nurses at St. Elizabeth's Hospital, Indiana State Soldiers' Home and Lafayette Home Hospital; Bacteriologist for the Lafayette Home Hospital; Member of the American Public Health Association; Member of the Indiana Engineering Society; Fellow of the Indiana Academy of Science; Honorary Member of the Tippecanoe County Medical Society; Honorary Member of the Indiana State Medical Society.

Charles Marquis Smith.

Assistant Professor of Physics. B.S., University of Wisconsin, 1896; Member of the American Astronomical and Astrophysical Society; Member of the American Physical Society; Member American Society for Testing Materials.

Arthur Taber Jones. 4BK.

Assistant Professor of Physics. B.S., University of Chicago, 1899; Member of the American Association for the Advancement of Science; Associate Member of the American Physical Society.

Laura Anne Fry.

Professor of Industrial Art. Pupil of William Fry, William Chase, Louis L. Rebisso. Member of the New York Art Students' League; early connected with the Rookwood Pottery Company of Cincinnati.

Howard Edwin Enders. 4BK.

Instructor in Zoology. B.S., Lebanon Valley College, 1897; B.S., University of Michigan, 1898; M.S., Lebanon Valley College, 1900; Ph.D., Johns Hopkins University, 1906; Investigator at the United States Fisheries Laboratory, 1903-1906; Member of the American Association for the Advancement of Science; Member of the Indiana Academy of Science.

Oliver Perkins Terry. 10LL, AKK, 1BL.

Instructor in Physiology and Anatomy. B.S., Purdue University, 1903; M.S., St. Louis University, 1906; M.D., 1906; Member of the American Physiological Association; Member of the Indiana Academy of Science.

Arthur Renwick Middleton.

Instructor in Chemistry. A.B., University of Rochester, 1891; Ph.D., Cornell University, 1904.

Guy Gaillard Becknell. 6BK.

Instructor in Physics. M.S., Northwestern University, 1904. Associate Member of the American Physical Society.

Leonard Ernest Young. 10LL

Assistant in Chemistry. B.S., Syracuse University, 1899; M.S., 1901.

Jennie Tilt. 4A9.

Assistant in Chemistry. B.S., Purdue University, 1907.

Francis H. Smith.

Assistant in Chemistry. Ph.D., Brown University, 1905; Sc.M., 1906.

Elbert C. Lathrop. 10LL.

Assistant in Chemistry. A.B., DePauw University.

David William Cornelius. 4FD.

Assistant in Physics. A.B., DePauw University, 1906.

Jacob Garrett Kemp.

Assistant in Physics. A.B., University of Illinois, 1906.

Glenn Alfred Shock.

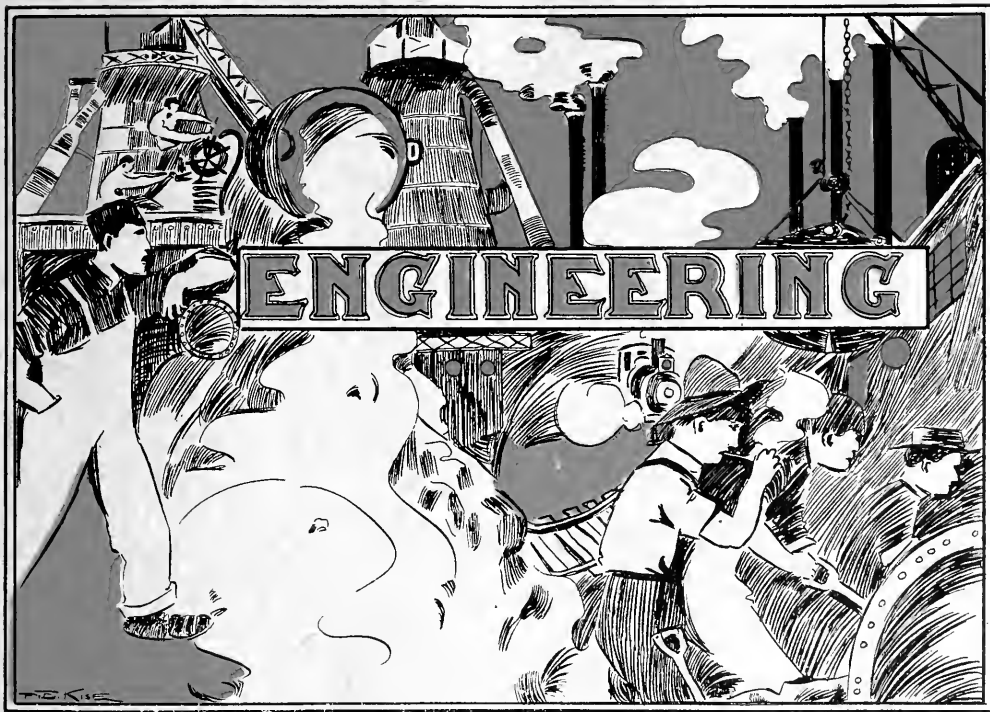

Assistant in Physics. A.B., University of Wisconsin, 1907.

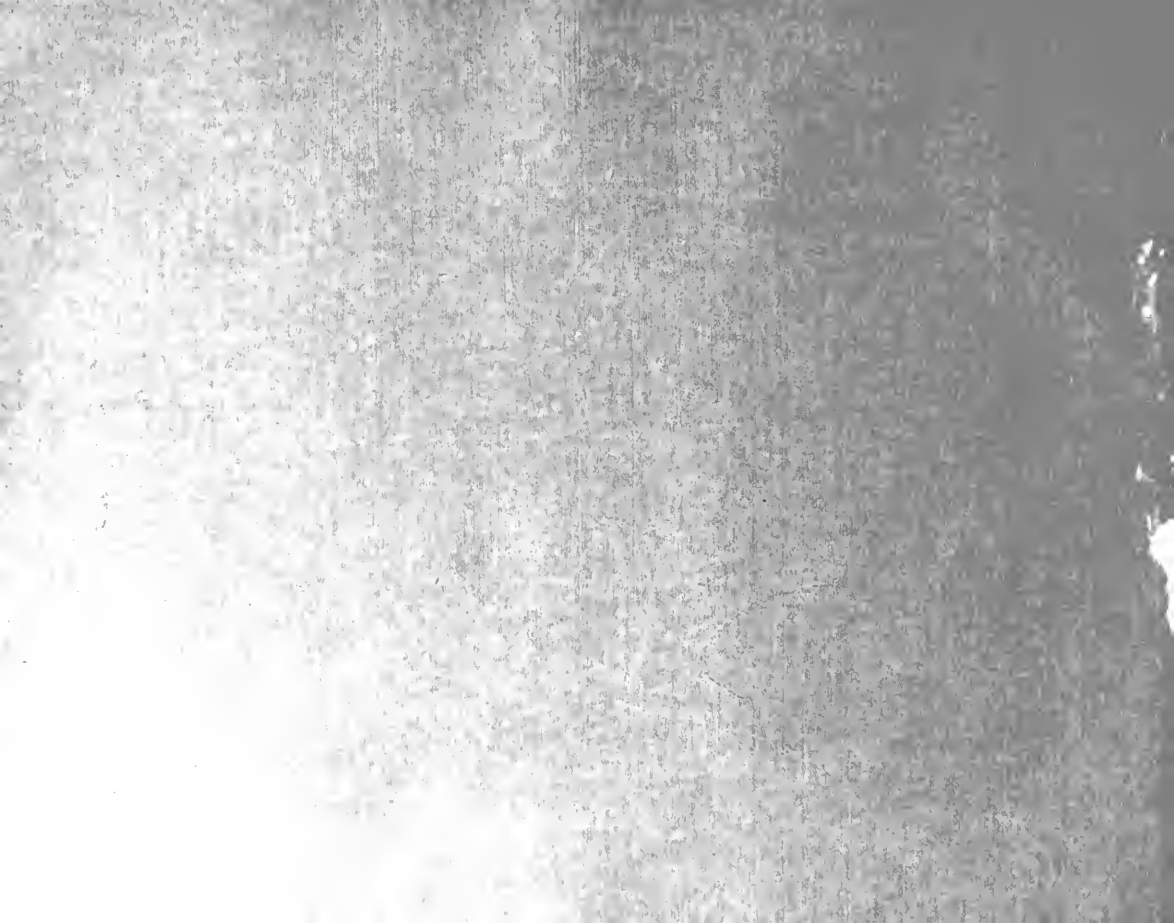

Paul Francis Shuey.

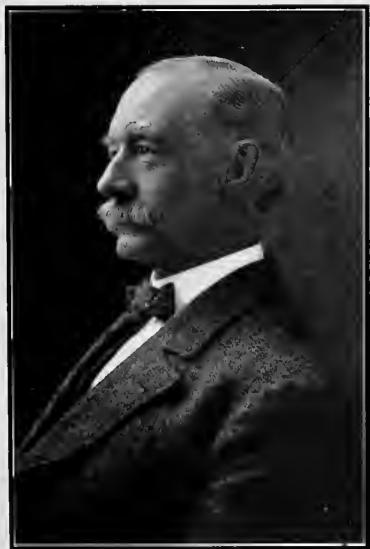

Assistant in Physics. B.S., Kansas University, 1907.

Nellie Phillips Samson.

Instructor in Wood Carving. Studied in Art Students' League of New York; Cincinnati Art Academy; Academy of Fine Arts, Siena, Italy.

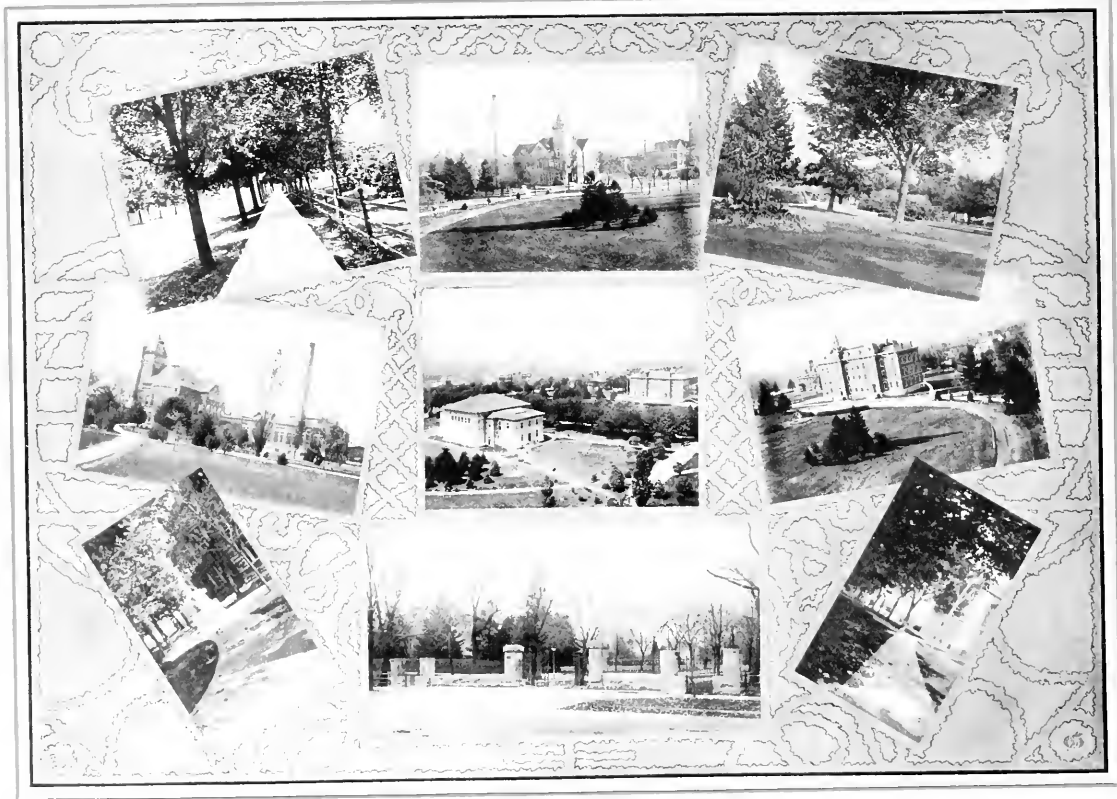

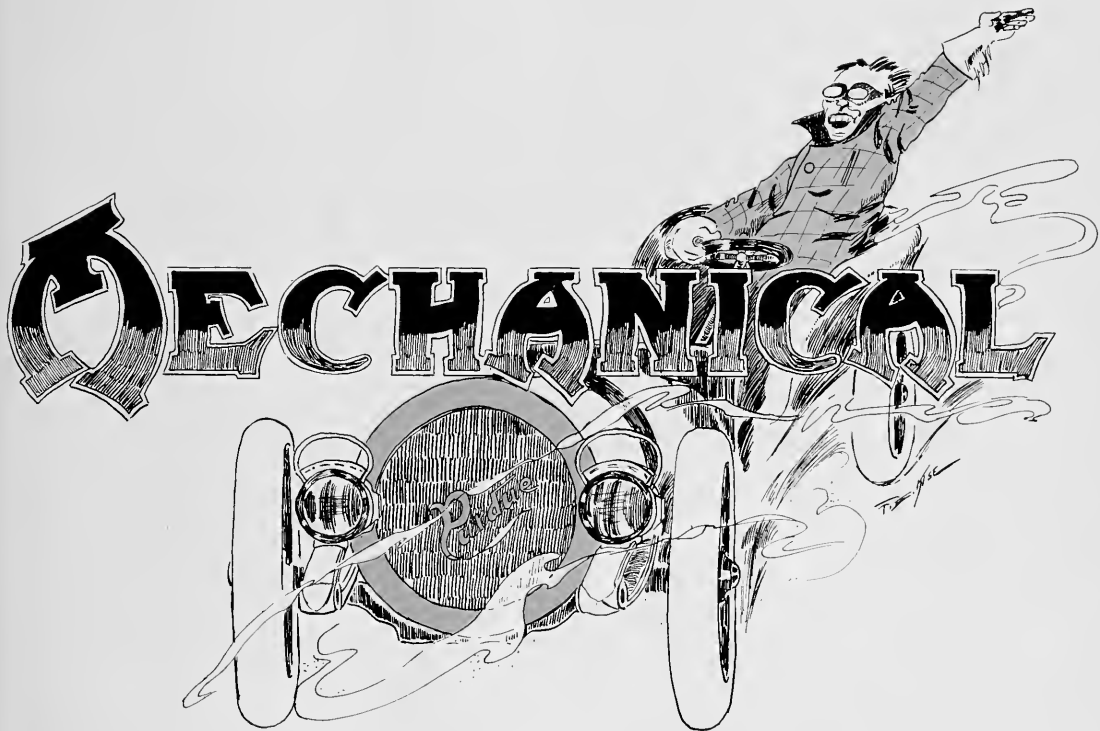

Charles Henry Benjamin, Dean of the Schools of Engineering and Director of the Engineering Laboratory; M. E. University of Maine, 1881; TBE; SE; Member of the American Society of Mechanical Engineers; Member of the Society for the Promotion of Engineering Education; President of the Cleveland Engineering Company; Past President, Civil Engineers' Club of Cleveland.

Companionable, versatile, capable; such are the characteristics which have helped our new dean, Charles H. Benjamin, of the engineering schools, fill a most difficult position. To use his own words: "The retirement of Professor Goss at the zenith of his career left an enormous void for him to rattle around in." But so great has been that variable, the co-efficient of cubical expansion of genius, that the proper conditions of temperamental environment having been found, the expansion was complete. His address to the student body the night of the football bonfire as well as his convocation talk won for him a warm spot in the heart of every loyal Purdue man and all wish him success in his new position.

Eddie Wintode—"A man of experience in affection."

FACULTY OF THE SCHOOL OF MECHANICAL ENGINEERING.

Gilbert Amos Young. T.B.H.

Assistant Professor of Mechanical Engineering. B.S., South Dakota Agricultural College, 1894; B.S., Purdue University, 1899; M.E., 1901. Member of the American Society of Mechanical Engineers; Member of the Indiana Engineering Society; Member of the American Gas Institute; Member of the Indiana Academy of Science; Member of the Society for the Promotion of Engineering Education.

Edward Lee Hancock.

Assistant Professor of Applied Mechanics. B.S., University of Wisconsin, 1898; M.S., 1901; Member of the American Mathematical Society; Member of the American Society for Testing Materials; Member of the International Society for Testing Materials; Member of the Society for the Promotion of Engineering Education; Member of the Society of Arts, Letters and Science; Member of the Indiana Engineering Society.

Louis Eugene Endsley. H.K.F. T.B.H.

Assistant Professor of Railway Mechanical Engineering. B.S., Purdue University, 1901; M.E., 1903; Member of the Western Railway Club; Member of the Society for the Promotion of Engineering Education.

Cicero Bailey Veal. T.B.H.

Instructor in Machine Design. B.S., Purdue University, 1902; Member of the American Society of Mechanical Engineers.

Oscar Colman Klipsch. T.B.H.

Instructor in Mechanical Engineering. B.S., Purdue University, 1901; M.E., 1907.

Llewellyn V. Ludy. T.B.H.

Professor of Mechanical Engineering. B.S., Purdue University, 1898; M.E., 1900; Member of the Indiana Engineering Society; Member of the Society for the Promotion of Engineering Education; Member of the American Society of Mechanical Engineers.

James David Hoffman. T.B.H.

Associate Professor of Engineering Design. B.M.E., Purdue University, 1890; M.E., 1893; Member of the American Society of Mechanical Engineers; Member of the American Society of Heating and Ventilating Engineers; Member of the Society for the Promotion of Engineering Education; Member of the Indiana Engineering Society; Member of the Indiana Academy of Science.

Arthur Williams Cole.

Instructor in Mechanical Engineering. B.S., Worcester Polytechnic Institute, 1902; M.E., 1904; Member of the American Society of Mechanical Engineers; Member of the American Institute of Electrical Engineers; Member of the National Geographic Society.

Claude Sylvester Johnson.

Instructor in Mechanical Engineering. B.S., Purdue University, 1901.

Lawrence W. Wallace.

Instructor in Locomotive and Car Design. B.S., Agricultural and Mechanical College of Texas, 1903.

Thomas Taylor Eyre. T.B.H.

Instructor in Applied Mechanics. B.S., Purdue University, 1905.

William Temple Heck.

Instructor in the Engineering Laboratory. B.S., Pennsylvania State College, 1904.

Harold Shields Dickerson.

Instructor in the Engineering Laboratory. B.S., University of Michigan, 1905.

George Wesley Munro.

Instructor in the Engineering Laboratory. B.S., Purdue University, 1897; E.E., 1898.

Charles Herbert Lawrence.

Instructor in Mechanical Engineering. B.S., Clarkson School of Technology, 1900; Member of the Society for the Promotion of Engineering Education.

Benedict Frederick Raber. T.B.H.

Instructor in Machine Design. B.S., Purdue University, 1907.

Howard LeRoy Hutchinson.

Instructor in Machine Design. Ph.B., Sheffield Scientific School, Yale University, 1903.

Olin Raymond McBride.

Assistant in the Engineering Laboratory. B.S., Purdue University, 1907.

William C. Stone.

Superintendent of the Mechanical Laboratory.

DEPARTMENT OF PRACTICAL MECHANICS.

Michael Joseph Golden. OZ.
Professor of Practical Mechanics. B.M.E., Purdue University, 1893; M.E., 1894;
Member of the American Society of Mechanical Engineers; Member of the Society of Naval Architects and Marine Engineers; Member of the Indiana Academy of Science.

William Payson Turner.
Associate Professor of Practical Mechanics. Graduate of the School of Mechanic Arts, Massachusetts Institute of Technology, 1886; Member of the American Society of Mechanical Engineers; Member of the Society for the Promotion of Engineering Education.

Alpha Pierce Jamison. KE.
Professor of Mechanical Drawing. B.E.E., Purdue University, 1895; M.E., 1897;
Member of the American Society of Mechanical Engineers.

Ralph Brown Trueblood.
Assistant Professor of Practical Mechanics. B.S., Purdue University, 1902.

Brooks Buckley Ellis.
Assistant in Foundry.

John Francis Keller.
Assistant in Forge Shop.

FACULTY OF THE SCHOOL OF CIVIL ENGINEERING.

William Kendrick Hatt. A.T.E. ΣΣ.

Professor of Civil Engineering. A.B. University of New Brunswick, 1887; C.E., Cornell University, 1891; A.M., University of New Brunswick, 1898; Ph.D., 1901; Fuertes Gold Medal at Cornell University, 1902; Civil Engineer in charge of Timber Tests, Forestry Service, United States Department of Agriculture; Member of the International Society for Testing Materials; Member of the American Society for Testing Materials; Member of the American Railway Engineering and Maintenance of Way Association; Member of the American Society for the Advancement of Science; Member of the Society for the Promotion of Engineering Education; Member of the Indiana Academy of Science; Member of the Indiana Engineering Society; President,

1907, Associate Member of the American Society of Civil Engineers.

Albert Smith. KKK.

Associate Professor of Civil Engineering. B.S., Dartmouth College, 1898; C.E., Thayer School of Civil Engineering, 1903; Sphinx, Member of the Western Society of Civil Engineers; Associate Member of the American Society of Civil Engineers; Member of the Indiana Academy of Science; Member of the Indiana Engineering Society; Member of the Thayer Society of Engineers.

Robert Lemuel Sackett.

Professor of Municipal and Sanitary Engineering. B.S., University of Michigan, 1891; C.E., 1896. Member and Past President Indiana Engineering Society; Member of the American Association for the Advancement of Science; Associate Member of the American Society of Civil Engineers. Sanitary Engineer to the State Board of Health, Consulting Engineer to the Eastern, Southern and Southeastern Hospital Commission.

Harry Otto Garman. Acaia.

Assistant Professor of Civil Engineering. B.S., Purdue University, 1902; C.E., 1904; Member of the American Association for the Advancement of Science; Member of the Society for the Promotion of Engineering Education; Member of the American Railway Engineering and Maintenance of Way Association; Member of the Indiana Academy of Science; Member of the Indiana Engineering Society; Junior Member of the American Society of Civil Engineers; Engineer of the State Railway Commission.

P. B. Breneman. ΣAE.

Assistant Professor of Civil Engineering. B.S., Pennsylvania State College, 1894; C.E., 1897.

Herbert Henry Scofield.

Instructor in the Testing Laboratory. M.E., Cornell University, 1905.

George Wilkinson Case.

Instructor in Civil Engineering. B.S., Purdue University, 1905.

Chester Kolb.

Assistant in Civil Engineering. B.S., Purdue University, 1907.

Thomas Hendricks Teeter.

Assistant in Civil Engineering. B.S., Purdue University, 1907.

Ray Cyrus Yeoman.

Assistant in Civil Engineering. B.S., Purdue University, 1907.

Leslie Noel Daniels. A.T.E.

Assistant in Civil Engineering. B.S., Purdue University, 1907.

FACULTY OF THE SCHOOL OF ELECTRICAL ENGINEERING.

Charles Francis Harding.

Professor of Electrical Engineering; Director Electrical Laboratory. B.S., Worcester Polytechnic Institute, 1902; Associate Member American Institute Electrical Engineers.

John Walter Esterline. Σ N. T.B.L.

Associate Professor of Electrical Engineering. B.S., Fort Wayne College, 1893; B.S., Purdue University, 1897. Member of the American Institute of Electrical Engineers; Member of the American Society for the Promotion of Engineering Education; Member of the American Society for Testing Materials; Chairman of the Committee on the Magnetic Properties of Iron and Steel of the American Society for Testing Materials.

Hylon Theron Plumb. T.B.L.

Associate Professor of Electrical Engineering. B.S., Milton College, 1896; M.S., 1901; B.E.E., University of Wisconsin, 1901. Associate Member of the American Institute of Electrical Engineers; Member of the American Society for the Promotion of Engineering Education; Associate Member of the American Street and Interurban Railway Association.

Alanson Niles Topping. Σ Z.

Assistant Professor of Electrical Engineering. B.S., Kansas University, 1894. Associate Member of the American Institute of Electrical Engineers.

Arthur Bessey Smith. Σ Z.

Instructor in Telephone Engineering. B.S., University of Nebraska, 1901; E.E., Purdue University, 1907. Associate Member of the American Institute of Electrical Engineers; Technical Editor of *Sound Waves*.

William Telford Small. T.B.L.

Instructor in Electrical Engineering. B.S., Purdue University, 1903. Associate Member of the American Institute of Electrical Engineers; Subscribing Member of the National Fire Protection Association.

Clifton Ervin Schutt. T.B.L.

Assistant in Electrical Engineering. B.S., Purdue University, 1905.

Vernon Theodore Brigman.

Assistant in Electrical Engineering. B.S., Colorado College, 1906. Associate Member American Institute of Electrical Engineers.

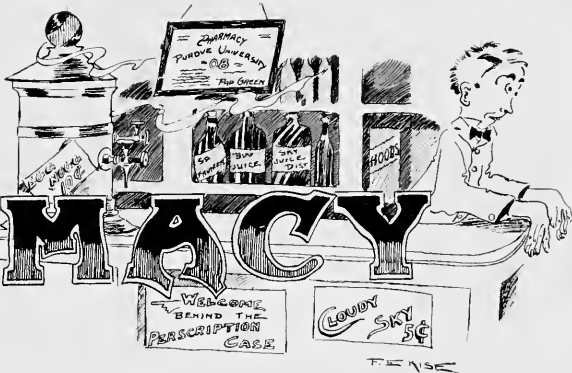

Charles Ruby Moore. T.B.L.

Assistant in Electrical Engineering. B.S.M.E., B.S.E.E., Purdue University, 1907.

Ross Leroy McLellan.

Assistant in Electrical Engineering. B.S., Purdue University, 1907.

GREEN

Arthur Lawrence Green.

Dean and Professor of Chemistry in the School of Pharmacy. Ph.G., University of Michigan, 1882; M.D., Medical College of Indiana, 1894; Ph.D., Franklin College, 1895. Fellow of the American Association for the Advancement of Science; Member of the Indiana Pharmaceutical Association.

Julius William Sturmer.

Professor of Pharmacy Ph.G., Purdue University, 1891; Member of the American Pharmaceutical Association; Chairman of the Committee on Pharmacy, Indiana Pharmaceutical Association.

Benjamin Martin Hoak.

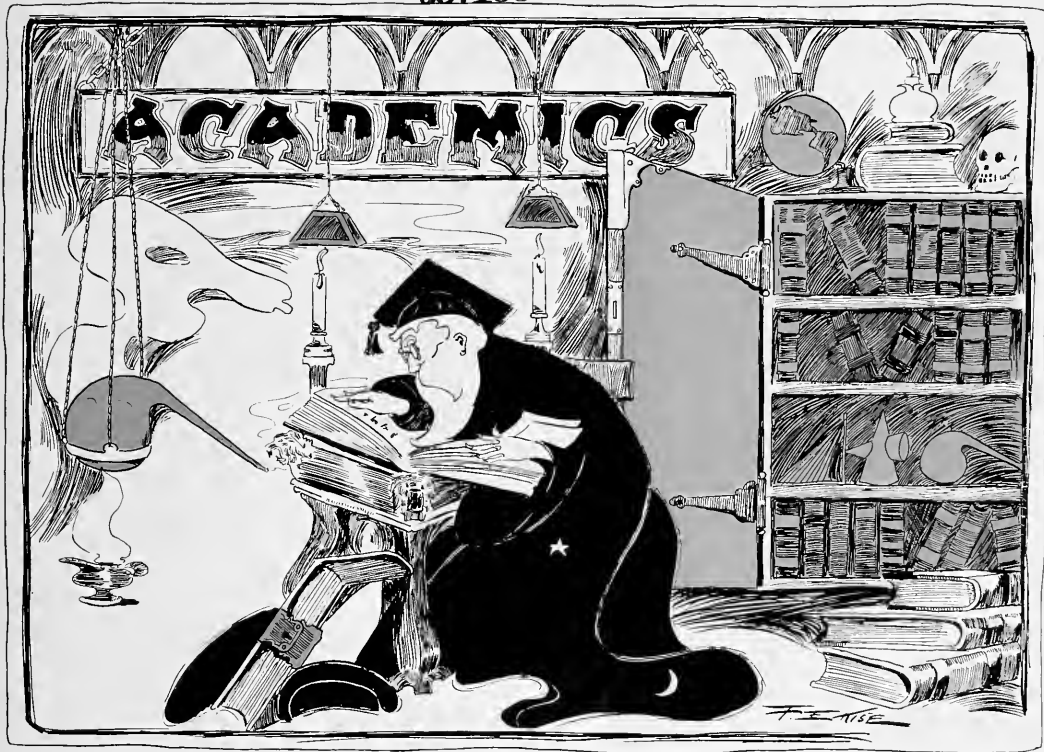

Assistant Professor of Materia Medica. Ph.G., Purdue University, 1892; Member of the Indiana Pharmaceutical Association

Arthur B. Carter.

Assistant in Pharmacy. Ph.G., Purdue University, 1906

"Flossie" Stout—"I've been doin' a good deal of thinkin' on this here subject."

DEPARTMENT OF MATHEMATICS.

WALDO

Clarence Abiathar Waldo. A.M. Ph.D. ΣΣ.

Head Professor of Mathematics, A.B., Wesleyan University of Connecticut, 1875; A.M., 1878; Ph.D., Syracuse University, 1893; Fellow of the American Association for the Advancement of Science; Vice-President of Section D, 1902-1903; Secretary of the Council, 1903-1904, General Secretary, 1904-1905. Individual Member of the North Central Association of Colleges and Secondary Schools; Editor of Proceedings, 1899-1901; Member of the Society for the Promotion of Engineering Education; Secretary and Editor of Proceedings, 1902-1904; President of the State College Association, 1891; President of the State Academy of Science, 1897; Arbitrator of the Conference Colleges, 1901—; Arbitrator of Ohio Conference Colleges, 1902—.

Moses Cobb Stevens.

Professor Emeritus of Higher Mathematics, A.M., Earlham College, 1882; Member of the Indiana College Association; Fellow of the Indiana Academy of Science; Life Member of the National Educational Association; Member of the American Mathematical Society.

Erastus Test.

Professor of Mathematics, B.S., Earlham College, 1863; M.S., 1866; M.D., University of Michigan, 1868; Ad Fundam, Medical College of Indiana, 1873.

Thomas Greene Alford. Ph.D.

Professor of Mathematics, A.B., Indiana University, 1871; A.M., 1878; Member of the Indiana State Teachers' Association; Member of the Indiana Historical Society.

Alfred Monroe Kenyon.

Professor of Mathematics, Registrar of the University, A.B., Union College, 1891; A.M., Harvard University, 1898; Member of the American Mathematical Society; Member of the Indiana Teachers' Association.

Jacob Westlund. ΣΣ.

Associate Professor of Mathematics, Ph.D., Yale University, 1898; Member of the Indiana Academy of Science; Member of the American Mathematical Society; Member of the German Mathematical Society, Member Circolo Matematico di Palermo.

Charles Harrison Beckett.

Assistant Professor of Mathematics, A.B., Cornell University, 1897; Member of the American Mathematical Society; Member of the Indiana Academy of Science.

William Hunt Bates.

Instructor in Mathematics, A.B., Vanderbilt University, 1894; A.M., University of Chicago, 1902; Member of the American Mathematical Society; Deutsche Mathematiker-Vereinigung.

Archer Everett Young.

Instructor in Mathematics, A.B., Wesleyan University of Connecticut, 1898; Ph.D., Princeton University, 1903; Member of the American Mathematical Society.

Charles Clements Morris.

Instructor in Mathematics, Ph.B., University of Michigan, 1899, A.M., Harvard University, 1904.

William Arthur Zehring.

Instructor in Mathematics, Otterbein University, A.B., 1898; A.M., 1903; Harvard University, A.M., 1903; Graduate Student University of Chicago.

George Heysler Light.

Instructor in Mathematics, A.B., Princeton University, 1899; A.M., 1900.

Luther C. Weeks. ΣΣ.

Instructor in Mathematics, Ph.B., Yale University, 1900; B.S., Bethany College, 1903.

Reuben Fletcher Booth.

Instructor in Mathematics, Ph.B., Northwestern University, 1903; Graduate Student of the University of Chicago, 1906-1907.

DEPARTMENT OF HISTORY AND ECONOMICS.

MORAN

Thomas Francis Moran. †BK.

Professor of History and Political Economy. A.B., University of Michigan, 1887; Ph.D., Johns Hopkins University, 1895. Member of the American Historical Association; Member of the Political Science Association.

Edward Hatton Davis.

Instructor in History and Economics. B.S., Massachusetts Institute of Technology, 1900; Member of the American

Economic Association; Member of the American Historical Association; Member of the American Statistical Association; Member of the American Sociological Society; Member of the National Geographic Society; Member of the North Central Teachers' Association.

Beverly Waugh Bond, Jr. †KK.

Instructor in History and Economics. A.M., Randolph-Macon College, 1901; Ph.D., Johns Hopkins University, 1905; American Historical Association; Maryland Historical Association.

DEPARTMENT OF ENGLISH LITERATURE AND RHETORIC.

Emma Montgomery McRae.

Professor of English Literature. Lady Principal of Brookville College; A.M., Wooster University. Member of the National Teachers' Association; Member of the State Teachers' Association.

Edward Ayres. †T. †BK.

Professor of Rhetoric. A.B., Amherst College, 1878; M.A., 1885.

Clyde Barnes Cooper.

Assistant Professor of English Literature. A.M., Iowa State University, 1901.

Carolyn Ernestine Shoemaker.

Instructor in English. B.S., Purdue University, 1888; M.S., 1889.

Frank S. Magill.

Instructor in English. A.B., Parsons College, 1896. Graduated Law School of Missouri, 1901.

Carey Herbert Conley.

Instructor in English. A.B., University of Michigan, 1902; Graduate Student of the University of Chicago, 1903.

AYRES

McRAE

DEPARTMENT OF GERMAN.

FLUEGEL

Ernst Jacob Fluegel.

Professor of German. Diploma from the University of Bonn, 1889; Ph.D., 1890. Member of the Modern Language Association of America; Member Allgemeiner Deutscher Sprachverein; Chairman of the Executive Committee of the Modern Language Section of the Indiana State Teachers' Association; Dean of the School of Modern Languages, Winona Summer School.

John Heiss.

Instructor in German. A.B., Harvard University, 1893; A.M., 1900.

Edward Elias.

Instructor in German. B.S., Kansas State Normal School, 1897; A.B., Harvard University, 1900; Graduate of Chicago University, 1903-1904.

Alfred Oughton Lee.

Instructor in German. B.S., University of Berlin, 1895; M.D., 1899; Department Editor of the New International Encyclopedia, 1900-1903; Webster's International Dictionary, 1903-1906.

John Tevis Gunn.

Instructor in German. A.M., Kentucky State College, 1901; Graduate Student, University of Chicago, 1901-1902.

Paul F. Reiff.

Instructor in German. Ph.D., University of Basel, 1901. Studied at the Universities of Tübingen, Berlin, Basel and Harvard.

DEPARTMENT OF FRENCH.

DAVIES

Pauline Mariotte-Davies.

Professor of French. Scholarship Ecole Normale Supérieure of Paris; Diploma University of France; Officier de l'Académie; Official Delegate of the Alliance Française of France; Editor of Elementary Science Reader.

Eva Lenore Linn.

Organist. B.S., Purdue University, 1897; M.S., 1898.

LIBRARY AND OTHER DEPARTMENTS.

William Murray Hepburn.

Librarian. M.A., Dalhousie College, 1898. B.L.S., State Library School, Albany, New York, 1903; Assistant Reference Librarian, The John Crerar Library, Chicago, 1903-1904.

Blanche Annis Miller.

Assistant Librarian.

Kate E. Dinsmore.

Assistant Librarian.

Bertha G. Ridgway.

Assistant Librarian.

Arthur Duity.

Superintendent of Buildings. B.S., Purdue University, 1899.

Pierre Van Landegham.

Superintendent of Grounds.

William James Lutz.

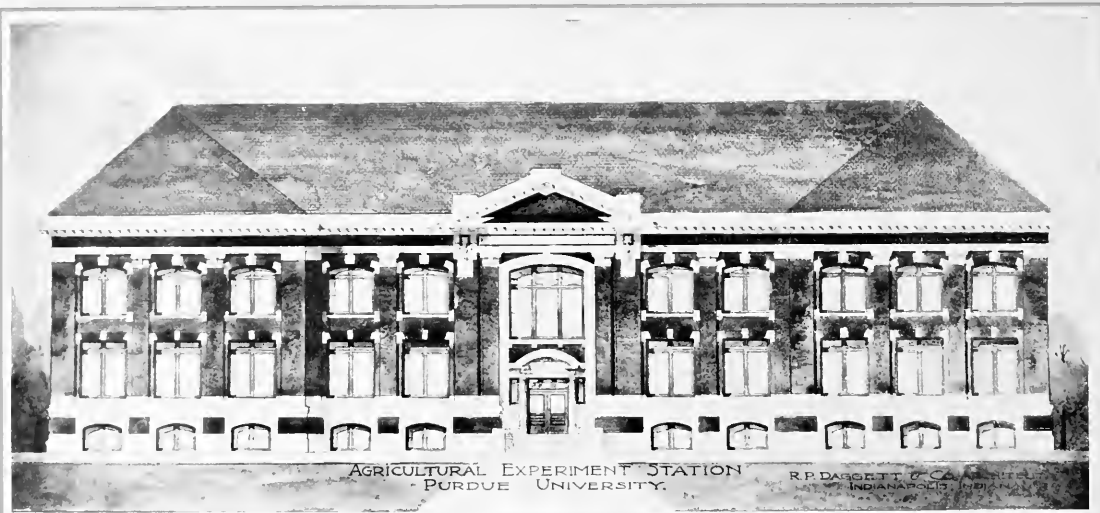

Professor of Military Science. Commandant of Cadets. B.S., Purdue University, 1888; M.S., 1889. Captain Twenty-eighth United States Infantry.

"And he gave it as his opinion, that whoever could make two ears of corn, or two blades of grass, to grow upon a spot of ground where only one grew before, would deserve better of mankind, and do more essential service to his country, than the whole race of politicians put together"—Swift.

EXPERIMENT STATION

GOSS

Arthur Goss.

Director and Chemist of the Indiana Agricultural Experiment Station. B.S., Purdue University, 1888; A.C., 1889; M.S., 1895.

Joseph Charles Arthur. Σ

Professor of Vegetable Physiology and Pathology. B.S., Iowa State College, 1872; M.S., 1877; D.Sc., Cornell University, 1886; Botanist of the Indiana Experiment Station; Member of the Philadelphia Academy of Sciences; Member of the American Association for the Advancement of Science; Member of the Society for the Promotion of Agricultural Science; Member of the Botanical Society of America; Member of the American Mycological Society; Member of the Indiana Academy of Science;

Member of the International Botanical Association; Member of the American Committee on Botanical Nomenclature; Speaker of the International Congress of Arts and Sciences, St. Louis, 1904; Delegate from the United States Government to the International Botanical Congress, Vienna, 1905.

George Irving Christie.

Director of Agricultural Extension. B.S.A., Ontario Agricultural College, 1902; B.S.A., Iowa State College of Agriculture, 1903.

William James Jones, Jr.

Professor of Agricultural Chemistry. State Chemist. B.S., Purdue University, 1890.

Frank Dunn Kern.

Assistant Botanist. B.S., University of Iowa, 1904; M.S., Purdue University, 1907.

Earl Gillfillian Hagedorn.

Assistant in Botany. B.S., Michigan Agricultural College, 1906.

Walter Pearson Kelly.

Assistant in Soil Improvement. B.S., Kentucky State College, 1904; M.S., Purdue University, 1907

Owen C. Haworth.

Chief Deputy State Chemist. B.S., Purdue University, 1903.

Clinton Otis Cromer.

Assistant Agriculturist. B.S., Purdue University, 1906

Lisle Charles Williams.

Deputy State Chemist. Ph.G., Purdue University, 1907.

Edward George Proulx.

Deputy State Chemist. B.S., Massachusetts Agricultural College, 1903.

John Blackler Abbott.

Deputy State Chemist. B.S., University of Vermont, 1904.

Wilbur Andrew Cochel. Σ

Associate in Animal Husbandry. A.B.; B.S., University of Missouri, 1905.

Herbert Andrew Hopper. Σ

Dairy Extension. B.S.A., Cornell University, 1903; M.S., University of Illinois, 1907.

FARMERS INSTITUTE

William Carrol Latta.

Superintendent of the Indiana Farmers' Institute. Professor of Agriculture. B.S., Michigan Agricultural College, 1877. M.S., 1882. Consulting Agriculturist of the Purdue Experiment Station.

* * *

The Indiana Farmers' Institute.

The Indiana Farmers' Institutes were in 1889 taken under State control and placed in the care of the Board of Trustees and Faculty of the School of Agriculture of Purdue University. Since that time the number of institutes held throughout the State and the value of these institutes has increased beyond the fondest hopes of their originators. So successful have they been and so highly are they appreciated that the State Legislature has once doubled its appropriation for their support and the prospects are bright for a continued material appreciation of their work.

The plan of the work is to hold one or more institutes in each county during the winter months. The chairman and speakers for these institutes attend the Normal Institute which is held at the University early in October for the purpose of outlining the course for the coming year.

The visible results of the work, so far, are more intelligent and better care of the soil, better culture and increased yield of crops, better kept farms, improvement in seed corn, live stock and numerous other matters which tend to make agriculture a more potent factor in the economic welfare of the State.

The Farmers' Short Course.

The Farmers' Short Course in Agriculture was opened in 1902, to give an opportunity to enterprising farmers to meet at the

University for the purpose of exchanging views, obtaining instruction as to the latest and most improved methods of farming and to observe the results of experiments conducted under these methods.

The time available being so short all instructions are confined to lectures and demonstrations. The subjects which cannot be fully treated are well outlined and pamphlets and references given through which the student may obtain a thorough knowledge.

The farmers' course during its short existence has done much good work and has become deservedly popular. The enrollment this year was 1031.

The Winter School of Agriculture.

The Winter School of Agriculture is specially designed for those who feel the need of further preparation, for the successful pursuit of some branch of agriculture, or for the more efficient discharge of home duties, but can be spared from home only during the winter months.

This school is in its twentieth year and offers, with excellent facilities as regards character and scope of instruction and material equipment, courses in Agriculture and Horticulture, Animal Husbandry, Dairying and Household Economics.

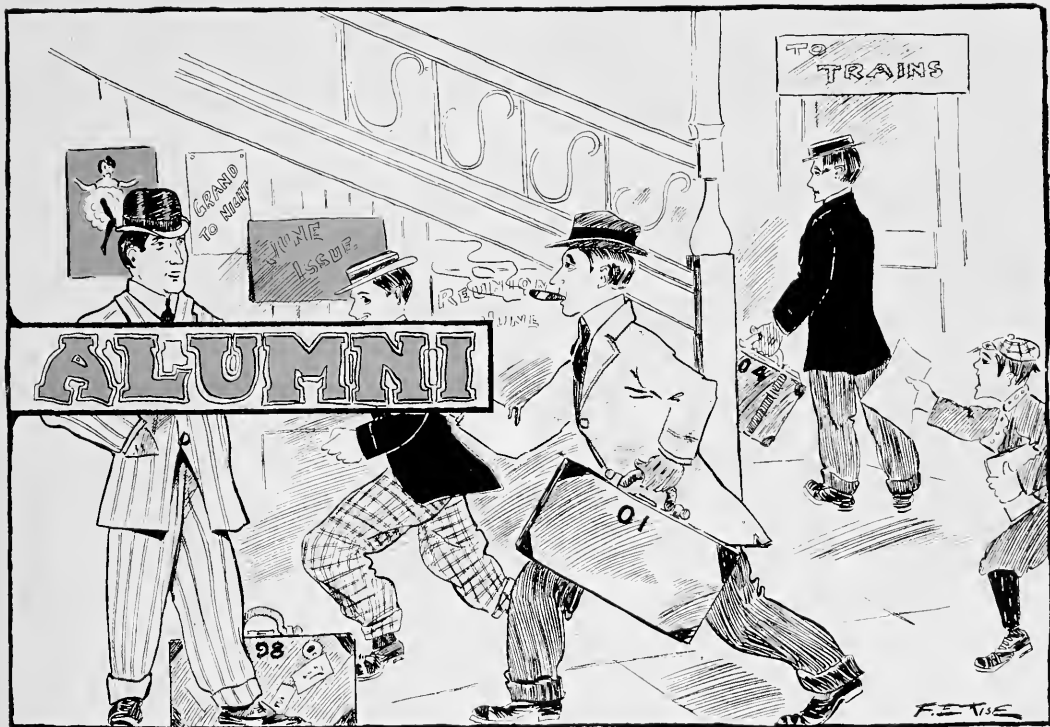

The instruction in all courses bears directly on the everyday life and affairs of the farm. Each course is arranged to meet the needs of a class of students who desire to give attention to a particular line of agriculture or home duties and the subjects most closely related thereto.

The instruction is given by means of text books, lectures, recitations and demonstrations, accompanied by actual practice in the various laboratories, the effort being made to impart useful and practical training in the subjects under consideration.

LATTA

THE PURDUE ALUMNI ASSOCIATION.

The general alumni association of Purdue University was organized in June, 1878, by John B. Harper, '75, Charles J. Bohrer, '76, Franklin P. Clark, '77, and William K. Eldridge, '77. Mr. Harper was elected president, Mr. Bohrer, vice-president, Mr. Eldridge, secretary, and Mr. Clark, treasurer. Each was elected unanimously to his respective office, receiving the entire vote of the other three members.

They proceeded to frame a constitution and by-laws and after the adoption of these, presented greetings to the four graduates of the class of '78, granting them "all the rights and privileges under the constitution," which rights and privileges were promptly accepted.

The meetings were first held at the homes of the various members, but in '81 commencement day was decided on as a permanent day and a room on the campus as the permanent place of meeting. The exercises were of a literary character, the members taking part; this, however, was later given up in favor of a lecture by some prominent person. The lectures were given until 1896, when they were abandoned in order to use the funds expended for them in alumni scholarships. The members subscribed five dollars each to start the fund. A special fund was raised in 1902 by Judge Vinton and nine other alumni, each subscribing ten dollars. The scholarships consist of one hundred dollars each and are loaned at interest to undergraduates, preferably Juniors and Seniors. The number of scholarships has increased from year to year, as the earlier ones are paid in. The scholarships have been of great benefit, for as they are merely loans on which interest is paid, a student need feel no embarrassment in receiving one.

In 1895 a committee was appointed to publish a history of the association. The committee had the cooperation of the officers of the University, the board of trustees paying for the printing and distribution. This was the first register of the alumni and was published in 1896. A second edition of the register was published in 1901 by the University and in 1906 the work of keeping an alumni roll up to date was given to the registrar, Professor A. M.

Kenyon, who was given an assistant for the purpose. The extra clerical assistance has enabled Professor Kenyon to compile an alumni register that is of inestimable value to the alumni, and for which they are very grateful. Professor Kenyon's assistant last year was Miss Ethel Spalding, '05, this year Miss Grace Barnes, '04.

The additional interest and generosity of the board of trustees has been two-fold in its results; benefits being derived therefrom both by the alumni and the University, showing that where interest is taken in the alumni, their response has been prompt and appreciative.

In 1896, it was suggested by Professor H. A. Huston, who was then president of the alumni association, that the classes hold reunions every five years. The suggestion has been carried out by many of the classes, and is successful in having many of the alumni return.

The alumni of Purdue are located in so many places, and these at such distances from Indiana, that the alumni association will naturally have small active membership in proportion to the number of alumni, but this does not indicate any lack of interest, for the number of members in local chapters is comparatively large. The members of these chapters have a very live interest in all Purdue matters as is attested by their enthusiastic meetings.

The efforts of the present Senior class to encourage and facilitate the adoption by the alumni of a Purdue graduates' ring are very commendable and heartily appreciated by all graduates. Their committee spared no efforts to obtain every possible design and collected some forty-one suggestions ranging from expert jewelers' conceptions to artistic designs original with students on the campus. Some full sized models in gold, silver and brass were submitted, but most designs were represented by enlarged colored sketches. The designs were placed upon exhibition in the Electrical Engineering building corridor for local inspection and the matter of deciding which should have the honor of being the "Purdue Ring" turned over to the general committee of the alumni association.

THE STUDENT COUNCIL.

The Student Council is an organization which is rapidly proving itself to be the fulfillment of a long felt want. Matters of importance concerning the student body are brought before the council for its consideration, thus the name "Student" Council. The idea in the minds of the originators of the Council has been well developed; that it shall be an organization composed of both faculty and student members, through which the student body shall have a definite voice in all matters pertaining directly to them.

The membership of the Council is as follows: The President of the Athletic Association, the Editor-in-Chief of the Exponent, the President and two representatives from each class and two members of the faculty. The president of the Senior class is, by virtue of his office, president of the Council, and the Council is subject to his call at all times. The Editor-in-Chief of the Exponent is, by virtue of his office, secretary.

The first meeting of the Council was held on March 21, 1897, and following this in the Spring of the same year it settled in a very satisfactory manner the controversy between the Commandant of Cadets and the University Band. Matters were at that time at such a crisis that, as the result of the enthusiasm created in the band by the Student Council it may be justly said, that the efficiency reached by the Purdue Band of 1908 stands as a monument

to the Student Council. The question of the Freshmen wearing green caps was also brought up for discussion, and after the matter had been well considered it was the sense of the Council that the plan was a good one.

The "Tank Scrap" is a matter which is annually brought before the Council and is one of the most important student activities coming up for its consideration, particularly so this year because of the danger of its being abolished on account of conditions beyond the control of the student body. It has always been the policy of the Council to take every precaution to keep it strictly a student affair and prevent it from assuming dangerous proportions as well as distorted publicity. This year the question came up regarding the taking of moving pictures of the "Tank Scrappers," but owing to the undesirable notoriety to be gained in that direction this matter was quickly voted down.

The Purdue students of the future should, as have those of the past, consider it a great honor to be elected by their classmates to represent them in the Student Council, and after election should endeavor to faithfully represent their classes. By this means the Council may always be as it is now, an organization through which the student body may have a voice in all student affairs of the University pertaining directly to them.

CHARLES PHILO MATTHEWS.

The death of Professor C. P. Matthews, of the School of Electrical Engineering, was a great loss: to the University, of one of its most able instructors; to the students, of a gifted teacher; to the alumni, a true friend and counselor.

Professor Matthews was born September 18, 1867, at Fort Covington, New York, and was at the time of his death, a little more than forty years of age.

He attended the St. Johnsbury Academy, at St. Johnsbury, Vermont, and was graduated there in 1887. He then entered Cornell University and completed the Electrical Engineering course in Sibley College in 1892.

Following his graduation he became instructor in Physics at Cornell, serving in that capacity until called to Purdue as Associate Professor of Electrical Engineering in 1896.

In 1905 he succeeded Prof. W. E. Goldsborough as the head of the school of Electrical Engineering, which position he held until his death, November 23, 1907.

Professor Matthews was a very successful teacher. He knew his work thoroughly; he understood what he was trying to help other men learn and he presented his work in a clear, concise, understandable manner. In addition to his ability he had in him a big patient heart, a personality which made him interesting, approachable and helpful. His fine sense of humor, insight into character, and faculty of narration are all well known to Purdue men.

Professor Matthews was a lover of scientific research and investigation, and he made many contributions to scientific knowledge. He was particularly interested in photometry and the subject of artificial illumination. His most notable work of this character was the investigations of the photometric value of the enclosed arc lamp; a series of investigations conducted under the auspices of the National Electric Light Association. This work extended over four years, and the report covers several hundred pages. In 1906 Cornell University conferred upon Professor Matthews the degree of Doctor of Philosophy in recognition of his valuable contributions to scientific and engineering literature.

To know Professor Matthews was to be his friend, and to have a friend, and while the men among the students and alumni who knew him feel their loss, they hold sacred the memory of him who gave the best he had, even himself.

1907 GALA WEEK.

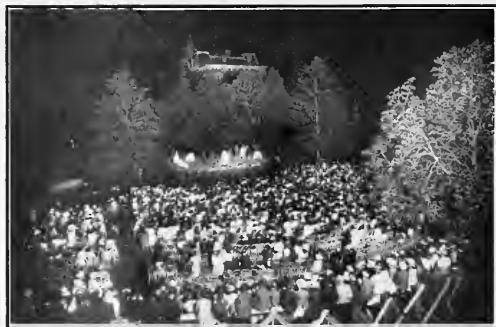

The spirit of gala week seemed to have invaded the very soul of every member of the '07 class last June and, with the co-operation of the local alumni, a gala week was planned which proved a grand success. Never before have alumni taken so great an interest at commencement time. The class of 1904 had its first reunion since graduation.

This class was noted for its enthusiasm during its college career, and even this year their class numerals suddenly appeared on the historic tank. The members paraded the campus and the '04 yell could be heard at all times. Several other classes were represented, but none so largely as the class of '04.

On Monday, June tenth, occurred the two performances of the Ben Greet Players. They presented the two Shakespearean plays, "As You Like It," and "Midsummer Night's Dream," the former in the afternoon, the latter at night. Both performances were given out of doors on a stage built by members of the '07 class, in among the trees south of the Physics building.

To persons having seen these artists it is needless to say that each entertainment was a great success. The "Midsummer Night's Dream" production was made most attractive by the effect of colored lighting arrangements, and the fairy element was so artistically portrayed that one almost felt himself suddenly transferred to the land of Titania and Oberon.

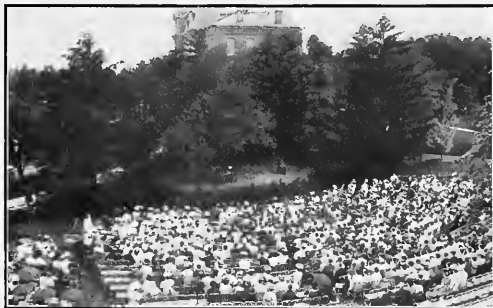

A novel feature of the week was a luncheon served on the campus on Tuesday. This was arranged by the graduating class. The tables were spread under the trees along the driveway, just west of Fowler Hall, and were decorated with class and college colors. Over six hundred luncheons were distributed to alumni and their friends. Groups of graduates representing their various

classes were seated on the grass in the shade of the trees, where they were served from the tables, and at intervals gave their yells. After the luncheon the "old

college bell" was brought out, and the boys of each class took turns giving the girls of their class a ride about the campus to the music of the old bell. George Ade, the popular playwright, of the class of '87, and Judge Vinton, '85, of Lafayette, showed that the genuine Purdue spirit still burned within them and only needed a little kindling in the form of the old chapel bell to cause it to burst into flame. At their hands the bell enjoyed a lively spin about the campus.

After this, prominent graduates were called upon for speeches. President Stone and Dr. Test also responded. The older graduates did not forget Pat Tracy, and he made a witty little speech. All speeches were made from the bell carriage as a platform.

During the afternoon a team composed of members of the faculty and one of Seniors clashed in a game of baseball on Stuart Field. Needless to say, the Seniors were easy victors.

In the evening the Seniors and Alumni were given a reception by the faculty in the Agricultural Building, after which occurred the Annual Senior Hop. This ended the week's gayety, a gala week long to be remembered by the class of 1907—by others, only until '08 comes to the front and hides all that has gone before.

THE JUNIOR PROM

AND
THE
BARRAN
DANCE

"Say! Mike! Have you heard about the barran dance?"
"Faith! Pat, and I have not. What is it; be it a huskin'-ho?"

"You poor spalpeen yare as ignorant as those Juniors about it."

"The barran dance is an extra wot they dance only at awfully swell society functions. Everybody gets on the floor at wicket and dances a different dance. At wan ind they may be dancin' 'Captain Jenks,' or 'Michigan Gurruls,' and at the other the 'Highland Flung,' or 'Waltz Me Around again, Willy.' The Orchestra plays all the tunes it knows at wicket and all the's an' starts merry go round and sash shce like a bunch of lads going hum from sculd. Then the snare drum and sandpaper men play - tum like throwin' down fodder and the dance is over."

"Oh! yes, they had it at the Junior Prom. Yes, indade, and the Ghost Dance, too."

"Had the Comanches and the Sioux Indians beat a mile. Turned on those ilctric thermometers and what a swate looking crowd they ware. Poor gurruls, they looked most like dead. Just as white and ghostly save wan red spot on eithe cheek. How thotful of Nature to provide for such emergencies. Had it not been for this wan red spot I would have thot them ghosts me sile."

"Did you go to the Prom, Pat?"

"I started, but I couldn't get thru the lines. They had the greatest line of sentinels I ever saw, but I'm going next year— if they have wan thin."

son.

THE TANK SCRAP.

No institution of learning has a contest between its underclassmen that is so original, so distinctive and so indicative of good fellowship as our own Purdue. Beside it the cane rushes, flag rushes, tug-of-war, etc., seem as insignificant as real service to

our cadet days. See you Freshman with bulging eyes and mouth agape. This is his first stroll across the campus, and for the first time his eyes rest upon the tank standing there upon the hill awaiting the ladders and the point. Will we ever forget this experience, the preliminary engagements and the real scrap.

The mere mention of the name thrills the alumnus with a sense of delight and takes him in his thoughts back to his student days.

This year gave rise to the usual demonstrations, and the September air was ever and anon filled with that familiar cry, "Freshmen out." On the eventful Friday night the Freshmen took up a position about seven o'clock at the foot of the hill and threw up shall-

ow trenches about 10 feet apart, and behind these prepared to meet the charge of the Sophomores. The upperclassmen acted as marshals and kept the crowd, which began to assemble early and soon became impatient, off the field. About 2 o'clock, amidst

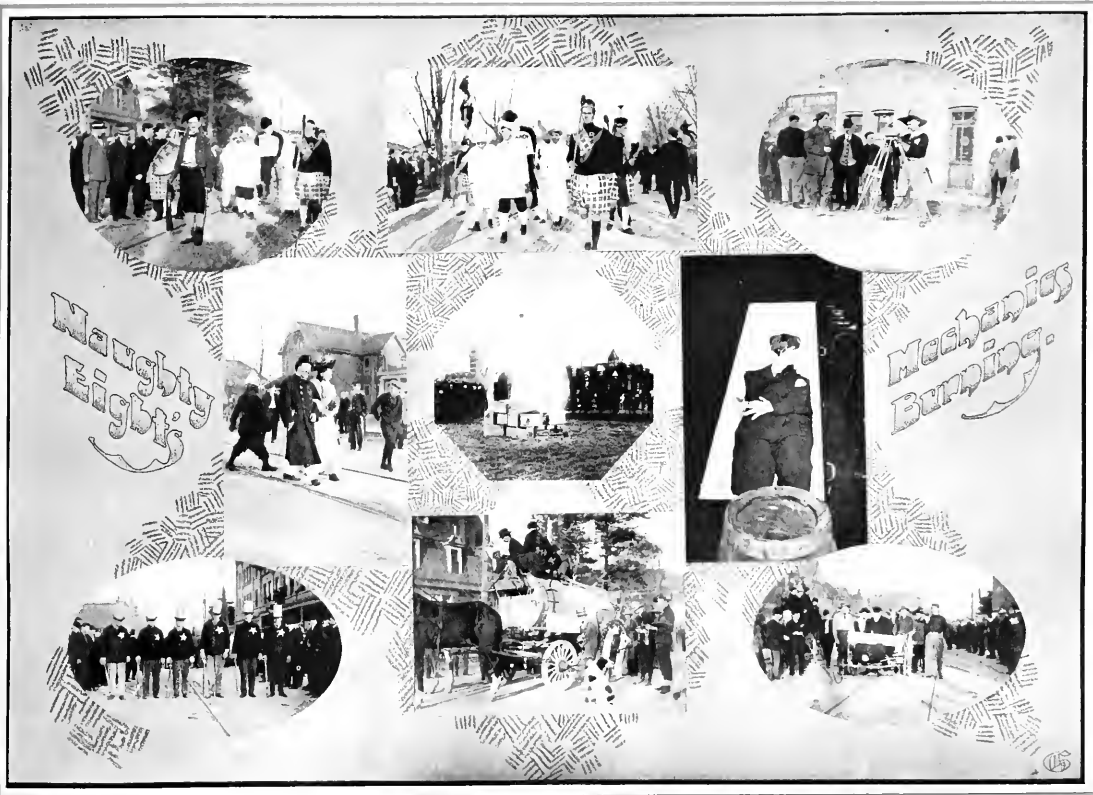

the firing of rockets and candles the Sophomores came upon the grounds. The air was rent with class yells, Purdue yells, the parting advice of the leaders thundered at their men and in another minute the charge was on. For fully twenty-five minutes the battle raged royally, and then it was perceptible

that '10 was gaining a decided advantage, and soon had all her opponents "tied up."

Daybreak saw about 300 Freshmen on the chain with the stains of the recent engagement still upon them and, closely guarded by their victors, they marched into the city to the court house square, where the customary services were held.

And '10 was on the Tank.

"I have been in some tight places in my life and never lost my nerve yet."—"Happy" McClure.

MECHANICS

BURNING.

OPENING REMARKS.

REV. WORSHAM.

Oh, dear! beloved, we are assembled here this afternoon for that last and solemn ceremony which marks the departure from this life of all men.

Henceforth we must come to-day prepared to perform these rites over one whom we do not love though we must respect him. Anyone who could cause so much toil and care among men demands respect as well as hate. Let us do our last duty to the departed and hope that he will receive his just punishment in the next world.

Our Scripture Lesson this morning is to be found in the Book of Flexure, Twenty-third Chapter and Thirtieth Verse.

And in the beginning there was no Mechanics and no man knew of Stress or Strain or of the Parallelogram of Forces or of Dynamics or of Torision.

Yea, no man knew that the tree blown by the wind broke in Flexure or that the avalanche upon the primeval mountains exerted the force of $G \sin \theta$.

And in those days were all men contented, and they studied not at all, hence were there none among them whom they could call "Flunk" and expel from among them, as is done in these days.

But it came to pass that divers of the depraved among them had thought upon many things, and they did make up theories, and they did devise formulas, some of which endure even unto this day.

And after many generations there arose one among them, who desiring that his name should appear in the Sunday Supplements, devised even more than all those who had preceded him.

And it came to pass he was compelled to wash himself in water and there not being room for him and the 120 in the same vessel at the same time it did run over and spill upon the floor, and his wrath was great, but he revengeth himself upon us to this day, for this is the Law of Displacement. G equals VY .

But when he declared without proof that he could move the earth, the Romans also him.

Therefore rejoice, oh ye students, otherwise might this book of Church Law be ten thicker, and surely would more of us have returned to the homes of our childhood.

And men did forget him and for many years did people rest from these doctrines, but the Evil Spirit of Mechanics walked again upon the face of the earth, and he caused an apple to descend upon the sky piece of one, Ikey Newton, and fell as they are doing upon our heads because F equals $\frac{1}{2} WV$ over G , and caused other laws and formulas.

And, dearly beloved, even to this day are these trouble makers and peace-bringers among us, busy with their designs.

Even among us is William Knodrick Hatt, the Concretite, who breaketh eggs of steel and concrete, and of steel and crusheth blocks of concrete and blocks, and he putteth his work abroad in the land, and we must learn therefrom, and on class days, and all who shall follow us. And there is no one else of all kind or of all rank, and upon these shall come the wrath of The Most High of the firmative, and he shall expel thee from the presence of the earth, and thou shalt be called "Flunk," and the mark shall be put upon thee, and thou shalt take thy suit case, and thy sweetheart's picture, and go out into the wilderness an outcast.

PROVISIONAL READING.

LED BY REV. DURR.

MIN.—Vanity of vanities, all is vanity. What profit hath a man of all the notes he taketh down in Jimmy's lectures when the formula worketh not as a stack 11,000 feet high for a fifty-horse-power plant.

CONG.—One generation passeth away and another generation cometh but the Lafayette street car system inviteth the cuss-words of all. Selah.

MIN.—All the rivers run into the sea, yet the sea is not full. Likewise the mind of the student; who receiveth the instruction of the scrub.

CONG.—Hear our voice, oh faculty, in our petition preserve our lives from the fear of the instructors and those who go about seeking whom they may flunk.

MIN.—Man as he existeth at Purdue is of few days and full of trouble. He cometh forth like a cauliflower, and weareth a green cap that shameth the several equinox in its glory. They doth he suffer from Mike and his ground-lines, but he receiveth his crippling load in shear and flexure.

CONG.—And he lieth down and riseth not up when the sun shineth in at his windows and his alarm-clock erupteth violently.

MIN.—At last he openeth his eyes and beholdeth the sun has well risen; with great fear and trembling lest the wrath of Mike befall him, should he be one minute late for his class, he stayeth not for food but hastens away with scanty raiment.

CONG.—Oh dear, good, kind, nice faculty, we beseech thee, protect us from those who seek our undoing.

MIN.—For there is Sackett, the Earthhamite, who comes crying from Room 106 Civil Building and preaching Bernoulli. "Hydraulics must you learn lest ye flunk."

CONG.—And his head was without hair and he rode to his classes in a whizz-wagon and his special meat was levee-lukers and athletes.

MIN.—And the ax is laid unto athletics at Purdue; therefore every athlete that cometh unto his class without rich knowledge of the flow of liquids shall be heaved down and cast into the fires of flunk tests.

CONG.—And Doc Hatt seeing the multitudes of flunks there he went up into his sanctuary and his sermons and flunkays came unto him. And he opened his mouth and taught them saying:—Blessed are the poor in spirit, for theirs is the grade of A.

MIN.—Blessed are they that bluff, for theirs is the grade of B. But cursed are they who shall flunk, for theirs is the curse of many flunk tests.

CONG.—And thus spake Doc Hatt, who walketh about over the campus seeking out those whom he may fire off the grass, even whilst the Civil youth run to and fro over the green.

MIN.—For is this not Doc Hatt, whose wise look shaketh the earth and maketh the pillars thereof to tremble?

CONG.—He is learned in the bending of steels and breaketh up rock in his government busting laboratory. Oh, faculty, deliver us.

MIN.—Yea is there Hancock come up out of the wilderness, clad in a gray suit of sack-cloth, and he raised up his voice and spake unto the multitude saying:—Ye scholars equals. ET P squared over L squared.

CONG.—And verily we know not whereof he spake.

MIN.—And among the ranks of the wise men was Pinhead Smith, the lone column, who hath departed this life, broken in torsion.

CONG.—Be joyful, oh ye students.

*Some
Snapshots*

at

*the Mechanics
Burning.*

CS

MECHANICS BURNING—(Continued).

MIN.—Why boastest thyself in thy mischief, oh student for the good-
ness of Lady endureth forever.

CONG.—Though the hairs of his head be numbered, even as the chalcide
athletes.

MIN.—Tom Eyre uttereth vain knowledge and filleth his belly with the
east wind.

CONG.—Good faculty deliver us.

MIN.—This is thine Laurentine, the prismatic beam, whose contour com-
peth our conception of the equilibrium polygon.

ALL.—These and all others, oh faculty, we consign to the consuming
embers of the eternal fires. AMEN.

* * *

FUNERAL ORATION.

REV LOWRY

Behold! Fellow sufferers! Bereaved ones! The occasion for this gathering
is indeed sad one. The saddest of all life's tragedies has been enacted in our
midst today, our hearts burdened with thoughts of the past are anxiously
gathering about this bier. The services this afternoon will be rather for the
heart than for the head as we seek to comfort and console the bereaved. Jammers
will have to pass through the valley and shadow, and it is our desire also to
lead up the wounds of those of our own number who are still "Waiting at the
Crossing."

The incident shows that the deceased, while investigating the phenomena
of steel flow, contracted a severe case of typhosis and that in the last stages
of the disease he suffered a cerebral paralysis and a great loss of heat.

In a moment of inertia under the residence of fluids, the deceased, while
investigating the free fall of bodies, described a catenary out of the second story
and fell in a south room of the Mechanical Building. His rigid body was picked
up shortly after and as he expired they noticed his eye beam as he exclaimed,
"Final part wrong, low factor of safety, tell Kendrick!"

The subject of the eulogy was a visitation of an unseen power, accidental
death. What would some universities do without accidents.

In order to explicate matters, I shall restrict myself to a categorical state-
ment of facts, unembellished with obstructive accumulation of metaphor and
poetry. Your beloved professor is dead again. He has kicked the bucket, he
is gone to the Sun, he has thrown up the sponge, death has scooped him. It
is sad that he has done more to keep young men in college than any man of
his age. How well we remember that fabled September day when we first met
the deceased. What pain stirred our hearts as we were introduced by Jacques-
Michele to all you here present. Friends? What a world of expression in
the word. What a world of misery, what helpless and restless nights
of sleep.

His close friendship warmed and we crept closer to our beloved instructor
we found one after another "people transferred," due to some nonconformity
with the University rules one after another carried out on a slitter and sadly
removed to the charge of his father's front yard. Then came those old like words,
"I am so glad that you are as good as my toes pass over him and he is gone,
and after that I shall find him no more."

SECOND SCRIPTURE LESSON.

From the Last Chapter of Cambria.

REV. WAGNER.

And I came near unto the sacred city. Behold it was night and I looked
across the river and there were lights in the houses upon the high hills. And
the lights shone from the windows of the students who were studying in the
lamps in their chambers and then depart early for the city, the vaudeville and
the iniquities that there abide. And when I sought to draw closer to the sacred
place I looked about me for the chariots that run with fire across the levee.
But it being past the eleventh hour there were none.

And I set out afoot and came abreast three travelers who were returning
heavy laden. Senior, Sophomore and Freshman were they, and they had received
the bite of the serpent and the sting of the adder, yet were they glad and
sang songs of joy.

And I toiled up the high hill which is the approach to the city of learning,
passing in turn the money-changers and Father Towseley's. Then as I drew nigh
to an open space I turned in and beheld there were temples. And there brake
unto my ken the Civil building which exciteeth sharp pains in the eye. And the
temples were dark. But a light gleamed from the portal wherein sitteth Jupiter
upon his green carpet.

And I crept in and beheld the Supreme Presence sat upon a throne.
And to look upon he was like a jasper and a sardine stone, and there was a
rainbow round about the throne, in sight like unto an emerald. And about the
throne were many seats and upon these were elders sitting. And part were
clothed in glad raiment bearing the earmarks of Gavan the tailor. And these
were the grafters who hold up the students. And in the back seats were the
working members of the faculty, attired in store-clothes. And these are beloved
by the students but they dare not raise their voice in faculty meetings lest to-
them be accorded the grand bounce.

Out of the throne there proceeded lightnings and thunder and voices.
And Steam-engine Young said unto him that sat next, "Is Doc Stone about to
have a fit?" And when the brain-storm of the Presence had subsided, there arose
in his place among the elders Hatt the Concrete. And he opened his mouth
and spoke, saying, "Behold I am the alpha and the omicron theta, the beginning
and end." And he uttered himself as of fine brass, which he was, and his
voice was as the sound of many waters falling over a weir.

And having taken these measures he began to speak, and those that
had heard him in Convocation before, prepared to sleep in their chairs, for his
speech raseth as a sledge that is drawn over unsmooth ground, and he spattereth
and closeth his eyes and walketh about as the Commandant in military lectures.
And he told the assembled bunch of stiffnecks how his own pride had been
humbled and how the unthinking youth had arrived at a sense of his emptiness
and had accordingly laughed and belittled and ridiculed in cups and
quillots and that his heart was sad within him. "Let us jerk up this motley
aggregation of Seniors who dwell not in the light of understanding of the greatness
of Hatt, the Concrete, and all his works. The greatness of the faculty has been
shown in the abolition of the Tank-scrap. Let us likewise rob the youth of all
their diversions and dearest pleasures, for great is the dignity of the faculty
and the greatest of these is Hatt, which is of fine brass" (which he was.) And
it came unto a vote, and the grafters and the fossils and the mosquitoes arrayed
themselves upon the one hand against the working members of the faculty who
stood, in store-clothes, upon the other. But the voices of the working members
were not heard, being comparatively few, and those who fell in with the
Concrete and feared for their own undoing at the merciless hands of the bar-
barous students, carried the day.

And Doc Hatt chuckled a very great chuckle and the pillars of the
earth shook at the great man's laughter. Amen.

THE FAIR COED

A College Musical Play in Three Acts.
 Book and Lyrics by George Ade, '87.
 Music by L. H. Lipinsky, '08; George Ade Davis, '06, and
 H. A. Lipinsky, '11.

Staff.

D. A. Reel..... Manager
 A. B. Wagner..... Asst. Manager

 Sallie Wheeler, pop-eyed and lisping..... H. E. Bates
 Elsie Pippin, "her father owns all of Terre Haute"..... F. E. Kise

the Purdue military, etc.

Tom Teeter— Understudy for Garman, the bluffer."

"THE FAIR CO-ED."

The scenes are laid on the Purdue campus and the time is set two years ahead of the present. The first act opens in front of the "aerial navigation laboratory" and as the curtain rises the big clock is heard chiming the hour. Students are seen passing to their classes and a little campus comedy is enacted before the old grad. ("Wellington Reed, took my degree in '78," sir) makes his appearance in search of his ward, Cynthia Bright, the daughter of his old classmate. The old fellow is first mistaken for a new student. "Since they started those new courses in agriculture we have students here almost eighty years of age!" is the apology and then the boys point out the sights to him. "Do you see that large pink airship just going over the main building? That's Doctor Stone on his way to Indianapolis to pick up another medical college. Next year we are going to annex the reform school at Plainfield." Reed announces he is down to attend the dedication of the new gymnasium. "Thirty years ago we petitioned the faculty for a gymnasium. They promised immediate action." "Aw we don't need a gymnasium anyway," interposes Bob Chester, the one eligible athlete in Purdue. "What we need is a hospital for students that have been walked on by the faculty." From the conversation of the boys and especially Davy Dickerson, ("just the average sort of a regular kind of a college man") the old graduate learns that the daughter of his classmate is the last of her sex in Purdue and is the worshipped idol of the four thousand students.

The villain enters in the fossilized person of Professor Cadwallader. "Sir, I am the most important member of the faculty. It is my duty to look after those who are ineligible. Therefore practically the entire student body is under my control." To Davy he announces that in order to graduate he has work in seventeen "illnesses and 'ologies to make up." As Cadwallader withdraws an underclassman admirer, Squab Dingle, rushes up. "Davy! They're after you. The army! Got orders to arrest you and bring you in." Davy goes off with Reed. Flourish. Martial music and the Purdue Military, in imposing array, draws up, singing:

"We are a band of warriors bold,
Who work whenever we are told.
We love to wear this uniform;
When summer comes it's nice and warm.
We love to monkey with a gun,
We love to drill—it's lots of fun.
With heads upright and faces bright
We march and shoot and cut and fight!"

"Halt. Attention! Sergeant, take two of your most determined men, apprehend and arrest Private Dickerson. Bring him here at once, dead or alive!"

"Ah, they are bringing the criminal. Private Dickerson has been a traitor to the flag. He has refused to drill. Orders from the Commandant." Soldiers remove hats and bow heads. Reading, "In the case of Private Dickerson it is ordered that until he performs 180 hours of military drill in which he is delinquent he cannot become a candidate for any faculty degree."

Reed enters asounded at the scene. "What is the meaning of this?" "Farewell old friend. I am to be shot at sunrise." The unfortunate wretch is led off to start on his drills with a march to Battle Ground.

Cynthia Bright, the Fair Co-ed, is hailed by all the boys as she comes in with her guardian, Wellington Reed, '78. He announces the news he has brought to his ward, that in her father's will he has been named as the man to marry his only daughter. "I choose a man who had taken his degree at Purdue. The elect on all of the candidates for the lady's hand is remarkable. The pompous Captain Peacock yells at his soldiers with renewed spirit. Grub, the scholarship star, reminds her that he intends to take two degrees in June, hoping for an advance. Fred Carrington, the bright social light, approaches Cynthia confidently and puts his arm around her while he calls attention to his social position. "I can take my pick of any girl in Kokomo." Finally dismissing the last of her suitors Cynthia

crosses the stage to where Davy is seated disconsolate. "One who had taken his degree—his—ha—a joke!" "Why don't you stay and take your degree?" Cynthia, do you know how I stand with that frozen-faced aggregation known as the faculty?" "But if you really tried—" "I'm going—I have work to do." "I'm going to make up two hours of military drill and wipe out fourteen conditions." Exit a la—"Makes me or makes me quite!"

To her guardian who now appears Cynthia announces that she is not going to the great military ball held on the event of dedicating the new gymnasium. "I'll be there, and yet I won't be there. Forty Seniors have proposed to me. I want to find out what they think of me when I'm not around and when other girls are around. So I go home today and tomorrow my cousin Jimmy appears at the reception." Protesting, her guardian finally promises to stand by her. Exit.

Some of the candidates appear. Carrington rushes on with a telegram. "Mrs. Trotwood can't come! Girls coming from all over the state—ladies—and Mrs. Trotwood of Muncie promised to come and act as chaperon. What will those girls say?" Grubb proposes, "But surely we can find an elderly respectable lady." "A chaperone must be something else. An idiot." (as Squab Dingle comes down to join them)—You are Mrs. Trotwood of Muncie! What? Your Angelina is coming all the way from Crawfordsville. You are an underclassman and you take orders from us!" Professor Cadwallader is meanwhile seen approaching with a suitcase "Gentlemen, I regret to announce that one of our most beloved Seniors is compelled to leave us for a few days. I am taking her suit case to the station." "Well, I have always maintained that the faculty gets on to a thing after everybody else knows about it."

The curtain rises on the big military ball in the second act. Couples dancing. Beautiful gowns and gorgeous uniforms. Davy Dickerson is seated at side studying a book. The girls are excited. "Oh, we must have a chaperone." Mrs. Trotwood's train was late. She'll be here all right!" "Ah, Mrs. Trotwood is coming. You'll like her—she comes from one of the oldest families in Muncie." Squab enters attired as nice old lady. "Ah, Mrs. Trotwood gives him side kicks. Be careful what you do." "I'll do as I damn please. I'm running this show. Young ladies I am delighted to meet you. ("Kisses Angelina.") Prof. Cadwallader finally appears and escorts "Mrs. Trotwood" off. The Co-ed makes her appearance as Billy Bright, her own cousin, introduced by the old grad as his nephew, "who intends entering I. U. next fall." Billy Bright proves a winner in his ways with the girls. In an hour all the boys are planning revenge on the sub-freshman who has flirted with every girl and talked back to every Senior. Cadwallader rushes in horrified. "Who is Mrs. Trotwood?" "Mrs. Trotwood of Muncie! Lovely old lady. Breadwinner of the W. C. T. U." She got me into a corner just now and told me a story I would not repeat to Doc, Bond, and then she asked me for a cigarette." The impudent Billy Bright must go under the pump, it succeeded, but Davy has discovered Cynthia's identity and manages to effect her escape by turning out the light just as the crowd makes a dash for her.

Class day is the setting for the third act. Camps fence and college buildings are shown. The foreground is made up of students and feminine visitors in summery garb. To a drum beat the weary foot-steps of a dusty figure are heard. Davy. "At last I've made up those 180 hours of drill and I've been through forty-two exams." "It's up to the faculty. They are now holding high court over my case." Prof. Cadwallader. "The faculty have passed you in everything except astronomy but the committee has decided that one question given you should not have been asked." "I didn't see any that should have been asked." "The question covered a point on which authorities differ. I may say that in your answer you did not agree with any of the authorities. We have substituted another question." "Somebody some-body will organize a university without any faculty and it will be a howling success." "Here is the question. What star of the first magnitude was discovered by Prof. Richter in 1885." Hands him pad of paper. "That's funny, we were just talking about stars. How can I give the name of a star I never heard of, never dreamed of?" "Scrutinize the pad." Prof. Cowd. I congratulate you. You have given the correct answer, the name of the star is Cynthia." Hurrah. Finale.

1908 GALA WEEK PROGRAM.

Saturday, June 6—University Circus Day.

University Circus 2:30 p. m.

Sunday, June 7—Baccalaureate Day.

Baccalaureate Sermon 3 p. m.
Address by Right Rev. Charles P. Anderson, D.D., Bishop of Chicago
Vesper Services 6 p. m.

Monday, June 8—Dramatic Day.

Donald Robertson Players

"Triumph of Youth," by Paelleron 2:30 p. m.
"A Plot on the 'Scutcheon,'" by Browning 8.00 p. m.

Tuesday, June 9—Reunion Day.

General Alumni Association Meeting 11.00 a. m.
Campus Lunch with music by band 12.00 noon
Band Concert 2.00 p. m.
Varsity Baseball Game 3 p. m.
Faculty Reception 7.00 to 9.00 p. m.
Senior Hop 9.00 to

Wednesday, June 10—Commencement Day.

Commencement Exercises 9:30 p. m.
Address by Harvey W. Wiley, Ph.D., LL.D.
Senior Banquet 8:30 p. m.

CONVOCATIONS.

Modest, imposing, beautiful, Eliza Fowler Hall stands a fitting monument to the love and beneficence of one of America's mothers and her son. No building on the campus possesses such an individuality and has so many pleasant memories attached to it. From the opening day when the Freshman from the gallery listens for the first time to the peals of the organ and the President's words of advice, to the closing ceremonies at graduation, the chapel is an

THE SENIOR CLASS.

"Then we dipped in all
That treats of whatsoever is: the State,
The total chronicles of man, the mind,
The morals, something of the frame; the rock,
The star, the bird, the fish, the shell, the flower,
Electric, chemie laws, and all the rest;
And whatsoever can be taught and known:
Till, like three horses that have broken fence
And glutted all night long breast-deep in corn,
We issued gorged with knowledge."

"The Princess"—Tennyson.

HISTORY OF THE SENIOR CLASS.

In the Fall of 1904, 461 strong, we began our existence as a class under circumstances without a parallel. The fateful wreck of the previous year had so depleted the eligible Varsity football material, that the existence of a championship team depended entirely upon the Freshman contribution; the Conference "Freshman Ruling" not then being effective. The record of that team speaks for the quality of our contribution and so thoroughly did the idea of "all for the Varsity" early become a part of us that every call on us for Varsity men has found a hearty response. We point with pride to sixteen of the men who will graduate with '08, wearers of the "P" and of this number five have been chosen to serve as captain of their respective teams.

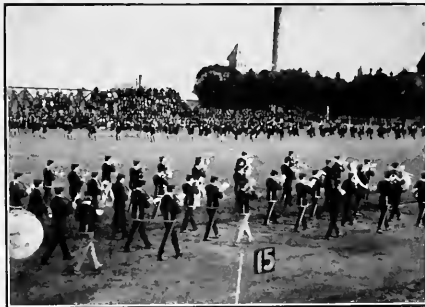

While our "Tank Scrap" efforts were not attended with such victories as we desired the memories of those days are not such as to make us regret that we were among the last who fought around the old tank. But it is with reference to the carrying out of some of the more spectacular customs that we wish to speak. Not being content to rely for success upon demonstrations alone, it has been the part of '08 to so change the Junior Prom and Mechanics Burning as to make them features of college life which will endure because of their excellence. The methods of decoration and the varieties of illumination given in the former have never been surpassed while the resourcefulness and ingenuity displayed in devising grotesque

costumes and unique stunts for the parade and the impressive and appropriate ritual, given in observing the last sad rites of "Mc Annix" will make it a custom which will hereafter serve as a means of displaying originality in the spectacular and ridiculous rather than the ironical.

Neither have the members of the class been slow in recognizing the needs of the University and providing for the same. That such intense interest has been aroused among the alumni and that they have been so successful in selecting a Purdue Ring has been due solely to the untiring efforts of certain men of the class. The Press Club and Student Council have been perfected and made permanent organizations under the directions of our Seniors, while entire credit is due them for the organization of the strong new debating societies and for the adoption of the distinctive green caps by the Freshmen.

Much of our history must remain unwritten in this brief article because we are not permitted to look into the future. For this reason we may only say that every effort will be made to provide a Gala Week which will be up to the high standard heretofore achieved in those programs given by our class and that we as a class leave our money and most ardent support to the erection of the new Gymnasium which will be built as a fitting memorial to the loyalty of Purdue men

Class Statistics.

(This data was compiled from blanks filled in by each member of the 1908 Class.)

Observe the man of 1908! How noble in reason! how infinite in faculties! in action, how like an angel! in apprehension how like a god!

"As the result of a long series of observations carried out under ideal conditions and with close scrutiny of the errors involved, the chances are—" (to quote Enzy Smith's prelude to the statement of a physical fact) that the average blossom of the blooming flower of chivalry, to wit, the present Senior Class, will approach the heretofore described limit.

His sixty ounces of cephalic contents he proudly rears at a mean elevation of 5 feet 9.147572 inches. At his footsteps this sturdy mundane sphere rattles, while its intonation undergoes a libratory increment resulting from the impact of 157.28572 pounds of brawn and muscle.

22,52258 times have winter snows and summer rains beaten upon that chuck whose stubby crop falls under a Gillette each Sunday morning and Convocation hour. His eyes are of honest bluish-brownish-gray and his hair-stuff equipment shades from tow to raven, with here and there a mite dash of gray.

By actual count he chews gum with three times the avidity he would misnomer Star pling. He drinks sparingly—of water—preferring to substitute for the bacteria laden ripples of the Wabash, Higgins' milk, cocoa, or the well-known student supplies of the T. W. Co. According to the data at hand he will not swear, but when strongly provoked in any utter a polite "Gee whizz," or, on occasion, the even less genteel "pression."

One hundred and five dainty, petite brunettes willing to share a toilet with a dozen's beauties per hour will hear something to their advantage by applying at this office. There is also opportunity for a young man, of a blue-eyed blondness, in choice sizes from short and boy to him and apply, to make their own selections from a fine lot of engineers. Ladies of indifferent age, color or previous condition of character will probably please the large number of the rest of the class who did not indicate preferences. Some answered the

question—"Your favorite style of beauty?"—as preferring "Albino," "Oriental," "Gibson," "135 pounds stripped" and "Natural-finish."

The 1908 man's admiration for the Roosevelt idea is attested by the size of his ideal family, viz: 7.1643271. The general average was reduced by the misogynous individuals who assumed a power factor of unity, while several put down the numbers 3 and 4, adding a parenthetical note that these were to be wives. But assuming that only a negligible per cent. of the 1908 men do become Pittsburg captains of industry, the remaining entrepreneurs promise, running single-phase, to achieve a rate of production of 5.1643271. This is perhaps more easily said than done. The marginal utility of the .1643271 member of the family is of course not to be applied in any single case, so that these results are "only theoretically true" as "Sammy Jim" Jones would observe after dictating three pages of math on the strength of field inside a solid iron sphere.

Mr. Bryan may yet have to fulfill his promise as regards future visits to Purdue; in answer to the question, of the Class only 42 avow the leadership of the peerless Nebraskan, while 137 hail the G. O. P. Independents and those expressing no party number 41. Other political curiosities are 18 Prohibitionists, 5 Socialists, 1 Progressista, 1 Nacionalista, 1 "King Edward booster" and 1 "Heating and Ventilating."

Favorite authors are various. The literary taste of the Class extends from the bard of Avon, Burns, Poe, T. P. Church, Mark Twain, Kent, George Ade, Vandyke and Abe Martin clear down to G. A. Young, Hoyle, Fuzzy Smith, Nick Carter, Ferry and Elinor Glynn.

Passing from collectives to personalities it is interesting to record the ambitions and achievements of the various members of the class and to note the comparative records made by prominent persons during the four years of our observations. The candidates for the honors as given on the Senior information blanks were almost as numerous as the voters, but there is room here to record only the history of those whose careers were the most brilliant.

Several voters with a rich sense of humor named "Sunny Jim" as the most handsome man in the faculty, but the count showed a clear winning for Beckett, with the shining bald-spot of Ludy a distanced second in the background. The blight of the "fatal

SOME SENIOR STATISTICS—(Continued).

course" among the Seniors was divided between Fortune and Garvin. Bogarte, McChesney and Clark received honorable mention.

"Daddy" Cole led in the race for "best good fellow" professor. The also-rans were Miss Shoemaker, G. A. Young, Esterline and Brenneman. Senior honors were divided between "Duke" Wellinghoff and "Schlitz" Berkheiser. The telephone men all stood pat in awarding Bessey Smith the good-fellowship and unanimously writ him large in the places of "best-natured," "most popular," "conscientious," "honest" and hardest-working prof.

Mike's recent record gave him the largest "crank" radius, though "Gloomy Gus" showed up well in the length of his face. Honors of eccentricity were conferred upon the department candidates—Schultz, Gaddis, Young and Underwood.

The Civils' machine politics resulted in W. K. Hatt getting the unanimous vote for the most concited, and Garman for the biggest bluffer, despite the efforts of the friends of Tom Eyre. A careful polling of the votes showed Russ Fortune to lead all Seniors for self-esteem, seconded by W. D. Stout. "Crow" Palmer's highest notch as successful bluffer had second place tied by the diminutive electrical favorites, Miller and Twomey. Nick Prakken came in strong for the most versatile liar, though Benbow and Leber showed excellent style.

The feather of popularity was carried off by Babcock of the Seniors, and G. A. Young, Brenneman, Esterline, "Bridge" Smith and Jamison of the faculty. At the antipodes Segur and "Gloomy Gus" were consigned to dwell. Wade, Arnold and Latta showed the best church attendance record, while "Sunny Jim" got the vote of every man who ever saw his ostrich gait clad in a Prince Albert disappearing down Salisbury street on a Sunday morning.

Hutchinson, the new pride of Jimmy's design room, made a great race for the distinction of neatest prof., but the old campaigners, Beckett, Lady, Moran and Schofield, got out the votes. Though some mistook Doc Hatt's egotistical smirk and Ferry's bantam strut for dignity, credit for the real Julius Caesar article was awarded to Dr. Moran. Among the Seniors, R. W. Levering's quiet '07 sense of superiority won him a similar place.

O. C. Klipsch's distinction came from his abstinence from clean collars but his little circle of engine-lab, serfs awarded him the profanity medal as well. Segur earned a place on the first count above mentioned among the Seniors, but Benbow was voted the most poetic handler of shady language who ever brought smiles to the faces of the Y. M. C. A. men.

The metallurgy class credited Middleton with making his small stock of knowledge go the furthest, but the electricals drew particular attention to the microscopy of "High Tension" Plumb's accretion of acumen in the first place. Atkinson came in for his full share of honors as the tightest man in the class, though Ritchie, Marsh and A. F. Berger were not entirely overlooked in the balloting.

"Purity" Immel deservedly got the heft of the vote for hardest working and most conscientious Senior although vox populi was unable to center on a faculty candidate.

For the distinctions of prettiest, most brilliant and laziest girl there were three niches and three goddesses to fill them. Recalling with some misgivings the exciting things that happened to Paris following his disposition of the golden apple among Venus, Minerva and Juno, this vote has remained uncounted and we are pleased to announce a three-sided draw between the Misses Caulkins, Crider and Knott for all honors.

The Seniors were slow to believe that any member had ever "ponied," but "Jonah" Fuhs was once known to patch a hole in his sock with a leaf from his Topping notebook and this was recorded against him. Perhaps the habit was acquired while watching Ferry demonstrate from memory (?) the working principles of Carnot's engine.

The few mavericks that strayed into the long-horned herd were discouraged in their earlier years by the systematic and persistent methods with which Sheridan asserted his claims and as a result Alexander Lemon was given full sway as the most unamiable brass-horned butter-in encountered in the days of our Class. He even eclipsed the record of "Alphabet" Browne who received such a plurality of votes as to indicate that he will have to increase his initials rapidly to keep pace with his growing ears.

Little excitement was noticed during the choice of the worst sponger and "Maud" Shiel stole all honors. Weber for worst scab and Gibson for greatest social light were equally uneventful.

Intense enthusiasm was aroused in response to the question: "What does the University need most?" The majority voted "A new president;" some expressed a longing for more co-eds and one long-suffering Civil wanted cuspidors placed in the classrooms.

Through an oversight, perhaps, not enough offices were created to let all Seniors into the graft, but as a consolation to those unmentioned, here it may be said that hardly any Senior escaped notice, but limited space prevents a more detailed report.

ACHATZ

ADAMS

AHRENS

AMMON

ANDERSON

ANDREWS

RAYMOND P. ACHATZ, Algona, Iowa. "Ackie"
"P. N."

B. S. in Electrical Engineering, T.B.L. Newman Club, Athletic Association (3) (4), A. I. E. E. (3) (4), Class Football (3) (4), won '08 (3).

Raymond is a quiet, conscientious fellow who really finds more interest in testing telephones than in "gollywink" Central. He was too modest to appear much in society at first, but was captured by the "Tau Betas" in their second round-up, and under their influence became quite social.

HOWARD G. ADAMS, 301 Prospect St., Ashtabula, O.
"Howdy."

B. S. in C. E., Ohi. Club (1) (2) (3) (4), Var-solence (3) (4), C. E. Society (2) (3) (4), A. A. (1) (3) (4).

"Howdy" is a native of the "Backeye" state and by the grace of God and much good luck will be with us next June. He has spent his summers building a sea wall for the Lake Shore & Michigan Southern, hence his ability as a concrete man. He hopes and confidently expects to become a railroad magnate in time.

WILLIAM AHRENS, Elberfeld, Ind. "John."

B. S. in E. E., Odd Fellows Club, A. I. E. E. (4), Athletic Association (1) (2) (3) (4), Second Lieutenant Cadet Corps (2).

"John" Ahrens might be said to resemble "Honest Abe," if the description as given of the latter gentleman is reliable. He not only has the height and grace of the aforesaid, but gives evidence of cultivating the same virtues, even to politics. John intends to be a telephone engineer when he leaves Purdue, and we see no reason why he shouldn't reach a high mark with little difficulty.

DEE W. AMMON, 908 W. Fifth St., Marion, Ind.

B. S. in E. E., A. I. E. E. (4), Band (1) (2).

Dee's ambition is to become a director of the Westinghouse Company. His only bad habit is that of taking very short steps—a habit acquired by excessive walking with the fair sex. During his first two years he had musical ambitions, prompted by his extreme modesty regarding military honors; but, after all, everybody who knew Dee liked him.

GUSTAVE E. ANDERSON, Wausa, Neb. "Swede."
"Andy."

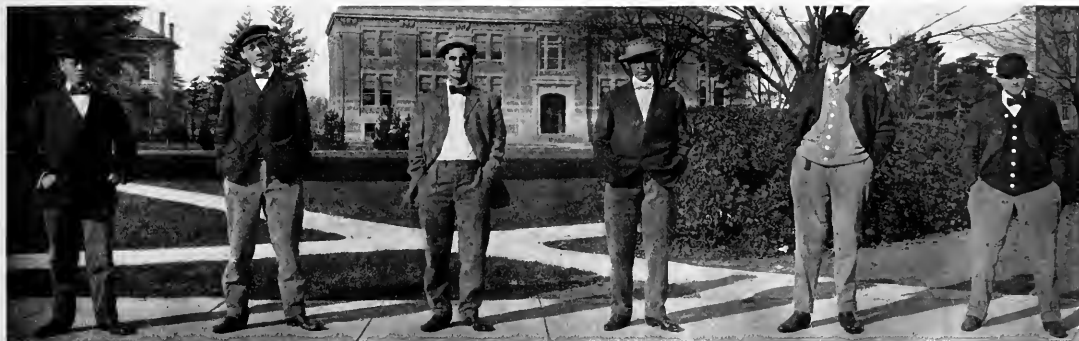

B. S. in E. E., Athletic Association (4), Mandolin Club (3) (4), A. I. E. E. (4).

This modest Swede has kept out of the lime-light, as far as notoriety is concerned, for these four long years; but there are few who have stuck so well with the friends they have made. There is said to be a pretty Swede anxiously awaiting the time when Andy will come back to Pittsburg to finish the apprentice course, and you can depend on it that "Andy" will clinch his reputation for making good.

CHARLES H. ANDREWS, Brazil, Ind. "Andy."
"Hank."

B. S. in E. E., Carlyle (3) (4), Secretary (3), President (4), A. A. (1) (3) (4), Class Football (1) (4), won '08 (1) (4).

Andy waded in from the coal fields of Brazil, Ind., with such a supply of coal dust in his system that he has been busy ever since distributing hot air about the campus. "The point is" that he's crazy about it," but nevertheless, Andy is one of the best liked fellows we know.

APOSTOL

APPENFELDER

ARNOLD

ARSUAGUA

ATKINSON

BARCOCK

SILVERIO APOSTOL, Iba, Zambales, P. I.

B. S. in Agriculture. Newman Club. Cosmopolitan Club (4). Chairman Board of Directors. Military Club (3) (4). Ag. Society (1) (3) (4). Second Lieutenant Cadet Corps (2). First Lieutenant and Captain (3). Lieutenant-Colonel (4). A. A. (3) (4).

"App" is another wide-awake Filipino who took readily to American ambition for honor and position, and consequently made good in a little of everything. He was one of the "high moguls" in the Cosmopolitan Club, having taken an active part in its organization and sharing in the office graft later. His future will be spent in experimental farming back in the tropics.

FREDERICK A. APPENFELDER, 821 Laurel Street, Cincinnati, Ohio. "Appie."

B. S. in E. E. A. I. E. E. (4). Robertson Club (1). A. A. (4).

"Appie" had a great faculty of minding his own business; hence, he never created much of a disturbance while in Purdue. He was often found walking the levee, but always in good company and his ready excuse was that his boarding house lay east of the river. When awfully vexed he was sometimes guilty of saying, "Gee Whiz"—this being the worst habit we can find chalked against him.

DON S. ARNOLD, 306 Michigan St. Valparaiso, Ind. "Don."

B. S. in E. E. Debating Society (1) (2) (3) (4). President Y. M. C. A. (4). Finance Committee (3). First Lieutenant Cadet Corps (3). Athletic Association (2) (3) (4).

"Don" is a quiet, progressive, square-dealing fellow, but nothing of a "dig." Ralph Stowe got hold of him in his Sophomore year and, recognizing a good thing, never let go. We know he can be depended on and are informed that it will be a "Wynn" in his case.

MIQUEL J. ARSUAGUA, 50 Coireo St., Tolosa Guipuzcoa, Spain. "Mike."

B. S. in M. E. M. E. Society (3) (4). Newman Club (4). Cosmopolitan Club (4), Vice President (4). A. A. (4).

"Mike" hails from Spain and although handicapped by his speech he has made friends with all those with whom he came in contact. He enjoys running, having acquired great ability in this line, setting pace for the "Plank Readers." His knowledge of math has enabled him to figure the curves of projectiles and thus elude the brickbats of the "Dirty Dozen."

GEORGE W. ATKINSON, Morocco, Ind. "John Ridd."

B. S. in E. E. TBH. A. I. E. E. (3) (4). Varsity Football (1) (2) (3). Class Football (3) (4), won '08 (3) (4). Athletic Board (4).

"John Ridd" was named after the hero of Lorna Doone because he couldn't help the resemblance. He was so conscientious and attentive in class that he became useful as a ready reference for looking up lesson assignments. He spent two years at football, and this exposed him to the Tau Betas who used him for their Press correspondent.

OLIVER M. BARCOCK, 806 Riverside Ave., Evansville, Ind. "Babby."

B. S. in M. E. '30. TBH. Wilbur Scholar. M. E. Society (3) (4). A. A. (3) (4). Varsity Baseball (2) (3) (4), won "P" (2) (3) (4). Chairman Student Council (4). Class President (4). Chairman Prom. Committee (3). Athletic Editor Debris.

Athlete, Class Man, Editor, Society Light. Orator and withal the best student and most popular man in his class. Purdue has rarely boasted of a more versatile or more capable man. "Babby" is directly responsible for the adoption of the green cap insignia for Freshmen and the growing influence of the student council on university affairs. His ability is unquestioned and should win him a high place in the world.

BAKER

BARBEE

BARKER

BARNES

BATES

BAUMGARDNER

ALEXANDER F. BAKER, 164 Water St., Evansville, Ind. "Bake"

B. S. in M. E. M. E. Society (3) (4). A. A. (4).

"Bake" is one of the Evansville river rats, has been with us only three years and we have been able to find out but little about him. He has given himself credit with a Ph.D., which can be interpreted only as meaning "Philosophical Dunce."

ISAAC H. BARBEE, Ripley, Tenn. "Colonel"

B. S. in M. E. M. E. Society (3) (4). A. A. (4).

"Colonel" debuted in our morning in the fall of '07. By the end of his September year he declared that he could live as cheap as one and set about to do it. "One year later we find him back at Old Pindin. He works well in double entries and has been in the Freshman drawing room at extra hours in order to provide for the two 'b's' that have fallen to his lot. He seems to be the 'Bopper' when he can get someone to listen to his talk on grain elevators and power transmission.

WILLIAM L. BARKER, Boonville, Ind. "Billey."

B. S. in Forestry. 48K Athletic Association (2)

"Billey" Barker came from Southern Indiana, where he must have acquired his snooty "don't care attitude" in his early youth. He is the prince of bluffers and after four years' association with Dean Conlter, ought to be competent to manage anything from a forest to a beer garden.

HAROLD L. BARNES, 106 Park St., Oshkosh, Wis. "Kid."

B. S. in C. E. 48K Press Club (3) (4). Wisconsin Club (4). President (4). C. L. Society (4). Team (3) (4). A. A. (1) (1). Issue Editor Exponent (3). Organization Editor Delris.

"The Kid" hopes and longs to be a Structural or Municipal Engineer, because he realizes, that a home-loving individual such as he is, must of a necessity follow a line of business that will keep him near his alimony. He expects to take the fatal step in the near future. Harold is a game bird and will bet on anything from four of a kind to a tobacco sack.

HARRY E. BATES, 117 Chauncey Ave., W Lafayette, Ind. "Tony."

B. S. in Mechanical Engineering. Harlem Club (1) (2) (3) (4). Mechanical Engineering Society (3) (4). Athletic Association (3) (4). Mandolin Club (3) (4). Won Numerical Class Baseball (1) (3).

"Tony" is a general favorite with the West Side High School girls and wears his front hair in a nice wavy bang. He plays ball with his class team and if he can slide into a good job as easily as he can to second base he has a successful future before him.

WALTER E. BAUMGARDNER, 119 Cherry St., Ellettsville, Ind. "Bum."

B. S. in C. E. C. E. Society (3) (4). Athletic Association (3) (4). Varsity Baseball Squad (2).

Another one of the good '08 men who served an apprenticeship with '07, "Bum" had aspirations to be a baseball player early in his career but soon lost his lurch and since then has put in his time trying to dole as much work as possible. He laid out after his Sophomore year to give the city of Ellettsville the services of a really good Municipal Engineer. This year he won a home with Enrage by explaining that very little was known about microscopic organisms.

BAXTER

BEAL

BENBOW

BENNETT

A. F. BERGER

W. C. BERGER

GEORGE S. BAXTER, 211 Cedar St., Auburn, Ind.

"Bax."

B. S. in Mechanical Engineering. ΘZ Mechanical Engineering Society (4).

This timid, wild-eyed, cotton-topped individual from, as he himself expresses it, "Auburn, Indiana, this state," has never been in love, but beware fair ones, lest you become infatuated with his charming personality. His marked ability to do a semester's work during the last week has saved him more than once from the "lucrative position" route. "Salubrious occasion" goes hand in hand with his prohibition politics in signing a liquor leverage, and he has said frequently that there is no fun in signing a liquor remonstrance if "a man can't holler and praise his achievements."

FRANK L. BEAL, 2430 Kenwood Ave., Indianapolis, Ind. "Meathead."

B. S. in C. E. TBL Cleofan (3) (4). C. E. Society (4). Athletic Association (3) (4).

The man who bluffs even himself came to us from Shortridge. His first appearance before the public was when he refused to be tagged by the Theta Xi. He is familiar with the wilds of Lafayette and early in his Freshman year he contracted the habit of levee biking and has been unable to break the habit. He celebrated his initiation into the Tau Betas by flunking Calculus under "Peter" Young and a rise in popularity with the ladies.

BURNIE L. BENBOW, 227 Jackson St., Anderson, Indiana. "Benny." "Eliza."

B. S. in E. E. A. I. E. E. (3) (4).

Everybody likes "Benny," even if he does hold the record for being the most artistic liar and the most versatile cussier in his class. He has never been known to become angry and his willingness to help others has gotten him in many tight places. His determination and perseverance are bound to bring success in the future.

ROBERT G. BENNETT, 105 Wetmore Ave., Kane, Pennsylvania. "Bob."

B. S. in Mechanical Engineering. Pennsylvania Club (1) (2) (3) (4), President (2) (3). Press Club (3) (4), Vice-President (4). M. E. Society (1) (2) (3) (4), Vice-President (3), President (4), Debating Society (2) (3) (4), President (3), Athletic Association (1) (3) (4), Engineering Review, Assistant Business Manager (3), Editor-in-Chief (4).

"Bob," as you can see by looking at the titles after his name, has been a very lousy person around the university. He has never been in love and never proposed. It seems strange that a person should reach his age and never be affected by the fair sex. He is going to follow in the footsteps of his English relative and become a great railroad man. He can't help this, however, as railroading comes natural to him.

ARTHUR F. BERGER, 618 Capitol Ave., Indianapolis, Ind. "Artie."

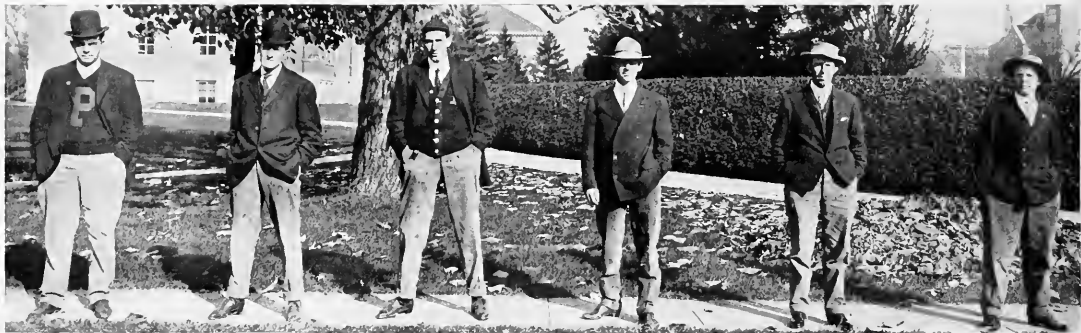

B. S. in Mechanical Engineering. Mechanical Engineering Society (3) (4).

We are all very thankful that "Artie" has been with us but three years. It is his opinion that what he does not know is not worth it, but those who know better are sure that it would make a good reference book. He professes to be head designer for an automobile company, but on good authority it has been learned that his part of the designing was in the tracing of it. He formerly wore his hair Chankers style, but since he won a home on a farm near Dayton, he has seen fit to spend a few quarters.

WALTER C. BERGER, 1407 Tennessee St., Michigan City, Ind.

B. S. in C. E. Tribe of Ben Hur (1) (2) (3) (4). Y. M. C. A. (1) (2) (3) (4). C. E. Society (4). A. A. (3) (4).

"Berg" comes from under the shadow of the prison walls at Michigan City, and has turned out fair considering the environment. We do not know whether he was ever an inmate or not, but as he has never done much but work and mudd his own business we will give him the benefit of the doubt and say no more about it.

BERKHEISER

JAMES M. BERKHEISER, Mexico, Ind. "Schlitz," "Berk."

B. S. in Electrical Engineering, Varsovievue Club, Varsity Football (1) (2) (3) (4), won "P" (3) (4); Captain (4), Color Guard Cadet Corps (2), Athletic Association (1) (3) (4).

"Schlitz" holds the record for being the best named man in his class. His greatest ability lies in making funny noises—being able to imitate to perfection anything from the bark of a dog to the roar of a lion. He spent four years in football, being captain in his Senior year. His love for fun and non-worrying ability have gained him many friends here.

BEST

RAYMOND B. BEST, 1727 E. Spring St., New Albany, Ind. "Red."

B. S. in Electrical Engineering, MTA, T.H. Athletic Association (4), Class Football, won "99" (2).

"Red" led from the banks of the Ohio, "Ass" in 1907 his early class at a game. He is remarkably fond of sleep, and his right-hand man is "Soak" "Red." His other diversions are cup catching and balling. Ray's firm jaw and bluff countenance give promise of a bright future.

BIRD

CHARLES A. BIRD, 1200 Delaware Ave., Wilmington, Del. "Pin."

B. S. in Mechanical Engineering, Φ30, ΩNE, Mechanical Engineering Society (4), Varsity Baseball, won "P" (3) (2) (3), Tennis Champion (4), A. A. (1) (2) (3) (4), Junior Prom, Committee (3), Class Insignia Board (4), Chairman Mechanics Turning Committee (4).

"Pin" Bird, six feet two inches of good fellow, sport, friend in need, some flunk and a lot of bluff, first distinguished himself by making the baseball team in his Freshman year. Although not the brightest man who ever graduated, he has a brilliant future, as anyone who can bluff and browbeat as well as he has done ought to score on the unsuspecting public. The firm of Bird and Worsham has come through to their own as well as everyone else's surprise.

BISSELL

BENJAMIN W. BISSELL, 343 Gold Street, Grand Rapids, Mich.

B. S. in Electrical Engineering, Michigan Club (2) (3) (4); President (3) (4); Treasurer (3) (4), Odd Fellows Club (4), President (4), Franklin Debating Society (4), Athletic Association (4).

Bissell went up into Michigan in Junior vacation and came back with a wife. However, he deserves credit for continuing his college education after joining the "Married Men's Club." He was the founder of the Thurlow I. O. O. F. Club and active in the organization of the Franklin Debating Society. Anything of splendid interest claimed the attention of this enterprising benefactor.

BISSETT

ARCHIE L. BISSETT, 820 Dearborn St., Caldwell, Idaho. "Hairy," "Beter."

B. S. in C. E., C. E. Society (2) (3) (4), Debating Society (3) (4).

"Archie" is a true product of the Sucker State, having spent the first few years of his life there and then taking to the wilds of Idaho, where he now claims his residence. The name of "Beter" of which he is very proud he acquired through his unbounded love and admiration for Archer Young. He came to us in our Sophomore year and has by his good, honest, hard-working methods eluded all lucrative situations. His resemblance to an admired Professor of Hydraulics has nothing to do with his remarkable ability in that subject, but we hope to see him soon as a leading Irrigation Engineer.

BLACK

WALTER A. BLACK, 16 Walnut Street, Greenfield, Ind. "Doc," "Squeak."

B. S. in Electrical Engineering, Minnet Club, Athletic Association (1) (3) (4).

"Squeak" and several other prominent men, Riley included, were born at Greenfield, Ind. His chief misfortune is his lack of self-reliance and security of hair. He has promised to marry as soon as he graduates and will then settle down at once and without doubt prove as successful as other of his townsmen.

BOERNER

ADOLPH H. BOERNER, 1213 E. Breckinridge St., Louisville, Ky.

B. S. in C. E. C. E. Society (3) (4), A. A. (3) (4). "Beener" is the close friend of "Bud" Burt, and for the last four years there has been very little devilmint going on with one that the other was not in as well. He has always maintained "Snoddyville" as his base and his room has been the scene of many gatherings for the purpose of study, etc. He tried dish-washing for a living in St. Louis last summer, but the life proved too strenuous and he came back to complete his education before taking a final fall out of the world.

M. BRUCE BOGARTE, 533 Main Street, Valparaiso, Ind. "Bog."

B. S. in Electrical Engineering. ΔΤΔ. Irving (2) (3) (4), Band (1) (2) (3), Secretary (3), Orchestra (1) (2) (3) (4), Exponent (4); Associate Editor, Athletic Association (2) (3).

Not because he can't, but because he won't, are the things this easy-going individual hasn't done. Not a bit lazy—just usually "disinclined." But what he does, he does a little bit better than the rest of us. He clips all the good jokes that appear in the Exponent, though, gentle reader, on this slender foundation alone his capability as a humorist does not rest. All of those paragraphs beginning "Day before yesterday—" in the news-of-the-morning (?) column, he read in The News the night before.

BOGARTE

BOHN

GERALD W. BOHN, 1121 W. Berry St., Ft. Wayne, Ind.

B. S. in Mechanical Engineering. BOH. Carlyle (1) (2), A. A. (3) (2) (4).

"Dare Devil Dick," as he has been known since his Freshman year, is a lad of sterling qualities and is possessed of a personality that wins him many friends. He believeth not in the folly of spending all of his time over books in the quest of knowledge, but none the less he has held his own as a student. His hobby is gas engines and we hope to see his inventions revolutionizing the trade before many decades.

OWEN M. BOOHER, Darlington, Ind.

B. S. in Electrical Engineering. Carlyle (3) (4), Exponent (3) (4), A. I. E. E. (4), Athletic Association (2) (3) (4).

Owen is from Darlington and his heart still remains there in spite of the efforts of some of his Lafayette friends to get it to this city. He was one of the original "Gold Dust Twins," the other being U. F. Harbolt, his inseparable companion, except in doing vaudevilles—a habit which Owen contracted while working on the Exponent and from which he never quite recovered.

BOOHER

BOOR

EVERETT B. BOOR, 502 W. Jackson St., Muncie, Ind.

B. S. in Electrical Engineering. Glee and Mandolin Club (4).

E. B. is a product of Muncie and early revealed his knowledge of city ways by wandering across the river and getting into society. Since his first attack he has found time for little else, except fusing and 'phoning. He has considerable (?) musical ability and in order to dispose of it properly, allied himself with the Mandolin and Glee Club in his Senior year.

EVERETON C. BROMMER, Colburn, Ind.

B. S. in Mechanical Engineering. M. E. Society (3) (4), A. A. (3) (4).

"Broomer" is a native of Colburn, one of Lafayette's numerous suburbs. His self-conceit has kept him from getting in right with the bunch and his friends think that his fondness for working overtime, which he developed in his Freshman year and has still retained, would fit him better as a soil-disturber than an engineer.

BROMMER

J. W. BROWNE

L. R. BROWN

R. S. BROWN

BRYANT

BUELL

BUNDY

JOHN W. BROWNE, Caruthers Court, Memphis, Tenn. "Brownie."

B. S. in C. E. C. E. Society (3) (4), Webster Debating Society (4), President (4), A. A. (2) (3) (4), Captain and Corps Adjutant (3), Baseball (1) (3) (4), won "T" (3); won Numeral (2).

John is a well-meaning individual, but has the happy faculty of getting in bad. His most famous exploits were eating a 24 meal on the Athletic Association and taking the Freshman's corridors.

LEVANT R. BROWN, 1217 Main St., Lafayette, Ind. "Bugs."

B. S. in C. E. P. A., I. R. I. L. Press Club (3) (4), Treasurer (4), Irving (3) (4), Labyrinth (4), A. A. (3), Tennis Club (1) (2), Exponent, Asst. Editor and Ref. (2); Issue Editor (3); Managing Editor (3) (4); Editor-in-Chief, Delong.

"Bugs" joined us after being scared out of Cornell. He distinguished himself in his Junior year by carrying a heavy schedule of two hours a week and making the Tau Betas. He is one of the ablest and the most prominent literary light in the class and hopes to have a newspaper all his own some day when he can print what he pleases. Best tea of half worth. The very best of Co. Lafayette product.

RAYMOND S. BROWN, 617 Franklin St., Columbus, Ind. "Brownie."

E. S. in Electrical Engineering, Athletic Association (4).

"Brownie" is a mathematical shark just for the fun of it; if there is anything he can't figure out in that line no one has discovered it. His most brilliant stunt was his adaptation of trigonometry to fancy angles on the billiard table. Since his early youth he has been bashful in the presence of ladies, but it is hoped that his Senior course at Griffith's Academy has done much toward removing this inconvenience.

PERCY J. BRYANT, 115 Chauncey Ave., W Lafayette, Ind. "Pete."

B. S. in Mechanical Engineering, First Lieutenant Battery (2); Captain (3), First Lieutenant Band (4), Glee and Mandolin Club (1) (2), Manager (2), Band (3) (4), Manager (4).

Girls, Attention! Here is a nice boy who wants to get married. His name is Percy and he don't drink, smoke or chew. This is positively the one best bet in the Purdue Matrimonial Market. Besides his nice, sweet disposition, his best bid for notice is that he beats the bass drum in the band, wears pretty shoulder straps on his uniform and tries earnestly to look like a man.

FRANK A. BUELL, 2052 Fourteenth St., Toledo, Ohio. "Cherry," "Shorty."

B. S. in Electrical Engineering, T. B. H. Varsovicque Club, Ohio Club (3) (4); Treasurer (3), Color Guard Cadet Corps (2), Athletic Association (3) (4).

"Shorty" hails from the city of Toledo. He has completed the four years' work in three and attracted the attention of the Tau Betas by the manner in which he did it. Being especially fond of exercise he takes great delight in levee drilling; especially when it is too late to catch a car. His favorite song is, "Don't You Tell I Told You," but his innocent look assures you that the injunction is unneeded.

ORA BUNDY, Carthage, Ind.

B. S. in C. E. C. E. Society (4), Purdue Military Club (2) (3) (4), Treasurer (4); Lieutenant (2); Captain (3); Major (4), won Numeral (2) (3) (4), Varsity Track Squad (1) (2), Assistant Athletic Editor '08 Debris.

Bundy is one of the busy men of the class and has been in on almost everything that has gone on in and about the University for the past four years, and when he climbs to the top of the ladder he can truthfully be called a self-made man.

BURT

HENRY J. BURT, 1062 Garden St., Louisville, Ky. "Bud."

B. S. in C. E. A. A. (4).
 "Bud" hails from the Bluegrass State, but also a lover of the thoroughbred he at one time so far forgot himself as to drive a meek and lowly cab horse across the levee. For three years he was one of the "Good-Burt Combination;" no one knew exactly which, but this year he has firmly established his identity with all but a few. After graduation he will make some firm happy by accepting a position in their engineering department.

ORESTEZ H. CALDWELL, 3421 N. Illinois St., Indianapolis, Ind. "Caldy."

B. S. in Electrical Engineering. TBEI. Irving (2) (3) (4). Treasurer (3); President (4). Exponent Staff (3) (4); Editor (4). Deleris Staff (4). Engineering Review Staff (3) (4). Press Club (3) (4). Executive Committee (4). A. I. E. E. (3) (4). Athletic Association (3) (4). Press Representative Harlequin Club (4).

"Caldy" spent his early days in the Blue Grass region of Kentucky, where he is still remembered as a sweet-faced lad with long curls and a little Lord Fauntleroy suit. At Purdue he took a hand in everything and did it well. With an exceptionally bright mind, a large stock of humor, combined with versatility in the use of Rhetoric, he is easily one of the most promising of '08's men.

CALDWELL

CALLAHAN

CHARLES CALLAHAN, 712 Columbia St., Lafayette, Ind. "Cal."

B. S. in C. E. C. E. Society (3) (4). A. A. (2) (3) (4).

"Cal" is another of the '07 bunch that laid out a year to get in with a good class and graduate in a better year. He is of a retiring nature and studious inclination, so much so indeed, that a year in the southwest among the Greeners did not dampen his ardour; altho it gave him a familiarity with the Spanish "cuss words" that endeared him to Madame Davies.

CAMERON

ADOLPHUS CAMERON, Rushville, Ind. "Dolph."

B. S. in C. E. C. E. Society (2) (4). A. A. (2) (3) (4).

"Dolph" is a member of the '08 class thru the kindness of Seastone, of honored memory, and since he has been with us has proved himself a good consistent student, and general good fellow. He is neither married or engaged and has no idea what line of his profession he will follow if his Senior statistic sheet is to be taken as gospel.

CAMPBELL

HENRY A. CAMPBELL, Sandborn, Ind. "Uucle Abe;" "Gorilla."

B. S. in C. E.; won Numeral (1) (2) (3) (4). A. A. (4). C. E. Society (4).

"Handsome Hank" says that his intended occupation is that of an honest farmer, but we all believe that he would do better and succeed marvelously as a cab driver. For a year or so he was one of the denizens of the Murdock Flat but in his Senior year he removed to the classic regions of "Crab Point" and has earned his daily bread by tapping the festive "Merlin." His motors and bent locomotion apparatus have caused him to be dubbed "Gorilla."

CARNINE

JAMES H. CARNINE, Dillsboro, Ind. "Slick."

B. S. in C. E. C. E. Society (2) (3) (4). Purdue Debating Society (4). Band (1) (2) (3). Class Football, won Numeral (4). Varsity Baseball Squad (3) (4).

"Slick" is another chronic denizen of "Snoddyville." If he had not played in the band he would have got out of drill some other way for he has never been known as one who bankered after fame. He is pretty much of an all-around man though dabbling a little in music, art and athletics, and doing them all pretty well. If he don't make an engineer he will do fine for a bandmaster.

CAULKINS

CHEESMAN

CHERRINGTON

C. CLARK

E. A. CLARK

P. L. CLARK

M. ELSIE CAULKINS, 702 Dodge St., W. Lafayette, Ind. "Dick."

B. S. in Science, FAJ, Philathean (1) (2) (3); Secretary and Critic (1), Delris Staff, Assistant Literary Editor.

"Dick" has the distinction of being the only roofer who has specialized in Domestic Science. During the past four years, though gaining little in stature, she has, under the careful guidance of Mrs. Barner and "Dumme" Hoffman, grown large in a knowledge which will stand her in good stead after she is launched out upon this great work-a-day world.

PAUL M. CHEESMAN, 2113 Seventh Ave., Altoona, Pa.

B. S. in M. I., M. E. Society (1) (2) (3) (4), Pennsylvania Club (1) (2) (3) (4), Cosmopolitan Club (1), A. A. (3) (4), Won Numerical in Football (1), (4).

"Chee" drifted in from the far east and quickly left his baggage by the wayside. Immediately on his arrival in this part of the country he started out to find a home. His success can be judged by his own calculations, 15 per cent of his time being spent at the southeast corner of Wood and Shertz streets. Yes, he can be found in his room when not at the foregoing place or at Parker Byers' (playing billiards).

FRANK W. CHERRINGTON, 1522 Blair Ave., Cincinnati, Ohio. "Cherry."

B. S. in C. E. BOLL, C. E. Society (4), A. A. (4).

"Cherry" is best known by his long pigeon-ted stride and his "handsome" eyes. For a while we were in doubt as to whether he would be with us on the all eventful day, but by a long, hard pull and a determination not to be downed, he showed what was in him and will make the finish. He has a big heart and his friends are as numerous as his acquaintances.

CLAUDE CLARK, Malone, N. Y.

B. S. in E. E. Athletic Association (4), Track Squad (1).

Claude decided that the noise and turmoil of New York City was not good for him, so he came to Purdue to improve his— health. He was even in the act of getting an education, when he fell in with his late partner, "Gus" Gates, who saved him from that disaster. Clark is a good student and the kind of a fellow who, if need be, will always share with you the proceeds of his last suit of clothes.

EARLE A. CLARK, Nowata, Oklahoma

B. S. in M. E. S. F. E. M. E. Society (3) (4), Cleofan (3) (4), Emersonian (2) (3) (4), First Lieutenant (2), A. A. (2) (3) (4), Student Treasurer (2), Board of Directors (3) (4), Gala Week Committee, Chairman (4).

"Earl" was born in Pennsylvania, reared in Indiana, and will live in Oklahoma and attempt to liquidate the Standard Oil Trust. Writes his roommate: "But for his great fault of 'fining' he would be an ideal roommate. However, that is excusable on the ground that his favorite study is human nature and his favorite style of heady-bramete."

PAUL L. CLARK, 220 South St., West Lafayette, Ind.

B. S. in Electrical Engineering, MN, Emersonian (3), Harlequin Club (1) (2) (3) (4), Band (1) (2) (3), Corporal (2), Orchestra (1) (2) (3) (4), Assistant Manager (2), President and Manager (3) (4), Varsity Track (1) (2) (3), Captain (3), won "P" (1) (2) (3), Class track, won "08" (1) (2) (3) (4), Class Insignia Board (2), Athletic Association (1) (2) (3) (4).

Paul began his college career at Illinois but soon jumped that institution to come to Purdue. His wit is as mumble as his feet, for which reason he is a twice good fellow. If his assurance is great, his magnanimity is even greater, assuring him a bright future.

CLEMENS

COALE

COUSINS

CRIDER

R. L. DAVIS

W. H. DAVIS

HARRY E. CLEMENS, 201 Chauncey Ave., W. Lafayette, Ind. "Jake."

B. S. in M. E. First Lieutenant, Field Battery (2).

Jake is a roller-skating fiend and spends most of his time at the Coliseum with a blonde unknown, who usually wears a blue dress. He started to play football in his senior year but decided it was too strenuous and went back to leading the simple life perched on a chair in Nisley's Pants Pressing Emporium.

GEORGE G. COALE, Richmond, Ind. "Pug," "King."

B. S. in Agriculture. "K.E."

"King" is a jolly, irresistible sort of a fellow, popular both with the students and with the ladies. He had much practical experience in his younger and more innocent days and will likely make a prosperous and contented farmer. This spring he has been adding to his fame and publicity by being "Mr." Coale to the Short Horns.

VOLNEY D. COUSINS, 720 N. Main St., W. Lafayette, Ind. "Skipper."

B. S. in Electrical Engineering. (Telephone). A. I. E. E. (2). Second Lieutenant Cadet Corps (1). Athletic Association (4).

"Skipper" is seen on the campus only when there is something doing in the way of class-work, for there is a pretty little branette out on North Main, who keeps him from devoting too much time to his college education. All who know him pronounce him to be a well-meaning sort of a fellow, but since he joined the "Married Men's Club," we have lost the privilege of knowing him as one of the boys.

RUTH O. CRIDER, Buck Creek, Ind.

B. S. in Science.

Ruth entered Purdue in the Fall of '99, but at the end of two years saw her mistake. She foresaw the greatness of '08 class and wisely bided her time, entering our class last year. Nature kindly endowed her with an abundance of auburn tresses which have lighted the way of many a faltering soul through the dark corridors of Ladies' Hall to the regions of Paradise beyond. Her mind is no less brilliant.

ROSCOE L. DAVIS, Newport, Ind. "Guinea."

B. S. in C. E. C. E. Society (4) A. A. (1) (3) (4).

This tall, lanky lad blew in on us from nowhere and since he has been in Purdue has acquired all the bad habits common to the playful student. Always willing to help with what he knows and knowing it, too, has made him a general favorite among his classmates. He chews "Old Kentucky" in labs. and drawing rooms and defies detection.

WALTER H. DAVIS, Angola, Ind.

B. S. in C. E. C. E. Society (4).

"Davy" came in to us fresh from Angola with lots of knowledge and more ability to work, soon knew more about engines and boilers than Klipsch and so much about stresses that Smith neglected to check his work. He is a quiet, unassuming fellow with industrious habits and studious tastes, one of the very worst scabs in the class, but he did take his ash pit designs with a dash of carbon paper.

DEMAREE

DETRICK

DeVILBISS

DOBSON

DOLL

DUCKWALL

FRANK H. DEMAREE, Waveland, Ind. "Ma," "Dem."

B. S. in Agriculture, Aeronaut Club, Agricultural Society (1) (2) (3) (4), President (3), Editor-in-Chief, Agriculturalist (4), Class Basketball (3), won '08 Sergeant Cadet Corps (1) (2), Athletic Association (4).

"Ma" is a sort of mother to under classmen. He hails from Waveland and returns to "the folks" as an expert corn judge. He is a "straight V" man and a good bluffer. Not being satisfied with one letter per day from Indianapolis, he asks for a special delivery after each mail train.

EDWIN A DETRICK, 204 W. Vine Street, Cham-paign, Ills. "Deet."

B. S. in Electrical Engineering. Athletic Asso-ciation (1) (2) (3) (4).

"Deet" broke the record for sloping through eight crock clubs, and coming out of it with good grades. He is a billiard shark, easy-going and good-natured, when his pipe is well filled and he is sure of it. It might be said that this este-emed Duttonian has all the fine points of a gambler, but to know nothing which would pre-vent such a misfortune for him.

EDWARD B. DEVILBISS, 1326 E. Pontiac St., Fort Wayne, Ind. "D."

B. S. in M. E. THH. M. E. Society (2) (3) (4), Governing Council (3) (4), Nisley's Loafers (1) (2) (3) (4), Chief Chair (2) (3) (4), A. A. (1) (2) (3) (4), Assistant Athletic Editor '08 Deliris.

Another one of the sharks raised in the town made famous by "Centlivre's." "Ed" has spent his spare time in gaining a few odd trifes in the way of education, like Surveying, Applied, and Masonry Construction, so as to have a general knowledge of all branches of engineering. He is possessed of a dare-devil spirit and a power of application that will win him the same high position in the opinion of his employes that he has won among his fellows here in school.

FULTON L. DOBSON, Coal and Rebecca Sts., Wil-kinsburg, Penn. "Dobby."

B. S. in M. E. OZ. Pennsylvania Club (1) (2) (3) (4), Secretary and Treasurer (3), M. E. So-ciety (4), A. A. (1) (2) (3) (4), Board (1) (2), Varsity Football Squad (2).

"Dobby" claims Pennsylvania as his home. His great aim since coming to Purdue has been to avoid all acquaintance with evil, i. e., work, and he has met with commendable success. He is one of the best natured men in the class and also a charter member of the "Don't Worry" Club. He loves to partake of the flowing bowl and listen to the flights of fancy thus encouraged in his com-rades. He will be a Master Mechanic on the Pennsylvania in the fullness of time.

CHARLES J. DOLL, 428 West Fifth St., Connerville, Ind.

B. S. in M. E. M. E. Society (1), A. A. (1) (3) (4).

This modest, good-natured youth meandered into our midst four years ago and through industry and perseverance has managed to keep with the class. Rumor has it that his ultimate destination is the Lone Star State, but the cause of his leaving home and friends is not definitely known, unless it be the ever-alluring smile of the siren.

CHARLES C. DUCKWALL, Angola, Ind.

B. S. in C. E. C. E. Society (4).

Duckwall has been with the class two years. He joined us with the degree of C. E. from Angola Tri-State Normal, in the fall of '06, and since that time has roomed and worked with "Thin-voiced Davis." His ability is unquestioned and his mild manners gained him many votes from among the Civils as the Champion Meek Man.

DUNCAN

DURR

EAST

EICKHOFF

EISENLOHR

EMERSON

J. GRAY DUNCAN, Jr., 1999 N. New Jersey St., Indianapolis, Ind. "Dunc."
B. S. in C. E. EN. Knight Templar, Noble of Mystic Shrine. M. E. Society (2) (3) (4), won "PK" in '03 and '04. Manager Baseball Team '05. Track Team '02.

"Dunc." on account of changing from electrical to mechanical, was unable to get his diploma with '05, but after two years with the American Locomotive Company, decided to come back and graduate with us. On account of late entrance and a bad hand "Dunc." was unable to be on the signal this year, but he did good work in one game with the Seniors.

ARTHUR W. DURR, 227 Crosby St., Akron, Ohio.

B. S. in M. E. AT. Cleofan (3) (4), President (4). M. E. Society (4). Ohio Club (3) (4), President (4). Captain Cadet Corps (3), Colonel (4).

The life and adventures of Colonel Durr, since he dropped in on us from Ohio State in his Junior year have been, to say the least, eventful. He started in by advertising for a roommate on the ladies' bulletin board. During the summer he took up night school on the Wabash, and continues it by correspondence. This and his fondness for pie cause him to be bald-headed and big-voiced, which attainments enable him to fulfill his ambitions to be an army officer. He means well.

ERNEST E. EAST, 1501 Ohio Ave., Anderson, Ind.
B. S. in C. E. Cleofan (3) (4). C. E. Society (3) (4). Irving (2) (3) (4). Treasurer (2). Athletic Association (2) (3) (4). Vice-President (2); President (3). Student Council, Athletic Association Representative (3). Class President (2) (3).

"Ernie" is the most prominent man in Purdue University, and one of the best-hiked as well as one of the ablest. His early education was obtained in punching cattle in Arizona, but he came to Purdue in time to get in on all matters of importance. In company with Frank Beal, he has gained quite a reputation as "levee-hiker," since the duties of his various offices have ceased to trouble him.

THEODORE H. EICKHOFF, Julietta, Ind. "Eick."

B. S. in Electrical Engineering. TBILL. A. I. E. E. (3) (4). Athletic Association (4). Football Squad (3) (4).

"Eick" came to Purdue to get a real thorough college education, so he went in for everything. His social life wasn't very brilliant during the first few terms, but after three years of steady training in the German Lutheran Sunday School he found that his hopes were almost realized. He proved a good, faithful worker on the football squad and made a record for himself by studying his lessons before he came to class.

GUSTAV W. EISENLOHR, 1213 Elm St., Cincinnati, Ohio. "Dutch." "Gus."

B. S. in Science. Ohio Club. Chemical Society (2) (3) (4). Athletic Association (2) (3) (4).

Gus is one of the original Katzenjammer Kids. He is well known by a peculiar sound which he makes when amused, and which he calls a laugh. He has aspirations to become a great chemist and we know he will make good; for with a little more training Gus will make a good "teeter" boy. He is from Cincinnati and he wants everybody to know it.—(And they do.)

T. WALDO EMERSON, 928 State St., Lafayette, Ind. "Tommy."

B. S. in C. E. C. E. Society (4). A. A. (1) (2) (3) (4).

He and Callahan make an excellent team in which "Cal" does the work and "Tommy" rides along. "Tommy" always looks at the sunny side of life and has even been known to ridicule some of Garman's work. He spent the first three years of his school career exploring the city, daylight often overtaking him on his return; but this year has lain moderately quiet.

EMRICK

ENSMINGER

FARMER

FATOUT

FLANIGAN

FLEMING

PAUL S. EMRICK, Rochester, Ind.

B. S. in Electrical Engineering, A. I. E. E. (3) (4), Conductor (2) (3) (4), Mandolin Club (3), Director, Cadet Corps, Captain (2) (3) (4).

Emrick has made Purdue famous with his military band. Of course his band boys all loved music for the first two years, but just the same they produced the kind which made everybody sit up and take notice. We only wonder who will beat the big horn after P. S. goes forth to war.

HARRY J. FARMER, Waukegan, Ill. "Rube."

B. S. in C. E. Φ KE. A. A. (3), Band (2) (3) (4).

"Rube" is a product of Armour Institute and joined us in the fall of '05. He claims as the characteristic weakness of his roommate, parlor athlete; and his own, as the ability to write lab reports. He expects to join the Married Men's Club shortly after graduation and no doubt he will make a capable father and a fond and loving husband for the lady of his choice.

ARCHIBALD FLANIGAN, 224 Park St., Lebanon, Ind. "Pat."

B. S. in Electrical Engineering, Athletic Association (2) (4), A. I. E. E. (4), Class Football, won '08" (4).

Pat is remarkable for having lived three years with a roommate whose name ends in "hoff." This is probably due to the fact that both he and "Duke" have very amiable dispositions. Pat has already spent one summer with the Westinghouse Company and intends, to return if the financial stringency "unstrings." He is an all around good fellow.

RAE W. FLEMING, West Lebanon, Ind. "Pa," "Jim."

B. S. in Agriculture, Class Athletic Committee (3), Class Insignia Board (4), Athletic Association (1) (3) (4), Football Squad (1) (2) (3), won "PK" (1) (2), won "IP" (3), Class Football, won '08" (4), Baseball Squad (2) (3), Class Baseball, won '08" (1), Basketball Squad (3), won "P" (3), Class Basketball, won "08" (2) (3) (4).

Rae has the distinction of being the best all-around athlete in the '08 class. He won his "P" in football, basketball and baseball and the only reason that he didn't get one in track was because he didn't try. He was a good Agricultural student, a first-out companion and always ready for a rough-house. He says that his future will be spent in stock raising.

CHESLEY B. ENSMINGER, Danville, Ind. "Ens."

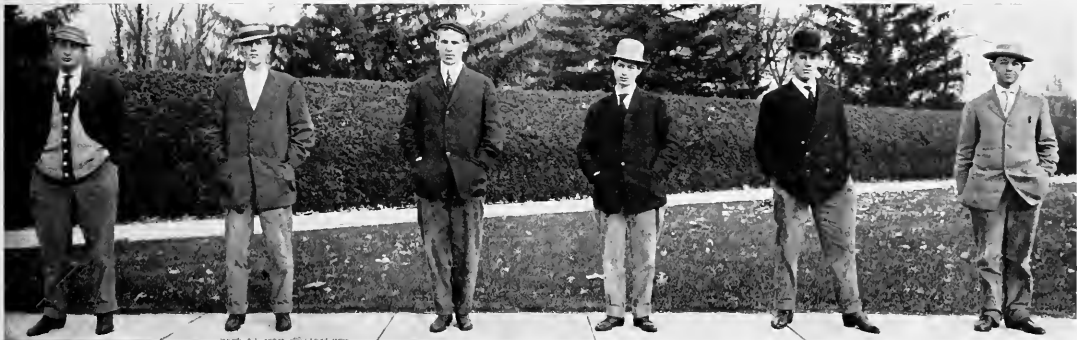

B. S. in Agriculture, Athletic Association (3) (4).

Ens is a student who is never tired of being raised in the "big" end and it discouraged him from any other kind of pursuit of life. He shows his determination to succeed by competing the authors of the "Big" end. He is relying on his own investment in the "big" end of his own name to pay for his education. He is a stock fact ought to keep his name in the "big" end.

RAYMOND T. FATOUT, 2066 West Washington St., Indianapolis, Ind.

B. S. in C. E. Δ T Δ T Π I, C. E. Society (2) (3) (4), A. A. (3) (4), Varsity Basketball Squad (3) (4), Class Insignia Board (3).

One of the slunks who made the second section of the Tau Betas and a true believer in basketball as a sport he has done his best to make the team better by faithful practice. He has gained a reputation among some of his classmates for being a trailer night because of his flat refusal to disseminate the knowledge latent in his brain except when it will make a hit with the profs.

FLEXNER

FORSHEE

FORTUNE

FUHS

FUNK

FURNAS

MAURICE H. FLEXNER, 1333 Second St., Louisville, Ky. "Mike."

B. S. in Electrical Engineering, Minnet Club, A. I. E. E. (3) (4), Mandolin Club (3) (4), Manager (4), Glee Club (4), Athletic Association (3) (4).

Louisville Manual has the distinction of furnishing the preliminary training of this product. This training was in fact so thorough that "Mike" thought it useless for him to spend more than three years in college. Besides doing well his regular work he found time in his Senior year to manage the Glee and Mandolin Club in a very admirable way. With proper application of his grit and initiative, he is sure to be a winner.

W. ALVA FORSHEE, 3003 Harkberry St., Cincinnati, Ohio.

B. S. in C. E. BØII. C. E. Society (4). A. A. (3) (4).

"Al" started to get his education at Cincinnati University, but came to Purdue in time to get in with a good lunch in a good school. He is a general favorite with the ladies and is a society dog of the first water. He gained distinction in his Junior year by pretty near flunking astronomy and for a few days actually worked; but so far as known this is the only time that he ever let his studies interfere in any way with his college education.

RUSSELL FORTUNE, 785 Woodruff Place, Indianapolis, Ind. "Russ."

B. S. in C. E. ΦΔΘ A. A. (3) (4), Assistant Editor Exposition (2), C. E. Society (2) (3) (4).

"Russ" holds the respect and admiration of all because he is a man in every sense of the word. As the head man of the "Municipal Engineering Journal of Indianapolis," he is pictured as a very busy man; in fact, his business interests (or otherwise) call him home quite often.

RAYMOND H. FUHS, 837 Walnut St., Mt. Vernon, Ind. "Jonah," "Rabbit."

B. S. in Electrical Engineering, A. I. E. E. (3) (4), Athletic Association (1) (2) (3) (4).

"Jonah" came to us from near Evansville; it is said that on his departure for "Purdue College" he was escorted to the depot by a delegation of influential citizens headed by a brass band. His most enjoyable day past-time is sleeping, and as a consequence he has become so accustomed to burning midnight oil that a violent scent of kerosene is required to stimulate day study. He is an exponent of Roosevelt's maxim, "a square deal to everybody," and believes in applying it to every-day living.

BRUCE C. FUNK, Corydon, Ind. "Spavin."

B. S. in C. E. Football, Varsity Squad (2) (3) (4), won "PR" (3), won "P" (4), won Numerical (1), Track, Varsity Squad (2) (3) (4), won Numerical (3), Class Insignia Board (4).

Bruce and Walter McGram roomed for three years in the Old Inebriates' Asylum on Littleton street, and in their Senior year moved to the classic regions of Crab Point. Their favorite exercise is walking, and Funk claims that by this means he improves his wind and his himself for his intended occupation of politics.

WILLIAM C. FURNAS, 203 University St., West Lafayette, Ind.

B. S. in Electrical Engineering, Y. M. C. A. (1) (2) (3) (4), A. I. E. E. (3) (4), Athletic Association (1) (2) (3) (4).

Pretty much of a shark, yet too conscientious to bluff, this quiet Senior dug his way through the four years with the least fuss of any '08 man. He never was elected by the Tau Beta Pi, but he was known to give assistance to more than one of their members. It is not predicted that he will conquer worlds, but he will certainly do well all the work that comes his way.

GABEL

CLAYTON E. GABEL, Walkerton, Ind.

B. S. in M. E. M. E. Society (3) (4), A. A. (4).

A bright and shining light from a city of small fame. Some call him the most religious, others the tightest man in the class, but we will call it a toss between the two. Gabel's main trouble seems to have been in getting his name correctly: "Mike" called him "Gabbler"; "Pop" Elias, "Gabbler," and the students, "Gaherl!" He is a hard consistent worker and will make a hit at wiping engines.

WILLIAM GADDIS, 913 Sycamore St., Columbus, Ind.

B. S. in C. E.

"Bill" is a remnant of the '06 class and so we don't know much about him, but since he has been with us he has demonstrated that he is one of the best men that they left behind. His manner of holding the Prof's straight in the eye and asking intelligent questions has gained him the reputation of a shark.

GADDIS

GANIER

ALBERT F. GANIER, 101 Crawford St., Vicksburg, Miss. "Al."

B. S. in C. E. Cleofan, Southern Club (4), Cosmopolitan Club (4), Press Club (4), C. E. Society (1) (2) (3) (4), Debating Society (1) (2) (3) (4), Secretary (2), President (4), A. A. (1) (2) (3) (4), Art Editor Exponent (2), Debris Art Staff.

"Al" is another relic of '07 and comes from the sunny south. Luckily he left before he had time to become a cotton planter and he has been on the jump ever since. He always has a lot of iron in the fire and manages to keep them all hot, too. His failing is to set the alarm clock for five o'clock just to hear it ring. As a debater and as an artist he is without a peer in college.

EDWARD A. GARLOCK, 65 Eleventh St., Minneapolis, Minn.

B. S. in E. E. BOLL, Minnesota Club (4), Secretary-Treasurer (4), Jeffersonian, Vice-President (4), A. A. (3) (4).

Comes from Minneapolis and is proud of the fact; head full of new and original ideas; an usual amount of perseverance and determination; will probably make a success in life. His experiments in wireless telegraphy have done much to maintain "High Tension Plumb's" reputation in the science of electricity.

GARLOCK

GARROTT

ISAAC F. GARROTT, Lafayette, Ind. "Ike."

B. S. in Agriculture, Class Basketball (4), won '08, Athletic Association (3) (4).

"Ike" has always made good at speculating, leading yells and "handing the goods" to the profs. He has been "Doc" Craig's right-hand man in clinics and should know how to handle a sick horse, judging from his assured and business-like manner.

SAMUEL H. GARVIN, 1680½ Willow St., Louisville, Ky.

B. S. in C. E. N. N. Kentucky Club, Treasurer (4), C. E. Society (4), Southern Club, A. A. (3) (4).

After trying Rose Polytechnic for a year and a half Sam decided to wrest a sheepskin from Purdue. Altho he has only been with us for a couple of years he has made a name as a good hard worker and a clever student. His "Grand Old Southern" bearing and natural neatness won him many votes for the neatest man. He eats work (when he has to).

GARVIN

GATES

GENT

GEORGE

GEYER

GIBSON

GLASSER

AUGUSTUS J. GATES, 743 Wayne St., Cincinnati, O.
"Gus."

B. S. in E. E. $\Sigma\chi$, Ohio Club (2) (3) (4), Vice-President (3), Cincinnati Club (2) (3) (4), Football Squad (4), Assistant Photographer '08 Debris. A. I. E. E. (4), A. A. (3) (4).

This is the original "Gus" from Cincinnati. He came in the fall of '05 with a goodly supply of credits and so has developed into one of us. Rumors are often started about "first year Sophomores"—but this Dutchman has blossomed until he is truly the "ownliest potts folger." He has a host of friends, "Duke" and "Fat" have signed him up for the "French Club," which fact signifies marked ability.

EDGAR W. GENT, 621 Lamar St., Sherman, Texas.

B. S. in Electrical Engineering, Texas Club (2) (3) (4), President (4), Southern Club (3), A. I. E. E. (4), Chairman (4), Athletic Association (4).

This Texan grew famous for his small size and large stock of argument on technical questions. Many electricals are indebted to his argumentative ability for their refreshing class naps. Especially did he shine in laboratory and shop work where he hustled around with such authoritative airs as to make one believe that in some former state of existence he might have been a straw-boss.

EARL B. GEORGE, West Newton, Ind. "Georgie."

B. S. in Electrical Engineering, Athletic Association (3) (4), Class Baseball (1) (2) (3), won '08 (1) (2) (3), Class Insignia Board (4).

George has a remarkable hatred for work, but has so far overcome it that when he occasionally gets started it takes him a long time to stop. He was captain of the only champion class team '08 ever had. During his more natural moments he prowls around with a camera or writes long letters to a little girl down at his home, whom he can't forget.

CHARLES O. GEYER, 1629 Smedd St., Logansport, Ind. "Dutch." "Tecumseh."

B. S. in Science, Varsovienne Club, Secretary and Treasurer (4), Chemical Society (2) (3) (4), Vice-President (3); President (4).

Nothing so much appealed to this Dutchman as a joke, if it was perpetrated on somebody else, and he even enjoyed them when at his own expense. His smiling features were often seen at "Pals" where he dispensed dry buns to the hungry. Like most of his ancestors he loves his pipe and when this is augmented by a good story "Dutch" is in the height of his glory.

LEONARD C. GIBSON, Rising Sun, Ind. "Elsie."

B. S. in M. E. M. E. Society (2) (3) (4), Minnet Club, Jeffersonian Debating Society, Mandolin Club (3) (4), A. A. (2) (3) (4).

This diminutive son of Adam blew into Lafayette as an ordinary Freshman, but his gift of "gab" and good nature soon won him a place among his classmates and also among the fair sex. Rising Sun claims "Elsie" as one of its most brilliant stars and according to his own tales he is the big duck there. He gives as his intended occupation "Automobile Work," but we predict that he will soon be earning bread for two by selling "Rising Sun" stove polish in a local hardware store.

FRANK C. GLASSER, Forest Lawn, N. Y. "Heinie."

B. S. in C. E. $\Phi\chi\chi$, New York State Club (4), President (4), C. E. Society (4), Irving (2) (3) (4), Track Team (3) (4), Tennis Club (1), Junior Prom. Committee (3), Dramatic Day Committee (4), Mechanics Burning Committee (4), Business Manager Debris.

This curly haired son of Germany came to us from Rochester, N. Y., with blood and determination in his eye that has not faded under four years of scorching by the faculty and association with "Bud" Good. A shark in the class room, congenial habits and an atmosphere of hustling about him that is sure to land him amongst our future Captains of Industry and Masters of Finance when the "Big Book" is closed in June.

GOOD

ALBERT L. GOOD, 170 W. Wabash St., Wabash, Ind. "Bud."

B. S. in C. E. K. A. A. (4).

"Bud" besides developing a wonderfully jovial disposition during his college career, has made himself particularly fond of Harry Garman, Klipsch and Hatt, the last named requiting his advances by requesting "Bud" to take a seat in the front row. He is particularly fond of "Shelley" and his great capacity for eleventh hour work has kept one of the standing committees of the University guessing. It is rumored that he once stressed a stopper beyond its elastic limit and disappointed a fair one in Marion.

GOODELL

CARROL J. GOODELL, Morocco, Ind. "Goodie."

B. S. in Agr. Agronomy (1), Agricultural Society (1), Athletic Association (3) (4).

"Goodie" has made good as a star leader, coming first in the International. He is good, cool and generous, but don't believe in being sorry. While he has never had many society offers, but his set of friends know that he has a good spot in his back for a little and back on the line at Morocco.

GORDON

BRUCE A. GORDON, 173 Grace St., Bedford, Ohio. "Bugs."

B. S. in C. E. Cleonan (3) (4), Ohio Club (1) (2) (3) (4), Irving (1) (2) (3) (4), President (3), Vice-President (2), Critic (4), Marshall (1), A. A. (1) (2) (3) (4), Varsity Football (3) (4), won "PR" (3), "1st" (4), won Numeral (2), Prom. Committee (3), Assistant Business Manager Debits.

Bruce is one of the best all-around men in the civil section, one of the best liked, and also a charter member of the "Sons of Kest." His ability to hit the line for repeated and consistent gains in the Chicago and Wisconsin games won his recognition on the "All-Western" as first sub-halfback. He is quite a "fusser" and a musician of some note. His favorite study is Hydraulics and his favorite prof, Klipsch.

DANIEL C. GREEN, Rising Sun, Ind. "Dad."

B. S. in Electrical Engineering, K. E. Harlequin Club (1), Athletic Association (1) (3) (4).

Of course "Dad" cannot surpass Jimmy Cain, but he could wear his shoes with perfect ease. He has been Dunbar's lay representative with Bullock & Company and expects to go with them after graduation. He has a ready smile which the most adverse circumstances cannot please. One question has been raised: "Why his directory address was not given as "Gilliam Grill Rooms, instead of 102 Waldron," but this the Debits refuses to answer.

GREEN

HAROLD E. GREGG, 2155 Clarendon Ave., Chicago, Ill. "Hal."

B. S. in M. E. Varsouvienne, A. A. (3) (4).

From that "Dear old Chicago Town" Harold entered as a Junior and the time that he has been with us has been too short for his good qualities to appear. His chief pastime is riding on roller coasters. If you are in doubt about this ask about Eldridge Park. The chief event of his life is yet to happen as he has never been in love.

GREGG

LEE D. GRIMES, North Platte, Nebraska. "Jap."

B. S. in C. E. K. E. C. E. Society (3) (4), Athletic Association (3) (4).

"Lonie" comes from Buffalo Bill's town and lets everybody know it. He spends the summer working for Uncle Sam and the winter working "Pa" Horner. For two years he and "Pa" lived in a room so small that the furniture had to be pointed on the walls, but in his Senior year transferred his allegiance to the City V. M. C. A., in order to be near town.

GRIMES

GROSJEAN

GROVES

HAAS

HALL

HAMMONS

R. O. GROSJEAN, 16 Lawton Place, Ft. Wayne, Ind.
"Grossy."

B. S. in Mechanical Engineering.

"Shorty" entered here with '06, but was twice compelled to drop out of school because of sickness. His determination to become the proud possessor of a sheepskin caused him to enter the '08 class and if God and G. A. Young are willing he will accomplish his desire in June. The only thing that kept Shorty from being a shark was his chronic laziness and love of chess.

HARRY C. GROVES, Syracuse, Ind. "Doc."

B. S. in M. E., Emersonian (2) (3) (4), Treasurer (4). A. A. (4).

"Doc" earned his name from the excessive use of that famous toothpowder. He took up engineering so that he could manipulate all labor-saving devices when he settles down for the simple life on the farm. His handsome face and winning ways should easily win him a companion for his smooth and peaceful life.

MORTON V. B. HAAS, 204 N. Independence St., Tipton, Ind. "Hauser."

B. S. in C. E., C. E. Society (4). A. A. (1) (3) (4).

"Hauser" has made a reputation for himself during his college career by his arguments with "Johnny Heiss" and certain others of the "high and mighty." He has increased greatly in weight both mentally and physically in the past four years and after graduation he will endeavor to solve the problem of living without working.

LEE S. HALL, Avoca, Ind. "Hallie."

B. S. in Electrical Engineering, Athletic Association (1) (3) (4). A. I. E. E. (4).

"Hallie" came from the famous Mudlavia vicinity, and has never overcome the sporty tendencies acquired in his youth. He has taken a thorough course in vaudeville study and incidentally became quite a levee drifter. At other times he studied some and succeeded in getting his B. S. degree with good grades and little work.

RAY D. HAMMONS, 1265 E. Arch St. Portland, Ind.
"Mike."

B. S. in C. E., Harlequin Club (3) (4). C. E. Society (4).

"Mike" blew in from Portland with a fine resolution to set a new standard for all those ambitious of making good grades. However "Gloomy" blasted his hopes of making the Tau Betters and from that time on he has been taking life easy. He doesn't like to carry a transit and so we are reasonably sure that he will never be a county surveyor, but we are confident of his ability and when he takes unto himself the "one girl" we expect great things of him.

HARBOLT

HARNETT

HARRAH

HART

HARVEY

HASTY

PERCY F. HARBOLT, Charlestown, Ind. "Power Factor."

B. S. in Electrical Engineering. A. I. E. E. (3) (4). Treasurer (4). Athletic Association (3) (4).

Percy, better known as "The Corporal," came all the way from Charlestown. He has the distinction of being the better of the "Gold Dust Twins," and has established a good reputation for "being there with the goods" in the classroom. Letters came and went from his room daily and if one was ever missed—gee! the howl. Will he grow better or worse, now is the question.

LEWIS D. HARNETT, Hamilton, Bermuda.

B. S. in M. E. Cosmopolitan Club (4). Class Football, won Numeral (2).

This two-year-old youngster from Bermuda came to be a horse-breeder, but we think that London foxes have befuddled his brain. Schooled in Boston, his conceit and democracy have passed with an A1 grade. He speaks German (?) fluently, is an expert gambler, and an efficient disposer of the amber-colored fluid. He is a wrestler of no mean ability and his work in this line is deserving of much praise.

ROBBINS B. HARRAH, Worthington, Ind. "Bob."

B. S. in Electrical Engineering. First Sergeant Cadet Corps (1). Athletic Association (3) (4).

Harrah was one of those innocent appearing lads, who look and act out of place in a wicked college atmosphere. He first attracted our attention and envy by being First Sergeant of the Signal Corps with nothing to do. He has the misfortune of being particularly handsome, which likewise proved a good fortune when attending vaudeville stunts.

SIMEON T. HART, Farmington, Conn. "Sim."

B. S. in M. E. M. E. Society (3) (4).

Hart came to us at the beginning of our Junior year, after spending the first part of his college career at Wisconsin. He hails from New England, not only indicated by the above address, but also by the "hatchet face" and large "dome." He has developed quite an alchemy as a seah since he has been among us and if he had been here the entire four years great things could have been expected of him.

ALVIN C. HARVEY, Little Valley, New York.

B. S. in C. E. C. E. Society (3) (4). Irving (1) (2) (3) (4). Secretary (3). A. A. (4).

Harvey had a lot of good practical experience and expects to make a section boss in course of time. He is a good fellow and a good student and one of the best men in the civil section. He claims his home as nowhere and expects to live, die and work at his chosen profession in the same place.

VIRGIL R. HASTY, Newport, Ind. "Vic."

B. S. in Electrical Engineering. A. I. E. E. (3) (4). Athletic Association (3) (4).

Virgil had the faculty of never worrying about anything, hence he was always happy. It might be said that he never even took the trouble of being bad. He kept on hand a good stock of table-talk and was always a reliable and ready reference on what was doing at the Family and Majestic.

HEAD

HEILMANN

HENDERSON

HOLMES

F. HORNER

O. N. HORNER

HARLEY G. HEAD, Ligonier, Ind. "Doc."

B. S. in Electrical Engineering. A. I. E. E. (4), Class Dispatch, won '08 (2).

"Doc" was one of the steady-going men of his class who never attracted much attention, but could be counted on for "being there with the goods." His friends were startled in his Junior year by reading of his wedding, but "Doc" refused to be congratulated and declared it a mean trick to announce a man's marriage without his consent. Since that time he has traveled shy of the ladies and devoted his spare moments to vaudeville.

RALPH W. HENDERSON, 1622 North Meridian St., Indianapolis, Ind. "Eggs."

B. S. in M. E. M. E. Society (1), Harlequin Club (2), A. A. (1) (2) (3) (4).

"Eggs"—Scot or Swede? If left to "Eggs" it would be "half-and-half," which brands him neither the one nor the other. A genuinely, whole souled, good-hearted creature. We will all regret parting from him. If you ever find yourself sneaking about through the cool, cold world, your elbows out, your pockets penniless, and you should chance to run across "Eggs" with some small change jingling in his jeans, he wouldn't divide it with you, but give all and his heart along with it.

WILLIAM G. HOLMES, 119 Jackson St., Danville, Ill. "Bill."

B. S. in M. E. M. E. Society (4), A. A. (1) (3) (4).

"Bill" started his education with the '07 class but his loyalty to '08 since he has been with us has never been questioned and we are truly glad that he joined us. He wears an interested look that has baffled many a Prof. out of bothering him with unnecessary questions and has carried him over numerous breakers. If he were as familiar with most of his subjects as he looks, the sharks' club would have tagged him long ago.

FRED U. HORNER, Uvalde, Texas. "Fritz." "Jack."

B. S. in Electrical Engineering. Texas Club (1) (2) (3) (4), Secretary (4), Corporal Cadet Corps (2), A. I. E. E. (4), A. A. (1) (2) (3) (4).

"Fritz" came to us from Texas and never could get thoroughly domesticated by the use of polite French. He never let any of his studies, except "Plumb labe," interfere with his college education, and this one exception quite spoiled his temper. He announces to his friends that his future will be spent in the East.

OTTO N. HORNER, Northgrove, Ind. "Pa."

B. S. in C. E. TBL. C. E. Society (1) (2) (3) (4), President (3), Debating Society (3) (4), Vice-President (3); Treasurer (4), A. A. (3) (4).

The old reliable of the civil section, always the one "best bet," and the one man who knew when all other sources failed. More men have him to thank for their sheepskins than H. O. G. He knows the trail that leads to the Labor House and can take a hand at anything from cent-ante on up. In fact he is a good fellow anywhere, the "Prince of the Sharks," a high card with the ladies and a great boy with the boys.

CARL A. HEILMANN, 1265 45th St., Brooklyn, N. Y.

B. S. in M. E. BPH. M. E. Society (3) (4), A. A. (3) (4), won Numeral (4).

Our "Deucher" friend, "Heinie," blew in from Worcester Tech. last year and has an immense fund of ready knowledge which has gained for him the reputation of a scholar, both with the instructors and his fellow-students. A conscientious student, of jovial disposition, with many friends.

"Another little drink won't do us any harm."

HUBER

CHARLES J. HUBER, Attica, Ind. "Dutch."

B. S. in Electrical Engineering, Athletic Association (4), Class Baseball, won '08 (2) (3) (4).

"Dutch" is a thoroughly reliable and harmless product of Attica, the headquarters of the Cascares Company, and he can tell you all about them. He held a life-membership in the '08 class baseball team and helped make it a winner. His smiling face was often seen in the parquet of the Family.

HUGHES

EDWARD HUGHES, 728 Franklin St., Columbus, Ind. "Eddie"

B. S. in C. E., C. E. Society (3) (4), A. A. (1) (2) (4), Second Lieutenant (2), Class Football (1) (4), Varsity Track squad (4), Basketball, Varsity Squad (4), Non-Natal (4).

This lad comes from Columbus and don't care w'at knows it. He is a good sample of the student who never lets his studies interfere with his college education, a start on work but comes in strong at the torch and has never been known to find a subject "fiddle" is the finest draughtsman in the college and one of the cleverest artists. He will tell you month-olden how he did a whole "circuit" and in two weeks in his Junior year.

HUNTER

HARRY B. HUNTER, 615 Looney Ave., Memphis, Tenn.

B. S. in Mechanical Engineering, Mechanical Engineering Society (3) (4), Secretary (4), Cadet Corps, Second Lieutenant (2).

"Harry" entered Purdue with a longing for Military Glory, but switched over to the study of the two-cycle gas engine. He is a shark on the subject of Motor Boats and this year has been developing into quite a ladies' man to the despair of "Pop" Alford, who has watched over and kept him on the straight and narrow path for the past four years.

HUNZICKER

WALTER W HUNZICKER, Marion, Ind. "Hunz."

B. S. in Electrical Engineering, AKE, Athletic Association (3) (4), A. T. E. E. (4)

"Hunz" has a formidable way of making you believe his fund of information was the only correct and complete set extant, but on closer investigation he is found to be quite harmless. During his Freshman year he learned to make one cope answer for four patterns and this characteristic followed him through college. If he can't find an easy snap he will likely make one, for his originality has never been known to fail him.

IMMEL

WOODSON CLARE IMMEL, New Paris, Ind., "Woodie."

B. S. in Electrical Engineering, JTA, TBH, Carlele (2) (3) (4), Vice-President (3), Franklin Debating Society (4), President, Class Historian (1) (2) (3) (4), Junior Prom. Committee, Press Club (3) (4), President (4), Student Council (4), Secretary, Exponent (2) (3) (4), Editor (3); Editor-in-Chief (4), Debris (4), Associate Editor, A. T. E. E. (3) (4), A. A. (3) (4), Vice-Pres. Inter-Collegiate State Press Club (4), Treasurer Gala Week Committee (4).

Immel was a college "Jack of all trades," having come in contact with all phases of university life from working for his living to doing society stunts. Incidentally he got a whack at these writings, but is not responsible for half the good things said therein. He never could be found without an Exponent somewhere on his person. His only other hobby was gas-engine operation. His future will, like his past, probably be spent in the school room.

ARCHIE L. JACKSON, 148 Washington St., Winchester, Ind. "Wrinkle."

B. S. in C. E., AKE, Masonic Club, C. E. Society (1) (2) (3) (4), Vice-President (3), Athletic Association (2) (3) (4), Assistant Editor Engr. Review (4).

Archie got his first education in his father's grocery store and came to us fresh from Winchester in the fall of '04. His chief weakness is running after the ladies and his efforts have always met with remarkable success. He is the only man in the class who has been so versatile in his choices that he has retained his popularity with all. He has developed a slight tendency toward an increase in weight the past year.

JACKSON

JAQUA

JONES

JONES

KASILAG

KELLER

KIRKWOOD

CHARLES A. JAQUA, Portland, Ind. "Jac."

B. S. in Electrical Engineering. A.T.P. Till. Press Club (4). Engineering Review, Assistant Business Manager (4). A. I. E. E. (3) (4), Secretary (4). Athletic Association (3) (4).

This Senior was a shark, simply because he couldn't help working. When he refused to recite everybody else felt that their dumbness was excusable. Anything he attempted was well done and his attempts were numerous. He was Ross Webb's right-hand man in the A. I. E. E. and shares with him the credit for its success.

HAROLD M. JONES, Mt. Vernon, Ind. "Deac."

B. S. in Agriculture. Agricultural Society (2) (3). Athletic Association (4). Class Baseball (2) (3), won '08. (2) (3). Varsity Basketball (3) (4), won "I" (4). Class Basketball (3), won '08.

"Deac" is a modest fellow who never believed in attracting attention to himself. His favorite diversion was athletics and in this as well as in his studies he made good. His one fault was his ambition to sing, but his best friends kept him from over-indulging in this line.

ROBERT B. KELLER, 2304 W. Broadway, Louisville, Ky.

B. S. in Mechanical Engineering. S.E. Kentucky Club (4). President (4). Southern Club (4). Cross Country Club (4). Mechanical Engineering Society (4). Glee Club (4). Athletic Association (3) (4).

"Robbie" came to us from Louisville, where he formerly taught the "young idea" how to plane a plank. He is a strong advocate of Chicago inspection trips if such trips are properly "chaperoned." His big heartedness and unflinching kindness have won for him a warm place in the hearts of his classmates. Altho from the Blue Grass state he has not as yet laid claim to a military title.

MARCIAL M. KASILAG, Rosario, Batangas Province, P. I. "Kasic."

B. S. in C. E. Cosmopolitan Club (4). C. E. Society (4). Athletic Association (4). Battalion Adjutant (3). Captain (4).

Just where "Kasic" comes from we can't say, read it above and try if you want to. Anyhow he has been with us for three years and has always acted right, and altho we can't admire his military ambition, that can not be held against him as he seems to enjoy it. He has a little Philippine girl lack there in the islands somewhere, and probably she admires soldier uniforms.

ROBERT G. KIRKWOOD, 1419 N. Tolman St., Chicago, Ill. "Kirk."

B. S. in C. E. Military Club (3) (4). Secretary (4). C. E. Society (4). Emersonian (3) (4). President (4). Athletic Association (3) (4). Lieutenant (2). Captain (3). Major (4). Class Athletic Board (3). Assistant Business Manager '08 Delris.

"Kirk" hails from Chicago and is able to take care of himself but that did not keep him from being goated out of military preference by Champion Durr. He entered here originally with '07, but one semester convinced him that he could do better by waiting a year and taking Crips Moore under his wing.

FRANK N. JONES, Mooresville, Ind. "Crusty."

B. S. in Agriculture. Athletic Association (1) (3) (4).

"Crusty" could have been a shark if he wanted to be, but he was afraid that if he proved brilliant and socialize his dreams of bachelor bliss would never be realized. He says he has quit smoking but the great influence which prompted this penance has never been revealed.

KISE

KNAPP

KNOTT

LAMB

LATTA

LAYCOCK

FRANK E. KISE, 459 N. Grant St., W. Lafayette, Ind. "Legs."

B. S. in Mechanical Engineering, $\Theta\Xi$, Mmaet Club (1) (2) (3), Harlequin Club, (2) (3) (4), Irving, Lieutenant (2), Captain (3), Exponent Staff, Art, (2) (3) (4), Art Editor-Debris.

One of the old timers who has been around so long that he is a sort of land mark and a thing from which all things may be proved. The best cartoonist that the Exponent has had for many moons or is likely to have for many more and the Art Editor of this book; we may expect to find him before long the rival of our celebrated Geo. McCutcheon.

CHARLES W. KNAPP, 415 N. Third St., Decatur, Ind. "Pike."

B. S. in Electrical Engineering, Athletic Association (1) (3) (4), Baseball Squad (3) (4), Class Numerals (2) (3).

"Pike" is a baseball fiend for sure, and his stories of how "we beat 'em in the ninth inning with two outs and two strikes on Cassie," are paralleled only by the imagination he developed during the Junior Inspection Trip. But "Pike" did study some and liked the levee by moonlight a little more. Then, too, there were times when he showed a decided tendency toward colic before convulsions from Lafayette street cars.

GLADYS E. KNOTT, 113 E. State St., W. Lafayette, Ind.

B. S. in Science, Philathethan (2) (3) (4), Corresponding Secretary (2), Vice-President (3); President (4), Girls' Glee Club (3).

"Blue-eyes" may seem distant at first acquaintance, but first impressions are often misleading. She made herself famous during her sophomore year by her unlimited love for Physics. Since that time she has turned her attention to china painting and has become a favorite with Miss Fry. She is of a very religious turn of mind and has lately decided to devote her life to foreign mission work, but is undecided on the field.

HAWTHORNE M. LAMB, 1140 Corona St., Denver, Colo. "Hawk."

B. S. in M. E., M. E. Society (3) (4), Colorado Club, (4), Secretary-Treasurer (4), A. A. (3) (4).

"Hawk," in his two years of life at Purdue, has never let his work or studies interfere with his "College Education." His chief pastime has been attending "Hog-Wrestle" and drilling the levee. He always has more work back than he has ahead but somehow he has managed to "pluz up" at the end and finish with the class.

ROBERT W. LATTA, 1016 First St., W. Lafayette, Ind. "Bob."

B. S. in Agriculture, Emersonian (1) (2) (3) (4), President (4), Agricultural Society (1) (2) (3) (4), Cosmopolitan Club (4), Y. M. C. A. (1) (2) (3) (4), Captain Cadet Corps (3), Tennis Club (1) (2) (3) (4), President (4), Military Club (3), Press Club (3) (4), Agriculturalist (3) (4), Staff Artist (3), Department Editor (4), A. A. (1) (3) (4).

Bob was ambitious, but he couldn't be an engineer because his father was Dean of Agriculture. In order to increase his physical ability and clinch his growing popularity with the ladies he became a champion tennis player. At any hour of the day he may be seen in the "dairy lab," searching for unsolved problems in butter-making.

READ B. LAYCOCK, 1904 N. Delaware St., Indianapolis, Ind.

B. S. in M. E., ATR, M. E. Society (3) (4), A. A. (4).

"Lay" hills from that same old town from where so many of Purdue's famous men have come and will continue to come. He is one of the quiet, unassuming fellows whom we never fully appreciate until we know them well. As for his intended occupation, he leaves it blank, and his politics are given as independent, so he is somewhat of an unknown quantity.

LEBER

LESLEY

LEVERING

LIGHT

LINDLEY

LIPINSKY

CHARLES W. LEBER, 98 Fulton St., Rahway, N. J.

B. S. in Electrical Engineering. New Jersey Club (4) Staff Photographer Debris (4). Purdue Press Club (4). A. I. E. E. (3) (4). Athletic Association (3) (4).

Charlie has a keen eye for the ridiculous, developed by his long and patient association with a Debris camera. It isn't his fault that more students and professors are not advertised in this book for he was ambitious to get all of them. He is a good student, slightly inclined to be talkative, but after all one of the best hearted men in the Senior class.

ELDON T. LESLEY, Winchester, Ind. "Peanuts."

B. S. in C. E. TBIL. C. E. Society (2) (3) (4). A. A. (2) (3) (4).

Just how he acquired the epithetous name of "Peanuts" is not definitely known, but one thing is certain, he is one of the sharks of the class; never makes it unpleasant for others, or forces his opinions. For several years he has kept a reserved seat in "Pa" Towsley's billiard emporium.

ROSIER W. LEVERING, 906 Highland Ave., Lafayette, Ind. "Strings."

B. S. in Electrical Engineering. IFA. Athletic Association (1) (2) (3) (4). A. I. E. E. (3) (4). Secretary Gala Week Committee (4). Fraternity Editor Debris (4).

"Strings" came from Highland Park which is near the "Fourth Street Hill Gang," but he seems to have lost the hard feelings which the above named have toward "them er students." He is what we term a good fellow, strictly honest, sympathetic, high-principled, a true friend and a thorough student.

DAVID M. LIGHT, 95 Ruggles St., Dunkirk, N. Y. "Dink."

B. S. in M. E. SAE. Crow Gang, Chief Caw (3). A. A. (2) (3) (4). New York Club, Sec. (4).

"Dave" is a natural born shark and altho he started in as a Freshman in the Marlock Flat he has always kept up his reputation as a student and stayed with the lunch at the same time. He spends the summer holidays enroute for the American Locomotive Works and the rest of the time waiting to go back to work. He is the pride of the S. A. E.'s, the hope and joy of his parents and the life of Dunkirk.

DONALD R. LINDLEY, 1811 Central Ave., Indianapolis, Ind. "Don."

B. S. in C. E. ATL. C. E. Society (4).

A constant companion of "Skinny" Waterman. "Don" appears at class promptly at fifteen minutes after the hour and carefully avoids all appearance of work after arrival. He comes from Manual Training, but contrary to all precedent does not proclaim it on all occasions. Altho essentially an Indianapolis product he is one of the best liked and one of the best fellows in school.

LESTER H. LIPINSKY, 38 S. Jefferson St., Huntington, Ind. "Lip."

B. S. in Science. Ph.G. Emanon. Cleofan Club, German Club (3), Vice-President. Harlequin Club (1) (2) (3) (4), Musical Director. Pharmaceutical Society (3) (4). Press Club (3) (4). Pharmacy Yell Leader (1) (2). Orchestra Director (1) (2) (3) (4). Band, Asst. Director (1) (2). First Sergeant Cadet Corps (2). Exponent (2) (3) (4). A. A. (2) (3) (4). Class Football (4).

"Lip" hails from Huntington. While a small Freshman he became founder and director of the best and only orchestra Purdue ever owned. He graduated from Pharmacy two years ago, but couldn't leave his orchestra, so he took up a course in Science to occupy the time when he wasn't at "Your Onkles."

LONGABAUGH

LOWRY

LUCIUS

LUDLOW

LUKENS

MCCARTY

WILLIAM H. LONGABAUGH, Logansport, Ind. "Buddy."

B. S. in M. E. M. E. Society (3). Class Football (1). Varsity (2) (4), won "PR" (2), "P" (4).

Since "Bip" made his long run against Chicago in his Sophomore year he has had the fans at his feet and this Fall he was one of the few who showed class. His work at the extreme position was excellent and deserving of praise. Hydranties is his favorite study and with Paul Kelly and "Tex" Bryan as trusty lieutenants he dominates the Powers Block.

JAMES H. LOWRY, Granger, Ind.

B. S. in C. E. C. E. Society, Corresponding Secretary (1). Purdue Debating Society (2) (3) (4). President and Secretary (4). A. A. (4). Second Lieutenant (2). Vice-President Class (4). Assistant Literary Editor '08 Debris.

Lowry is a hard worker at all times and in all lines, especially literary. His never-to-be-forgotten work for the "Purdue Debating Society" has made that organization a permanent and influential one. In spite of so many distracting influences and the regular course of his studies, he has found time to become fairly well acquainted with the East side.

WILLIAM I. LUCIUS, 162 Rural St., Hartwell O. "Sunshine." "Maud."

B. S. in Electrical Engineering, SAE, Athletic Association (2) (3) (4). Ohio Club (2) (3) (4). A. I. E. E. (3) (4).

"Irv" is a Cincinnati product who came to Purdue from O. M. I., determined to win honors in everything, but through the influence of his "sole-kick" he soon lost his ambitious qualities and as a consequence took a Senior course in Descrip. He has a heart as big as his intentions are good, and will do his part toward making the world more happy and prosperous.

SAMUEL R. LUDLOW, 716 Richmond St., Kendallville, Ind. "Lud."

B. S. in Electrical Engineering, A. I. E. E. (4). Athletic Association (4).

Samuel Rollitt points to Kendallville as his DEARIE haunt. He has a large fund of bear stories concerning his early days which are worked out with technical precision, no details being omitted. He will likely make a good practical engineer for the G. E. company, since he hunts at a home of his own somewhere near Schenectady soon after graduation.

RICHARDS R. LUKENS, Roann, Ind. "Dick."

B. S. in C. E. C. E. Society (3) (4). Band (1) (2) (3) (4). Principal Musician (3) (4).

"Galadentus" comes from Roann. Roann is on the map but it is extremely hard to find unless you know the exact location of the town. He has been with us for the full four years and has sprung into prominence on several occasions by showing himself to be a shark of greater or less proportions. He spent last summer building the new town of Gary, and is authority on Municipal Engineering.

LESTER I. MCCARTY, 243 Bluff Ave., LaGrange, Ill. "Mac."

B. S. in M. E. M. E. Society (1) (2) (3) (4). Illinois Club (4). A. A. (4).

Another one of the—old "Mac's in the class, a kind of an undeveloped shark, he surprises his classmates once in a while with a brilliant recitation delivered as if he were in great pain. He says that he swears but we don't believe it for he bushes every time that Klipsch opens his mouth.

McCHESNEY

McCLELLAN

McCLURE

McCORD

MACCOY

McGRAIN

MORTIMER J. McCHESNEY, 505 Capitol St., Charleston, W. Va. "Mac."

B. S. in C. E. ΣΑΕ. C. E. Society (2) (4). A. A. (2) (3).

"Mac" enrolled with the '08 class in our Sophomore year after having gained an elementary knowledge of the noble profession of Civil Engineering at Virginia Polytechnic. He holds the distinction of being the most dignified man in the class, an honor that he fairly earns by his erect carriage and athletic figure. He has the ability to apply himself to the subject in hand and has a fondness for hard work that he has never been able to lose. His only fault is that he made an "A" in Engines and Boilers.

GEORGE O. McCLELLAN, 529 Columbia St., South Bend, Ind.

B. S. in C. E. C. E. Society (2) (3) (4). Webster Debating Society (4). Treasurer (4). A. A. (1) (2) (3) (4). Basket-ball, won Numeral (2) (3).

Mac says he intends to be a farmer, but since he moved his trunk up in the Civil building in his Junior year and scabbed on his location, map we are inclined to believe that he means to be a railroad president or at least a general manager. Mac's friends (?) are inclined to think that his first choice of vocation was the most appropriate one.

ORLANDO McClURE, Sullivan, Ind., R. F. D. No. 2. "Happy."

B. S. in Electrical Engineering. Masonic Club (1) (2) (3). Student Council (3). Class Vice-President (3). Sullivan County Club (2) (3) (4). President (3) (4). Athletic Association (1) (2) (4).

"Happy" is well entitled to the name which was given him in his Freshman year because of his smiling countenance. He is a fearless reformer and has excellent judgment, but never shows it. The least we can say of him is that when "Happy" talked everybody else kept still.

HARRIS C. McCORD, Rockville, Ind. "Mac."

B. S. in M. E. Minnet Club (3) (4). Athletic Association (2) (3) (4). Yell Leader (4). Harmon Club (1) (2) (4). Glee Club (4).

Mac is a farmer lad, pure and simple, whose chief ambition since entering Purdue has been trying to make people think that he is a sport. His stentorian voice, which was cultivated in calling the cows, has won for him the position of yell leader, and his training in evading aforesaid cows has enabled him to do feats of agility which are truly wonderful when leading yells. He expects to follow automobile work. By that, we suppose, he means that he is raising a bunch of males with the idea of selling them after graduation.

PAUL B. MacCOY, 1127 Pearl Street, Columbus, Ind. "Mac."

B. S. in M. E. M. E. Society (4). Athletic Association (4). Goldblers (Late).

Mac, in spite of his multitudinous and confining duties as Most Supreme Monarch of the Grand and Noble Order of Goldblers, has completed the Mechanical Course in the required period of four years. We feel duly flattered that such a distinguished personage should have honored us with his presence, and his wonderful display of industry can be viewed only with amazement. A glance at that part of his anatomy commonly known as his face, leaves no doubt as to his Hibernian descent. We predict for him a bright future and the presidency of the hod-carriers' union.

WALTER G. McGRAIN, 648 Market St., Corydon, Ind. "Kid."

B. S. in C. E. A. A. (4).

"Walt" is the nephew of ex-Secretary of State Gresham, and is a star of the first magnitude and one of the best liked fellows in the civil bunch, which says much for a man. He maintains that Fatout is the tightest man in Purdue and cites incidents to prove it. If the educational part of his course had not taken so much time away from his studies, he might have shamed the sharks, but as it is, he has been busy carrying a lot of friends through.

McNAIR

McNEAL

MACFARLANE

MALCOLM

MARSH

MARSHALL

GRAYSON B. McNAIR, No. 25 St. James Court, Louisville, Ky. "Mac."

"Mac" was formerly a member of the '07 class, but that does not seem to have spoiled him. He is one of DeWitt's best products, courteous, neat and congenial. After graduation he expects to resume the business department of the electric building plant in his home city.

WILLIAM R. McNEAL, 18 Abbottsford Place, Buffalo, N. Y. "Keely."

B. S. in M. F. Wm. Noonan, Class Baseball (3) (4).

Once upon a time some ten and twenty years ago there was a boy in Erie (Ohio), an Irish lad that was one day destined to become a talented and famous engineer. This was our friend Roy, and the fact is recalled in that he should gain his laurels in his education at Purdue. The boy's name is that ever stole a cat or lent the best of his intelligence and morality to the "Zoo" at Mont. St. That

GRAHAM MACFARLANE, Jr., Madison, Indiana. "Packy." "Mack."

B. S. in C. E. EN, C. E. Society (4); A. A. (1) (2) (3) (4).

This "Packy" MacFarlane is no relative to the puglist of that name despite the similarity of cognomens, but he corralled most of the votes for "Greatest Sport" notwithstanding. He ran a good race for the largest sponger but the Phi Delta lobby got in their work and nosed him clear out of the running. He will superintend blast furnaces for a handsome salary, unless he marries a millionairess.

WILLIAM D. MALCOLM, 153 Pierce St., West Lafayette, Ind. "Bill."

B. S. in Science. Football "Varsity Squad" (3) (4), won '07 (3).

"Bill" Malcolm is now looking for a job, but he sincerely hopes that he will never find one. Most of his spare moments are spent in adorning the beautiful models in the show windows. During his stay in West Lafayette he has never been known to miss going over the river on Saturday night.

DELBERT I. MARSH, 53 W. River St., Peru, Ind. "D. I."

B. S. in Electrical Engineering (Telephone).

"D. I." is a quiet unassuming fellow, who does his work well and leaves others to worry over the cares brought on by hurry and ambition. He was content with a few special friends and never sought others. We have no record of his acts of social achievements, but circumstantial evidence would convict him of being a confirmed bachelor.

WALLACE L. MARSHALL, 120 Wiggins St., West Lafayette, "Calamity."

B. S. in C. E. C. E. Society (3) (4), A. A. (3) (4).

Leslie spent his college days at home where his fond mamma could keep her eagle eye on her boy and see that he was not lead into the wickedness and wildness of the reckless students. After graduation he will accept the situation as Vice-President of the Lafayette Bridge Company. His one bad habit is gossiping.

C. R. MARTIN

E. C. MARTIN

F. L. MARTIN

MASON

MAURER

MEHLIG

CHARLES R. MARTIN, 84 E. Mulberry St., Kokomo, Ind. "Abe."

B. S. in M. E. Minnet Club (3) (4). A. A. (1) (2) (3) (4). Class Football (4).

Charley, better known as "Abe," after spending four years in making the Kokomo High School famous, decided to do as much for Purdue. As a Freshman he took a thorough course in levee-hiking under the tutelage of "Al" Greeson; but when he had attained his Junior year he put away his childish habits, moved to the Merdocks and settled down to hard work. By his winning disposition he has made a lot of friends that predict a bright future for him and his Kokomo maiden.

EDWARD C. MARTIN, 911 Paradise St., Cincinnati, Ohio. "Mart."

B. S. in M. E. M. E. Society (1).

"Eddie" is just another representative of the Martin family, no better and no worse. He has been a faithful attendant at all lecture periods for the sole purpose of obtaining an hour of sound sleep. He is an ardent admirer and faithful follower of our married friend, Barbee, and no doubt will on his advice take unto himself a family at the earliest opportunity.

FREDERICK L. MARTIN, Liberty, Ind. "Marl."

B. S. in M. E. Military Club (3) (4). M. E. Society (3) (4). Won Numeral, Football (2) (3) (4).

This ungainly Hoosier, hailing from Liberty, became possessed with the idea that he must become a soldier in order to uphold the name of his native town. He has succeeded in becoming one of the shining lights of the Purdue Army, and this weighs mighty heavily upon his mind. He wears his uniform whenever the occasion offers so that everybody may know he has one. His intended occupation, he says, is "to do others," but from his appearance it would seem that he would be rather easily "done."

FREDERICK F. MASON, 206 E. Fourth St., Mt. Carmel, Ill. "Fritz."

B. S. in M. E. TBI. M. E. Society (3) (4). Band (1) (2) (3) (4). Treasurer (3) (4). Student Council (4).

"Fritz" waited quite a while before he made up his mind to come to Purdue, but he has made good use of his time since. He says he has been in love four times and proposed once. It is too bad she would not accept him for it seems to have made him indifferent. He and a skirt are very uncommon sights around here. He intends to follow gas engine work, but he had better be careful or "Jimmy" will have him as "lunky."

FRANK C. MAURER, Chillicothe, Ohio.

B. S. in Electrical Engineering. SAE. Ohio Club (4). Mandolin Club (4). A. I. E. E. (4). A. A. (4).

Frank came to us from Ohio University in the fall of naughty-six and we're mighty glad he came. He spends his time with things worth while and is getting, to a nicety, what most of us are supposed to get. It isn't his fault that he was born and raised in Chillicothe, neither is he going to let that keep him from looking out for the one place necessary for a broad outlook on life.

JOSEPH P. MEHLIG, 208 W. Jefferson St., Tipton, Ind.

B. S. in Science. TBI. American Chemical Society (1) (2) (3) (4). Athletic Association (3) (4).

Mehlig is the shark of the Science class. He is quiet and courteous, yet enjoys a good social time and is welcomed everywhere as one of the boys. He will devote his future to Analytic Chemistry for the sake of suffering humanity.

MENDENHALL

F. A MILLER

G. M. MILLER

MILLS

MINNICK

MITCHELL

CHARLES A. MENDENHALL, Liberty Center, Ind.
"Mendy."

B. S. in Electrical Engineering, Odd Fellows' Club (4), Debers Staff Assistant Photographer (4).

This is the fellow whom you used to see edging around on the football field with a panorama camera. Incidentally he got a few other snapshots which appear in this book (but you mustn't blame him or the camera for all you see). During his waking moments he spent considerable time in Bessy South's Laboratory, and it was he who invited Bessy to turn human.

FRED A. MILLER, Brooklyn, Ind.

B. S. in Science, Chemical Society (3) (4), Secretary and Treasurer (3), Athletic Association (1).

Miller is a conscientious, hard-working scientist who often is being as precise in his statements as a mathematician. When he made a statement you could rely on it being exact. However, if you're talking a wild nut keep him from being a good fellow, and his friends were as good as being in a conspiracy.

GEORGE M. MILLER, Corydon, Ind. "Cuckoo," "Shorty."

B. S. in Electrical Engineering, A. I. E. E. (4), Athletic Association (3) (4), First Sergeant Cadet Corps (2).

George became known by many pet names such as "Cuckoo" and "Shorty" because his good nature and diminutive size were always being noticed. He could have been a shark but he found too many other things to attract his attention, so he was content to have good grades and more fun. His favorite diversion is chaffing and his exciting tales of automobile days would influence anybody to try the gasoline route.

M. ELBERT MILLS, Peru, Ind. "Pete."

B. S. in C. E., C. E. Society (1) (2) (3) (4), A. A. (3) (4).

"Pete" voted the straight evil ticket for three years or while there was one to vote and then quit voting. He is a man of extraordinary ability and a good student, but he early got a boomer of the Tom Peters and after that he always quit work when the necessary 70 per cent. was obtained. He is a happy-go-lucky sort of a cuss and doesn't particularly care whether school keeps or not.

O. E. MINNICK, 2716 South St., Elwood, Ind.

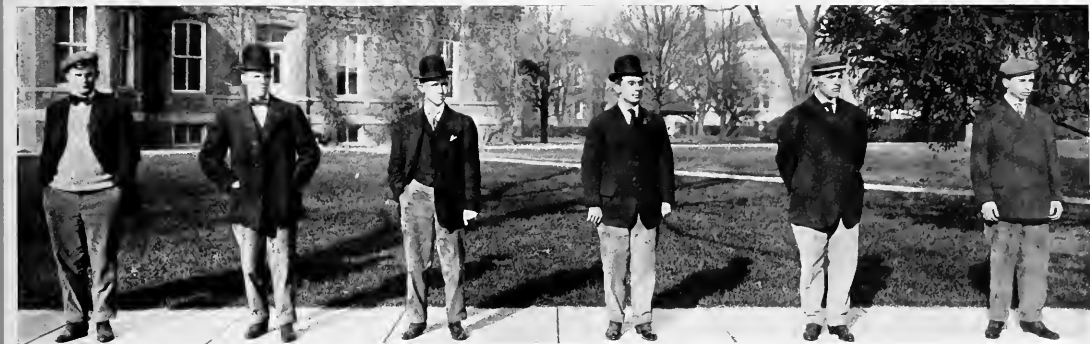

B. S. in C. E., Athletic Association (2) (3) (4).

Another one of the '07 bunch. "We don't know much about him except that he is a good fellow and a good student. He seems to have great ability as a bluffer and this faculty has won him more than one "A." He has a natural capacity for hard work when he so wills and will doubtless land right before many years.

STEWART MITCHELL, 22 St. Joe St., Indianapolis, Ind. "Mitch."

B. S. in C. E., TEL, C. E. Society (3) (4), Athletic Association (3) (4).

Manual Training has sent to Parlane no brighter light than this young man who entered '08 as a Sophomore after holding down a responsible position on the Big Four. During his sojourn among us he has established a reputation both as a good fellow and as a shark. "Mitch" first saw the light of day in "Old Ireland" but he realized that to be up with the times he must be an American, so he emigrated at an early age. He is a little inclined to be lazy, but his native Irish wit and ability have always kept him at the front.

MONTGOMERY

MOORE

MOREHART

MUCK

NIEZER

NIGH

ISAAC H. MONTGOMERY, Linden, Ind. "Ikey."
"Monty."

B. S. in Electrical Engineering, Athletic Association (4), Class Football (3) (4), won '08 (3) (4). Although "Ikey" is always smiling he has nothing to sell you. He is only happy because he finds plenty of time to sleep between "big studies" and he knows that there will be a great welcome for him every time he goes back to Linden. "Ikey" worked hard for the '08 class in football last year and established an excellent record for being on hand at the critical moment. He also worked the Northwestern Elevated during one summer and almost wore out his pass riding to and from the city.

CRIPS B. MOORE, 100 South St., W. Lafayette, Ind. Not Graduated. SN. Harlequin Club (2) (3) (4), Cleofan Club (3), Orchestra (1) (2) (3) (4), Mandolin Club (1) (2) (3) (4), Athletic Association (3) (4).

This lad is from the ranks of W. Lafayette and so he did not have all the ear-marks of a Freshman. Crisp has done a lot of good work for the school, musical organizations and will doubtless do likewise in his profession. His only weakness is his love for the fair sex, of whom only one remains (in his ken) and when he joins the ranks of the benedicts he will be satisfied with life.

FORREST D. MOREHART, 524 S. Meridian Street, Indianapolis, Ind. "Happy."

B. S. in Electrical Engineering, Athletic Association (2) (3), A. I. E. E. (3) (4), Harlequin Club (2) (3) (4), Electrician and Stage Manager (2) (3) (4).

This flaxen-haired, bathroom singer, "Little Happy," came from Indianapolis, where he early became wise in all city ways. He has always taken an interest in theatres and hopes to do some stunts along that line some day. During his Senior year he was stage manager for the Harlequin club and helped materially in the success of "The Fair Co-ed."

WEBSTER C. MUCK, Lockport, N. Y. "Shorty."

B. S. in C. E., New York Club, C. E. Society (3) (4), Irving (3) (4).

"Shorty" is no relation to the man who wrote the dictionary, as his name would indicate, but he is a wise old owl and will no doubt have a brilliant future as an engineer and will fill an important position on some one of the New York State Trunk Lines.

GEORGE B. NIEZER, 524 W. Wayne St., Ft. Wayne, Ind. "Pus."

B. S. in Mechanical Engineering, 1901, Mechanical Engineering Society (1), Athletic Association (1), won Numeral (4).

"Pus" is one of the few men in the university who is large in every particular. He comes from a good town but generally has a hard time getting past Huntington. He expects to extract the nimble nickle from some firm by his knowledge of Products.

EDISON R. NIGH, North Baltimore, Ohio. "Ned."

B. S. in Electrical Engineering, Acacia, Cleofan Club (3) (4), Ohio Club (2) (3) (4), A. I. E. E. (4), Athletic Association (2) (3) (4).

Edison's profession was pre-determined when he was christened. He has shown ability not only along engineering lines, both electrical and mechanical, but also in the theories underlying household economics. He was always sociable and accommodating, hence found time to make many friends during his college career.

PARKES

PARKER

OLMSTED

J. T. OSBORN

R. J. OSBORN

PALMER

ARDEN B. PARKES, Townsville, N. Queensland, Australia. "Kang." "King Ed."

B. S. in Mechanical Engineering. Mechanical Engineering Society (2) (3) (4). Mimet Club (2) (3) (4). President (3) (4). Cosmopolitan Club (4). Chairman Executive Committee (4). Athletic Association (2) (3) (4).

This long-legged progeny from the land of kangaroos came to us fresh in his Sophomore year. He is strong on larm Australian jokes, which, not being understood, have given him that high social position which he so strives to maintain. Notwithstanding this said social position he still claims to be true to a dark haired maiden back home.

FRATT E. PARKER, Salem, Ind.

B. S. in Mechanical Engineering. Mechanical Engineering Society (3) (4). Athletic Association (4).

The local newspapers of Salem periodically chronicle the progress of their younger generation, hence "Pratt's" career will be duly placed on file. He has an earnest desire to be an engineer and is one of those fellows who are as ready to give as to acquire knowledge. His genial good nature and good-fellowship have won him many friends among his classmates. For further information we refer to the files of the Salem papers.

CHARLES E. OLMSTED, Evansville, Ind. "Irish."

B. S. in Agriculture. Agricultural Society (1) (2) (3). Secretary (2). Athletic Association (3) (4).

"Irish" never liked to smile very much, but was ever ready for a rough-house. Any rowdiness in class was always attributed to him, but he always proved capable of getting out of trouble with a hot-shot for his accuser. We would recommend him as a good boss for some farm.

JESSE T. OSBORN, Economy, Ind. "Beany."

B. S. in C. E. C. E. Society (2) (3) (4). Athletic Association (2) (3) (4). Class Football (4).

Jess is a mild-mannered young man who has been with us four years, spends most of the time sleeping, but wakes up in time to pull through when the time comes. He is a hard conscientious worker at times and is listed as a "near-shark." He hopes to make some railroad company a first-class Chief Engineer.

ROBERT J. OSBORN, Economy, Ind. "Joe."

B. S. in C. E. C. E. Society (2) (3) (4). Athletic Association (2) (3) (4).

The oldest one of the Osborn boys. Has been four years in school, enjoys football, mechanics and rabbit-hunting and hopes one day to become an eminent engineer. He gets along all right with everybody and everything, simply because he is not energetic enough to stir up a good rough-house.

W. C. ALLEN PALMER, Ligonier, Ind. "Crow."

B. S. in C. E. C. E. Society (4). Irving. Class Insignia Board (3). Exponent Board (1). Football Banquet Committee (2). Associate Editor Debris. Athletic Association (1) (2) (3) (4). Press Club (3) (4). Executive Committee (4).

"Crow" has inhabited the Murdock Flat since the time when the memory of man runneth not to the contrary, and is also a shareholder in the Lafayette Street Railway Co., which stock, however, has, up to date, paid no dividends. When he and his gang run wild "Kid" Welsh and the other inhabitants of that venerable structure are wont to hunt their holes and retire till the atmosphere clears. By sheer force of vocal storm he governs the rest of the "nesters" in that "Isle of Rest."

PHELPS

PHILLIPS

POTTLITZER

POWERS

BARTON P. PHELPS, 1020 Clay St., Topeka, Kansas.
"Deacon."

B. S. in Mechanical Engineering. ΣN. Mechanical Engineering Society (2) (3) (4). Corresponding Secretary (4). Carley (2) (3) (4). Treasurer (4). Athletic Association (4). Treasurer '09 Class.

"Deacon" landed here from the wild and woolly west with the Freshman class of '09. Having had considerable work for which he received credit he took a step ahead and is going out with us, Zehring permitting, Phelps is a harmless sort of a cuss that never did anyone any harm intentionally and probably never will. His favorite exercise is jumping from one foot to the other, at the same time taking a deep breath, the whistle of which resembles "never having been in that condition, I will take a cigar."

CALEB N. PHILLIPS, The Chalfant, Indianapolis, Ind.

B. S. in C. E. C. E. Society (4). Irving (1) (2) (3) (4). Critic (2). Treasurer (3). Vice-President (3). President (4). Athletic Association (1) (2) (3) (4). Class Football, won Numeral (1) (2) (3). Varsity Basket-ball Squad (3) (4). Won Numeral, Class Basket-ball (3). Exponent, Athletic Reporter (3). Athletic Editor (4). Assistant Athletic Editor Delris. Class Insignia Board (2) (3) (4).

Caleb has always been a hard consistent worker and an interested participant in all student and University affairs. He has always given the best that was in him for the class and has, by his efforts and labors, assured the success of many student movements and had everyone in the student body the welfare of Purdue and their class so much to heart as Phillips, the spirit of the school and their own position in the college world would be greatly improved.

MILTON POTTLITZER, Lafayette, Ind. "Potty."

B. S. in Science. Athletic Association (1) (2) (3) (4).

If you ever saw a slim fellow with balloon trousers and a college hat tilted at the angle ♯, leaning against the trolley-pole in front of Deschler's cigar store and staring idly into space you may bet it was "Potty." He came into prominence in his Freshman year by appearing in a military suit eight sizes too large, but the ruse worked and "Potty" has been busy working ruses ever since.

GROVER F. POWERS, 128 N. Grant St., W. Lafayette, Ind. "Babe."

B. S. in Science. German Club (2). Secretary (2). Athletic Association (1) (3) (4).

"Babe" acquired his pet name not so much by his amiable disposition and angelic face as by his diminutive voice. He is a product of West Lafayette, and is gaining a college education before he goes out in the stern world to learn how to be a physician. We predict that his quiet manner and manly frame will make him quite a favorite with the ladies.

PRAHL

PRAKKEN

RANDALL

REESE

J. S. RICE

W. E. RICE.

CARL A. PRAHL, 718 E. St. Joseph St., South Bend, Ind. "Cap."

B. S. in Mechanical Engineering, Mechanical Engineering Society (4), Athletic Association (1) (3) (4).

"Cap" came in just as an ordinary Freshman, content to let things take their course and to drift along with the tide. Athletics seem to be his main hobby as he takes a hand in class basketball, is one of the best exponents of the noble art of self-defense in school and shows great interest in all other branches of sports. He has very definite and pronounced ideas concerning socialism and is always willing to expound his cause.

NICHOLAS PRAKKEN, Lafayette, Ind. "Nick."

B. S. in Electrical Engineering, Acaia, Athletic Association (2) (3) (4), A. I. E. E. (4).

"Nick" came down from M. A. L. in his Junior year and hasn't finished telling about his experiences at Ohio. He is one of the biggest bluffers in the class, being authority on anything from statistics to domestic science. His strong points are his wide life experience, although he claims to be over forty-six. However, his bluffing is a big asset to his imagination and every day in his company.

JACOB S. RANDALL, Dana, Ind. "Jake."

B. S. in C. E., Varsovienné (4), Athletic Association (1) (4).

He took "Doc" Hatt's talk to the Senior Civils so much to heart that he means to be a county surveyor. We all hope, however, that he will get over this lurch in course of time, as we believe him too good a man for such a position in life. His worst faults are rooming with Tillotson and consorting with Louis Grimes before Club dances.

HERBERT H. REESE, Cambridge City, Ind. "Herbie."

B. S. in Agriculture, Argonaut Club, Agricultural Society (3) (4), President (4), Band (1) (2) (3) (4), President (3), Second Lieutenant Cadet Corps (4), Athletic Association (4).

"Herbie" was nearly ruined by being with the engineers for one semester, but after some disciplining became quite docile and learned a great deal about horses. He never got over his love for guns and music and proved a valuable officer in the military band and the "Purdue War."

JAMES S. RICE, Miami, Ohio. "Jimmy."

B. S. in C. E., Phi Kappa, Class Baseball (1), Varsity Baseball, won "I" (2) (3) (4), A. A. (3) (4).

"Jimmy" secured a warm place in the heart of every student when he came out to toss the spheroid in his Sophomore year. His grin is known to every one and his reputation for good nature equals that of his pitching. We understand on good authority that he has signed for professional baseball and he has our heartiest wishes for success as a big leaguer.

WILLIAM E. RICE, 1202 S. 14th St., Lafayette, Ind. "Stonewall Jackson."

B. S. in C. E., Phi Kappa, C. E. Society (4), Athletic Association (3) (4), Debating Society (4).

"Stonewall" won crowns of glory and fame by his undaunted prowess in the battles of the Purdue Army. He is a Lafayette product and has stably withstood the terrific blasts of the levee for four years. This is one of the few good-natured Tau Betas who will do all in their power to help another. He is a good fellow and will certainly make a name for himself.

RITCHIE

RIVERA

B. ROBISON

E. D. ROBINSON

R. M. ROBINSON

C. H. ROSENAUM

RAYMOND R. RITCHIE, Hoopesston, Ill.

B. S. in Electrical Engineering, Glee Club (4), A. I. E. E. (4), Athletic Association (3) (4).

Raymond has never been known to do anything bad. When he first came to Purdue he was taken under the care of a Baptist minister and has worn a grievous look in the company of students ever since. He is conscientious, kind and generous with advice, but his college education has been neglected. It is highly probable that he was originally designed for a preacher.

JOSE RIVERA, Pagsanhan, P. I. "Riv."

B. S. in Agriculture, Cosmopolitan Club (4), President, Newman Club (3) (4), Sergeant-at-Arms (4), Jeffersonian Debating Society (4), Agricultural Society (1) (2) (3) (4), Treasurer (2); Secretary (3), First Lieutenant Cadet Corps (3), Athletic Association (3) (4).

"Joe" distinguished himself by organizing a real wide-awake Cosmopolitan Club. He is generally popular with the boys and would make a splendid king for some island empire if the government doesn't take advantage of its option on him.

BEECHER ROBISON, Walkerton, Ind. "Robbie."

B. S. in M. E., Mechanical Engineering Society (3) (4), Athletic Association (3) (4).

"Robbie," a welfoot from the Kankakee swamps, had never ridden anything but a flat-boat until he came to Lafayette and then attempted a bicycle and succeeded in spoiling his face. His silence has kept him down a little, but he has managed to become a shining light in the Y. M. C. A., and we expect him to become a leader in the prohibition circle in the near future.

EARL D. ROBINSON, Berrien Springs, Mich. "Bob."

B. S. in C. E., Michigan Club (2) (3) (4), C. E. Society (4), A. A. (4), won '09 Baseball Nominal.

"Robbie" is pretty much of a fooler. He entered with '09 and even went so far as to acquire a sweater vest from the assemblage before he tired of them and decided to join a better class. His case has been a little in doubt but by hard consistent digging he has managed to make the stall and graduate.

ROY M. ROBINSON, Fairbury, Ind. "Robbie."

B. S. in Electrical Engineering, Band (1) (2) (3) (4).

"Robbie," as he is generally known, evidently recognized a good thing when he came from Illinois to Purdue. He has little to say but there is no lack of perseverance under that red hair, so he may be counted as one who will get there. He was always Emrick's right-hand man and tooted a trombone for four years.

CLARENCE H. ROSENAUM, 1206 Upper Second St., Evansville, Ind. "She."

B. S. in M. E., M. E. Society (2) (3) (4), A. A. (1) (2) (3) (4).

"She" is designated from his illustrious cousin, "He," by their initials only. They are both short, fat, and scoldish, but "She," on account of his small feet, has been able to hit the faster pace, and has made an awful good run for the greatest Levee Driller.

H. H. ROSENBAUM

HERBERT H. ROSENBAUM, 54 Michigan Ave., Mobile, Ala. "Rosie."

B. S. in M. E., Athletic Association (1) (2) (3) (4), M. E. Society (2) (3) (4), Won Numeral, Football (4).

"Rosie," also known as the "Pork Trust," is one of the insufferable Rosenbaum twins. He should be President of the "Knockers" Club for he has especial talent in leading the avil chorus. It matters not whether the subject is good or bad, "Rosie" is there with his hammer. He intends following M. E., as he states it.

MATHIAS R. ROTHENBERGER, Mulberry, Indiana. "Dutch."

B. S. in M. E.

One dreary morning in the fall of '04 a curious object was noticed climbing up the hill, and by the aid of a field glass we were able to distinguish "Dutch." He had heard of Old Purdue from the "Seed Corn Special" and by weary plodding he managed to reach here. He has worked diligently for four years, and will undoubtedly bring fame to his native village of Mulberry.

ROTHENBERGER

CHARLES E. RUNDORFF, 617 N. Seventh St., Burlington, Iowa. "Runnie."

B. S. in M. E., Mechanical Engineering Society (4), Athletic Association (1) (3) (4), Emanon Club (4).

"Runnie," a native of the land of "Nowhere," has spent four years in civilization and undoubtedly has been benefited by it. Although slow and sleepy when he arrived, he has awakened considerably, due to the fast pace he has been obliged to keep up in chasing "Show Girls."

HERBERT S. RUSSELL, 29 West 14th Avenue, Denver, Colo. "Russ."

B. S. in Electrical Engineering, Colorado Club (4), President, A. I. E. E. (3) (4), First Lieut. Cadet Corps (2), Captain (3), A. A. (3) (4).

Although he came from Colorado our sentiments for Russ are not "back to the mines." Quiet and reserved, yet much of a thinker, he takes care of his part in the classroom. Russ has contributed not a little to the "spiritum" fresco which adorns the far pit in the electrical lab, and the only question is: "Does he also use the weed while he sleeps?"

RUNDORFF

RUSSELL

CLARENCE W. RUST, 532 S. State St., Painesville, Ohio. "Rusty."

B. S. in Electrical Engineering, Ohio Club (1) (2) (3) (4), Band (1) (2) (3), Manager (3), 2nd Lieut. Cadet Corps (3), Class Baseball (2) (3) (4), won '08 (2) (3) (4), A. I. E. E. (4), Athletic Association (4).

"Rusty" gained the admiration of everybody by his handsome features and good judgment. He was known as one whose word could be depended on either in classroom work or in outside business and his services were accordingly in demand. His honest face and excellent application will surely bring him success.

RUST

SAGE

SALE

SCHMID

SCHRADER

SCHUMACHER

SCHULTZ

GEORGE H. SAGE, Elyria, Ohio. "Beany."

B. S. in C. E. C. E. Society (2) (3). A. A. (2) (3) (4). Vice-President (2). Insignia Board. Varsity Football (3) (4), won "P" (4). Varsity Track (1) (2), won "P" (1) (2). President '07 Class.

"Beany" is a native of Ohio, and also appears on the honor roll of the '07. A first-class athlete, he played football at Purdue in the days when football was played by the players, not by the faculty committees at Chicago, and also held the Purdue record with the discus for several years. He was one of the "Big Guns" of the '07 class and prominent in University affairs. He majored in Hydraulics under Sackett and came out victorious.

FRANCIS B. SALE, 733 Wayne St., Fort Wayne, Ind. "Cy."

B. S. in M. E. BOIL. M. E. Society (3) (4). Carlyle (1) (2) (3) (4), Secretary (2). A. A. (1) (2) (3) (4).

"Cy" has been with us for four long years and we all know what a good-natured fellow he is, even if he is so how-legged that he cannot stop a pig in the alley. He intends by his metallurgical knowledge to divert the mammon of unrighteousness from the gold mines of Idaho to his own coffers.

ROBERT C. SCHMID, 872 E. Drive, Woodruff Place, Indianapolis, Ind. "Dutch," "Bob."

B. S. in Mechanical Engineering. First Sergeant Cadet Corps (2).

About the worst that can be said of "Herr Schmid" is that he came from the Indianapolis M. T. H. S. Schmitzy 1st ein grosser Levees-spaziergangmacher, and three times a day the housewives along Littleton street may set their kitchen clocks at the appearance of his graceful glide. He takes pride in having helped build the new Experiment Station, bossing a gang of negroes and Hunyaks like a civil prof. Those who know him, like him,—the better, the better.

OTTO H. SCHRADER, Jr., 1718 Melrose St., Chicago, Illinois. "Dutch," "Ot."

Athletic Association (1) (2) (3) (4). Military Club (2) (3) (4). Corps Adjutant (3) (4). Illinois Club (1) (2) (3) (4). Glee Club (4).

"Dutch" came from the "Windy City" and brought along a good supply of the heated medium famous to that place. His attitude in class room would indicate that his decision was final, but he was always ready to re-open the discussion. He is well known as a hustler and has many friends in '08.

AMOS J. SCHUMACHER, 1226 Jackson St., Anderson, Ind. "Shuic."

B. S. in M. E. TBIL. M. E. Society (2) (3) (4). A. A. (2) (3) (4).

"Shuic" with his turkey laugh, is an Amler-son product. He is just a good, jolly "Dutchman" and can give and take a joke with the best of them. Girls are a little out of his line except in the case of the landlady's daughter, who seems to have played havoc with his resolutions. His joy of living will have vanished when he can no longer work overtime in the design rooms and he will die of inactivity if not working under an overload.

EARL E. SCHULTZ, Blanchard, Iowa. "Winsome Willie."

B. S. in M. E. Y. M. C. A. (4). Harlequin Club (3) (4). M. E. Society (1) (2) (3) (4). Treasurer (4). Athletic Association (4). Band (1) (2) (3) (4). Orchestra (3) (4).

This "Winsome Willie" with the saxophone face is reputed as one of the prize goats of the class. He began in his Freshman year to develop an abnormal growth of horns and during the past two years has shown great ability as a "rammer." His highest ambition is to be a signal engineer, and using aforesaid qualities he should make a signal success.

SCIPIO

SEGUR

SENOUR

SHAFER

SHAW

SHERIDAN

LYMAN A. SCIPIO, Chalmers, Ind.

B. S. in M. E., M. E. Society (4), Glee Club (2) (3) (4).

Scipio entered the ranks in our Sophomore year and immediately began studying. Not being content with the amount of work required by the Sophomore and Junior course he took up teaching in the local High School. His last year has been spent in cooperative rest, giving particular attention to his beauty in hopes of falling a victim to leap year.

A. BERTRAND SEGUR, Angola, Ind.

B. S. in C. E., Y. M. C. A. (2) (3) (4), C. E. Society (3).

Not the worst scab, pretty much of a goat, lots of belief in his own importance, and the distinction of being the dumbest man in the class. He wanted a role on the Panama Canal but the chief engineer was not ready to quit yet so they had nothing to offer a man of his exceptional (?) ability and qualifications. He will probably start in as a consulting engineer.

DANIEL SENOUR, Plymouth, Ind. "Dan."

B. S. in Electrical Engineering, Acacia, Glee Club (1) (2) (3), Harlequin Club (2), A. I. E. E. (3) (4), Athletic Association (1) (2) (3) (4).

This society senior is like the Daniel of old, a just and upright man. Although seldom seen laughing, we know he has a keen sense of humor and a kind heart. He never did much in society, but we have excellent reports of the days past and believe he is the kind who wouldn't start anything he couldn't finish.

FREDERICK C. SHAFER, Boonville, Ind. "Butch."

B. S. in M. E., I.P.S. THH, Alumni Ring Committee, Chairman Reunion Day Gala Week.

"Butch" came to us four years ago from Boonville, Ind., and tried for nearly three years and a half to dodge the Tan Letts, but was at last cornered and caught. He is still pretty much of a kid but is learning rapidly and his strong convictions, sincerity and willingness have made his friends numerous. He is undecided as to what firm will secure his valuable services.

JOHN A. SHAW, Lawrenceburg, Ind.

B. S. in C. E., I.P.S., Varsovievic (3) (4), President (4), C. E. Society, President (4).

John has the reputation of changing his address oftener than any other senior civil. This is not due, however, to his inability to agree with the lamplades, but to his natural roving disposition. In spite of these frequent "Hercules" he has time to do his work and do an occasional social stunt besides taking frequent vacations when the mood strikes him.

A. LEMON SHERIDAN, 1122 S. Ninth Street, Lafayette, Ind.

B. S. in Electrical Engineering, A. I. E. E. (3) (4), Athletic Association (3) (4).

Like his historic namesake, Sheridan was always "twenty miles away" when the roll was called, but he couldn't help it that the cars didn't run fast. He is undoubtedly the original "Lemon" boy, age 29, and is entirely a home-grown product. By many he is esteemed as one of the biggest and best hand-kid "kibs" that has ever sprouted horns.

SHERWOOD

SHIEL

SHORT

SHULL

F. C. SMITH

G. R. SMITH

CARL C. SHERWOOD, 428 Railroad St., Kendallville, Ind. "Sherry."

B. S. in C. E. Minut Club (3) (4). Athletic Association (1) (2) (3) (4). Insignia Board (2) (3) (4). Class Football (4). Varsity Baseball Squad (2) (3), won "P" (4). Class Athletic Manager (2).

Great men sometimes originate in small towns and "Sherry" well illustrates this saying. He appeared in the limelight of Purdue activities in his Freshman year and has been a consistent classman thru his four years. He has taken a deep interest in Athletics and by hard persevering work has well deserved his letter in baseball.

WALTER R. SHIEL, 1021 N. Meridian St., Indianapolis, Ind. "Maud."

B. S. in C. E. ΔΘΔ. C. E. Society (4). Webster Debating Society (4). Vice-President (4). Wron Numeral, Class Football (4). Athletic Association (3) (4).

"Maud" strayed into our quiet and uneventful existence when we were Sophomores. Like his famous namesake, he heralded his approach by a baying that caused even the bravest to tremble. The saying, sense of humor was forgotten when he was assembled and this fact amuses his friends. It is stated by the Phi Deltas, collectively and individually, that never since he entered has he seen the point of a joke or told a story correctly. None the less he is a good friend and we are glad to have known him.

JAMES G. B. SHORT, Hillsboro, Indiana. "Jimmie."

B. S. in C. E. C. E. Society (2) (3) (4), Treasurer (3). Athletic Association (3) (4).

"Jimmie" may not be Irish but he looks the part all right. When he was yet a verdant Freshman all the Profs. took a shot at him, trying to kick him out, but he stuck to the ship and bar accidents will be on the job in June. He is a man about town, a mixer, thinks that most real hard work is a nuisance and an abomination of the devil, and his looks fully qualify him for a position on a first-class road as section foreman.

WILLIAM G. SHULL, Ingalls, Ind.

B. S. in Electrical Engineering. Athletic Association (4).

Shull is one of the Electrical Engineering students who will labor for the prevention of cruelty to the "Hello girls." Being naturally bright and possessed of splendid application he found ample time to devote to cards and beauty sleep. His most delightful hours were spent at Griffith's Dancing Academy and his most strenuous hours in devising schemes to prevent his roommates from purloining his smoking tobacco.

FREDERICK C. SMITH, Delphi, Ind. "Freddie."

B. S. in C. E. THE. C. E. Society (2) (3) (4). Press Club (4). Irving (2) (4). Vice-President (4). Secretary Class (1). Business Manager, Engineering Review (4). A. A. (1) (2) (3) (4).

"Freddie" Smith, Delphi, Ind., sharp, student and orator, will be a civil engineer. The only man in the whole Athletic Association with nerve enough to tell "Mike" what he and all other fair-minded members thought of the I. C. resolution introduced by "The Golden Family" and bulldozed thru by under-class aid. Well thought of by his classmates and will surely be a success.

GUY R. SMITH, 86 Byron St., Huntington, Ind.

B. S. in Electrical Engineering. THE. Emanon. Harlequin Club (3). Assistant Stage Manager. Mandolin Club (4). Athletic Association (3) (4).

Smith is as plain, unassuming a creature as you could wish to meet, but there is more quality in the man than the quiet name and manner would indicate. His most terrible epithet is "Goosh Dang," and his favorite pastime is "peace-making," until he exercised his pacifying powers on two of the "Oakland gang" and as a result saw whole millions of stars and satellites.

STOUT

STRAYER

TEETER

THALE

THOMAS

TILLOTSON

WALTER D. STOUT, S. East Street, Cicero, Ill.
"Flossie."

B. S. in Mechanical Engineering, THH, Mechanical Engineering Society (1) (2) (3) (4), Vice-President (4), Glee Club (3).

"Flossie," fresh from his victories in Cicero, came and started to take Purdue by storm. However his tactics were not well planned and his campaign was a failure. His main object in the course seems to be keeping on the good side of the Prof., and in this much at least he is an adept. When posing for a picture he shows to best advantage and he is so neat that a fly can't stick to him.

LLOYD W. STRAYER, 611 W. Market St., York, Pa.
"Handy-man."

B. S. in C. E. (E), Pennsylvania Club (3) (4), C. E. Society (3) (4), Athletic Association (3) (4).

Lloyd first tried Worcester Tech. for three years with rather indifferent results and then came to us at the beginning of our lunar year. We correctly judge that Lloyd works harder and gets less done than any other man in school. We don't think he is a cold-stay the proverbial pig in the mire, and it was only after three attempts that he finally stopped calculating. He says his intended profession is teaching, but just on the quiet he is determined to sell the results of his thesis work to the best and live off of the income.

MARCUS E. TEETER, Monticello, Ind. "Marcus Aurelius."

B. S. in Agriculture, Aeolian Club (4), Cosmopolitan Club (4), Jeffersonian Debating Society (4), President, Agricultural Society (1) (2) (3) (4), President (4), Agriculturalist (3) (4), Business Manager (3) (4), Band (1) (2) (3) (4), Orchestra (1) (2) (3) (4), Librarian (3) (4), Athletic Association (2) (3).

"Marcus Aurelius" gained his high sounding name because of his executive ability. He was one of the fathers of the Purdue Agriculturalist and talked for the money which made it such a great success. He took a hand at everything in the "Ag" Department and had plenty of time left to devote to student affairs. He is good-natured, sociable and reliable, all of which will aid him as a farmer.

CHARLES J. THALE, 1825 Pennsylvania St., Indianapolis, Ind.

B. S. in Mechanical Engineering, THH, Press Club (4), Newman Club (4), Mechanical Engineering Society, Carlyle (1) (2) (3) (4), Athletic Association, Secretary Class (3) (4), Literary Editor, Debris.

Charles is another one of the Indianapolis contingent and a good part of it too. Artist, scholar, literary and ladies' man, his record in Purdue has been an excellent one and as his ability and perseverance are unquestioned, he will doubtless soon make a success of life.

HADLEY C. THOMAS, Elizabethtown, Ind. "Tom."
D. S. in C. E. Minnet Club (3) (4), A. A. (3) (4).

After two years association with '07 Tom decided that he would do better with '08, and so waited for us, even tho he had opposed us in one terrible battle. He is a good fellow but his one weakness is his frequent trips to Indianapolis. He is so sleepy and so quiet that his presence in school was not even suspected till the latter half of his Junior year.

MINER R. TILLOTSON, 209 S. East St., Lebanon, Ind. "Tillie."

B. S. in C. E. JT, Varsovie (3) (4), C. E. Society (2) (3) (4), A. A. (3) (4).

A product of Northwestern, "Tillie" joined us in our Sophomore year and for the first two years carried an average of six many hours that in his Senior year he almost flunked for lack of work, with only a paltry thirty-three hours to prepare. He is a typical minister's son and would doubtless make a good and eminent divine had he not chosen Civil Engineering as a profession.

TORRENCE

P. M. TRUEBLOOD

R. O. TRUEBLOOD

TUASON

TURNER

TURPIN

GEORGE P. TORRENCE, 522 Branson St., Marion, Ind.

B. S. in M. E. ATO. T.H.H. M. E. Society (3) (4). A. A. (1) (2) (3) (4). Second Lieutenant (2). Varsity Football Squad (3) (4), won "P" (4). Usher at Church (3) (4).

Since his arrival in Lafayette George has been one of the hardest and most conscientious workers in the class. Not only has this been the case in the class room alone, but he has shown an unusual amount of determination in all class affairs and on the football field. We feel that he will be able to acquire the shekels in whatever he may take up.

RICHARD O. TRUEBLOOD, West Lafayette, Ind.

B. S. in Electrical Engineering. Athletic Association (2) (3) (4). Cross Country Club (1) (2) (3) (4). A. I. E. E. (4). Y. M. C. A. (2) (3) (4), Cabinet (3).

"Gloomy" did not win his name but inherited it from his brother. In fact, he was not at all gloomy, but was always industrious, contented and obliging. He never made much of a fuss about everything, but his opinion was worth while at all times. He became a member of the Cross Country Club under "Dad" service and continued in the work all four years.

ALFONSO TUASON, Manila, P. I. "Twat."

B. S. in Agriculture. Military Club, Athletic Association (3) (4). Agricultural Society (1) (2) (3) (4). Cadet Corps, Sergeant (2); First Lieut. (3); Captain (4). Cosmopolitan Club.

This happy Philippine never let cares erase his continual smile. He probably mistook Purdue for a military school when he first read the catalogue, but, far from being discouraged by first impressions, he took all the military honors that came his way and would have taken more if the faculty had not disapproved of his fraternal schemes.

MARSHALL S. TURNER, 307 E. Charles St., Muncie, Ind. "Eabe."

B. S. in M. E. BOH. M. E. Society (3) (4). Harlequin Club (1) (2) (3) (4). A. A. (1) (2) (3) (4).

"Eabe" comes from Muncie and has done much to strengthen our opinion that now and then there is a good man produced in that town. He is one of the fellows that has always been able to pass up his work without an undue amount of study. He has been noted for his good looks, especially among the fair sex and as the pretty girl in the "President of Oolong," he looked sweet enough to eat.

PAUL M. TRUEBLOOD, W. Lafayette, Ind.

B. S. in C. E. C. E. Society (3) (4). Jeffersonian (4), Vice-President (4). A. A. (3) (4).

Contrary to family tradition of the Truebloods, Paul first partook of the fount of learning at Northwestern, and so has been with us only the last years, but in that time he has firmly established his reputation as a shark. He is always willing to help a deserving friend in an extremity and consequently friends are numerous.

JAMES C. TURPIN, Dayton, Ohio. "Turp."

M. E. Society (3) (4). F.M. Harlequin Club (2) (4). Secretary and Treasurer (4). Athletic Association (4), won '08 in Tracks (2).

"J. C. Turpin, Dayton, Ohio," the man with a vocabulary and a record of 1500 words per minute. But he is a gas engine expert and has proved his worth in college, showing some of the "profs" a few new turns. He works hard when he has to. Does not carry anything to excess except smoking, and is a good fellow in every sense.

TWOMEY

LEE S. TWOMEY, 258 Spring St., Jeffersonville, Ind. "Jack."

B. S. in Electrical Engineering (3) (4). Athletic Association (2) (3) (4). Phi-Kappa Club (1) (2) (3) (4).

Though small in stature, he is mighty in words, and it frequently happened that he told the profs, wherein they were in error. He does not believe in studying at the expense of his college education and incidentally spent much valuable time making a bit with the fair sex. During the last year he made himself popular (?) by being habitually late to classes.

ROY L. UNDERWOOD, 426 Bushman St., Hattiesburg, Miss. "Teedie."

B. S. in M. E., T. B. L. M. E. Society (2) (3) (4). Governing Council (3) (4). A. A. (2) (4). Asst. Distributing Manager, Engineering Review (3).

Underwood was a little afraid that his behav-
ing group would not do him justice so he turned
in the following to be sure. "Prechie" is another
of the genuine good fellows whose friendship is worth
more than money. He has shown extraordinary
valour for work and his reputation as a student
is well deserved by his general good nature. We
are confident that a most brilliant future for him
is before him. His pre-occupation during the
year has been a careful and scientific selection of a
subject.

UNDERWOOD

VALENCIA

FELIX V. VALENCIA, 13 E. Lopez St., Iloilo, P. I. "Felix."

B. S. in M. E., M. E. Society (3) (4). Athletic Association (2) (3) (4). Phi-Kappa Club (1) (2) (3) (4). Cosmopolitan Club (4).

Felix came to us from the land of Aguinaldo. Although he has been here for three years, he still talks in the language of "Goyoniam," but has mastered enough of the English to be able to make great headway with the "American Society Belles." We expect him to accomplish great feats in en-
gineering in his native land when he returns thither.

VIOL

WALTER E. VIOL, 321 S Sixth St., Lafayette, Ind. "Toots."

B. S. in Electrical Engineering. SAE. T. B. L. Engineering (2) (3). Critic (3). Sergeant Cadet Corps (2).

"Toots" was a thorough student who studied to the love of it. He had a taking way of telling the professors how much work a Senior should do, and he always carried his point. His handsome features and clear voice will doubtless make him popular as a young engineer.

VOIGHT

JOSEPH F. VOIGHT, Jeffersonville, Ind. Not Graduated.

"Joe" first inflicted himself on us when he managed our Freshman football team. His health induced by over study and many cares (so it is written) caused his withdrawal from the ranks last January and put him in the list of the "also rans."

WADE

NEWTON B. WADE, 201 Seventh St., Millville, N. J. "Newt."

B. S. in C. E. T. B. L. New Jersey Club (4). President (4). C. E. Society (3) (4). A. A. (1) (3) (4).

"Newt" has the proud distinction of being the only man in the class that has not missed Sunday school even once in the last fifteen years and he carries the honor without conceit. He missed a couple of working hours once when he was a Freshman, but since that time he has never let it happen again. If the Profs. are all as generous as H. O. G. he will not run out of work till the gong sounds. He had a firm hold on the Fan Fictor Peters ever since he bit and never let up till he got there and then he had the habit.

WAGNER

WAIT

WATERMAN

WATSON

WEBB

WEBER

ARTHUR E. WAGNER, Huntington, Ind. "Hans."

B. S. in Electrical Engineering. Emanon Club, Class Treasurer (4), Harlequin Club (1) (2) (3) (4), Assistant Manager and Stage Manager (3) (4), Mandolin Club (2) (3) (4), Class Football, won "08" (1) (4).

"Hans" is authority on operas and took a leading part in all the doings of the Harlequin Club. He proved himself to be a good financier in handling the Senior moneys and would doubtless make a good manager of some troupe if he was less attractive.

ELMER G. WAIT, 733 Grand Ave. Connersville, Ind.

B. S. in M. E., A. A. (2) (4), M. E. S. (4).

"Dutch" first saw the light of day among the Irish of Connersville, but don't blame the town. When he cast his lot with '08 he tried to live the simple life among the Snoddyville heathen, but the stress of five-cent vaudiville brought him back in contact with civilization. Although he has aspirations to be an automobile expert, his friends all say he is the natural born and only running-mate for "Rosie" in the Gala Week play, '08 Through Thick and Thin."

OSCAR C. WATERMAN, 726 W. 43rd St., Indianapolis, Ind. "Skinny."

B. S. in C. E., A.T.P., C. E. Society (2) (3) (4), Harlequin Club (2) (3), A. A. (3) (4).

"Skinny" as he is known to his friends is a prince of good fellows. His acquaintance with several of the East Side merchants has done much to increase the interest of the Senior class in history in inspection trips to those parts of the city that reek with the odor of hups. He is by no means a slouch in his studies and in the course of events will "make good."

GEORGE S. WATSON, 1007 Race St., Princeton, Ind. "Wattie."

B. S. in M. E., M. E. Society (3) (4), A. A. (4).

This amiable young man hails from the little hamlet of Princeton which nestles in the hills of Hoosierdom and is noted for the ambition of its rising generation. "Wattie" has a strong liking for things across the river and has many hilarious good times while there. He is strong with the ladies, good with the boys and once established has a home for life.

ROSCOE H. WEBB, Romney, Ind. "Ross."

B. S. in Electrical Engineering. Carlyle (3) (4), Secretary (4), A. I. E. E. (3) (4), Vice-chairman (4), Athletic Association (1) (2) (3) (4), Class Football (3), won "08" (3).

"Ross" is one of the few fellows in whom we find both good looks and good sense. He proved a hustler in the A. I. E. E. and judging from the quality of his school work, will certainly be a winner. It is rumored that his dreams for the future hinge around one Wilson College student.

ARTHUR J. WEBER, 226 Chauncey Ave., W. Lafayette, Ind. "Web."

B. S. in M. E., M. E. Society (3) (4), Athletic Association (2) (3) (4).

"Web," a native of West Lafayette, has been conceded the title of the "greatest scab," and the only thing that has kept him from moving his trunk and bed to the design room is the fact of his home being on the West Side. In a few years we expect "Web" to return and take the chair of our now "famed" instructor, Klipsch.

WELLINGHOFF

WILLIAMS

WINN

WINTRODE

WITMER

WOODBURN

WILLIAM A. WELLINGHOFF, 97 Main Street, Reno, Ind. "Duke."

B. S. in Electrical Engineering. Class Sergeant-at-Arms (1) (2) (3) (4). Football Squad, won "P" (1) (2) (3). Class Football, won "08" (1) (2) (3) (4). Athletic Association (1) (2) (3) (4).

"Duke's" favorite maxim is, "Worry Shortens Life." He doesn't bother his brain any about matrimony for his first preparation toward coming to Purdue was to get married. Duke had the enviable reputation of being the star center of the court for three years. He has a heart as big as the ocean and his jolly good nature has won him legions of friends.

GROVER M. WILLIAMS, Farmer, Ind.

B. S. in Electrical Engineering, Acadia. A. I. E. E. (3) (4). Athletic Association (3) (4). Ex-1907 (1) (2).

G. Mac is quite a wonder in a social way. During his stay in Lafayette he became a certified floor-drifter because Ninth Street car topped him, too early on Sunday nights. During most of the week he found plenty of time for study and always had enough left to be sociable and accommodating.

CLARENCE C. WINN, 813 N. Ninth St., Lafayette, Ind.

B. S. in M. J. M. E. Society (4).

This illustrious young man with the shaggy locks is a native of Lafayette. His first two years of University life were spent at Illinois, which school, by mutual consent, he quitted for Purdue. There is nothing sensational known about him, but his quiet, unassuming manners have made him numerous friends both in the university and city. The kind of a man who can do things also everybody.

EDWARD B. WINTRODE, 257 Dalton Ave., Los Angeles, Cal. "Wint."

B. S. in Electrical Engineering, N.Y. Athletic Association (2) (3) (4). Varsity Football (1). Varsity Track (1) (2).

"Wint" became popular in '08 soon after his arrival in Lafayette. He spent two seasons on the track squad and one at football. He has a dignified appearance, which might give you the impression that he owned a goodly portion of the campus, but on better acquaintance is found to be a good, sociable fellow, who takes a broad view of college life.

CHRISTIAN H. WITMER, Niagara Falls, N. Y. "Wit."

B. S. in Mechanical Engineering, ΔTΔ. Cleofan Club (1). Emanon Club (1).

"Wit" is the happy-go-lucky product of Niagara Falls. Early in his college career he formed the habit of making good resolutions at critical moments and unmaking them at the first opportunity. Occasionally he goes in for a "big work" and nothing can stop him then until everything is completed in the most thorough and precise manner.

HAROLD E. WOODBURN, Fowler, Ind. "Woodie."

B. S. in C. E. C. E. Society (4). Irving (2) (3) (4). A. A. (4).

"Woodie" earned the rudiments of his education in Indiana, but early saw the error of his way and came to Purdue. He immediately joined the Mitchell Phillips combination of which he has since continued as a silent partner. He is a quiet, unassuming fellow who always does his work and will help his neighbor when necessary.

THOMPSON

UTTERBACK

WORSHAM

WRIGHT

YEAGER

YOUNG

CLAUDE M. THOMPSON, Frankfort, Ind. "Tommy."

B. S. in C. E. ΦA. C. E. Society (4), Emersonian (2) (3) (4), President (3), A. A. (3) (4), Varsity Football Squad (3), Varsity Basket-ball Squad (2) (4), won "P" (4), Reunion Day Committee, Gala Week.

We thought we were going to lose "Tommy" when he failed to return from Utah. Rumor had it that he had turned Mormon, but when work shut down he hurried back to Old Purdue and by hard work, tutors and basket-ball managed to make up his work and will be in at the death of the Class of 1908.

CLINTON L. UTTERBACK, Cloverdale, Ind. "Utt."

B. S. in Electrical Engineering, Aecia, Varsaviennne Club, A. I. E. E. (3) (4), Captain Cadet Corps (3) (4).

"Utt" is a left-over from '07 who came in on the last lap but was a winner just the same. During his absence from Purdue he forgot little, and least of all about his interests across the river. In his earlier years he developed quite a liking to military doings, especially to the officers' ball.

HODGE WORSHAM, 608 Adams Ave., Evansville, Indiana.

B. S. in M. E. ΦMO. M. E. Society (4), Student Council (3) (4), Junior Prom. Committee, Mechanics Burning Committee, Assistant Literary Editor, Debris, A. A. (1) (3) (4).

Crash! Biff! Bang!!! Anthony Hodge blew in on a freight in his Freshman year, and since then he has been telling the Profs. how, and if they do not believe him, where to head in. But to his classmates he is like unto the lamb, a good fellow, and a brick for "Eddie" Stokers' new house. He is headed for Bolivia, the Aztec tribes, and the sun-kissed peaks of the Andes.

WILLIAM H. WRIGHT, 821 Pearl Street, Columbus, Ind. "Bill," "Maudy."

B. S. in Science, Chemical Society (1) (2) (3) (4), Indiana Academy of Science, Indiana Association for Prevention of Tuberculosis, Athletic Association (1) (2) (3) (4), Class Football, won '08, (2) (3) (4).

"Bill" was evidently cut out for a politician, for he has the undisputed record for telling impromptu hear stories. He is a little noisy at times, but at heart he is thoroughly honest, generous to a fault and given to no vices. He found his affinity in a '09 girl and made good.

FLOYD E. YEAGER, Lafayette, Ind. "Yeag," "Dutch."

B. S. in M. E.

Liabilities:

| | |
|--------------------------------|----------------|
| Class Dues | \$4.00 |
| Memorial Gym. Assessment | 5.00 |
| Debris Assessment | 5.00 |
| Total | \$14.00 |

Assets:

| | |
|-------------------------------|--------|
| 1 small building burned | \$0.00 |
| Balance to Yeager. | |

ROY YOUNG, Wabash, Ind.

B. S. in Electrical Engineering, TBIJ, Purdue Debating Society (3) (4), Athletic Association (4), A. I. E. E. (4), Corporal Cadet Corps (2).

Young escaped everything had in college except the Tau Betas who led him astray in his Senior year. He somehow found time to get all his lessons and hence became a guiding star for his overworked classmates. He had a ready smile for everybody and never did anything worse than claim a front seat during most of his recitations.

THE JUNIOR CLASS.

"Their spirits are
So married in conjunction with the
Participation of society that they
Flock together in concert like so
Many wild geese,"

Shakespeare—Henry IV.

HISTORY OF THE JUNIOR CLASS.

THE spirit of loyalty and true comradeship which has always been a characteristic of the 1909 class since its first public appearance on "Tank Scrap Hill," has, during its third year of University life, become even stronger than ever before. The class has worked; more than that, it has worked as a unit. This is largely due to the fact that good officers have been elected and that the class has been free from factions. Whatever has been undertaken has been carried out with singleness of purpose and has been accomplished with credit to the class.

When the 1907 Varsity football squad was rounded up, it was found to contain a goodly number of Juniors. These men worked consistently for the best interests of the team and seven of them are now wearing the football "P." Although the class contributed so largely to the Varsity squad, there was still enough good material left to make a championship class team. The trophy of the season, a large silver loving cup, was added to the 1909 collection in the University Library. Basket ball, baseball and track were also well supported by members of the class, several of whom won Varsity honors. A number of Juniors did good work in the Cross Country Club and a strong team represented them in the Tug of War.

The class has been prominent not only in athletics but in all of the Technical, Literary, Musical and Dramatic organizations. Some of its members have taken a deep working interest in the "Exponent" since it became a daily publication and have helped to bring it up to its present high standard. Before the end of the first semester of the Junior year the 1909 Debris Staff was at work with a determination to make its publication another notable success. The class has always been ready to perpetuate the customs of the University. Early in the year a unique form of head dress, that would distinguish its members from those of other classes, was adopted. The black slouch hat with the blue and white leather band made its initial appearance at the Wabash football game, when the Juniors marched in the annual parade on Stuart Field. The successful manner in which the "Junior Prom." was carried out is an indication of their social ability.

At no time in its history has the class of 1909 been unmindful of its duties to the University and it has always been ready to co-operate in any movement that would bring honor to the "Old Gold and Black." At the close of this year's work the class stands eager to assume the responsibilities which the next year will bring.

HISTORY OF THE SOPHOMORE CLASS.

COMING up over the horizon and standing out in bold relief against the opaque background of the clouded sky are seen numerous objects which upon closer investigation reveal them-elves to be menschen. From all points of the compass they appear, approaching towards a center, gradually gathering into small squads, and these again into companies. People wonder. Glasses are trained upon them. Who can the invading host

be? They continue to advance, finally forming into a compact body of sturdy youths, dust begrimed by the long journey, and they march in a body to the Purdue Campus. The mystery is solved and we see the ushering in of '10, five hundred and thirty-one strong

In the first tank scrap we were forced to bite the clay of Happy Hollow, defeat coming, however, only after a desperate fight on the part of every Freshie. Taking the defeat good naturedly we turned our attention to enlisting some of our huskies to partially retrieve the loss of the scrap. The success of the Freshman football team of 1907 is well known to every student, and our first trophy, the football banner which now adorns the library will serve to keep our victory fresh in every mind. A very credible record was made in both basket-ball and track, and again in the spring '10 came into the limelight by winning the baseball championship, thereby landing the hand-ome silver loving cup. With the trophies to the good and an unlimited amount of friendship and brotherly

love for our schoolmates, coupled with an abundance of true Purdue spirit to back us up we left in June for a short rest.

The second charge was begun with somewhat reduced ranks. Lucrative positions and other unavoidable circumstances had a telling effect on our ranks. Four hundred and eighty-one Sophomores came back determined first of all to trounce the Freshmen. Perhaps they, better than we, can relate of the decisive defeat which they met at our hands in all the preliminaries and in the Tank Scrap as well. On that memorable Friday night, September twentieth, the splendid Sophomore spirit and unparalleled generalship proved the speedy undoing of the opposing forces and in less than thirty minutes three hundred and forty-seven Freshmen were lying bound and defeated. This unprecedented number of captives, who did the usual as well as some unusual stunts for their captors, were very thoroughly given their first degree of the course at Purdue.

Our class has furnished some splendid material for Varsity teams. This to some extent has diminished the efficiency of our class teams, but it is only with pleasure we see them go to better the athletic teams who represent Purdue. No class has been more loyal to her Alma Mater than has '10. Not only along athletic lines does our fame spread. Our members can be found in every branch of the different college activities, doing for Purdue what they know to be best. It is with pleasure and not with boasting that we glance back over our career so far. The record stone will soon be passed and it is only with increased devotion to our Alma Mater and to our class that we look into the future.

HISTORIAN

THE SOPHOMORE CLASS.

“Oh, soon
Farewell the plumed troop and the big wars
That made ambition virtue. Oh, farewell
The spirit-stirring drum, the ear-piercing fife,
Pride, pomp and circumstance of glorious war”

THE FRESHMAN CLASS.

"Ye are green wood, see ye warp not."

"The Princess"—Tennyson.

"For of such is the Kingdom of Heaven."

HISTORY OF THE FRESHMAN CLASS.

IN the early Autumn of 1907 there gathered in Lafayette from the known and unknown parts of this small green foot-stool, men—some hardened in the practical school of engineering and some fresh from the lofty ideals of high school seniority—banded together by the tie of "one heart, one mind," they set sail, flying the banner of 1911, for a four year cruise upon this sea of learning—Purdue University.

History for the Class of 1911, dawned in gloom, for the morning of September 21st saw the tank still blazoned with a huge '10 and a chain crowded with humble Freshmen. The spirit which caused every man to prefer the chain, after an uphill against odds, to flight through the surrounding woods portends well for our cause next year. Not in the least ashamed of being known as Freshmen and wishing to introduce a custom worthy of being perpetuated, our class adopted as the official Freshman headgear a green cap, with buttons of different colors for the different schools.

In athletics our class has an enviable reputation, having won the interclass championship in basket-ball and contributed three members to the all-star football team which defeated the Varsity. The class was also represented by strong teams in football, base-ball, track and tug-of-war. Although not allowed by Conference rulings to add our strength to the Varsity teams, the bright prospects for next year will only be intensified by the contribution from our class and we will play no small part in regaining for Purdue her old prestige in athletics.

In other ways too, has our class shown its spirit and enterprise. In the literary, engineering and debating societies, in the social clubs and in fact in every department of activity we have taken an important part and have made our influence felt. In collegiate studies and "college education," we have never fallen short despite the usual number of lucrative positions which have fallen to us. So we leave, but to return next year more determined than ever to do for the "Old Gold and Black" and the Class of 1911.

HISTORIAN.

PRESIDENT KENNEDY

ORGANIZATION OF THE SENIOR PHARMACY CLASS.

President—O. W. Kennedy.
Vice-President—G. H. Babcock.
Secretary—J. J. Early.
Treasurer—Florence B. Hoppes.
Historian—W. N. Parker.
Sergeant-at-Arms—F. D. Ruhl.

Motto—"Age Quo Ages." Colors—Navy Blue and White.

Yell—Philocarpus, Tamarindus!
Eucalyptus, Colocynthis!
Levigation, Oleate!
Purdue Pharmics, Naughty Eight!

HISTORY OF THE SENIOR PHARMACY CLASS.

III. forty nine Senior Pharmies who returned to graduate in 1908 can look back with much pleasure and satisfaction upon the events of their Senior year. Only eight from our original fifty two failed to return at the beginning of this year, and fortunately five 1907 men who were out a year returned, bringing our number up to forty-nine

The '08 Pharmacy Class while not exceedingly strong in athletic circles, is a well balanced class intellectually; few indeed were there who entered with our class and then "blunked out." All made a grand attempt to master both page sixteen and "Pap's" Organic Chemistry, and they were rewarded with the success that was their due. Of course in our Junior year the Seniors stole our hat bands,

gave our class yell before us, etc, but that was to be expected, as '07 had had the same bitter dose the year before. We had sweet revenge however, on the present Junior Class by giving their yell while they were first rehearsing it. The annual trip to Eli Lilly's Drug Company was one that will long be remembered. It was a trip from which was derived both pleasure and benefit. All voted the trip a grand success and Eli Lilly a royal entertainer.

Modesty prevents an enumeration of all the benefits both the University (?) and ourselves have derived from our short connection with each other. The old building with its many pleasant associations, the jokes of the Professors, all together have won from us loyalty for old Purdue, and we all unite as we leave in giving best wishes for the "Old Gold and Black."

HISTORIAN.

"Tis known, I ever
Have studied physic, through which secret art,
By turning over authorities, I have,
Together with my practice, made familiar
To me and my aid the best infusions
That dwell in vegetives, in metals, stones"
Shakespeare.—Pericles, III-2-37.

ALEXANDER

BABCOCK

BAKER

BENNETT

BOOMERSHINE

BRADLEY

RILEY H. ALEXANDER, Connersville Ind. "Alex."

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Athletic Association (1) (2).

"Alex" came up from Connersville with an abundant amount of experience both pharmaceutical and social. He made a hit with one of Purdue's faires as the "strong man," but she is now one of the past. Riley is a typical college sport when he loses his wolf cap. He is a good fellow and will make good wherever he goes.

JAMES G. BENNETT, Lisbon, North Dakota. "Benny."

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Athletic Association (1), Y. M. C. A. (1) (2).

James G. Bennett came all the way from North Dakota in to get an education that would set the right of the drug business. "Benny" is a "look n' all" fellow and has never been seen in one of "Pap's" matinees. We all hope that his success in life will equal that of his college career.

GEORGE H. BABCOCK, Decatur, Ind. "Bab."

Graduate in Pharmacy, Secretary Pharmaceutical Society (1) (2); Class Vice-President (1) (2), Minnet Club.

"Bab" was a Hoosier schoolmaster in Decatur, when he decided to dispense the cloister rays of his intellectual light in "Old Purdue." This probably explains his skill in judging questions to conform with his own answers. His super-saturated amount of humor made him a favorite among the fair sex, especially on "South Street."

STEPHEN E. W. BAKER, West Lafayette, Ind. "Bake."

Graduate in Pharmacy, Harlequin Club (1), Athletic Association (1), Purdue Orchestra (1), Pharmaceutical Society (1) (2).

Baker is one of "Pap's" standbys, being usually the first one to whom he puts a question. "Bake" had spent some time at Culver before coming to Purdue and is certainly an all around good fellow. He has won prominence around the University and will undoubtedly make a success in the future.

ALONZO D. BOOMERSHINE, Millersburg Ind. "Boomer."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

Alonzo D. Boomershine who represents the town of Millersburg, Ind., is one of the three married men of our class. After teaching school for several years he decided to prepare himself for a better position. Accordingly he chose the Purdue School of Pharmacy where he proved himself a very good student. He will always be remembered by the '08 class.

J. HALE BRADLEY, Huntington, Ind. "Brad."

Graduate in Pharmacy, Y. M. C. A. Pharmaceutical Society (1) (2), Athletic Association (2).

Bradley is another of the '07 men who have helped out '08. He is the son of one of the well-known Bradley Brothers, and he will, no doubt, return to Huntington and keep up their good reputation. "Brad" is a quiet fellow, but well liked. It is not an uncommon occurrence to find him missing, especially at eight o'clock classes. Success to "Brad."

BROWN

DRISCOLL

EARLY

EPPLE

FISHER

GALLUP

WILBUR F. BROWN, West Lafayette, Ind. "Brownie."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

Wilbur F. Brown, a product of Tippecanoe county, was reared upon a farm near the historic battlefield of Tippecanoe. After receiving his High School training and not finding farming to his liking, he entered the Purdue School of Pharmacy, and has proved himself to be one of the most quiet, reserved and conscientious members of the '08 class.

JOHN C. DRISCOLL, Cripple Creek, Col. "Bix."

Graduate in Pharmacy, Athletic Association (1) (2), Pharmaceutical Society (1) (2), Colorado Club (1) (2), Vice-President (2).

"Bix" came to us straight from Cripple Creek, Colorado, yet he is not a bad man nor a desperado. Since the days of '07's reign his collection of Stetson's distinguished him from the rest of us tenderfeet. When there was anything doing "Bix" was there. He is a great friend of Professor Hoak, and one of '08's most promising. ("Get wise to that piece of calico.")

JOHN J. EARLY, Greenfield, Ind. "Bull."

Graduate in Pharmacy, Minnet Club, Pharmaceutical Society (1) (2), Athletic Association (1) (2), Class Secretary (1) (2).

Coming from the land made famous by the author of "The Old Swimm' Hole," "Bull" has inherited many characteristics of that gentleman. He received his early training at Shortridge and came to Purdue for his Ph.G. Although having led rather an uncertain life the first year at "The Zoo," John has proved himself a perfect gentleman and good fellow.

WILLIAM F. EPPLE, Ft. Wayne, Ind. "Epp."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

"Epp," or "Bill" is Pap's jolly and quite a shark. He is a very temperate fellow when we consider that he is a Dutchman from the "openest" town in Hoosierdom. He is light in two ways only—namely, church-going and acceding to the desires of others. We believe that in a short time he will have forgotten more chemistry than our distinguished Dean ever absorbed.

WILLIAM E. FISHER, Lake, Ind. "Billy."

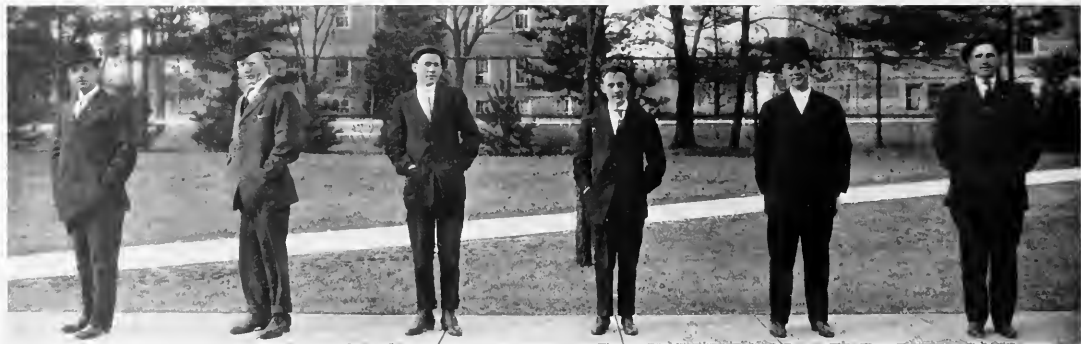

Graduate in Pharmacy, Athletic Association (1) (2), Pharmaceutical Society (1) (2).

William Emerson Fisher came to Purdue with the determination of becoming a chemistry shark. However, one glance at Pap's Organic put that determination hors de combat. Now he is working overtime in an attempt to make an "A" at the Minnetic. The class washes him well and have no doubt that he will win success, but not in Pharmacy.

ORRIN E. GALLUP, Spencer, Ind. "Cheerful."

Graduate in Pharmacy, Aencia, Athletic Association (1) (2), Pharmaceutical Society (1) (2).

"Cheerful" blew into Lafayette on a strong gust of wind from Spencer with smiles and a bulldog; hence he is very adept at making friends, especially among the fair sex. His reputation as a good fellow preceded him and his high standard of fellowship has been a hard one to follow. He leaves with the best wishes of '08.

GARCIA

GIFT

GOBBEL

GRAFF

HADLEY

HOOP

JOSE M. GARCIA, Lare, Porto Rico, "Pepin."
Not evaluated.

GEORGE H. GIFT, Rochester, Ind., "Red."
Graduate in Pharmacy, Athletic Association (1)
(2), Pharmaceutical Society (1) (2).

Gift, better known as "Red," hails from Rochester, Ind. "Red's" one ambition is to become a doctor. What time he could spare from the ladies he spent at Carson's Pharmacy. As "Red's" good traits are so numerous it would be best not to attempt a description.

NOVY E. GOBBEL, English, Ind., "Turk."
Graduate in Pharmacy, Pharmaceutical Society
(1) (2), Athletic Association (1) (2).

"Turk" drifted in from "Abe Martin's Loyalty," and is noted for his gentle and polite language. He is a shark in most of his work, and is almost sure of an "A" in vaudeville. We might wish him success as a pharmacist, but he cannot resist the inclination to become a doctor.

LEROY H. GRAFF, Lafayette, Ind., "Runt."
Graduate in Pharmacy, Pharmaceutical Society (1)
(2).

"Runt," in some cases known as "Insect," because of his stature, comes from across the levee. Although he is the youngest man in the class he is among the wisest; hence, "much in little." "Runt" is popular among his classmates and will make good in the drug business.

CARL N. HADLEY, Mooreville, Ind., "Brownie."
Graduate in Pharmacy, Pharmaceutical Society (1)
(2), Athletic Association (1) (2).

"Brownie" comes to Purdue from Mooreville, wherever that is. He is one of those all-around men, popular with the fellows and an admirer of the ladies. Although a trifle lazy we can forgive him for this. The class wishes him success.

PETER HOOP, Shelbyville, Ind., "Pete."
Graduate in Pharmacy, Pharmaceutical Society
(1) (2).

Peter Hoop represents Shelbyville. Since he has been in Purdue he has been distinguished by his professors with the title of "Mr.," and has become better known as "Mr. Hoop." He has always had our good will and is well worthy of our esteem for his untiring efforts at making the '08 class a winner.

J. L. HOPPES

F. E. HOPPES

KENNEDY

JACKSON

KNOEFEL

LEHRBURGER

JESSE L. HOPPES, Red Key, Ind. "Switz."

Graduate in Pharmacy. Pharmaceutical Society (1) (2).

"Father," although rather young, has developed a wonderful business head. Knowing that some day he would be the chief soda jerker of a store, he brought along, and is having his clerk educated with him. During summer vacation his important personage is seen at the race track close to the bookmaker.

FLORENCE B. HOPPES, Red Key, Ind.

Graduate in Pharmacy. Pharmaceutical Society (1) (2). Class Treasurer (1) (2).

Mrs. Hoppes is Susan B. Anthony's only representative in our class. She is an excellent student and active in all class affairs. The spirit she has shown in her college life assures her success in the future. Loved by "one" and respected by all she goes out with the best wishes of '08.

OTIS W. KENNEDY, Coal City, Ind. "Pap."

Graduate in Pharmacy. President of Class. (1) (2). Athletic Association (1) (2). Pharmaceutical Society (1) (2).

"Pap" rose to the occasion when we, as Freshies, most needed good generalship. He proved a most excellent president for the class as well as an extraordinary student. He was a jolly good fellow and always regarded as one of the boys. Although his responsibilities were much greater than ours (family of three) he will no doubt prove to be one of those to make "Sweet Owen" famous.

VINAL JACKSON, West Lafayette, Ind. "Jack."

Graduate in Pharmacy. Athletic Association (1). Pharmaceutical Society (1) (2).

"Jack" is a persistent and conscientious worker and his jolly good nature has won many good friends. He never had time to attend Pharmaceutical Society meetings on account of "Family Vaudeville" and never allowed his work to interfere with his pleasure.

JOSEPH O. KNOEFEL, New Albany, Ind. "Babe."

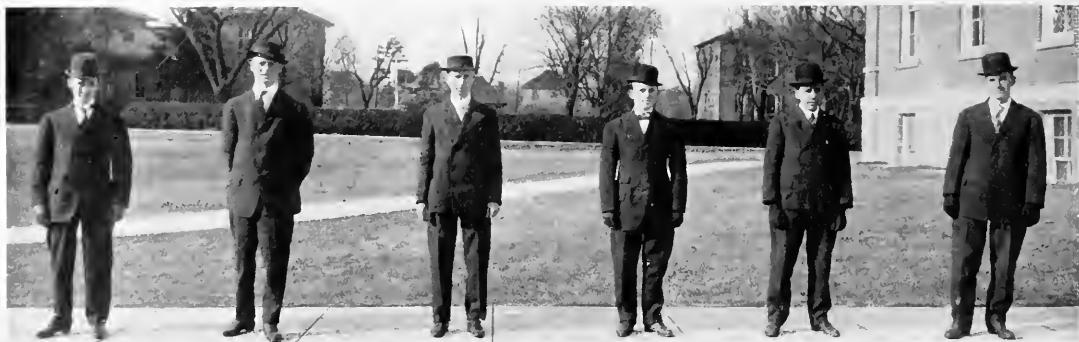

Graduate in Pharmacy. Harlequin Club (1). Pharmaceutical Society (1) (2). Sergeant-at-Arms (1) (2).

"Babe" is the worst "rough-houser" in the class and the unsightly J. O. K. will be found written in all parts of the pharmacy building. His presence is always made known by an abundance of noise and his desk in "Jah" has been cleaned up twice in two years. However, Knoefel will make a success and we wish him luck.

ELKAN H. LEHRBURGER, Shoals, Ind. "Lindy."

Graduate in Pharmacy. Pharmaceutical Society (1) (2).

Lehrburger, pronounced Limburger, Limmie for short, whose exact date of birth is not known, hails from Shoals, Ind. Mr. Lehrburger first came into prominence by his characteristic bravery shown in a snipe hunt at "Happy Hollow." Undoubtedly he will prove a success in the perimetry and sachet department of any drugstore.

LIDDLE

LYON

MARCHANT

MARTIN

MILLER

MOELK

OLIVER E. LIDDLE, Guilford, Ind. "Diddle"

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Pharmacy Reporter, Exponent Staff (2).

Oliver hails from Guilford, Ind., but we are unable to find such a place on the map. He is one who may always be found at Griffith's on Friday night and is very good looking except for his low-legs. He generally becomes nervous when "Pap" says "we are going to have a test," but he is a smart little fellow and comes out O, K, in the end.

GLENN F. LYON, West Lafayette, Ind. "Yok"

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Athlete Association (1).

Lyon came all the way from Oklahoma, but he left most of his wild ways behind and is fairly civilized. He is an all-around good fellow. Although extreme with '07, he decided '08 looked better on paper and so came to us. He is determined to be an artist over and above "pull roll me" or "mosa vintene."

ALBERT MARCHANT, Ft. Wayne, Ind. "Class Spirit."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

"Turkey," "Marchie," or "Merchant" swooped down upon us from Fort Wayne. He won great honors for '08 in track, "making a fast minute in a mile." In track costume "Turkey's" magnificent (?) physique was the admiration of all eyes. However he was not only an "athlete," but a shark as well, and was one of the few "straight A" boys.

ROSS C. MARTIN, Kokomo, Ind. "Doc."

Graduate in Pharmacy, Treasurer, Pharmaceutical Society (1) (2), Athlete Association (1) (2), Minnet Club.

"Doc" thus called from his highest ambition came to Purdue to prepare himself for a course in medicine. He has a small drugstore of his own at his room, where he carefully compounds prescriptions. He is very popular with the ladies and we all wish him the greatest success possible.

CHARLES V. MILLER, Shipshewana, Ind. "Cholly."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

Dormant, neutral, normal, Miller is quite industrious and unassuming. There is never a time during the afternoon that one cannot find him hard at work over some difficult exercise. However, he usually gets there in the end and will, no doubt, achieve success.

JULIUS W. MOELK, Richmond, Ind. "Geese."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

"Geese" Moelk, the practical man of the class, drifted in from Richmond, the city of "cheer" and "thine." Despite his environment, "Geese" makes a good Purdue man, not having neglected his college education for his work. What he will do in the future we know not, but one thing we do know—he is a favorite with the gentler sex.

MUTZ

NASH

ORR

PARKER

PARRISH

PORTER

HOWARD H. MUTZ, Edinburg, Ind. "Dearie."

Graduate in Pharmacy. A.B. Indiana University, '07. BPH. Athletic Association (2). Pharmaceutical Society (2).

"Dearie" is one of the exceptional men in the class. He has an A.B. from Indiana, and won his "1" in baseball while there. He has done what few others have—finished the two years' work in one. Mutz is a good fellow and it will be hard for him to keep out of the ranks of the benedicts after graduating.

FORREST H. ORR, Delphi, Ind. "Skinny."

Graduate in Pharmacy. President Pharmaceutical Society (1) (2). Athletic Association (1) (2).

"Skinny" is one of the few good products of Delphi. In the short time here he has made a host of friends all of whom wish him a happy and prosperous life. "Skinny" was one of the sharks of the class, always honest, sober and mischievous. He will, no doubt, be seen behind the counter of his father's store at Delphi.

ANSYL C. PARRISH, Farmersburg, Ind. "Lord."

Graduate in Pharmacy. Aecia. Athletic Association (1) (2).

Parrish was originally a member of the class that wore corduroys. He joined us with the largest collection of fancy vests and neckties in the University. He is the sport of the class and is quite popular among the ladies. He "masters" in "Visions of Delphi" during "Pap's" recitations and here's hoping his dreams come true.

FRANK C. NASH, Brazil, Ind. "Gub."

Graduate in Pharmacy. Athletic Association (1) (2). Pharmaceutical Society (1) (2).

Our modern, modest Frankie came to us from Brazil, Ind. The class all know of the great love which exists between Frankie and "Pap." His profanity is exceeded only by his beauty. He is a strong union man, quitting work promptly at three.

WILLIAM N. PARKER, Kirklint, Ind. "Jinks."

Graduate in Pharmacy. Minnet Club. Pharmaceutical Society (1) (2). Athletic Association (1) (2). Class Historian (2).

W. N. "Jinks" Parker came to us from Kirklint, where they hold riots over school affairs. After trying agriculture and finding "butter-making" too slow, he chose the mortar and pestle with which he has made good. "Jinks" is one of the first in "Pap's" estimation and is an all-around star.

RALPH E. PORTER, Roachdale, Ind. "Port."

Graduate in Pharmacy. Pharmaceutical Society (1) (2).

"Old Port" comes to us from Roachdale and has always proved himself a hard and earnest worker. He is one of the fellows and has a great affinity for "unc" over on the East Side. Just what his future plans are we know not, but he will surely be successful.

PRATHER

ROSS

RUGGLES

RUH

SCHAEFER

SEYBOLD

CLARK PRATHER, Franklin, Ind. "Rusty."

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Athletic Association (1).

"Rusty" hails from Franklin, Ind. His principal fault is his love for home (???) folks. He distinguished himself in his Freshman year by attempting to carry home in his suit case half a chimney from the West Side. However, for all his faults he is a good fellow and always one of the boys.

ROY A. ROSS, Kentland, Ind. "Curly."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

"Curly" comes to us from Kentland and we certainly wish we had more like him. He is a good student, general favorite and an all-around good fellow. He will undoubtedly win success by his sincere and earnest work, and will have as large a circle of friends as he has had while at Purdue.

ALBERT G. RUGGLES, Jr., Warsaw, Ind. "Doc."

Graduate in Pharmacy, Pharmaceutical Society (1) (2).

Albert G. Ruggles came to us from Kilbourne, Ill., and is the meekest little fellow '08 has ever known. He has very few bad habits, but sleeps a little when "Pap" reads Caspari. From his quiet disposition no one knows of his future intentions.

FRED D. RUH, Rochester, Ind. "Ted."

Graduate in Pharmacy, Pharmaceutical Society (1) (2), J.M. Athletic Association (1), Pharmacy Reporter, Exponent Staff (1), Pharmacy Editor '08 Debris, Sergeant-at-Arms (1) (2).

"Ted" hails from Rochester (take the milk train). He first attracted attention by his frequent references to the art of compounding "house powders" and he intends catering to this sort of business when he gets a store of his own. If he makes as good a business man as he has class officer he will be of much value to his community.

LUCIAN C. SCHAEFER, Huntington, Ind. "Pruny."

Graduate in Pharmacy, Epsilon Club, Pharmaceutical Society (1) (2), Mandolin Club (1) (2), Class Yell Leader (1).

"Shah" was run in from Huntington as a maverick, but '08 soon put her brand on him and he has stayed with the bunch. He is a good scout and doesn't let studies interfere with his college education. His highest ambition is to "jerk" soda for his "Pa." However, we all think he could fill a prescription if it were written in anything but Chinese.

FREDERIC A. SEYBOLD, Edwards, Ind. "Pharmic."

Graduate in Pharmacy, Pharmaceutical Society (1) (2), Athletic Association (1) (2).

This "Pharmic" is a product of Terre Haute. He expects to become a druggist on leaving school, but we all think he will be a temperance speaker of some renown. He is very bright when it comes to "Pap's" chemistry, but he often falls asleep in class.

SHEARER

SMITH

STEPHENS

WALTERS

WELDY

WILLIAMS

WISE

WILLIAM H. SHEARER, Lafayette, Ind., "Billy."

Graduate in Pharmacy. Athletic Association (1). Pharmaceutical Society (1) (2).

"Billy"—one of our East Side boys—is a favorite among the Pharmacs. His experience in the business makes him authority on nearly all practical questions. Socially he believes in enjoying life to the utmost. We all join in with best wishes for "Bill's" success wherever he may be.

VERN G. SMITH, Crossville, Ill., "Doc."

Graduate in Pharmacy. Athletic Association (1) (2). Pharmaceutical Society (1) (2).

"Doc" came to us from "Little Egypt" after being out of school for one year. Like all Smiths he is a good-natured fellow, whose favorite sport is seven-up, there being no work to do in his locality. Luck to "Smithie" in the future.

HOMER STEPHENS, Ludlow, Ill., "Red."

Graduate in Pharmacy. Vice-President Pharmaceutical Society (1) (2).

"Red" became a benedict during his junior year, but the fellows were not wise until he put

them next in '08. He was always a shark, but when "Pap" came around with his chemistry test he got nervous with the rest of us. He expects to make a showing in the drug business and with the aid of his better-half there is no doubt of his success.

CHESTER F. WALTERS, Battle Ground, Ind., "Chet."

Graduate in Pharmacy. Pharmaceutical Society (1) (2).

Walters came to us from the '07 class and was a valuable addition to our ranks. His first experience in the profession was gained at the town of Battle Ground, the attraction being such that his return each day was necessary. Walters is a good fellow.

SAMUEL D. WELDY, Decatur, Ind., "Sam."

Graduate in Pharmacy. Pharmaceutical Society (1) (2). Athletic Association (2). Glee Club (2). Class Yell Leader (2). Minuet Club.

"Sammie" blew in fresh from "the wilds of Adams county." He has proven to be a very good fellow, regardless of the fact that he received most

of his education at Valparaiso. His three-year training as a country schoolmaster, and his stay with us, should admirably fit him for his life's work. "By gee, fellows, it's mine for Laporte."

BERNARD F. WILLIAMS, Bloomington, Ind., "Willy."

Graduate in Pharmacy. AT, DePauw. Pharmaceutical Society (1) (2).

"Bill" hails from Bloomington, Ind. We could never understand just why he came here, but he got here just the same, after a year at DePauw. "Bill" has proven himself a good fellow and we all wish him great success in his chosen profession.

CLYDE L. WISE, Rochester, Ind., "John."

Graduate in Pharmacy. AT. Athletic Association (1). Pharmacy Reporter Exponent Staff (1). Pharmaceutical Society (1) (2).

"Johnny" came to us from Rochester, Ind. He has been prominent in all the important moves of the class, and is a good fellow through and through. His worst habit is bluffing, but this properly applied should make him a winner.

Wahoo, Princi-pine!
Purdue Pharmics 1909!

THE JUNIOR PHARMACY CLASS.

*"Work on,
My medicine work!
Thus credulous fools are caught."*

Shakespeare—Othello.

HISTORY OF THE JUNIOR PHARMACY CLASS.

THE Pharmacy Class of 1909 began the year with forty-one members. We had the troubles the first year men usually have, and as is customary the Junior yell was called for by the Seniors; this we succeeded in giving before they knew we had one. Before the Christmas vacation

Professor Green kept us busy in the pharmacy laboratory, making essence of peppermint, pills, etc., consoling us, as he had many classes before, with the fact that "we were all 'pill-ars of society'" We were also having some work in "Top's" qualitative about this time, and when we struck page sixteen it made us all "sit up and take notice," and those early morning tests came so frequently that we could look for about five of them per week.

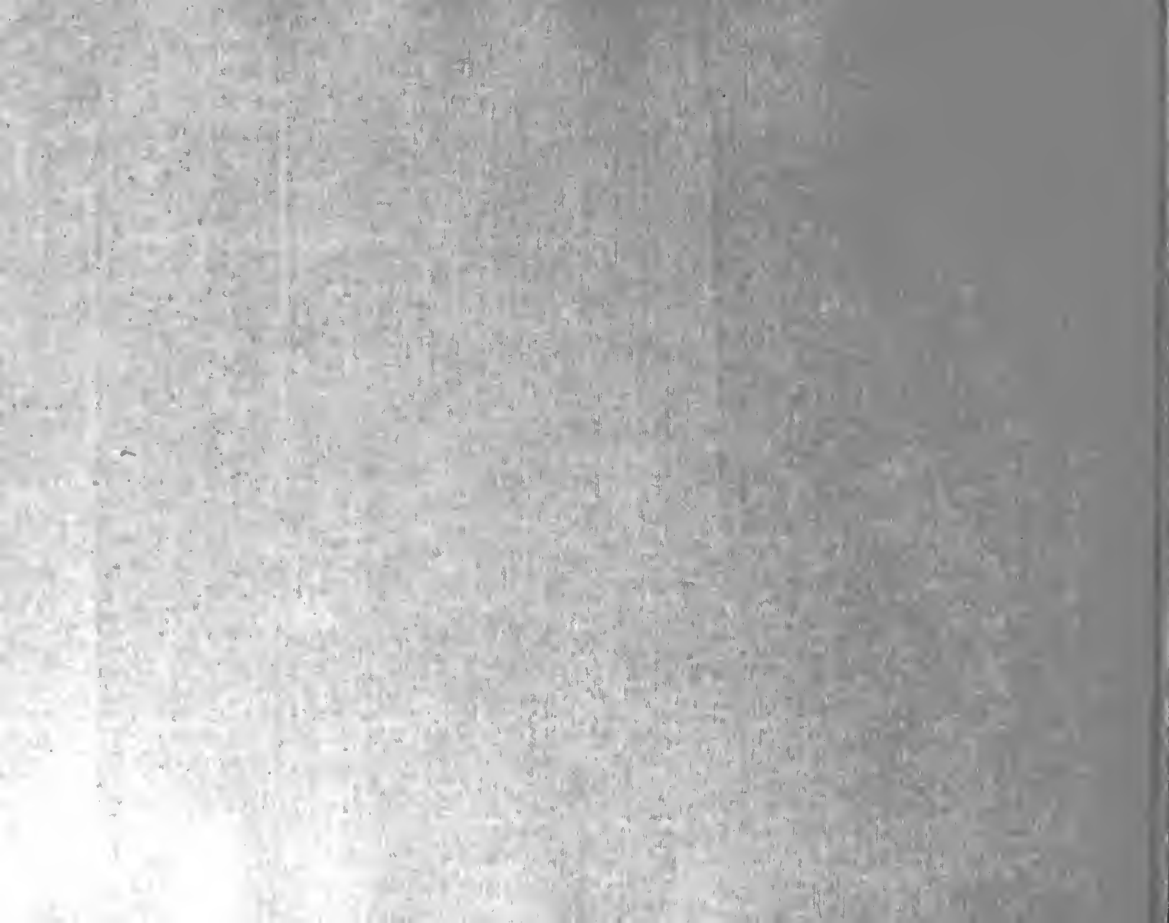

Before the first semester had ended, nine members had dropped from the class on account of sickness and various lucrative positions. We were very sorry to lose them because of the smallness of the class as compared with previous classes. After vacation we began laboratory work in qualitative analysis under Professor Hoak, which although difficult at first, we soon mastered and then the work was enjoyed by all. We would have a short afternoon's work assigned us frequently, but as a rule it took us until four o'clock.

The class as a whole has enjoyed the work very much and feels very well repaid for the efforts it has taken to pass the first year. At present all are doing good hard work with the expectation of returning next year and making the 1909 graduation one of the most successful in the history of the Pharmacy Department.

DR. H. W. WILEY
Chief of the Bureau of Chemistry

DR. H. W. WILEY.

The subject of this sketch, whose characteristics are both concealed and revealed by the padded engraving opposite, grew up on a farm in Kent, Madison county, Indiana, until he was big enough to work, and then went to college at Hanover in the same county.

Some time after graduation he again felt the rest linger and went to Harvard. From the various educational institutions he acquired a number of degrees that end in "D" and in recent years the purveyors of adulterated food products generally refer to him in terms that begin with D—so that he is now quite well supplied with titles.

In 1874 he came to Purdue, and during his nine years stay made dents in the place which still remain.

As the first Professor of Chemistry at Purdue he had the distinction of filling only one chair, the other five of the original professors having two or more subjects. From the first the Chemistry Department was the strongest in the institution, and the reports of that period show that much very creditable research work was accomplished in addition to the regular teaching of the subject.

But Dr. Wiley did not limit his activity to chemistry by any means. He had the pioneer spirit and it broke out in all sorts of forms.

His first great stunt was to buy for the University one of the first two dynamos ever brought to the United States. This old Gramme machine, which he bought at the close of the Centennial Exposition, is still doing duty. Its mate is at the University of Pennsylvania, where it is held in the highest esteem. When Dr. Wiley gave an exposition, in the streets of Lafayette, of the single arc light, which this machine could produce, it is hard to say whether the citizens of the staid little city, or the beetles that met their fate in its glowing arc, were the most surprised.

Dr. Wiley's services in the field of athletics and military tactics were quite as valuable as those rendered in connection with the

regular duties; and every student of that period can relate marvelous tales of the glories of the old days.

For four years he took charge of the military drills and at the same time developed a baseball nine, on which he himself played, that was the pride of the Wabash. A considerable number of the students of that day consisted of the "Undesirables" who had been prematurely graduated from other institutions on account of their sporting proclivities, and these formed the nucleus of the athletic teams of the period. No college conference or faculty committee existed to curb the athletic enthusiasm, and the pace was a bit rapid.

Out of this material Dr. Wiley built up an athletic reputation for Purdue quite as great in its time as was Purdue's football fame in the '90s, and in doing it he endeared himself to the whole student body.

Perhaps, the event for which he will be longest remembered was his purchase and operation of the first bicycle ever in the county. It was of the old high wheel type and the daily contests between the Doctor and the machine to determine which would remain on top of the other were the joy of large and enthusiastic street audiences. The riding of this machine was considered so heterodox that the University authorities demanded that it be given up. The answer to the demand was a resignation of his professorship on the part of Dr. Wiley and a very sudden reconsideration of the matter by the authorities who decided not to accept the resignation.

But there are lady readers of the Debris, and they may ask if there were any affairs of the heart mixed up with his science and athletics. A prize can be safely offered to any eligible young lady in the county at that period who was not engaged to the Doctor one or more times. But on this point let selections from two of his poems, one written at Purdue and one twenty years later, speak for themselves.

1882.

I know a maiden, charming and true,
With beautiful eyes like the cobalt line
Of the horax lead, and I guess she'll do
If she hasn't another reaction.

Her hair is a crown, I can truthfully state
'Tis a meter long, nor curly nor straight,
And it is as yellow as diatomic chromate
In a slightly acid solution.

And when she speaks from parlor or stump,
The words which gracefully gambol and jump
Sound sweet like the water in Sprengel's pump
In magnetic phosphate solution.

I have bought me a lot, about a bectare,
And have built me a house ten meters square,
And soon, I think, I shall take her there,
My tart little acid radele.

1902.

'Tis true I find the memory
Of Dolly is quite dim,
And as to Bess, it seems to me
She sure "was in the swim."
But when and where and how, O my,
I can't exactly tell,
For what care I for days gone by
Now that I have Estelle.

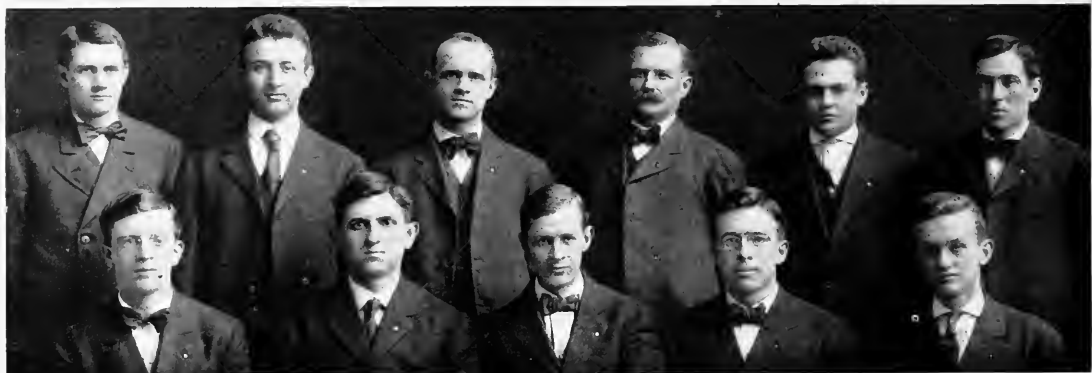

The number now is forty-seven,
And may be five soon,
For though my years be many, still
I'm not too old to swoon.
And should I live a century,
Nay, when I'm laid to rest
'He had a girl for every year
And loved the last one best."

It is but natural to believe that the author of such sentiments would be interested in sweetness and its causes. In fact, Dr. Wiley became so noted for his researches on sugars that the U. S. Department of Agriculture, at that time endeavoring to promote the production of sugar, called him in 1883 to fill the office of Chief Chemist which has since been advanced to a Bureau. So sound and efficient has been the work of this Bureau that neither changes of poli-

tical administration nor bureaucratic jealousies have availed to displace the man in whom the scientific world and the common people have placed the fullest confidence.

Purdue may well be proud to have had a part in the development of the man who is a world leader in a cause that touches the welfare of every citizen.

OUR ATHLETIC DIRECTORS.

Hugh Nicol.

Hugh Nicol, Athletic Director, coach of the baseball team, and associate football coach, was born in Campsie, Scotland, on January 1, 1862. His family moved to the United States when he was only two years old, and settled in Rockford, Illinois. It was in this town that he first learned and played baseball, and when eighteen years old played his first professional ball, and started on his remarkable career.

Success was his from the start and the following year he played in faster company, going to Topeka, Kansas. In 1881 he was secured by the Chicago Nationals, then as now, one of the best teams in the world, and he played there two years, holding down the position of right field. Then he went to the St. Louis Browns, and was, for five years, one of the players that made the name of the Browns famous in baseball history. While he was there, in 1886,

they won the championship of the world, in a series of seven games, very similar to those played in the last two years by the two big league leaders.

Nicol next played with the Cincinnati Reds, and while there made his great record of stolen bases, 147 in a single season, that still stands unequalled in the big league. After playing there four and one-half years he was influenced by his wife's family, to go to Kansas City, and he finished the season with that team, which won the Western League pennant.

Nicol next entered the ranks of the managers, and going to his own town, Rockford, organized and managed a team there in 1892-3 and 4, playing also. From there he went to Saint Joe, Mo., in the Western League, managing the team for one year. He then returned to Rockford and owned and managed the team there for the seasons of 1896-97 putting in into the Western League. The last half of 1898 he managed the St. Louis Browns, of the National League. During 1899 and 1900 he retired from baseball, but re-entered the field in 1901, owning the Rockford club till 1904, winning the pennant in 1902. The last half of 1904 he managed the Rock Island team and went to Peoria, Ill., in 1905, organized a team and was part owner and manager there until he sold out and came to Purdue in the Spring of 1906.

First coming to Lafayette as baseball coach, Nicol had instantaneous success. Making a splendid team out of poor material, he early displayed those qualities that indicated that he was the man the authorities had been long looking for to manage athletics at the University. Under his direction, the financial affairs of the Athletic Association have prospered as never before and the standing of the Association among the athletic organizations of the West firmly established. The baseball team has had two prosperous seasons under his personal direction, and has every prospect of another to come. He has done much to inspire the splendid spirit that pervades the school, and his name and fame are becoming fixedly linked with that of Purdue.

HUGH NICOL

L. C. TURNER

OUR ATHLETIC DIRECTORS—(Continued).

Leigh C. Turner.

Leigh C. Turner came to Purdue highly recommended as a good football player and coach. His football education, received at Dartmouth, where he was known as a fast and aggressive player, was completed by a postgraduate's course at Michigan, where he acted as an assistant to Coach Yost. It was thus with a good knowledge of both Eastern and Western football that he came to Purdue. His ability to pick the best men seemed to be the greatest difficulty under which he labored and the season was well over with before he had a definite line up. He should not be censured for this as the shortness of the season gave him very few chances to get a line on the men. In leaving Purdue he carries with him the good will of the players and all with whom he came in contact, and if the Board of Directors had not deemed it advisable to get an entirely Western coach he would be welcomed back to Purdue next year.

OUR ATHLETIC DIRECTORS—(Continued).

C. B. Jamison.

C. B. JAMISON

We find it no effort in writing the life history of Mr. C. B. Jamison, because of his close connection with Purdue. He was born in 1857 at Lafayette, and received his early training here. He became a student at Purdue, but did not graduate. After leaving school he became associated with the firm of Jamison Brothers, dealing in hardware, implements, etc. After staying in business for a while, he decided to take up the Manual Training work and entered the Y. M. C. A. training school at Chicago. Here he became intimately associated with the essentials of physical training. A little later he was chosen Secretary of the Y. M. C. A. of Terre Haute, Ind., and remained there for fifteen years. While there he was closely connected with the athletics of Rose Poly. He coached their football and basket-ball teams, and, it may be added, the year he coached Rose Poly in football they never lost a game, but won from all the schools in their vicinity.

As to his basket-ball ability, he has been in the game since it started, amounting to about fifteen years. He was purely an amateur until the year before coming to Lafayette, where he officiated at some of the games.

He came to Lafayette in December, '05, in order to take charge of a Y. M. C. A. building campaign and from that time on has been closely associated with Purdue, not only in basket-ball, but equally so in track. It is largely through his efforts that basket-ball has become such an important issue at Purdue and he has built up a wonderful spirit. His own enthusiasm is reflected in his teams and we offer to him the appreciation of the '08 class for his efforts in behalf of Purdue.

OUR ATHLETIC DIRECTORS—(Continued).

Head Coach Speik.

DR. FREDERICK SPEIK

Dr. Frederick Speik has been chosen by the Board of Directors of the Athletic Association as coach of Purdue's 1908 football team. He is well versed in football, as played in the West, as he has been intimately connected with college football for the past seven years. Four years were spent on the Maroon Varsity, where he played an end and was captain in his Senior year. He not only made the All-Western team but was chosen as a member of the All-American team, an honor that few Western men receive. He has spent the last three years as assistant coach to Stagg, where he has kept in touch with the best Western teams.

Dr. Speik comes to us with the highly enviable record of being the best Stagg ever turned out. With this record of ability and knowledge of football, let it be hoped that he will be able to break the hoodoo that hangs over us, and that Purdue will be able to regain her lost prestige.

OUR ATHLETIC DIRECTORS—(Continued).

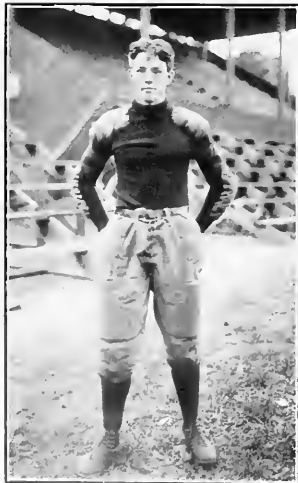

Chas. H. Wilson.

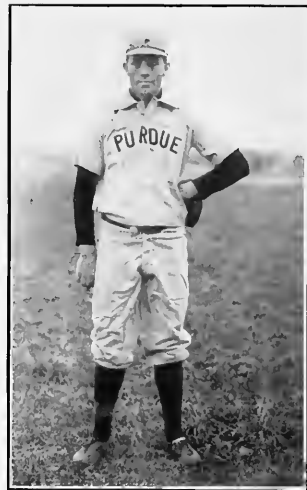

C. H. WILSON

Mr. Wilson comes to us with the reputation for clean, true sportsmanship and a strong personality with the clubs and schools in and around Chicago. He was born in Chicago, July, 1879, and got his first ideas of track work from watching the practice of college and club teams in his own vicinity. His first active work was started some twelve years ago in the Central Y. M. C. A. Since then his work has consisted of class work, basket-ball, baseball and then taking up track along with such studies as Physiology, Hygiene, Anatomy and "First Aid Injury" at the Association Institute, Chicago.

In connection with track Mr. Wilson has been actively engaged in some capacity for the last ten years, either as a competitor, manager, trainer or coach. He has been coaching for the last five years; three years at the Y. M. C. A., one year at the First Regiment Athletic Club, and one term as assistant to Coach Gill, at Illinois University. Mr. Wilson himself appeared on the track July, 1898, to October, 1904, on various occasions and the following record is good evidence of his all-around track ability: 50 yards, 5 $\frac{1}{2}$ seconds; 100 yards, 10 $\frac{1}{2}$ seconds; 220 yards, 23 $\frac{3}{4}$ seconds; 440 yards, 51 $\frac{1}{2}$ seconds; 660 yards, 1 minute 21 $\frac{3}{4}$ seconds; 880 yards, 2 minutes 14 $\frac{1}{2}$ seconds; 1090 yards, 2 minutes 21 $\frac{1}{2}$ seconds; one mile, 4 minutes 41 $\frac{1}{2}$ seconds; two miles, 10 minutes 25 seconds; three miles, 17 minutes 12 seconds; five miles, 28 minutes 5 seconds; high jump, 5 feet 2 inches; shot put, 37 feet 5 inches; broad jump, 20 feet 5 inches; low hurdles, 27 minutes.

THE SEASON OF 1907.

BERKHEISER

had an unknown quantity with which to work. The first night's practice, however, showed that the men were out to play and that the coaches had the snap and ginger in them to put life into most any player. By the end of the first week Berkheiser was unanimously elected captain, and each practice night saw the team rapidly getting into shape.

With ideal weather conditions and backed by over 2,000 faithful Purdue rooters the team went into the Wabash game with the fighting spirit, that is hard to beat. From the moment the first whistle blew the Little Giants knew that they were up against a team that was playing football, and they were well satisfied to leave the field with the larger end of a 20 score. Kirk, Bryan and Berkheiser formed a keystone in Purdue's line that could not be displaced, while they

repeatedly tore holes in the Crimson line. Hewitt, who had not played since '04, and Merrill, of last year's team, played their ends well. Hutchens at quarter played a star defensive game and his fine tackling stopped several runs that looked good for five points. Mehegan filled his position well, making good long punts when needed, and always tackling his man hard.

With this game now on record and a three weeks' intermission at hand the coaches set about getting the men in trim for the four hard games that lay before them by having practice games with the scrubs and the class teams. During this time additions were made to the team in the form of Liekey, a last year's scrub, and Holloway and Longabaugh, both of whom had not played since the season of '05. A loss was also felt when Mehegan was obliged to quit, due to an injured shoulder. With "Mac" out of the game, it being necessary to develop a new punter, "Shifty" Forsythe was drafted into this position and filled it for the remainder of the season aided now and then by Funk.

Although it had been raining for two days and was still threatening on the morning of November 2, six hundred loyal Purdue rooters and their far-famed band set out via the Wabash for Champaign - this excursion taking the place of the annual one to Chicago. The field was muddy and slippery and the game was destined to be a

HOLLOWAY

LESLIE

the breath out of the Suckers and brought applause from both

kicking contest at which the Suckers had the advantage. There were, however, a few good line plunges, end runs and forward passes that brought the rooters to their feet. Many shifts were made in the back field, all the men playing well, especially little Hanna who, though in the game but a short time, won applause for his nerve and grit. His run and the forward pass by himself, Forsythe and Longabaugh, that put the ball in position for Forsythe's drop kick were fine exhibitions of football. "Doc" Holloway's attempted place kick from the forty-six yard line and one side of the field took

the rooters and the team, as it missed the bar by a very few inches. On the line Berkheiser played a hard game against Van Hook, the heavy Sucker guard. Lickey put up a star game at center and made some hard tackles. "Beany" Sage played a good game and held his side of the line well, but on account of his knee was obliged to give way to Watt, who filled the position with credit. Spencer, who relieved Hewitt, played his regular fast, aggressive game, breaking up plays and getting his man. Longabaugh, at the other end, played in his old form and succeeded in getting off several good forward passes. The whole team played their hardest but their heavy opponents and the wet field were too much for them.

On November 9th when the team met the Maroons at the Windy City nobody looked for a victory, but neither did they look for the overwhelming score that was run up against us. The game had hardly started, however, when it was obvious that Steffens, with his fast running and clever dodging, and the strong interference of the Midway team were too much for the Boilermakers. In the second half their playing

"Pa" Horner—One of the tall brows.

was far better, only fourteen points being scored against them. Shade's forty-yard run, and the manner in which Gordon, unaided, made gain after gain through the line, brought the rooters to their feet.

With the last half of the season at hand the Wisconsin game was looked on as the turning point. The dope was slightly in the Badgers' favor, but it was their luck that gave them the victory. The first half was played mostly in Wisconsin's territory, and everything was in the Boilermakers' favor until Cunningham intercepted a forward pass and ran one hundred yards for the only touch-down of the half. On the second half just before the final whistle was blown Funk succeeded in crossing the Badgers' line for the season's one touch-down. McFarland, Holloway, Gordon and Funk played a star game behind the line—Gordon, especially, winning for himself a name by the way he tore up the line for down after

down. Hanna, Spencer and Longabaugh played their positions well. Hanna, never lacking in nerve, ran the team with a good head, and when carrying the ball he slipped through the Badgers like an eel.

The last game of the season was with the Irish, who had a clean slate and were doing all in their power to keep it so. The game, as expected, was a hard fought one, but Purdue did not play the game of the previous Saturday.

With this game Purdue ended her second season of defeat, but through it all the student body as a whole has remained behind the team, and are now looking forward for a successful season next Fall.

As a parting wish let it be hoped that the turn in that long lane has been reached, and that the way instead of being rough and barren, as it has been for the past two seasons, will be smooth and fruitful and lighted by the light of victory.

¹/₂ innings.

THE SEASON OF 1907.

BABCOCK

Feb. 11th for all baseball candidates to report for gymnasium work in order, as he put it, to keep the men from getting sore. From this date on they were put through strenuous exercise up to Feb. 20th, when they went on the field for the first time. Baseball dope had been uncertain, but the coach now gave out the statement that we would have a winning team, and we soon found out that the little prophet spoke the truth. Until April 12th the team drifted along and was whipped into shape with Capt. Kelley unable to appear in uniform. During this preliminary training Babcock was appointed acting captain. "Pa" Fleming at the same time was out for a couple of weeks with the mumps.

Among the new men who appeared this year and made good were Driver, Boltz and Browne. Boltz took center field and filled the position like an old war-horse. Nothing

"Dobbers up, Jim, ole head; everybody is back of you today; some more of those straight kind is all we want."

Thus the 1907 baseball season started in with a rush and the spirit that is so characteristic of our small, but mighty Coach. With but one pitcher in view and a bunch of recognized poor batters there was developed a steady, consistent and lively baseball team whose success was the result of two causes, namely—the faithful training of the men themselves and the ability of their trainer.

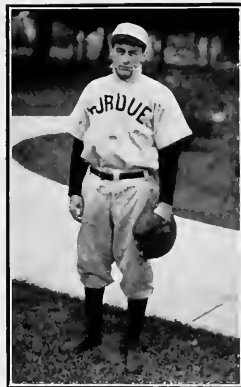

Coach Nicol started out for blood. He made a call

was too hard for "Cy" and his long catches in center will not soon be forgotten. Driver better known as "Pete," was shifted from one position to another, and under the existing conditions, did himself credit in every place. He is a catcher by instinct, a fielder by training, a third baseman by orders and a hitter by nature. Browne made his first appearance in his Freshman year. This year he was called on to fill Kelley's place at third upon the latter's withdrawal from the team.

Bird, the oldest member of the team, played in his position at left field. His work throughout has rapidly improved until he now heads the batting average list. His service on the team for the past three years has always been faithful, earnest and full of spirit and fun. His absence in the field will be keenly felt this Spring.

"Pa" Fleming, our giant first baseman will be seen no more on account of the three year ruling. Nothing was too low or too high for Pa's big mitt and his place on the initial sack seems at present a very hard one to fill.

The pitching staff was large but of a dark unknown quantity, with the exception of one bright light. Klepinger, our once prize pitcher, was laid up with rheumatism and our only hope seemed to center in "Jimmie" Rice. His pitching was wonderful. His curves, endurance and control won him a place on the all state

ROSENBAUM

WABASH

team. He was in the box during 10½ of the 12 games.

Along the catching line we were extremely strong. Rosenbaum, the captain elect for the 1908 season, played the season through without giving Driver a chance to act as substitute. To be able to stand the continual hammering that "Rosie" stood without getting hurt is almost marvelous. To be able to steal second on "Rosie" is an honor of which mighty few can boast. Chicago's ten second men fell victims to his quick, accurate whip the same as some of the less speedy.

Babcock was seen in his old position at shortstop. His record at this place won him the honor of all state shortstop.

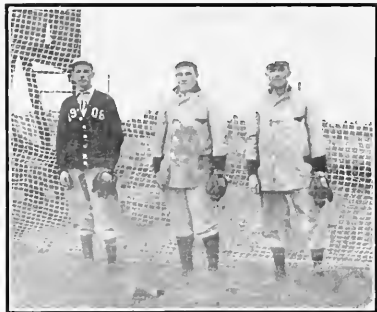

Second base was filled by Sherwood, whose faithful work on the team awarded him this position.

Right field was filled either by Driver or Holdson. Before Kelley was declared ineligible Driver occupied the field. Later, Driver went to third and Holdson to right field.

After our third game had been played and the team was about to start on a four-day trip, Captain Kelley was declared ineligible because of professionalism. It came as an awful blow to the school and to the team. Babcock was elected captain and held the title for the remaining nine games.

The team had many good games, but the best was the 12-inning game with Notre Dame. The Irish were a little over confident, but managed to pull through on top. After the game an elegant banquet was given by the students of Notre Dame for the two teams, at which the spirit of friendliness and good fellowship between the two schools was quite manifest. The season closed with Purdue giving Wabash a good trimming to the tune of 8 to 3.

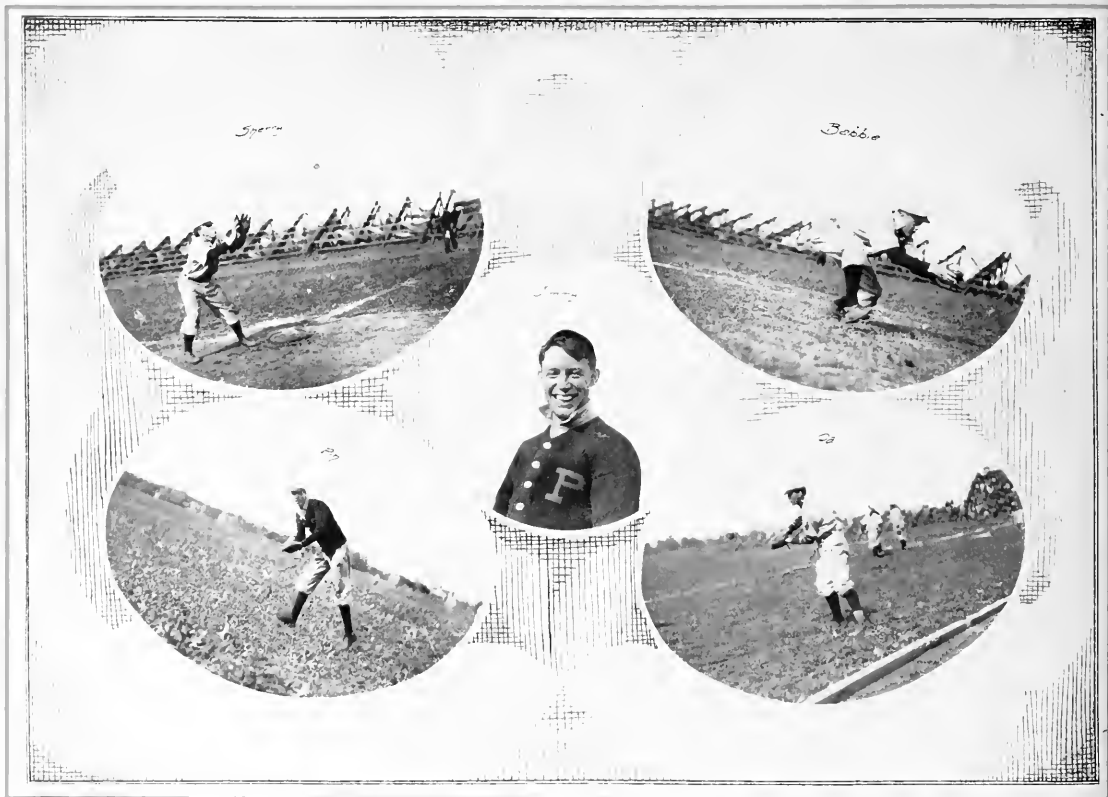

WISCONSIN

In conclusion it might be said, the season was a pleasant surprise, and yet to the team it was somewhat of a disappointment. The team was a tough proposition for any team that it went up against and when beaten it was only beaten by a narrow score. In other words baseball luck was against us. Let us hope that Dame fortune will have seen her mistake and will henceforth come to dwell at Purdue forever.

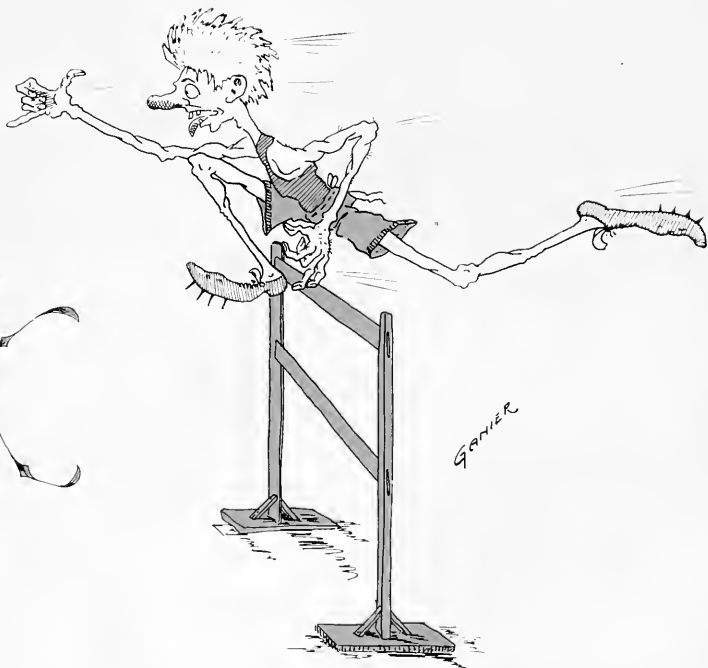

Crips Moore—A great cavalry leader, successor to "Calamity" Cook, '07.

THE SEASON OF 1907.

CLARK

begin outdoor work when the weather permitted and consequently the team that went into the first meet of the year was an unknown quantity. The showing made was gratifying in the extreme.

The season proper opened with the relay race between the different class teams, 1909 winning out with a team composed of Wenger, Coons, Kinkead and White. The inter-class meet followed and resulted in a walkaway for 1909, with a total of seventy-one points. The meet served to bring out the fact that there was some stray material in school, and increased the interest in the meets to follow.

The Chicago team opened the inter-collegiate season at Lafayette, and the Boilermakers made a splendid showing against the famous Maroons. The most sanguine of the loyal rooters did not expect many points, and the performance of the team was very satisfactory. White captured

first in both the half and the mile in fine fashion, and Tillet annexed second in the mile as well. Steffens won the discus, with a throw of one hundred twenty-five feet, two and one-half inches, defeating the Chicago men with ease. Lewis, Clark, Van Norman and Fifield annexed a second place apiece in their events.

Illinois proved to be stronger than Chicago, and the meet at Champaign did not net as many points as did the conflict with the Maroons. Captain Clark carried off the high jump handily and Tillet ran a great race in the quarter, barely loosing in fifty two and two-fifths seconds. Steffens and Fullenweider landed seconds. The Freshman team accompanied the Varsity to the land of the Suckers, and were defeated, but not before giving their opponents a hard fight. Miller proved to be the star of the day, winning the high and broad jumps, and second in the discus. Meyers landed first in the hundred, and second in the two-twenty. Shade won the discus, Smalley the low hurdles, and Bullock, McWayne and Knapp secured seconds.

The Ohio State team came to Lafayette confident of victory. The meet was close and fiercely contested, and was not decided until Clark won the high jump. The day was practically won for Purdue by Williams, who won second in the two mile, in one of

FIFIELD

"That fellow would vulgarize the day of judgment."—Gus Gates.

the gamest and pluckiest races ever seen on Stuart Field, enabling Purdue to get within striking distance of her rivals. Nelson and Lewis won first and second in the hundred in handy fashion, and Lewis carried off second in the two-twenty. White captured his two firsts with ease, and Fifield also landed both the hurdles, with Van Norman second in the low hurdles. Steffens, Fullenweider and Clark each won their event, and Funk, Chapman and Tillet secured seconds in theirs. Ohio State carried off the mile relay, after an exciting finish.

The State meet was held at Terre Haute, with the race track, where the meet was pulled off in a sea of mud. The light runners from Purdue could not plow their way through the dirt and suffered fearfully from the weather conditions. Then Indiana came late, letting Wabash secure points which the scarlet would have had. The combination of bad weather and hard luck caused two defeats of the Boilermakers by four points. All the races were exciting and the result was in doubt up until the last minute. White won the mile easily: but was so exhausted that he did not place in the half. Keefe, of Notre Dame, and Patton, of Wabash, taking the

event. Steffens carried off the discus and Fifield won over Smithson, the star of the meet, in the low hurdles, and got second in the high hurdles. Lewis secured second in the two-twenty, after a hot finish with Smithson and Blair, Tillet and Mellen captured second and third in the quarter, Clark and Fullenweider seconds, and Lewis a third. The meet was a disappointment to the supporters of the team, as the feeling was general that Purdue should have won.

The conference was not productive of many points for Purdue. White got third in the mile and Clark shared with two others second and third in the high jump.

THE SEASON OF 1907-08.

CAPTAIN LEWIS

The basket-ball season of 1908 was in many respects an unfortunate one. Although the team labored under many known difficulties, they gave great promise in the first few games, and subsequent disasters were all the more bitter on this account. The team as a whole was erratic; they put up some splendid fights against certain defeat, but generally failed to win when playing teams there was a chance of defeating.

The season started with the men practicing at the City Y. M. C. A., at the supper hour. The squad recruited from the scrubs of the season before and from the class teams, was fairly large, but the men composing it were small in size, although fast. A number of the candidates were found to be ineligible, and it was early seen that the team would be

bally handicapped in the matter of height and weight, and that speed and team work would have to be depended upon. The work of preparation was hard, and the team went into the first game in the best of shape.

The first contest was with State Normal, and the hopes of the rooters were raised to a high pitch when the teachers were badly defeated. The team displayed great speed and good floor work, and looked "good." But the invasion of the Suckers and Badgers was fatal. Both games were finally lost by small scores, after having been won and lost several times in the course of the play. The northern trip resulted in defeats at the hands of Wisconsin, Northwestern and Chicago, and the team returned disheartened and badly battered up. Then Northwestern came to Purdue, confident of repeating their victory of the week before, but were completely smothered. This contest again raised the hopes of the supporters of the team, but Indiana won at Lafayette, and they fell again. A great fight was put up against Chicago, and the score was close, and then Rose Poly and Earlham were defeated in rapid succession. Then the team went to Bloomington to play Indiana again and greatly to the surprise of everyone, defeated them on their own floor, and by doing so caused

the first alteration of the year at Lafayette. The game at Champaign was another defeat, however, and the season ended with a close contest with Minnesota, also a defeat.

Mention is certainly due Captain Lewis. Although the team was a losing one, he made the best record any Purdue basket-ball player has made in recent years, and was chosen

forward on the All-Western Basket-ball team and re-elected captain for next year. He played every minute of every game, and stood the brunt of the punishment and hard work that fell on the men. It is hard to realize the extent of the credit due him, and what the team would have been without him.

THE MEMORIAL GYMNASIUM.

In no other building on the campus do the alumni and undergraduates feel that personal interest which has always attended the Memorial Gymnasium. Raised as it is being done by popular subscription to stand as a lasting memorial to those sons of Purdue who lost their lives on that fatal thirty first day of October, Nineteen Hundred and Three, it has ever been looked upon more as the students own building than as a part of the University. Though nearly five years have passed since that never to be forgotten day when an inexorable Providence took from the life and activity of the campus sixteen of Purdue's sturdiest sons, these years of vexatious delay have only served to crystallize the original determination to erect a fitting memorial.

Although the funds available for the carrying out of this purpose fall short of what we should like to see expended, the building com-

mittee of the University have been very successful in obtaining plans for a building which will serve the double purpose of memorial and gymnasium. This building for the erection of which \$75,000 is available will be of the most modern construction and will be complete in all details such as gymnasium floor, swimming pool, shower baths, locker space, team quarters, running track, etc. The memorial feature is to be distinctly carried out by the front extension which will contain the entrance hall, trophy and reception rooms, and offices of the athletic department of the University.

The building aside from its memorial purpose will be of incalculable value to the student body from an athletic as well as a social standpoint. The completion of the building is awaited with great expectation and the efforts of the building committee to push the work are very commendable.

The Cross-Country Club at Purdue first came into existence when "Doc" Service, the well known California distance man, came to Lafayette in 1904 to take charge of the college Y M C A. He organized and trained the first regular club, and the organization which he founded has continued to grow since that time. During the past season the team was captained by Knox, '09, and was directly under the eye of Coach Nicol. The membership was composed of sixty five active men and during the Fall they took long runs through the country about West Lafayette. The runs will be long remembered by the boys that took part on account of the larks they had, and the many out-of-the-way places they found.

Of course, the greatest amount of good was gotten out of the daily runs, but three events were held to exhibit the work of the team. An obstacle race, the first ever given at the University, was gotten up by Coach Nicol on October 19th, and over sixty men participated. The course lay on Stuart Field and on the Annex, and was a mile in length. Forty obstacles were scattered along its length, varying from brush heaps to twisted ropes. The novel event was witnessed by a big crowd of enthusiastic rooters, that

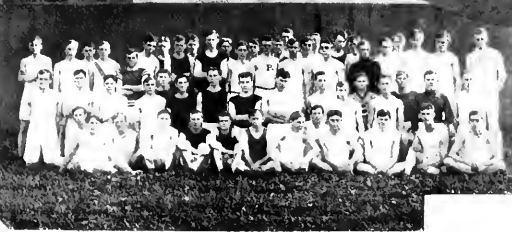

cheered the runners to the echo. Two heats and a final were run, J. E. Brown winning the final heat.

Just preceding the Wisconsin game, on the sixteenth of November, the big event of the season was pulled off, in the five mile handicap cross-country race. The course started on Stuart Field Annex, went northward cross-country to the tank, down through Happy Hollow, along the high bluffs overlooking the Wabash river, and back by way of the bluff road to Stuart Field, around the track and finishing in front of the grand stand. The course was one of the best ever laid out, and on account of the steep hills was considered a very hard one. The race resulted in a tie between Captain Knox and McWayne, the men coming down the stretch just before time was called for the football game.

In order to settle the ownership of the trophies, Knox and McWayne ran off the tie the day of the Notre Dame football game. The course was in frightful condition from the rains, and the men had a hard fight of it. McWayne finally won in a close finish. This closed the season, and the club disbanded till next Fall.

CLASS ATHLETICS

More and more the tendency of modern education is to recognize the importance of athletics as a necessary part of University life, and since the time when little "Nick" dropped in on us with his resourceful facilities for promoting all branches of athletics, the class teams have come to the front, until today they hold almost as prominent a place in each loyal student's heart as do the 'Varsity teams.

Under the present code the class teams, with regular season schedules, battle for class supremacy with all the ardor and spirit of 'Varsities battling for inter-collegiate honors. To each class has been allotted practice grounds for football and baseball, while certain hours are reserved for each for inside practice in basket-ball. Last year unusual interest was awakened in class athletics by presenting the championship teams with suitable trophies.

The 1910 football team with such men as Shade, Hanna, McFarland, Kirk and Watt won the trophy, a banner, which is placed on exhibition in the library. In baseball 1910 again showed her su-

premacy and, under the leadership of Hodges, won the silver loving cup offered by the Athletic Association. The 1907 football season consisting of a three game schedule interspersed with several 'Varsity scrimmages, was a very successful one and Captain Driver, with his 1909 team, carried away the honors without losing a game. The all-class team, picked from the four class teams, is an innovation and from its ranks we hope to pick several good men for next year's 'Varsity. Captain Dewey with his strong bunch of Freshmen players succeeded in carrying away the championship honors in basket-ball. In this sport, too, an all-class team was picked which proved worthy opponents for the 'Varsity.

We now believe that, with our new Memorial Gymnasium with its almost unlimited facilities for training, and the proper fostering and emulation of class athletics as started within the past two years, together with the presentation of trophies to championship teams and the competition which this brings about, Purdue will again take up the march and stand at the front in western athletics.

THE PURDUE ENGINEERING REVIEW.

The "Review" is the annual technical publication of our Associated Civil, Mechanical, and Electrical Engineering Societies. Its purpose is to bring before Purdue men engineering information which has not heretofore been published and to stimulate activity in our engineering societies by bringing before their members a source of information which will prove valuable in its permanent form.

THE COSMOPOLITAN CLUB.

The Purdue branch of the Cosmopolitan Club was organized in the Fall of 1907 for the purpose of bringing together students from all countries. The growth of the club has been remarkable, enrolling with its membership nearly all the foreign students in the University and a number from the United States. Chapters of the Cosmopolitan

Club are to be found at nearly all of the large American universities and the local branch is one of the most energetic and popular clubs in the University. Bi-weekly meetings are held which take the form of lectures, literary programs, smokers and socials.

J. L. Bradfield, '09.

The Mechanical Engineering Society stands for the further advancement of this branch of engineering and has, during the past year, accomplished great results along this line. It not only affords opportunities of hearing excellent speakers from the practical walks of life, but also provides a medium through which its members can present their individual views upon matters of general interest. The Society has been exceptionally successful during the past year in obtaining good speakers, who have ably presented engineering subjects from a commercial view, thus enabling the student to hear

these topics discussed from a practical as well as a theoretical standpoint. The success of the Society is largely due to the untiring efforts of its president, together with the assistance of the Governing Council and the Program Committee.

During the past year a Mechanical Engineering Society reading room has been established where many up-to-date technical papers and magazines are placed for the inspection and perusal of its members.

M. E. Society Officers.

First Semester.

R. G. Bennett, '08, President.
 W. D. Stout, '08, Vice President.
 B. P. Phelps, '08, Cor. Secretary.

LIST OF SUBJECTS.

- Oct. 13, 1907—"The Value of the Engineering Society to the Engineering Student," by Prof. C. H. Benjamin.
- Oct. 17, 1907—"The Design of the Automobile," by Mr. A. Berger, '08.
- Oct. 31, 1907—"The Engineer as a Business Man," by Mr. M. W. Preisler, of the Ingersoll-Rand Co.
- Nov. 7, 1907—"The Education of Apprentices," by Mr. L. W. Wallace.
- Dec. 4, 1907—"Railway Signals," by Mr. E. E. Schultz, '08.
- Dec. 19, 1907—"Purdue Methods in Testing Laboratories as Applied to Railroad Work," by Mr. B. P. Phelps, '08.
- Jan. 9, 1908—"How to Get a Job," by G. W. Munro.
- Feb. 6, 1908—"Methods of Train Loading," by Mr. R. G. Bennett, '08.
- Feb. 18, 1908—"The Manufacture of Paper," by Prof. J. D. Hoffman.
- March 5, 1908—"Air Compressors," by Mr. W. T. Heck.
- March 19, 1908—"Manual Training Methods," by Mr. R. B. Keller, '08.
- April 2, 1908—"Problems in Heating and Ventilating," by Prof. McCall.
- April 16, 1908—"The Manipulation and Tempering of Tool Steel," by Mr. J. F. Keller.
- April 30, 1908—"The Foundry," by Mr. B. B. Ellis.
- May 14, 1908—"What a Mechanical Engineer Should Know About Electricity," by Prof. J. W. Esterline.

THE CIVIL ENGINEERING SOCIETY

ENGINEERING

GANIER

The Civil Engineering Society, while being the oldest of technical organizations, has never been found wanting in progress. It is now closing its fifteenth year and in that time the membership has gradually increased from a mere handful to over two hundred and sixty.

This society has been exceedingly helpful in presenting to the student the practical as well as the professional side of the engineering world and in encouraging good fellowship among its members

MEETINGS AND ADDRESSES.

October 11, 1907,
"Quebec Bridge Failure,"
 Prof. Albert Smith.

October 25, 1907,
"Architect versus Engineer,"
 Dean C. H. Benjamin.

November 7, 1907,
"Concrete Inspection,"
 W. F. Baumgardner, '08,
 J. A. Shaw, '08.

"Government Survey,"
 L. S. Jackson, '07

November 23, 1907,
"Work at Gary, Indiana,"
 R. R. Lukens.

December 7, 1907,
"Mine Surveying,"
 M. R. Tillotson, '08,
 P. B. Brenneman.

January 10, 1908,
"Retaining Walls,"
 W. O. Moore, '07,
 R. C. Yeoman, '07

February 6, 1908,
"Mississippi River Levee Systems,"
 A. F. Ganier, '08.

February 20, 1908,
"Irrigation in the Wenatchee Valley,"
 O. N. Horner, '08

February 26, 1908,
"Structural Steel,"
 Mr. M. B. Wishard, '09.

March 5, 1908,
"Clearance Measurements for Tunnels and Bridges,"
 J. E. Teal.

April 2, 1908,
"Railway Maintenance,"
 J. J. Crotty, '09.

PURDUE AMERICAN ELECTRICAL BRANCH INSTITUTE ENGINEERS

Officers.

Prof. J. Walter Esterline, Chairman
R. H. Webb, Vice-Chairman.
Prof. H. T. Plumb, Secretary
C. A. Jaqua, Ass't Secretary
P. E. Harbolt, Treasurer
E. W. Gent, Chairman Telephone Section

Executive Committee.

R. H. Webb, Chairman.
E. W. Gent.
D. Z. Senour.
J. L. Bradfield
J. Lyon.

The Purdue Branch of the American Institute of Electrical Engineers was organized as such in 1907. For a period of six years previous to that time, the organization had existed as the Electrical Society, and when the possibility of its becoming a part of that strong national organization was made manifest, advantage was at once taken of the opportunity.

It is the purpose of the Branch to stimulate interest in electrical subjects, by its meetings, and to afford a means of giving enlightenment on subjects that can not be conveniently treated in the classroom.

Instructors, professional engineers and students are procured to give addresses at the meetings, from time to time. Several of the meetings, each year, are given over to the discussion of papers that are presented at the American Institute at New York. Alternate Tuesdays are given over to the Telephone Section of the Branch.

The local organization is one of the strongest of the student branches and gives much promise of being the largest within a period of two or three years.

SUBJECTS AND SPEAKERS, 1907-08.

September 24, 1907.

Discussion:—"The Moore Light," Prof. Plumb, Mr. W. T. Small, Mr. C. R. Moore.

October 8, 1907.

Discussion:—"Lightning Phenomena in Electric Circuits," Prof. J. W. Esterline, Mr. W. T. Small and Mr. C. E. Schutt.

October 22, 1907.

The Apprenticeship Course Offered by the Westinghouse Electric Mfg. Co., Mr. A. Flanigan and Mr. B. L. Benbow.

November 5, 1907.

"Problems in Alternating Current Distribution," Mr. J. L. Bradford.

November 19, 1907.

"Some Phenomena of the Electric Arc," Prof. A. N. Topping.

December 3, 1907.

Discussion:—"Comparative Performance of Steam and Electric Locomotives," Dean C. H. Benjamin, Mr. W. T. Small and Mr. C. R. Moore.

December 17, 1907.

Discussion:—"The Ratio of Heating Surface to Grate Surface as a Factor in Power Plant Design," Prof. J. D. Hoffman.

January 8, 1908.

"Specifications and Contracts for Electrical Work," Prof. J. W. Esterline.

January 21, 1908.

Discussion:—"The New Haven System of Distribution with Special Reference to Sectionalization," Mr. C. R. Moore.

February 4, 1908.

"Specifications for Engines and Boilers," Dean C. H. Benjamin.

It is hardly to be expected that musical talent will be developed and musical organizations perfected among "boiler makers," yet there are a number which have shown sufficient class to do credit to our institution.

Foremost among these is the University Band which has served to keep up our spirit in time of defeat and give vent to the joy of victory. It is conceded by college men, both East and West, to be one of the "best ever." Much credit is due to the present leader, P. S. Emrick.

The Glee and Mandolin Club is a new organization, but has created much interest among the student body and its appearance in Fowler Hall at convocation or in concert has always been hailed with pleasure.

Guess what's next? The Girls' Glee Club, one of the products of the Spring of 1907, came on the horizon with a rush and has held the

music lovers spellbound ever since. Their unique method of advertising, though not considered as exactly elite by the Glee and Mandolin Club, appealed to the impersonal outsider to such an extent that Fowler Hall was crowded to its capacity on the night of their appearance, March 26, 1908. The organization promises to be one of the most popular on the campus.

The Orchestra and its "faithfuls" have served to brighten up many dull spots in and about the University. "Lipp" has made this organization one of the most efficient and most classy of them all.

1908 sees Purdue with one of the best equipped and best organized dramatic clubs to be found anywhere, in the person-ness of the Harlequin Club. A play written by a Purdue man; music composed by Purdue men; cast of Purdue men are the results of its efforts this year, and was the greatest hit of its history. The music, composed by George Ade Davis and Lipinsky, is extremely catchy and novel, and is now being whistled everywhere.

For the past two years Purdue's former Minstrel Association has been known by the name Harlequin Club. Early in the Fall of 1905 the management of the Purdue Minstrel Association took up the matter of giving a play of the comic opera variety some time during the following Spring instead of the usual minstrel show. With this object in view the management of the Association began a search for a suitable play and finally hit upon one which had been previously produced at Lehigh University under the name of "Brown and White." For the purpose of the Purdue production this name was changed to "Gold and Black" and was presented in the Spring of 1906. Two performances were given at Lafayette and one at Indianapolis. The show scored a decided hit in both places and was so superior to the old minstrel shows that it was decided by the management to do away entirely with this form of entertainment and to continue further productions to the comic opera variety.

In the season of 1907 a play was obtained from the Cornell Masque which had been produced there the previous Spring. This play was of the Mikado variety, being a typical Chinese comic opera

It was also given two nights in Lafayette and one night at Indianapolis where it scored such a decided hit that the people of that city await with interest the next Harlequin Club production. The 1907 play was called "The President of Oolong," and was replete with catchy songs and mirth provoking lines.

On the second night of this play in Lafayette, George Ade, '87, the famous author and playwright, witnessed the performance and was so surprised and pleased with the talent displayed by the youthful thespians that he promised on the spot to write Purdue's play for this year. True to his promise he presented to the management of the Harlequin Club this Spring a college musical play which far exceeded in excellence the most sanguine hopes of the management.

The play is a three act musical comedy of the well known Ade type bearing the significant name, "The Fair Co-Ed." The lines are far wittier than those of any of his previous plays and the music, which is the joint work of L. H. Lipinsky, '08; George Ade Davis, '06, and H. A. Lipinsky, '09, is catchy and of the whistling kind.

School of Medicine

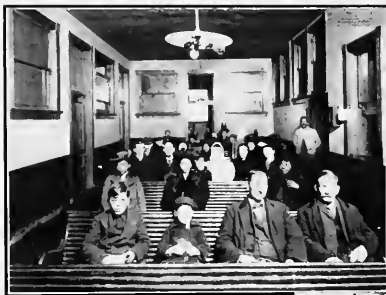

DEPARTMENT OF MEDICINE
PURDUE UNIVERSITY

THE Indiana Medical College, the School of Medicine of Purdue University, is a product of the union of the three former medical schools in Indiana, namely, the Fort Wayne College of Medicine, the Central College of Physicians and Surgeons, and the Medical College of Indiana.

The Fort Wayne College of Medicine was organized in 1879, and gave continuous instruction up to the time of its union with Purdue. For many years it exerted a strong influence for the advancement of medical learning

and the development of the medical profession throughout Northern Indiana, and about it grew up a group of men who have made their mark in the profession of the State and Nation. Though a small college in number of students, it had always had in its faculty, men, who, as practitioners, writers and teachers, took high rank, thus illustrating the wholesome truth that mere bigness is not the only, nor chief factor of worth in an institution of learning.

The Central College of Physicians and Surgeons was organized in Indianapolis in 1879. For many years the

surgeon of his day and the father of the modern surgery of the gall-bladder. In 1878 the College of Physicians and Surgeons united with it. It has been associated at various times, as the medical department, with Asbury University, Butler University and the corporation known as the University of Indianapolis. For many years, and especially in recent years, a sentiment had often found voice in the profession, favoring the strengthening of medical teaching by its alliance with the public

late Dr. Joseph Eastman, eminent Indiana Abdominal and Gynecologic Surgeon, was its president. It was in certain ways reorganized and rejuvenated, a number of young men coming into its faculty and adding strength to its work and preparing themselves for the larger opportunities and duties which were to come with the union of the Central College with Purdue.

The Medical College of Indiana was founded in 1868, under the Presidency of John S. Bobbs, the leading Indiana

educational system of the State. Various attempts to bring this about had been made, but without success, until in the early summer of 1905, the Medical College of Indiana took up the movement and after patient endeavor to reach a plan which would meet with approval of the profession and of the majority of experienced medical teachers, reached an agreement with Purdue University. By this agreement the college became, in the summer of 1905, the medical department of this

State institution. The movement being thus started, Purdue University promptly proceeded to carry it forward by inviting the other colleges to join with her, and this they

soon consented to do, disbanding and surrendering their all, as had the Medical College of Indiana, to Purdue.

These three colleges had, and will always have, the credit of meeting the convictions of the profession and the plain educational needs of the times. Since the establishment of the School

of Medicine of Purdue University, the curriculum, in the same radical way, has been remodeled after the plan set forth by the educational committee of the American Medical Association. This plan involves several main features:

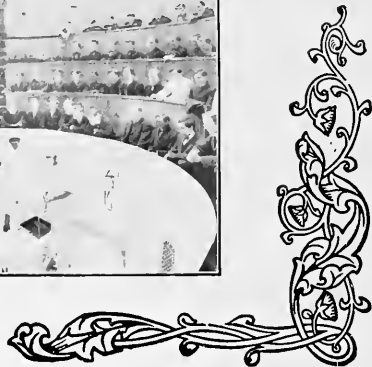

First:—The allotment of at least a specified number of hours to the subjects.

Second:—The allotment of and actual filling of at least a certain number of hours with practical laboratory and clinical work in each of the specified departments.

Third:—The devotion of the large part of the didactic and clinical work of the last two years to the great general departments and making the teaching in the narrower special departments largely clinical.

Fourth:—The development of sectional teaching. In all these respects the College is meeting or exceeding the standard. It is matter of common consent that never in the history of medical teaching in Indiana, has there been given as well manned, well organized, extensive and complete a course of teaching in the fundamentals, the theory, and the practice of medicine, as is now given in the School of Medicine of Purdue.

HENRY JAMESON, Dean
Professor of Medicine

SENIOR CLASS HISTORY.

"I profess not talking; only this
Let each man do his best."

ANOTHER mile-stone by; the Senior class of 1908 awaits Commencement. A lump that is hard to swallow rises in every "medic's" throat as we realize that we are about to bid school days and classmates a last farewell. We are taking an important step and one to which each of us has long looked forward. We are anxious to get started in our life-work; yet we hesitate now, for an instant, recalling the years of preparation and dreaming of the future. Once we pass across the border we shall be lost in the shifting throng. What success we may gain we shall deserve. Each man has the power to mold his own career, and one unworthy cannot succeed.

Much that was unlooked for has happened since we entered medical college. Peace and strife have alternated in influencing medical education in this State. At times selfish men in our midst, as well as faithful teachers, have influenced our work. Some of the class left us but the great majority are happy and as a unit praise the work we have been given and the instructors who have led us successfully through our college life. There are some, perhaps, who wish they might live over these four years, regretting time wasted and play-hours that might have been made study-hours. But there is none who does not cherish, withal, tender

memories and gratitude towards those who have helped him in his work.

Every incident in our college life will serve a purpose. We are better men for having had to overcome obstacles. We can appreciate what has been done for us the more, knowing that opposition often stimulated our teachers to maintain the standards they have, and our thoughts sober us for the moment when we realize all they have done for us. We have learned the value of time and we have learned to stand on our own feet. Our ability to apply facts and principles, to remember what we have unconsciously absorbed, will determine the degree of success we shall attain.

To add something of value to the life of the community we enter; to devote our knowledge and skill to unselfish and tireless efforts on behalf of those who seek our aid, to remember the sanctity of our profession and maintain respect for it, ever striving to advance its interests; these are duties devolving upon us now. And when finally we shall reach that place where visions of the future are short and memories of the past fill our minds, we may count our lives well spent if we can recall naught but deeds of charity and unselfish devotion toward our fellow man.

HISTORIAN.

ALLIS

EDWARD KARL ALLIS, one of the new members of our class, is a graduate of the Hahnemann Medical College of Homoeopathy. "Allee" was born in Arcadia, Ind., in 1881. Although an old maid she still has hopes. Edward is a member of the Hahnemann Quiz Society and an Odd Fellow. Will locate in Virginia.

SIMON W. BAILEY, our wild and woolly cowboy, was born at Wausau, Wis., August 14th, 1879, of English parents. Graduate of Tomah High School. Attended State University of Wisconsin two years. Graduate of Still College of Osteopathy at Des Moines, Ia., 1901. Practiced Osteopathy in Canal

BAILEY

MAURICE JOSEPH BARRY. "Joe." Born December 31st, 1880, at Indianapolis, Ind., in which city he expects to locate. Member of the Phi Chi Fraternity, Swedenham, and Knights of Columbus. Graduated from Shortridge High School in 1897. Has been a stenographer and bookkeeper. "Joe" is the orator of the class of 1908 and a prominent member of the bald-headed row. Served as externe at

BARRY

City Dispensary in 1907 and has been assistant in the Neuroanatomical laboratory two years.

HARRY KRAYLOR BONN, born August 9th, 1886, at Indianapolis. Graduated from Manual Training High School. Spent last three years in Purdue School of Medicine. Member of Phi Rho Sigma Fraternity. Harry is a very diligent student, usually quiet in the lecture room. Never thinks of talking to his neighbors, and wants others to be considerate of him so that he can hear the lectures. Will someone kindly tell Harry how to raise a beard. Will locate in Indianapolis.

BONN

BURKHART

ARTHUR ERNEST BURKHART, born on a farm in Tipton County, Indiana, August 17th, 1876. Spent two years in preparatory school at Danville, Ill. Married Miss Allie Boyd, daughter of a United Presbyterian minister, August 3rd, 1899. Managed his father's farm for three years and then attended Valparaiso University where he received the B.S. degree. Entered Medical College in 1905. Is a member of the Christian Church and will probably locate in Tipton.

RAYMOND ALFRED BUTLER, son of W. F. Butler, M.D., born at Amboy, Ind., February 25th, 1885. Graduated from Stockwell High School in 1903; from Friends Bloomingdale Academy, 1904.

BUTLER

Has spent four years in Purdue School of Medicine. Member of Sydenham. Butler is a ring-leader in all rough houses and makes as much noise as possible when he walks. Shortest man in the class. Intends to locate in the best place to be found when the time comes.

CHARLES LAWRENCE CABALZER will locate in Indianapolis, his native city, having been born there on July 28th, 1881. Is a graduate of Manual Training High School and of Butler College. Received A.B. degree in 1905. Class president during Sophomore year. Externe at City Dispensary. Assistant in Physics at High School in 1900; in Elementary Chemistry at Butler College in 1904.

CABALZER

COFFIN

Member of the Phi Beta Pi Fraternity and Purdue Masonic Club.

GUY R. COFFIN, "Papa Coffin," was born in Stilesville, Ind., October 21st, 1874. He was a pedagogue, surveyor and road builder before entering Medical College. He is continually looking for a hair tonic which will invigorate the bunch of down he has growing on the top of his head, but his efforts have seemed in vain. Married Miss Ida Snively, December 26th, 1905, and to them was born Miss Bernice E. Coffin, February 27th, 1907. "Papa" was so pleased with the event that he set 'em up to a box of cigars. Long live Little Bernice.

CONOVER

GUY P. CONOVER, "Gansey" born at Versailles, O., August 21st, 1884. Attended Muncie High School. Entered Medical College in 1902. Dropped out at end of Sophomore year to attend Kenyon College at Gambier, O., where he studied two years. Re-entered Medical School in September, 1906, as Junior. Member of the Delta Kappa Epsilon, Phi Chi, Kappa Alpha Phi, Eagles Head Fraternities. Editor of "The Student" in 1907-1908. Constant contributor to the Muncie division of the Indiana Union Traction Company. "Conny" says if he had four years more in Medical College he would save money by buying the Muncie Division. Location indefinite.

ANDREW T. CUSTER, "General," "Boomskey," was born at Bloomfield, Ind., December 7th, 1873. Attended Bloomfield High School and St. Louis

CUSTER

Business College. Passenger agent for the Wabash Railroad for several years, but he always wanted to deal out pills. "Boomskey" married Miss Louella Dixon, December 27th, 1894, and is the proud possessor of one papoose who is the Master of the Phi Rho Sigma Fraternity. Member of the Phi Rho Sigma, Sydenham, Modern Woodmen of America, the Trinity and Masonic Club. President of class in Senior year. Externe at City Dispensary in 1907.

CARL VINTON DAVISSON, "Big Dave," is of English and Scotch Irish descent, born in Tippecanoe County, Ind., January 31st, 1881. Graduate of Sugar Grove High School and Business College. "Davy" helped his father till the soil before he entered Medical College. First year's work at

DAVISSON

DEERHAKE

Central College, last three years in Purdue School of Medicine. Member of the Phi Rho Sigma, Sydenham, Dew Berry Club, Knights of Pythias. "Big Dave" is everybody's friend and has been Wright's protector since he entered College. Will locate in Lafayette.

WILLIAM A. DEERHAKE, "Dearie," our pretty boy, was born near St. Mary's, O., and is the son of a farmer. Attended common school until fourteen years of age, then entered St. Mary's High School graduating in 1904. Entered Starling Medical College at Columbus, O., in 1905, where he took his first two years. Junior and Senior years at Purdue School of Medicine. Is a member of the Phi Beta Pi Fraternity.

DINNEN

J. FRANK DINNEN, President of the Sydenham Society, was born in Fort Wayne, Ind., October 23rd, 1882. Attended Norte Dame three years, the University of Illinois two years, entered the Purdue School of Medicine in 1905 as a Sophomore. Is a member of the Phi Beta Kappa Fraternity. Will practice with his father at Fort Wayne, Ind.

IRVIN W. DITTON, called "Dit" for short, was born in Wabash County, Indiana, January 14th, 1872. "Dit" was reared on a farm and received a common and high school education. He then studied Civil Engineering which he followed some time be-

DITTON

fore studying medicine. He matriculated at Ft. Wayne school of Medicine in 1904, but has spent his last three years in the Purdue School of Medicine. He is a Mason, an Odd Fellow, and a member of the Sydenham and Purdue Masonic Club.

CECIL EARL DUNCAN, "Masher," born May 13th, 1887, at Weintown, Ill. Baseball player, sport and athlete. The girls think he is pretty. Graduate of Coffeen High School 1903. Attended Central Normal College. Member of the Sydenham. Location indefinite.

DUNCAN

DUGDALE

THOMAS ALFRED DUGDALE was born at South Bend, Ind., March 25th, 1883, of English-American parentage. After attending the public schools and graduating from the South Bend High School, he entered Notre Dame University. A year later he matriculated at the Purdue School of Medicine. "Dug" used to be a rough-houser, but after his marriage to Miss Edna May Barr, of South Bend, on December 1, 1906, Tom settled down. After serving an internship, he will locate in Tacoma, Washington.

DUNN

FERRELL WILLIAM DUNN, born at Wilmington, Ind., in 1882. Attended Tri-State Normal, Normal School at Muncie and Indiana University. Graduate of Muncie High School. Before entering Medical College he taught school. Is a member of the Phi Chi, Sydenham and Purdue Masonic Clubs. Wears a hat size number eight, they say he has the "big head," but there is "nothing in it." Will locate with his father and enjoy a large country practice.

LEHMAN M DUNNING, "Goat," born May 26th, 1874. Member of the Phi Kappa Sigma Fraternity

DUNNING

and Sydenham. Graduated from Shortridge High School and Princeton University. He is very much opposed to having the "fair sex" represented in class. "Draught clerk" and "Fresh air crank" especially when ladies are present. We hope he will find out some day that girls are not such despicable creatures after all. Will locate in Indianapolis.

ROBERT DWYER, "Peddler," born June 26th, 1878, at London, O. Though born in London, is Irish. "Theory," wears a green ribbon and rides a white horse on St. Patrick's Day. Graduate of Ohio High School, attended Ohio State University. "Bobbie" is

DWYER

first president of the "Salve Spreader's Union," is an Elk, a member of the Knights of Columbus, Sydenham, Phi Kappa Sigma and the Trinity. Intends to locate somewhere.

STEPHEN LAWRENCE EGART, "Steve," received his early education in Parochial Schools and later attended college at Bardstown, Ky., and Elkoot City, Md. He has taught in several private schools. Took up nursing and has worked hard during his medical course and is deserving of great credit for his pluck. Was born at Moolyville, Ky., April 12th, 1872. Will probably join the clan in Indianapolis.

EGART

FARMAN

FISHER

GRAMLING

GUEDEL

FRANK L. FARMAN was born at Chicago, Ill., December 25th, 1882, and what a merry Christmas that must have been when Frank began to squall. He is actually so busy that he hardly has time for school. Is a tenor singer in the Squeeze Quartet, noted for their discordant harmonies. Graduate of Manual Training High School at Indianapolis. Is a member of the Sydenham Society. Location indefinite.

MARVIN F. FISHER, "Tubby," born in Huntington County, Indiana, February 21st, 1882. Friend of "Shorty Kimes" and John Mitchell, President of Coal Miners' Union. Carries life insurance for fear

of being shot by his patients. Worked on his father's farm and later taught school. Attended Marion Normal College, Grant University, Athens, Tenn., and Northern Indiana School of Pharmacy, Mason, member of the Masonic Club and Sydenham. Location indefinite.

JOSEPH J. GRAMLING, born September 18th, 1878, in Baden, Germany. Received literary education in Germany. Entered the Indiana Medical College in 1899. After first year became assistant in Pathological Laboratory of the Central Insane Hospital and afterwards supervisor at the Hospital. Re-entered the Medical College in 1905. Has been a

faithful student. Member of the Sydenham and Phi Beta Pi Fraternity. Location undecided.

ARTHUR ERNEST GUEDEL, "Geedle," born in Cambridge City, Ind., June 14th, 1883, of German-Irish stock. Attended Cambridge City Schools and Indiana University. Has been a physical director in Indianapolis gymnasium for several years. Founder of the "Sharp Shooters' Brigade" in the Purdue Medical School, Director of the Boys' Club for several years. He is a great singer; sings tenor in the Senior quartette. Mourns absence of piano this year. Member of the Phi Rho Sigma Fraternity and Sydenham. Location Indianapolis.

HENDRICKS

ALFRED HUDSON HENDRICKS, Jr., is a graduate of Lewis High School. Received degree of Bachelor of Arts from University of Illinois. Attended Chicago and Northwestern Universities and finally decided to complete his medical education at Purdue School of Medicine. Alfred was born at Columbus, Ill., April 30th, 1883. He is an earnest and quiet chap. Will probably locate in Minnesota.

WILLIAM ALBERT HULBUSH, "Big Chief," was born July 17th, 1884, at Cincinnati, O. German descent, of course. Moved with parents to Chumuk, Montana, when four years of age, and has made that his home since then. Is a member of the Syden-

HULBUSH

ham. Graduate of Chumuk High School; attended Montana Normal School. "Bill" is a dandy good fellow and was a model youth until he put on his war paint at Pitman Meyer's reception last winter. Will locate in the West.

SETH HUGO IRWIN, "Abe Martin," was born in Huntington County, Indiana, January 14th, 1882. Irish and rural descent. Graduate of Bluffton High School in 1904. Is a Mason, an Odd Fellow, a Knight of Pythias and a member of the Sydenhams and the Purdue Massone Club. "Abe," by gander, is a perfectly docile youth of sentimental habits and is a grafter from start to finish. Seth is extremely

IRWIN

KEMPER

popular. He says: "Seems like as if they would give a medal to the those who was the hero of the Eleanor fire, gosh ding it."

ROBERT JAMES KEMPER, "Dr. Oliver the Second," was born in Irvington, Ind., October 24th, 1879, with a red tie about his neck. He celebrates the occasion every Tuesday with a red band about his throat. Machinist by trade but desire for medicine manifested itself early. In Junior year, class editor for "The Student," in Senior year Medic editor for the "Exponent." Member of the Phi Kho Sigma Fraternity and of Sydenham Society. Location probably Indianapolis.

KIMES

SAMUEL S. KIMES. Sam wants to be a great surgeon and we have no doubt of his ability to attain renown. "Tubby" Fisher is Sam's best friend. Both are loyal church workers; they can work singly but work better double. Sam was once a tiller of the soil and taught school six years. He does not know just where he will locate. He was born at Spenceville, Ind., January 23rd, 1880. Attended Spenceville High School two years, State Normal College one year and Tri State Normal College at Angola one year.

JOHN AUGUSTUS LEAS. "Jake," born in Auburn, Ind., August 16th, 1884. Attended Auburn Schools and Lake Forest University 1899-1903. Member of the Beta Zeta Phi, Phi Kappa Phi and the Trinity.

LEAS

"Jake" is a great favorite at the Empire and for many years held down a chair in that institution. Extremely proud and easily frightened by street cars. "Jake" and Seth are old pals. Seth often assists him in giving treatments. Has not decided where to locate, but will specialize.

CLARENCE LUCAS, born at Huntington, W. Va., November 23rd, 1884. He is colored and has been making his way through school by working in hotels and on dining and Pullman cars during vacations. Graduate of the Scioto Township High School, Pike County, Ohio. Is a Knight of Pythias and a colored Mason. Will practice in Richmond, Va., or somewhere else in "Dixie."

LUCAS

McCASKEY

CARL HEBER McCASKEY. "Karel," "Mack," was born at Rigden, Ind., September 1st, 1877. Attended Indiana State Normal School and is a member of the Phi Kappa Phi Fraternity, Odd Fellows and the Trinity. He and Colonel Weaver formed the Capital Neckwear Company. Weaver became wealthy in a short time and withdrew. "Mack" ran the business alone for a time but soon sold out because his lady friends demanded too much of his time. He is to be married soon, so girls take care. "Mack" is a good fellow and was never known to be without money. We hope his troubles will all be little ones.

McCOY

EDWARD LEROY McCOY, "Funny," was born January 1st, 1891, at Lancaster, Ind. Graduate of Columbus High School. Attended DePauw University two years. Married Miss Leah Giles, our pretty clerk, May 5th, 1906, and gave us all a surprise. "Funny" was quite active before his marriage and did many peculiar stunts. Since then he has settled down and is quite a different chap. Member of Delta Kappa Epsilon and Phi Chi Fraternities. Will probably locate with his father in Columbus, Ind.

HENRY O. MERTZ, born at Roundhead, O., April 5th, 1884. Is a graduate of Roundhead High

MERTZ

School; Northwestern Conservatory of Music. Attended Ohio Northern University three years. Was a farmer before he became ambitious. Member of the Sydenham, Phi Beta Pi, Maccabees and Robert's Park M. E. Church. He has been in Dr. Wishard's laboratory for the past two years. Is a friend of Mitchell and the best looking man in the class. Location indefinite.

MARY HAZLETT MICHIE has the distinction of being the only lady in the class. She is a "Buckeye," having been born in Ohio on December 21st, 1893. Graduated from Knickerbocker Hall in 1902. Will locate in Indianapolis. Is a member of the

MICHIE

MITCHELL

Sydenham Society and assistant in the laboratory of Neurology and Surgical Pathology.

EDGAR THOMAS MITCHELL, "Mitch," was born in Tipton County, Indiana. Attended Valparaiso and Marion Normal Schools. Member of the Phi Chi Fraternity, Knights of Pythias, Modern Woodmen of America, Orientals and Sydenham. President of the class in Junior year. "Mitch" has tried everything from farming and teaching to selling insurance policies, but he thinks he will stick to the practice of medicine. Extern at City Hospital 1907-1908. Rooms with Guedel—mul-sed. Will locate in Indiana.

MORGAN

SALB

SCIFRES

SIMON

ALDINE EMMET MORGAN, business manager of "The Medical Student," though lank and lean delivers the goods. He was born at Majenaca, Huntington County, Indiana, November 26th, 1874. Taught in the public schools ten years. Was united in marriage to Lola Thomas, of Bluffton, Ind., May 3rd, 1899. Entered the Indiana Medical College in 1904. Is a member of the Sydenham Society. Location indefinite.

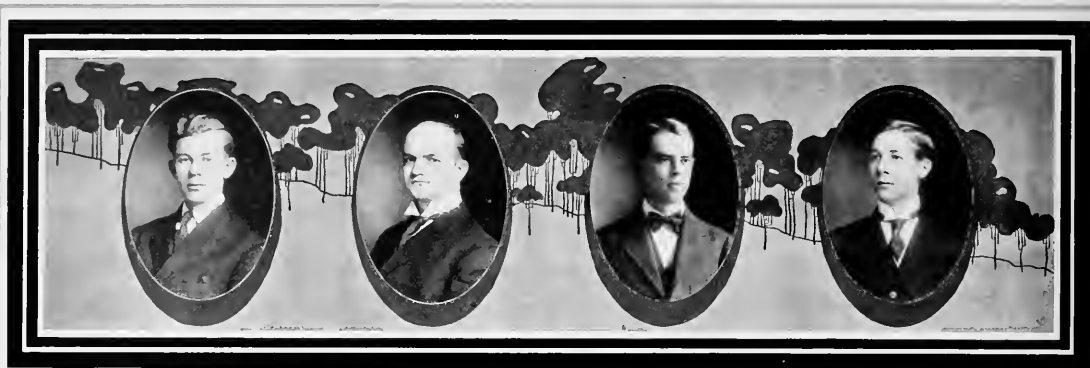

LEO A. SALB, "Silent Leo," never has a word to say, never roughs houses, modest and unassuming. Born

November 4th, 1886, at Jasper, Ind. Graduated from Jasper High School. Member of Sydenham Society. Location indefinite.

JOHN GROVER SCIFRES, the busiest man in his class, first saw light of day in Little York, Ind., December 21, 1884. Graduate of Salem High School, studied Civil Engineering at Purdue in 1903. Was severely injured in the Purdue wreck, October 31st, 1903. Entered Medical College in 1904, and during vacation has worked as engineer for the Frisco Railroad. Grover's socks are things

of beauty. Is a Mason and a member of the Masonic Club. Location Indianapolis.

ARTHUR R. SIMON is of German descent, born at LaPorte, Ind., in 1886. Graduate of LaPorte High School and a member of the Sydenham and Phi Beta Pi Fraternity. Was an AI dog catcher for the Physiological Chemistry Laboratory in his Sophomore year. Shark in operative surgery on cadaver. Assistant to Doctors Burckhardt, Torian and Reed. Will probably locate at LaPorte, Ind.

SMITH

JAMES M. SMITH, "Count Bon" and "Lady's Man," was born in Utica, Ohio, June 7th, 1883. Is of Scotch-Irish and Dutch descent. "Sammy Jim" is the light of the class and drives away many of our weary hours by his melodious singing. His winning ways and swell clothes are enough to win the heart of any fair maid, and we wonder why Jim has not yet joined the Benedict's Club. Graduated from Utica High School in 1901, Kenyon College in 1908, with degree Ph.B. Member of the Delta Kappa Epsilon, Theta Nu Epsilon and Phi Chi Fraternities. Will locate in the West.

WILLIAM R. SPARKS, son of a farmer, was born in Hancock County, Indiana, near the town of Pendleton, on March 17th, 1882. Although born on

SPARKS

St. Patrick's Day, Sparks does not claim to be Irish. The top of Bill's head is naked and he tries to cover it by letting what little hair he has grow exceedingly long. He is an earnest, quiet, unassuming chap and will make an efficient Doctor. Graduated from Pendleton High School in 1901 and is a member of the Sydenham Society.

THOMAS L. SULLIVAN, Jr., attended Shortridge High School and Purdue University. Was born Jan. 24th, 1886, at Indianapolis, Indiana, of English-American, Scotch-Irish descent. Member of the Phi Kappa Psi Fraternity. Tom is a very noisy lout, always trying to create a disturbance. Great ladies' man and very popular in the class, although he has been with us only two years. Received a

SULLIVAN

TAYLOR

hearty welcome when he entered college after taking his first two years in Chicago. Will probably locate in Indianapolis.

THOMAS LACY TAYLOR, of Scotch-Irish and Welsh descent, is unable to say whether he was born in the night or day because of the excitement of the occasion which occurred on August 23rd, 1879, in Trenton, Tenn. Is a graduate from High School and a Doctor of Osteopathy, having received the degree from the American School of Osteopathy at Kirksville, Mo., in June 1901. May practice in Indianapolis, but not quite certain, for he is a lover of the farm and a believer in the simple life.

WAGNER

HERBERT THEODORE WAGNER, "Hans," was born in Indianapolis, May 11, 1886. Some of his ancestors came on the "May Apple," others are "Wertsburgers." He graduated from Shortridge High School, attended Leland Stanford, Jr. University. Member of the Phi Beta Pi, Delta Upsilon and Sydenham. "Hans" is a writer of no mean ability, having written for the Student and other prominent publications. He is about the busiest man in College, a leader in the class.

CLEO EARL WEAVER was born in the little village of Frankfort, Ind., about the year 1881. Of Scotch-

WEAVER

Irish descent, but more Irish than Scotch. Was a halberdasher, but sold out his business to become an interne at Eastman's Hospital. Cleo is a member of the Phi Rho Sigma Fraternity, of the Sydenham and the Trinity. Will locate in Marion.

EMIL GUSTAV WINTER is a graduate of the Eclectic Medical Institute at Cincinnati and located at Indianapolis. Emil decided to know a little about allopathy and therefore, matriculated at Purdue School of Medicine this fall as a Senior. He was born in Shelbyville, Indiana, in 1885, of German descent. Is a member of the Sigma Theta Medical Fraternity, a Mason, Maccabee, Moose, Druid and an Eagle.

WINTER

WALTER WALDO WRIGHT, of English descent, born at Greensboro, Indiana, Dec. 6th, 1883. Loves to fish and hunt and to doctor on the side. Left home at fifteen and went to Newcastle where he made his way and went to school. Attended one year at the Newcastle High School, graduated from Spiceland Academy and finished Junior year in Earlham College. Class Editor for the "student" in Senior year. Mason and member of the Masonic Club and Phi Rho Sigma Fraternity. Location Indianapolis.

WRIGHT

JUNIOR CLASS OFFICERS.

PRESIDENT Will A. Thompson
VICE-PRESIDENT Charles F. Morris
SECRETARY AND TREASURER J. Frank McCool
SERGEANT-AT-ARMS Ernest N. Johnson
CLASS EDITOR Edwin G. Kyte

JUNIOR CLASS HISTORY.

ES, the Juniors all arrived, some came by rail, some by airship, and some even walked in. Every one seemed glad to be back again, and after a hearty hand-shaking a party was made up for the Empire, as all seemed in need of some diversion. For the sudden transition or metamorphosis, as evidenced by the overflow of the potential energy of the higher constellations of their association centers, had to be taken into count and turned to the credit side of their ledger.

So, on the following day when the roll was called, a prompt response came from those present, with only five or six absent. They were those who wished to chance their luck with other schools, but in their places came several new members, who hailed from other colleges.

The school work started with a rush, and as the men realized that their Freshman days were over they proved themselves equal to the occasion by displaying the same working spirit which had always been characteristic of the class. Even the professors took a greater interest in their work, and they are now giving a course which can not be surpassed by any medical school in the country.

Class affairs have been conducted in a satisfactory manner to all, with the exception of "Dad" Deardoff who has been carried from the classroom on several occasions because he persisted in smoking buggy whip stubs.

The class enjoyed the annual scrap this year very much, for, having passed through the skirmish twice, they were the better able to appreciate the fun.

Many of the boys have made application for places as externs at the City Dispensary, for they fully realized the amount of clinical experience that can be gained by the attaining of such position.

The members of the class have begun to realize the amount of work which they have to do and with the field ever enlarging and only the Senior year before them, they have laid aside all the Freshman pranks and are marching to the tune of work, work, work. Only a few short months until they will be brought face to face with the State Board Ghost, to do or to die, for there alone will they be judged whether or not they are worthy of their steel.

Eternal vigilance should then be their watchword, and as their college days near an end, let them still keep in mind that they are only in the process of evolution and that only hard work and time will mature them. Let them look upon these things as imaginary troubles, be calm and resigned, and some sweet day they will emerge with a new feeling—a feeling of keen enjoyment which comes only to those who have trodden the path.

SOPHOMORE CLASS HISTORY.

INCE the members of the class of 1910 assembled, its ranks have been broken by sickness and "Cupid." From the beginning they have worked together in unison and this fact will stand ever prominent.

Though the class is somewhat lacking in the number of college men which other classes have, we can say without any egotism that the intellectual standard is inferior to none. As in each and every class there are a few humorous things which happen daily to keep up the spirits of the boys, and without any personal motives or favorites, we will endeavor to give a brief of some of our "immortals."

Bussard, R. I., Palestine, Ill. Freshman work in Illinois Medical. Had his voice cultivated by a "Deering Cultivator." Member of the Howling Quartet.

Bowman, Ira, Washington. Member of "Corduroy Bunch." Has incandescent hair. Society man. Wears roommate's night cap.

Boyle, Wm. V. "Silent Bill." Wasted one year in Purdue University. Saw his first train when he came here.

Cook, C. S., Mooresville. Member of Phi Beta Pi Fraternity. Class "Scrap Captain." Plays discord in Mooresville Band.

Cox, Hal B., Sheridan. Member of Phi Beta Pi Fraternity. "Howling Quartet" and "Corduroy Bunch." President of visiting staff. Will dress for a dance in your last clean shirt.

Dougherty, E. S., Indianapolis. "Mother." Has a wife and a new dissecting suit. A man with high ideals. Will practice medicine if Humane Society permits.

Elfers, Chas. R., Rising Sun. From "I. U." Information Bureau on any subject.

Edwards, R. R., Terre Haute. Married a few days at "I. U." Son of a doctor and fifth assistant in chemistry.

Gante, H. W., Anderson. President of class. Member of "Corduroy Bunch." Will lecture on "Through College On Nerve."

Horne, Blanch, Flora. Heroine of Freshman-Sophomore girl scrap. Will become a member of the firm of Washburn & Washburn.

Hershman, F., "Munyon." Has ivy twining side burns. Not yet city broke. Sleeps with Morris's Anatomy.

Haworth, W. L., Indianapolis "Handsome Chap." Member of the Phi Rho Sigma. Will either practice medicine or recite poetry.

Light, W. B., Broad Ripple. "Red" watered the elephants and tickled the monkeys at White City last summer.

Jones, H. H., Pennville. Member of the "Corduroy Bunch." Has revised the "Ten Nights in a Bar Room" to "Seven Days After a Lecture on Alcohol." House physician at Empire.

Metzler, G. F., "Dad," Shelbyville. Has a wife, a veterinary's thermometer and a faculty for eating apples. Brother to "Billy Bounce." While sowing fertilizer became inspired and wrote the touching ballad, "These Bones Shall Rise Again."

Montani, R., Indianapolis. Member of the Phi Beta Pi. Nothing but good can come from good.

Millington, W. A., Indianapolis. Member of the "Corduroy Bunch" and "Calico Hustlers' Union." Has little to say unless it be on corduroys.

Strong, L. E., Indianapolis. "Sockless Lee" declares he wears a neater fitting shoe without socks. Has a B.S. degree and is a member of the Phi Chi.

Washburn, H. E., "Heiny." Member of the Phi Rho Sigma. Sent here from "I. U." Acquired an excessive amount of avoidupois from the use of a lawn mower. Author of the ballad, "Why I Picked a Lemon in the Garden of Love."

Woods, J. J., Franklin. "Rose Bud." Student editor of Sophomore Class. Nose resembles the hypoglossal loop. Will practice medicine or enter a menagerie.

FRESHMAN CLASS HISTORY.

would fain relate to you a tale of forty goodly fellows and one fair maiden, who, as the hot summer winds were cooled by the forthcoming breezes of the winter season, hurried, one and all, to assemble within the noble halls of this brave School of Healing.

Brave men were they and good to look upon, and fair and lovely was the maid. Right nobly did they guard her from all harm, and she in turn did thank them all most graciously and held them all her Knights.

Most diligently did they array themselves for work, and all appeared most eager for the class. But soon, when they had learned their Master's failings and their own, they bethought themselves of the joy of absence. And right many were the number who, on chill and frosty

morns, did not bestir themselves betimes, and frequently did they withhold their goodly presence from the class. Methinks, perhaps, some could have fared as well as they, had they but stayed away. For aye, 'mongst these was one, with wild and unkempt locks, who served for all, as butt of all their tricks.

And one there was, 'mongst all these goodly men, who made all marvel at his grace: for like a woman was he—shaped, voiced and mannered. And such, men thought him, many times withal.

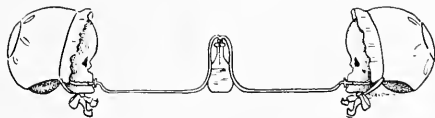

Alack! there comes a time when all must meet their fellows in a fray, a deadly, frightful fray, for their honor and their name. Right nobly did they fight, and stole the hostile flag; but notwithstanding this, they fast were overcome and bound in dungeons deep. Bound hand and foot were they and fastened most securely; nor could their bonds undo nor make escape in any way. Meanwhile, their victors,

having garbed themselves in all their fine array, didst come and did unloose their feet and bound them all together on a chain. Then were they led with howling mirth before the multitude, and when their wrath had passed, they loosed them all and as friends repaired to neighboring inns to celebrate withal. Methinks the celebration and the fray hath made them closer friends than e'er before.

Quickly came the day when they should enter where the bodies lay and many were the quakings and fearful tremors that did run upon their spines. Right boldly did they enter for behind was Dr. Morris who was Master here forsooth. Work he laid upon them, hardly, and rebel they dared not. Work soon turned to pleasure, mischief, and the tricks that here were cradled, can not numbered be, methinks.

Thence came within the halls two more—fair maidens, they—and joined the busy throng of toilers there. Faith, shortly one was gone, but one remained and joyed them with her presence oft and on as she could spare the pains. Right many were the ditties that resounded through the halls as oft the spell of music crept upon their souls. Most gleefully did these noise-makers their rhapsodies enjoy and many were the pratings they received from their learned Masters. Most noted and illustrious will they be if they come not to some sorry end, as must this tale. Long may they live and noted be, forsooth, forever more.

THE SYDENHAM SOCIETY.

The Sydenham Society of the Medical Department of Purdue University was named to honor the memory of Thomas Sydenham, born 1624, died 1689. He was a noted English physician of such character and attainments in the practice of medicine as to have justly earned his title, "Father of English Medicine." Sydenham lived many years in advance of his time and did much to advance methods of medical thought in the recognition, classification and treatment of disease.

The society was first organized in the winter of 1875 in response to a need, felt by the students and faculty of the original Indiana Medical College, for a society which should have for its purpose the development and advancement of the medical student and doctor. The officers of the first year were: President, William Bullard; Vice-President, John H. Taylor; Secretary, Theodore Kern; Treasurer, Joseph Sepp.

William Bullard served as President for only a short time, being succeeded upon his resignation by J. H. Taylor. E. V. Green, Theodore Wagner and Allen Pierson were selected as a committee of arrangements for programs and were to act as a Board of Censors.

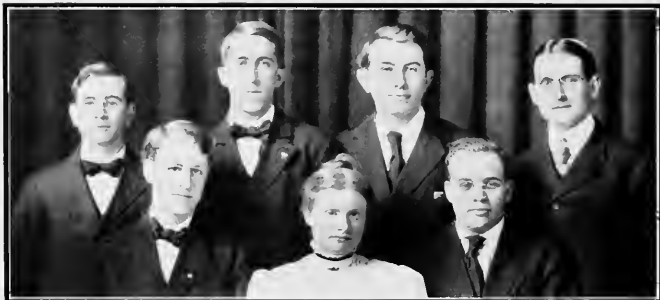

During its first year, the class of 1876, and the members of the faculty, among whom were such men as T. B. Harvey, John Chambers, John Cumigore and W. B. Fletcher, were regular in attendance and gave the society their best support. Many subjects were considered and the discussions which followed not only

aroused the interest of the medical profession but also that of the general public.

The society is managed entirely by the medical students. After three years of satisfactory service as members of the society, diplomas are given to the Seniors, conferring upon them the degree of Fellow of the Sydenham Society.

The best work and purpose of the society is found in the opportunity it affords the students of reporting interesting cases, reading papers upon scientific and other subjects of importance to young practitioners, and of conducting business as it is conducted in our present day medical societies. Although trained to observe closely, to think rapidly and reason correctly and accurately, the average medical man neglects to acquire the ability of presenting his thoughts to his colleagues and the public in public speech. This lack of training the society has always endeavored to supply, so that the recent graduate will be able to do his work and make his influence felt in his societies and public life.

Since those early days the society has enjoyed a continuous and prosperous existence and has aided many of the prominent physicians of the State and Nation in their upward progress to the achievement of their early hopes and plans. Among its alumni are men who have achieved distinction, such as Harvey W. Wiley, chief chemist of the United States Government; Joseph Marsee, John Elder and many others.

THE MEDICAL STUDENT.

The "Medical Student" is a monthly journal, published by and devoted to the interests of the student body of the School of Medicine of Purdue University. It is a forty page illustrated journal, now in the sixth year of its existence. It is issued in nine numbers through the college year, the last, or May term number, being a special commencement number.

The first part of each issue is devoted to short, original articles of scientific and practical interest, written by the students, members of the faculty and the alumni. Then follows the editorial pages, contributions from various departments, and general college notes.

UNIT THE "BESSEY"

MEASURE OF TELEPHONE CURRENT NAMED FOR DEAN OF ENGINEERING SCHOOLS.

Arthur Bessey Smith Honored by Telephone Trouble-Shooters and Hello Girls of America.

Along with those of Volta, Ampere, Ohm, Watt, Faraday and Henry, the name of Arthur Bessey Smith is destined to go flashing down the ages and clicking over the telephone wires as a unit of electrical talk.

At the national convention of the Telephone Trouble-Shooters and Hello Girls of America, held in New York last week, the need of a unit of telephone talking current was discussed and by unanimous consent the unit was named "the bessey" after the new dean of the schools of engineering at Purdue University.

The appropriateness of the name for the new unit will be understood when it is explained that the currents used in telephone work are very small indeed, being hardly detectable by the aid of the most sensitive ampere-traps and ohm-sifters. But when harnessed up to a telephone conversation these same tiny currents may assume mighty portents of business, state and love. In short then, the bessey as a unit of current should be small but capable of prodigious results. And so is the man Arthur Bessey.

The honor of being a unit of electricity comes to Arthur Bessey Smith following close upon his recent accession to the present position of Dean of the Schools of Engineering at Purdue. This promotion was accorded him in recognition of the fact that he was the only man on the faculty as enthusiastic about locomotive pop-valves as about bridge-cut-off relays and who could run a Riddle-testing machine as well

COACH NICOL STILL TALKING.

Interview to be Published in Full in Tomorrow's Issue.

Athletic Manager Nicol sent for a reporter yesterday morning in order to be interviewed. We are unable to print the interview in the paper today as he is still talking. The fourth relay of reporters is now on duty and the talk will be in tomorrow's issue in full. All the most talking notes are in good shape with the exception of Lewis who had hysterics at 7:34 yesterday afternoon while the coach was on the subject of Tug-of-War. A good deal of anxiety is expressed over his condition as no one but himself can read his notes and unless he recovers, part of the interview will have to be left out.

COUNCIL MEETS

SOLONS OF SCHOOL MEET IN SOLEMN CONCLAVE AND DECIDE MOMENTOUS QUESTION.

Resolutions Adopted That Forever Settle Trouble Over Famous Suspender Button Case.

The student body at Purdue was electrified yesterday by the news that the Student Council, long since supposed to have been dead and buried, had risen from its grave and was going to have a meeting to consider the famous suspender button case. President Babcock, who is noted for his radical views, hesitated long before he took the step that shattered the rest of the venerated council, but urged on by the overwrought condition of the student body finally consented to issue the momentous summons, and the historic body gathered in their musty meeting place ready for decisive action.

DEPAUBASH WINS

PURDUE TENNIS TEAM LOSES 16-0 IN HOTLY CONTESTED GAME.

Every Man Played a Star Game—Prospects Bright for Beating Chulinois Next Week.

Saturday the Purdue tennis team went down to an honorable defeat by a score of 16 to 0 in a hotly contested game with Depaubash. The result was in doubt until the last minute as for a time it looked as if the Boiler-makers might prevent Depaubash from making the last a love game, but though the Old Gold and Black racket-smashers fought desperately the men had been exhausted by the social activities of the past week. The team fought gamely but the rough work of their opponents, coupled with the fierce pace set by Depaubash, came as a surprise after the gentle work of practice.

The captain of the team had been up until midnight three times during the week as he is very popular among the so city people of Lafayette, and the rest of the team were busy all the week before the game with dances and the theater, and did not have time to practice. While Purdue lost the game it could not be said that the team was at fault. Captain Greenward admitted after the game that the result was none other than he had expected, and taking his defeat in good nature, smilingly shook hands with the Depaubash team and hastened away to an appointment with a theater party at the Family.

The game was witnessed by an immense crowd of rooters who wore "Purdue Booster" buttons and cheered continually, never losing heart in the darkest moments for Purdue. The play was full of exciting moments. Once when the Purdue team had responded wonderfully to Depaubash's service and worked up to 'vanitate'

DESPERATE TIDDLY-WINKS GAME.

Players Battle Fiercely for Hours to Humiliate Rivals and Win Coveted Honor.

The rival teams from the Murdock Flats and Crab Point clashed at Tiddly-Winks yesterday in the old gym. The old structure was jammed with a wildly cheering mob of students who went crazy over every sensational play. Crab Point finally won out by superior team work. The play of the Murdock Flats was dirty beyond description. Gordon was the worst of the lot, twice deliberately flipping his wink into the eyes of members of the rival team, utterly ruining their eyesight for the rest of the game. The great weight and superior size of the men from the Murdock Flat gave them tremendous advantage, but their rivals by superior team work slipped several in on them, and trampled on the men from the jangles. East stubbed his finger and is in bad shape today.

H. T. PLUMB TALKS

LOCAL TALENT NEXT FRIDAY. AMATEURS' NIGHT, AT THE MAJESTIC.

"Lassoed Lightning" to be Demonstrated in Public for the First Time.

Our reporter called on Professor Plumb yesterday afternoon and inquired whether there was any truth in the report that he (the professor) had received a flattering offer to go on the vaudeville stage with his act "Lassoed Lightning." The wizard of the untamed kilovolts tacitly admitted that his first public appearance had made an enormous hit, necessitating the S. R. O. sign early in the evening, and through other sources it was later learned that there is strong possibility of future visitors to the Majestic being treated to the spectacle of a

DR. DRYTALK SPEAKS

LAST NUMBER ON THE PURDUE LECTURE COURSE WAS WELL ATTENDED.

Interesting Talk Heard by Large and Enthusiastic Audience at Fowler Hall.

The last number on the Purdue Lecture Course was given by Dr. Drytalk of Shlimbria University, on the "Inanimate Relation of the Human Hivelsve." His talk was immensely interesting and was well appreciated by his audience, many of whom got in a comfortable hour's nap. Considering the prominence of the speaker there is no doubt but the audience would have been much larger if larger and more comfortable seats had been provided.

The number was perhaps the best of the entire course due to the fame of the Doctor as a producer of dry hot air. The interest was maintained throughout; among other things he said; "The high ideals set forth through the adaptation of sociological phenomena collaborate the evidence of the personal equation, nevertheless the human function is so related that the higher organism can never overcome—"non corpus mentus"—our entire intuition. Hence it may be seen that our minds are swayed by the conglomeration of the protoplasmic incollation, thereby causing the objective self to oppose a subjective influence.

The Professor also stated that, in proof of this, in all his experience he had never been able to impress the psychological relation upon the non-receptive sub-conscious mind, which remark brought forth applause from those of the audience who were awake.

The pleasing personality of the speaker along with his keen wit made the evening an enjoyable one that will long be remembered by those who heard him.

Madam Rose's Hair Restorer

**MAKES HAIR GROW WHERE
NOTHING ELSE WILL**

Read What Prof. R. L. Sackett Says of Our Wonderful Remedy:

Madam Rose:—For eight years I suffered from a bad case of baldness, and was told that a toupee was my only hope of recovery. My wife objected and advised me to try Madam Rose's Hair Restorer. Now after two weeks use there has appeared a downy covering for my heretofore bald pate.

By accident I spilled some of this wonderful hair restorer on my Hydraulics and immediately such a growth sprouted as to greatly impede the flow over a wire and quite stop up an orifice. I would especially recommend Madam Rose's Hair Restorer to E. East, A. Short, B. Gordon, A. Palmer, R. Fortune, A. Campbell, and all other Seniors who wish to grow mustaches.

Our Girls Are All Pretty (?)

Cosmopolitan Club.

No business was transacted at the meeting of the Cosmopolitan Club last night, as, on account of a special meeting of the Y. M. C. A. the same evening, it was impossible to obtain a quorum as the American members were not present.

NEWS(S) OF THE MORNING

No Co-eds for Taddy. In President Roosevelt's message to Congress which was published in all the papers last week there was no reference to making West Point or Annapolis co-educational.

Big Bridge Crash. Day-before-yesterday the great bridge across the Wabash at Shadeland fell into the swollen flood. From the meager first reports three lives were lost.

James Was Surprised. Early last week when James Finnarty of Keokuk, Io., went to his barn to get a pail of water in the dark, he mistook the tail of his pet mule Maud for the pump handle. As he penetrated the planking near the eaves at the other end of the barn Finnarty reports observing three hitherto undiscovered constellations.

Strained Her Milk? Last Friday in a severe electrical storm near Montmorenci lightning struck a Holstein cow in a field north of town, turning her white.

Politicians' Mill Grinds. At a caucus several days ago in Dayton (Ind.) the democratic bosses named James E. Watson for Governor. The day before Thomas Taggart of Indianapolis took all of the town's Republicans over on the interurban to his hutzel at French Lick.

Volney De Los Cousins.

Mr. V. D. Cousins has returned from Chicago where he secured the promise of a possible gift, maybe, of samples of wrapping cord. This string is expected to revolutionize the parcel-wrapping industry, and Mr. Cousins is to be congratulated and Purdue is very fortunate to receive the promise of the samples for test in Doc. Hatt's busting laboratory. Mr. Cousins is the same Cousins who, in his opinion, saved the Senior class at a recent critical moment. He is also the author of the exciting series of tales, "Adventures in Spain," and of some fishy yarns of the flowing main.

AMUSEMENTS

"Adrift on the Road to Ruin."

Following last week's unparalleled successes when Prof. Hint's great hypnotic seances attracted countless throngs of the most intellectual people of our fair city to the Op'ry House, tonight the treat in store for the Lafayette theatre-goer is the stirring problem play, "Adrift on the Road to Ruin," the product of that pre-eminent of America's great dramatists, Lincoln J. Carter. The piece is sumptuously staged and comes direct from a \$5,000 night run at the Hippodrome, New York. Heart interest is high in the story and the question presented has a direct dramatic appeal. Lincoln J. is an intellectual millionaire and he has lavished his genius on this great play. The specialties presented by members of the company between acts are the finest obtainable in America. Seats now ready.

Notice.

Glee Club practice in old chapel tonight. Bring your Hyman Books and Songs of Farm Life.

An Interesting Experiment.

Mr. Edward Allen Payson Garlock, the well known merchant prince and floor-walker of the University Supply Company, tried an interesting experiment in the electrical laboratory last week. Mr. Garlock has long held the opinion that direct current can be stepped up by means of a transformer, the same as alternating current. In an effort to get to thousands volts direct current, Mr. Garlock yesterday tried impressing 40 volts d. c. on the primary of the transformer. The experiment was partly successful as the fifty ampere fuses held for ten seconds before blowing. When seen Saturday Mr. Garlock was replacing them with copper fuses and it was possible or if not—the will organize a Students' Co-operative Direct Current Iron-forming Company. Shares now selling—One dollar each.

LOCAL NEWS

WEATHER.

Washington, February 21.—Forecast for Indiana: Rain and colder with slightly increasing temperature; electrical storms gathering south of the power plant and shifting to the southwest will spread over the rest of the state.

Local temperature, Purdue thermometer, maximum 110 in the registrar's clerk's office, minimum—20 in Dr. Hatt's office.

Shiel, '07, will be sick next Wednesday with the Grippe as he wants to go to Indianapolis on that day.

Professor Hamon had his suit dyed again last week and the boys could hardly recognize their old familiar friend.

H. E. Woodburn was in Fowler again Sunday, and will be there again every Sunday in the future as in the past.

Boating house steak a-tually made tender is cooked with coal from the Lafayette Fuel and Builders' Supply Co.

Jacobsen was married again Wednesday and is today receiving the congratulations of his friends.

A row Palmer spent the evening in the city, also Frank Lead.

Big crowd at Convention; all seats in back row filled but one.

A. M. C. A. meeting tonight. Topics to be discussed—"How to be Deaf Even at a Student." Mr. A. H. Worsham will lead the discussion.

Jack Slingsard, one of the Exploident Staffs, has reported to the track coach and signed up for the broad grin and the long distance sprint.

Mr. and Mrs. A. B. Smith chaperoned the first party at the Family, yesterday evening.

The Exploident goes to press on the entirely fallacious statement made last week to the

effect that Mr. and Mrs. A. B. Smith chaperoned the dance of the Cottillon Club. "Dunkle" Light, expert on "Contour of Exhaust Tips," sintered a severe collapse last evening at a meeting of the Senior mechanics. He was at the time following intently the outline of preparations for the coming, Mechanics Burning, but when the chairman announced that the feature of the parade would be a Water Wagon his nervous system broke down completely. At last report he had responded to stimulants and was resting easily.

Sheridan, '08, has returned to school after his recent illness, due to venturing out without his overcoat, which he lost in his desperate efforts to escape from the Tau Beta.

Carle's leg is worse, and it is feared that he will be unable to play basket-ball any more. His loss will be a terrible one to the team. The injury came through the frightful strain of dancing on it all night last week.

H. T. PLUMB TALKS.

Continued from 1st page

red small-talk velvet cover to him by "the impudant arrest 'ave France" (to quote the Professor's own subtle Gallic vein), Monsieur Hyon de Voltainpre. The reporter put the question to the distinguished and fearless manipulator of the blue blazes, it, when he saw the proscription, he would not have a wireless assistant who knew enough to make the best ring only when the wireless waves were in process of eruption. The Professor did not make answer as just as this moment, the noise was heard in the laboratory as Red Worsham's head on his crane dragging destruction and death in the wake of the hook.

Later the reporter met one of the professor's students who confided that here earth his faith in human nature and "High Ten Sunday" was shattered. "Why only this morning," he cried, "after one of those party lectures on tobacco chewing and graft, he told us a yarn I wouldn't expect even from Cousin Sam. Said that on a cat test he was making they had to clean out a sapillary tube they used for a pen, and the hole was so small the wire out a telephone receiver wouldn't go in it, but finally he found a motorian, got one of his whiskers, sharpened the end with a file, turned it down in a lathe and finally got it to go in the hole. And Happy McClure asked if they still had the whisker

COUNCIL MEETS.

Continued from 1st page

After the Secretary had hung the official motto "Never Offend the Faculty, No Matter What Happens," in a prominent place so that all could see it clearly, the esteemed president of the Senior Class called the meeting to order and addressed the safe, sane and conservative body in a few simple words, calling attention to the historic motto and urging the members to remember that there is only one safe side to any question, and that is the one the faculty is on. Green, who it is to be remembered, was accused of pulling a suspender button off the military pants of a Freshman, thereby terribly desecrating the uniform and hurting the feelings of the Commandant, was first called in and closely cross-questioned by Dr. Moran aided by amens from Kenyon and Babcock, the only members able to keep awake during the ordeal. The sensationalism of the evidence is such that the secretary absolutely refused to give it out for publication as the reputation of the university was at stake. The two victims of the dirty deed were next called in, and after a dose of soothing syrup, administered by Dr. Moran, were dismissed. Their testimony was also suppressed as secretary Immel went to sleep and failed to take notes. Babcock then instructed the marshal to arouse the members and the debate was on.

The argument was brief and to the point. Several members got on their feet after a space of time had elapsed and said some thing or other.

Worsham made the effort of the evening saying "Fellow members, I don't know a damn thing about it. Let's have another drink all around." Upon the motion of Dr. Moran, seconded by Mr. Kenyon, the secretary was instructed to prepare resolutions in accordance with the standard specifications laid down by the customs of the august body, and the meeting adjourned. Several of the members were in an inexact condition and calls had to be called.

The following resolutions were adopted: Resolved: That as both sides say that the other side is wrong, and that they are

right, we do not know what to believe. The Freshman should have had the button sewed on tighter and Green should not have grabbed the button. If either had done as he should have it would never have happened, so therefore we find that both sides are wrong and both sides are right, and earnestly recommend that both parties be slapped on the wrist. Loud hless our teachers, one and all!

Signed,
The Safe, Sane and Conservative Body,
The Student Council.

Reminiscences by E. East.

Yes, that's so, I made six Indians bite the dust at once. I'll tell you how it happened. A few winters ago I was hunting for big game in the mountains. One evening after a day of indifferent success as I was returning to the camp I heard strange sounds. It was bitter cold and I removed the matts from my ears, the better to hear, only to have them assailed by a series of unearthly whoops and Jack Frost at the same time. The former I knew could only proceed from the throats of savage Indians on the war path. Powder in plenty I had, but alas, never a shot. Now, they saw me and came running, madly brandishing their tomahawks and scalping knives and rendering piercing, blood-curdling, spine-chilling shrieks of joy and ecstasy. My seconds were numbered. Great leads of perspiration stood on my brow which were immediately frozen into ice pellets. An inspiration seized me. I loaded my gun with these and fired. So soon as the heated brow of those fierce aborigines thirsting for my blood were met by my ice pellet they melted. And when the ice was melted the savages laid down and died of water on the brain.

THE SHAM BATTLE

This is a metrical tale of war and thunder and battle
 Being the record authentic of the happy days of our childhood
 When in the spring of the year, at the bloody Trail of Tecumseh
 We fit the ranks of the Freshmen (under the eye of the Commy
 Who swore, when the battle was over and the smoke of the firing had lifted
 That sham battle never again should there be for the Purdue Army.)
 More hell raised we that day in the broad, peaceful vale of the Wabash
 Than all the tribe of the Prophet, charged with the paleface fire-water
 Ever had kicked up in six moons.

Hostile invaders were we (the Commy defined as the problem)
 To come down the road by the river, capture the levee and bridge,
 Sack Lafayette and march on to the city of Indianapolis.
 The defense of the town was left in the charge of two first-year battalions.
 Who were, in the plan, to march out to the Trail and there give us battle.

Three hundred strong were we, just half the force of the Bluecoats
 But one experienced soldier is always a match for two rookies,
 And we had the artillery guns to accentuate our contention.
 At the call of the bugle the ranks lined up on the campus to listen
 To the final words of the Commy who said, "Be good and be careful!"
 And gave every man a hundred rounds of blank-fire munition,
 With orders never to shoot except on command of the captain.
 Reader, wait for the sequel.

We set out soon after noon, going by way of the Hollow
 In Indian-fighter's file, and the bluff road high on the hill-top.
 Marched blithely enjoying the scenes and yet more a farmer's dinner
 We stole, while the son of the soil, far away, went on with his plowing.
 The Soldiers' Home bore in sight and there with much consultation,
 On the spot where a century gone, Harrison's five hundred men
 Had passed on the way to the battle of Tippecanoe to the northward,
 "Bill" Stillwell ordered us to halt—our position took up on the height
 And arraying our columns for battle, calmly awaited the Freshmen.

The battery wheeled into line and opened the concert of powder
 Thunderously volleying defiance to Sad Sale and his fearless Freshmen.
 Hearing this terrible noise, Berkeiser, Buell and squad,
 Our brave standard bearers, hustled a hurried retreat to the rear,
 Hid with the flags in the bushes and that day no more were seen
 Until after the battle was over.

Gaily with martial tread, as men walk forth to their slaughter
 The Freshmen departed the campus, struck for the old river-road
 Straight for the Trail of Tecumseh. Warm was the day and thirsty
 The dust-covered marchers. Many the halts and consultations
 Of Kier and Sale and their captains, while the soldiers, impatient,
 Eager for battle, fumed and stormed at the drought and delay.

The river's blue ripples inviting, Kise of "I" gave the order.
 "Unix uniforms, men!" and throwing his sword on the bank
 Himself plunged into midstream with a score of his soldiers.
 While on the opposite bank, there came the order for "Forward!"
 But battle and glory and soldiers had to wait for five minutes
 Till Kise found his shoe in the mud and the rest of the navy reported.
 "Forward!" With determined men and eyes flashing to death or duty.

The long column moved on. Cannonading was heard in the distance.
 The Trail came in sight and the problem of guarding the road to the city
 Was cleverly solved by the dauntless leader of the Blue army

Scene below—"I'm running this department; eight o'clock, please."

By getting out of the road and down in the woods, I said.
 Reason for this maneuver has not been discovered nor will I be
 Then with admirable presence of Col. Sale—who like, yet unlike to Caesar
 “Was a man who could both write and fight.”
 Though not equally skilled in either—lost his head
 And raced his meek Freshman battalion six times in the bluff and six times
 Down again at dinner tables, shouting hoarse orders the while
 The little fox could not be caught. The big guns volleyed and thundered
 Crashes, scattered a sort of orders shouted commands
 Not used in the department—skewered—like cracking of volley,
 Powder smoke out on the right of the unbarrelled fox as they poured
 Paper walls into each other's ranks, and being advanced
 And firing, with volleys from the trees, Natchez firms drilled about
 Hiding the sun, and the racket blasted the trees and the grass
 Top of a sun-worm's growth. The old soldiers snuffed the scent of the smud,
 And their ears of the battle was music to ears that had heard the Minie
 Balls whistle
 And the windows of Lafayette, in white and smoky dresses
 Hid in the castris, covering their ears and cool praying
 I put on Purine over his sword in the war destination
 One sad incident witnessed in the ranks of the gallant Freshmen,
 Said the captain, “At the first fire some of you fall as if wounded.”

Each fool Freshman would be a hero, and at the first shot there keeled over
 The whole company in horrible slaughter.

And while the battle progressed the Commy was three times exploding
 Each minute. “I was all” a tactical mistake. (Cease firing!)
 Some one had blundered! And the great man to see in his wrath
 Was an apparition of frenzy as he counted the “battle” a failure.

So he loaded the army on cars and sent them back to the campus
 With orders that every shot fired would mean a drumhead courtmartial.
 But the soldiers smiled of their fun when shooting was fine in the battle
 Smiled darkly, loaded their guns and gave a salute of a broadside
 Repeated at every house and horie that was met on the roadside
 Volley on volley from car after car from four until eight in the evening
 And all that night and the next one the cartridges remained unexhausted
 And the July 4 celebration went on, seemingly a full infinitum.
 And the Commy ordered more drills, and appointed a squad “provident.”
 The worst offenders they caught were these drilled three times per diem.
 Till the wrath of the Commy was stayed and the department's demerit mended.
 And this is the reason the Commy hath sworn that “never again.”
 For more hell raised we that day in the broad peaceful vale of the Wabash
 Than all the tribe of the Prophet, full of the pale face freewar
 Ever had kicked up in six moons.

“The time I picked up a Co-ed.”—Volney DeLos Cousins.

THE GOSPELS.

According to the inspired words of the Prophet Mohammed Munchausen Crowsephus, the first apostle.

THE BOOK OF CHRONICLES.

Being the first revelation—wherein many things are revealed.

In the beginning Doc Stone was and we weren't.

And we came as Freshmen and Doc was the "most high" and he was the chief of the high and mighty and he reigned among the tall-brows.

And he sat upon his throne in Liza Fowler Hall and he looked at us and his look was like unto that of a harpy. Whereupon he rose and speaking, poured out words of wisdom, pointing out the paths of richesness.

And his advice (as is the way with his advice) fell upon us and about us even as the water on a duck's back and we went straightway and did—otherwise. And Doc troubled us no more for many moons; for great is the most high and he troubleth himself little about the student.

And it came to pass that the next day we came upon one whom we feared for he called aloud and calleth even to this day saying, "I will flunk ye if I kin and I kin if I want to." But he was a great bluff and a very small potato and we learned these things and lo—we acted accordingly, so that in two years he became as a noise only, like unto a sounding brass or a tinkling cymbal.

Now in those days there rose up amongst us many mighty men of valor and they were athletes of promise and the most high spoke unto his hirelings and said—"Look ye

these mighty men of valor, verily I say unto you, they should be kept with their noses to the grindstone, even should they be flunked.

And the hirelings went straightway and did flunk all athletes of promise, even did they flunk them in History, and in Dutch and Cooper canneth the mighty "Duke" out of English. And there was trouble indeed in those days for there rose in the faculty a race of "gum-shoes" and they searched diligently and lo McCormick and Venneman were lopped off and cast out.

Seeing these things the high and mighty and the lesser of the dome-heads who sat at his feet laughed with great glee and set to pondering and they discovered that it was sinful to pay the football coach as much as the high and mighty and the football coach getteth the run.

And then it was that there was a great memorial planned and we ponied up five scads per and we dreamed dreams of our new gymnasium and in our dreams we took much comfort for was this not our gym and would we not have it soon.

And the morning and the evening were the first day.

And we came back in the Fall and we looked about and we had no gym.

But we had many athletes and they were mighty men and he gloried in their strength.

And we went again before the great bluff and we sat at his feet and we passed planes and revolved lines and we learned—nothing.

We took dynamics, buying of the great publisher those

THE GOSPELS—(Continued).

leaves of sorrow wherein were set forth such weighty and valuable problems as to the number of quarts of oats a horse must eat to pull many pounds. And we sat at the feet of the publisher in his new Physics building and saw him read from his pony and his voice was as music and we slept.

Now again there rose one before us running his fingers through his hair and telling how he worked on the Mississippi River Commission and his name was Charles Victor Seastone who flunks us in curves saying, "verily it is not good to flunk a Junior, but it is a pleasure to hew down the Sophomores."

Now in those days Ferry labored hard and he got him an athlete.

And Peter Young labored hard and got him an athlete.

And Fuzzy Smith labored hard and got him an athlete.

And Tommy Moran was not to be outdone and he got him an athlete.

And we had no gym.

And the morning and the evening were the second day.

* * *

THE BOOK OF LAMENTATIONS.

— — —

Wherein the prophet bewaileth the conditions at Purdue.

— — —

And again we came in the Fall and we looked about us and WE HAD NO GYM.

And no more did athletes crowd upon the field for they

had been cast out or they labored under the shadow of a "C" and they sat upon the side lines in sack-cloth and ashes and they played not. And we had a punk football coach.

How doth Stuart Field sit solitary and alone, that was full of people! How is she become a widow! she that was great among the schools of the west? She weepeth sore in the season of 1906 and her tears are yet on her cheeks. Among all of her mighty men she has none to come forth, for theirs is the grade of "D."

Purdue has gone into oblivion because of affliction and because of great servitude, and because each professor has got him an athlete and given him a "C." And he has given him a flunk test and he has drawn a "D" and he can have no more flunk tests and he goeth straightway and quitteth school.

Her adversaries are the chief, her rivals prosper for her representatives at the conference are smooth and they are politicians and they pull the chestnuts out of the fire for the other schools and they bend like the willow before the opinion of the mighty Stagg of Chicago, but stand like the oak against the sentiments of Purdue. Her children have gone down in defeat before their rivals, even before Wabash in a practice game.

And still each prof getteth him an athlete.

And still there is no gym, for promises of the profs are of short life and full of trouble; they bloom in the Spring and in the Fall they wither and do not materialize.

But still each Freshman and each Sophomore poneth up his five.

And Pansy Pence has left us and Hatt, the Concretite, sit-

THE GOSPELS—(Continued).

teth in his place but no one weepeth because Pansy hath left but because the Concretite sitteth in his place.

Then comes Sackett, the Earlhamite and he taketh the place of Charles Victor and again Purdue weepeth not for him that is gone, but for fear of him that cometh in his place.

And H. O. G., the governor's son-in-law, still dictateth valuable notes on fences and wire and discourseth at length on rail sections. Even George Case trieth to get him an athlete in astronomy, which proveth that he is eligible for the faculty.

Now woe is come upon us and there is none to comfort us because the comforter who should watch over us knoweth not even our faces and he careth not. He is high and mighty.

Behold O most high! for we are in distress, our hearts have turned within us. "Sunny Jim" hath grievously rebelled, abroad "Fuzzy" Smith bereaveth us, at home there are lab. reports.

There is trouble, they have heard that we sigh, they are glad that they have done it and they will bring the day that they have called upon those who come after us and they shall be like unto us.

And now mechanics is upon us and we labor and are heavy laden and Ludy speaketh to his henchmen and sayeth, "Go forth, flunk them for it is not meet that so many should graduate. And it is done and we weep for Tom Eyre, and our brethren who accept lucrative positions.

The anger of the most high is great and we respect not the most high and he setteth watchdogs upon us, even a Dutch prof in the lobby of the Hotel Labr. They hunt our

steps, that we cannot go to town, our end is near, our days are fulfilled and we are glad for our end is come.

Our persecutors are swifter than the eagles of heaven and they lie in wait for us in the Monon Cut and they pursue us on Oakland hill. And the most high wadeth up to his neck in the Wabash and he seeth a Purdue student and he pulleth him out and he goeth straightway and he canneth him.

Remember O most high what is come upon us, consider and behold our reproach. Our athletes are gone, the glory of our teams has departed, our necks are under the persecution, we labor and we have no rest from the machinations of those who would flunk us.

And we have lost the championship to I. U. and to Wabash and to Notre Dame and we must be satisfied with winning—nothing.

The joy of our hearts has ceased, our dance has turned into lamentation. The crown has fallen from our head, woe unto us for we have flunked and our coaches have been punk.

For these things our hearts are faint and for this our hearts are bitter. Thou! O Most High! remainest forever; thy throne from generation to generation. Wherefore dost thou forsake us? Thou hast utterly rejected us, thou dost not even recognize us on the street.

And still there is no gym and still each prof getteth him an athlete and the big bluff getteth him many athletes and he telleth his Freshmen and his Sophomores that he is a lover of athletes, but we weep for we fear that he giveth them a pipe dream.

THE GOSPELS—(Continued).

THE BOOK OF REVELATIONS.

Wherein the prophet seeth brighter things ahead and the glory returneth again to Purdue.

And I fell asleep and I dreamed a dream. And in my dream I returned again to Purdue after a lapse of many years and lo there is a new gym and it is paid for by the manifold doubling of accrued interest and it was four and twenty years in the starting to build.

And again there were mighty men of valor gathered together on Stuart Field and they were great athletes and they humbled again the hosts of I. U. and of Illinois.

But the most high was gone and another sat in his place and he spoke to the student on the street and his heart longed for a championship.

And our representative at the conference was not a smooth politician, but he bent not before the wind of the mighty Stagg, but that for himself.

And the big bluff no more ranted in the descript class and posed as a lover and father of athletics for he was no more. His summer school had risen and fallen and falling carried him with it.

But "Fuzzy" had once passed an athlete in a flunk test and the shock had given him apoplexy and he passed away.

Even Klipsch had burst a blood vessel cussing in the engine lab, and Lady being softened with age now and then let an athlete pass mechanics without a flunk test.

Now "Ame" Young, made tender by the blessings of fatherhood, spent not the time on the lesson, but in telling of the stunts of his latest infant.

Still the Concretite and the Earhamite held forth in the Civil building but they were wise men and they taught that which it was good to know, and they were much respected.

And we had a gym.

And the profs no longer got them each an athlete.

And our mighty men went forth and returning brot back trophies of silver and of gold and banners of silk and glory and renown and students to Purdue.

POINTERS FROM A SELF-MADE MERCHANT TO HIS SON.

"I say Fadder, ver do all dese Gëntiles get de moneys dat we git from em?"

"Money! Money! Ikke vat you mean? Dose Gentiles has no moneys. Vy I pays de vay of two hunert of dem tru Perdue College up dere py Lafayette every year. Your Fadder may shust pe an old klose man Ikke but you should shust see how dey fites for my moneys ven I makes my business call. It would do you good Ikke to see how velkome I am at dose Ferdernity houses. Vy dey all meets me at de door and never leaves me by meinselt till I am gone. Dats vat you call hosbidality Ikke. It makes your Fadder proud ven he dinks in vat affection he iss helt py all dose nice poys. You will like all dose poys Ikke ven you goes up to Purlue next Fall to take dot Make-a-nickel course. Dose Ferdernitys is all different Ikke and I vill put you wise to some pointers.

"All de Ferdernity houses used to be on de Vest Side but dey are now mofing ofer to East Lafayette so as to pe in gloser touch vit de real College life.

"De Signu Nu's shust crossed in a crowd last Fall and Macfarlane and Faulkner said dey voud radder hoof de levee in de day time vid only a few books dan carry a big load across in de night time, so dey haf all stayed. Vid so much exercise as dey now get dey vill pe up again in athletics pefore long. Dat Y. M. C. A. man, Bush Hayes, is a Sigma Nu. Ven you get off de train Ikke glance up Main street and you vill see de sign on de Phi Gam house. You shuse

can't miss it. Dot sign it vas two feet long py one foot vide mit nice gold letters vot vould bring thirty cents each as scrap brass. If you don't join dem poys Ikke you must shust go up dere some foine nite and schwipe dose letters for your Fadder. But Ikke you vand to pe careful of dat W. C. T. U. McCallum, he runs around de whole nite long hunting other converts for the Indiana Anti Saloon League. Dis makes him one vet planket as Dave Light calls it ven anybody iss not villing to apsorp his "amber fluid." Und Ikke dot man Light iss one S. A. E. und Ikke dot iss de bunch vot has dot Freshman Fresh Air Farm vot I told you, you had some chance of making. But Ikke you must confine your affections to de Chapter House because I vill pay no sixty dollar fine. Dey are on de Vest Side Ikke as so are also dose Kappa Sigs. Dot vas a nice crowd vot Mr. Good has over dere. Dey has nice klose to sell and sell dem cheap, all but Dad Green and he says expenses are heavy ven you has to keep up de social end of de "dam ting." You know Ikke I want you to copy after him and pe a regular social success. He told me dat he had a corner on all de girls in Lafayette. And den Ikke besides dis man Green dey has de Captain of de Football team vat could get you passes and save dat expense.

"Dose Sigma Chis dey used to pe good ven I first made my kalls, but now dey take in anybody to bring dere number up to de number to pay de rent, because you must keep

POINTERS FROM A SELF-MADE MERCHANT TO HIS SON—(Continued).

movin if you aint prompt vid de cash. Vy Ikie dey even took in dot man Pill Rohr, but den Jess helps dem some vid his good lookins and his singin. Dey also has a cute little feller py de name of Piggie and Piggie has a close frien py de name of Reel (who iss also a close frien of dat man George Ade) and dis man Reel iss von Phi Delta Theta vat dey tells me in English means G. A. R. Dese poys lives out in de woods all py demselves and are known to de world only py Balbie, who iss a little feller to have such many offices. Ikie if you could shust see de poy dey has over dere to show people I would pe glad. His name iss Fortune and he iss so pretty, but dey shust lets you look at him and not talk as dat might spoil it. If dat man Worsham iss not dere next year you has my consent to go out to dere encampment and look around.

"Dere vas one poy dat I saw at de tank scrap. Ikie he vas on a hand vagon ven he fell off, but Ikie I tell you dat vas a funny dance he do. He iss a Phi Psi and his name iss Aigs. You shust ask him to do dat dance for you and

you save de price of admission to de side show of a circus. Dey has a rival of Dad Greens py de name of Wilson; he iss almost as much a social success as his Ferdernity brudder, Dr. Beverly Waugh Bond—but about him I vill say nuttins. Und Ikie did you notice de bill board at de Pridge vid de picture on it. Vell dot man Hunsicker vat iss an A. T. O. painted dot. Aint de sentiment fine? But de next day he vas down dere punching holes in dose kegs and barrels to be sure dey vas empty. Und dot man Torrence you must meet; he iss a shark and vill pull you thru de College as he does his brudders.

"All dese bunches I give you pointers on so dat dey vill not fool you mein son but as to de Sigma Phi Epsilons, Delta Tau Deltas, Theta Xis, and Phi Kappa Signas I am safe to leave to your own judgment. Shust take one good look and dey vill not fool you."

"But Fadder aint dere any Betas up dere at Perdue?"

"Yes, mein son Ikie, but it takes a Beta to appreciate a Beta and I hopes you won't disgrace your Fadder."

LADIES' HALL. AN EPISODE.

The Bunch

The old historic days of Ladies' Hall as an abode of midnight revelry, secret spreads and kitchen raids, are past and have been succeeded by days which more nearly accord with modern life at Purdue. The following story is given to show up the hall as it exists in 1908.

Nine forty-five one evening and Mrs. McRae climbed the stairs at Ladies' Hall—just a quarter of an hour before the doors of that place are bolted against the intruding world at large. Her first observation on landing at the top was one not at all unusual—a light in the reception room, which led her to the natural conclusion that some young lady had company. Thinking no more of it she prepared to do some reading, not without wondering at the quiet that pervaded the whole house.

Ten o'clock the chimes told! Mrs. McRae started from her chair! Why had she heard no sounds of talking from the parlor? "A mistake, of course," thought she, "the last young lady to retire has evidently neglected to turn out the gas." Still an uncomfortable feeling seemed to possess her, "I'll just finish this chapter and by that time there can be no doubt the room is unoccupied," and Mrs. McRae settled back in her chair for a few minutes more reading.

Quarter past ten! A moment listening, then she rose abruptly and started towards her door, but stopped short before reaching it, for soft, faint footsteps were surely distinguishable. Yes, someone deftly descended the stairs, opened the door, then closed it softly behind. Not a word was spoken! The very air was depressing.

Stepping out of her room Mrs. McRae discovered—not a would-be assassin or masked robber as she had rather expected—but the Freshman, who stood gazing down the stairway after the departed one.

"Miss _____!"

"Yes, Mrs. McRae," came the trembling reply.

"You have had company in the reception room?"

A pause. Then timidly, "Yes'um."

"The silence was most noticeable and caused me to feel quite uncomfortable—was it entirely called for?"

"Yes'um." Honest Freshman.

"May I ask for an explanation?"

"Why, don't you know, Mrs. McRae, 'Huns' hadn't been up for ages, and the things he had to say were unutterable—so we just sort of looked at each other."

It was a hard blow to "Mother," but she survived long enough to tell that young lady that sleep would do wonders for her, and left the Freshman to her own thoughts of those "unutterable things."

Our Girls

THE ATHLETIC GIRL.

Have you ever heard it said,
That the girls were kind of dead
At Purdue?
Did they say, "We're engineers;
Here's no place for girls with fears—
Ain't it true?"
Now the girls are on the rise,
For at last they have gotten wise
No one knows until he tries
What he can do
With the New Gym in the Fall
They will tackle basket-ball
And will demon-strate to all
What they can do
In the meantime they must show
That they are not so slow
To them all
They must do what e'er they may
Though it even be to play
Girls' football
But some think it quite extreme
To produce a football team—
So they've made another scheme
Amongst a few—
To wear skirts of corduroy,
Maybe sweaters, like a boy;
Do you think it would annoy
At Purdue?

EXTRACTS FROM THE DIARY OF A "FAIR CO-ED."

Sept. 10. Well here it is almost time for school to begin. How glad I am. The summer has been so long and lonesome. Saw Mr. Kise on the street today. He seemed so glad to know that I am to be here this year. Think I know what he wants. Asked him why he came in so soon. Said he had a couple of "cons" to work off before he could register.

Sept. 13. Took a drive past the Phi Delt House this afternoon and heard "Pin" Bird singing while Turpin accompanied him on the piano. That boy's voice has developed wonderfully during the summer. He must have swallowed some of his brother's compound for removing boiler scale.

Oct. 31. When the anniversary of that awful wreck and John Purdue's birthday come on the same day it's funny the faculty can only find an extra large assignment of tests to commemorate it. Why "Biddie," Mr. Longbaugh I mean, said he had four today; and then they say we have no school spirit. We have more than they have.

Nov. 3. "Maud" Shiel chaperoned a side door pullman excursion to the Illinois game. I must ask Mr. Palmer when he comes tonight, what a side door pullman is; I don't remember of ever riding in any with side doors.

Nov. 10. Was out to watch the cadets drill this afternoon. The Colonel does put up a swell appearance and that voice of his sounds just like the roar of water as you go down into the "Cave of the Winds." Never did like a militaryman, but if the Col. had a little greater profusion of capillary growth he might do.

Nov. 12. Have worked all the problems in mathematics for tomorrow. The first time this year, but it rained all afternoon and I didn't get to go canoeing. Louie says he is going to sell the canoe. I hope he doesn't this year.

Nov. 14. Freddy Mason has invited Miss S. to the Tau Beta Pi dance and I don't like it one bit either; I never met him but what I smiled my sweetest. It won't do her any good though for it's a fact that he has a steady at home and I am glad of it.

Dec. 14. George Ade has named the Harlequin Club show the "Fair Co-ed." I wonder who he meant.

Jan. 9. Wasn't it just awful the way Prof. Young told his classes about his wife and baby. It must have been terribly embarrassing for the poor boys, and then that baby curve—how silly. "Rosy" said he would liked to have "balled him out," whatever that means, but his grade was not good enough to stand it. I wonder what that would have to do with it.

Feb. 9. Mr. Turpin called this evening. He looked so pale and so red and hollow around the eyes; I am afraid he has been working too hard on those thesis tests last week. It's mean to make a fellow stay up every night in the week to help some one else.

Feb. 22. Went to the "Prom." last night. Oh, it was awful when they turned on those horrible lights, some of the girls looked just terrible. I won't go again if they have any more lights like that and then those silly coon songs. It wasn't near as nice as last year, but you know I went with Mr. Worsham then.

EXTRACTS FROM THE DIARY OF A "FAIR CO-ED"—(Continued).

March 3. Parkes is considered a pretty well balanced fellow and that is the reason we girls all wondered why he just deliberately fell while talking to Miss Mc. the night of the Minnet dance. Several of us had to painfully refuse him a dance after that. He is a slusher on the "Barn Dance."

March 6. Brommer says that as a rule the Lafayette street cars are not properly heated but the night of the Senior Mechanical dance was an exception and it was just as warm out on 18th street as anywhere else, yet he insists that it was better than walking.

March 14. "Rabbie" was so bashful last night I wonder what was the matter. He seldom lets such a good chance get by, why when we were in the alcove at their last dance—, well she was only a chorus girl anyway, and I wouldn't ever have let him again if he had. "Art" Reed must have felt bad this morning after rushing into the breakfast room that way with those pictures of chorus girls and "Say Bab, remember those girls we had out to supper last week" and Bab's father sitting right there, I would never have thought it of Bab though.

March 16. It's too bad Gray Duncan is married, he was such a jollier. I wonder why he went to Indianapolis? I hear the Freshmen are to parade tomorrow night. Their caps don't seem to be all that is green about them.

March 20. I heard it wasn't so at all about Mr. D. It's mean to say things like that about a fellow, especially

when he is so popular with the girls. Mr. Wagner told me his heart had just gotten back to it's right place since last Friday. He must have been scared. I'd be scared too with Prexy jumping around like that.

March 23. E. A. Clark would rather not have it mentioned in the Exponent every time he goes to Frankfort (which is quite often) for he thinks the faculty might suspicion this as the reason for his low class standing.

March 25. "Tony" Bates says the "Fair Co-ed" is going to be the swellest thing of the year. He has a prominent part as usual. "Tony" got sick two years ago because his corset was too tight. He says he don't wear one this year. Now wasn't that a great thing for him to tell me? That's "Tony" though.

March 28. Who would have dreamed that George Watson ever was shy in the presence of young ladies. A friend of mine told me that the night he met her he was so fussed that he put his new stiff hat on the chair, planked himself down on it and sat there the entire evening, never noticing what he had done until time to go home. If this is still his custom it accounts for why we see him with a new hat so often.

April 2. Gibson has the reputation of being a great fusser. He declares that the happiest 15 minutes he ever spent was at the Junior Prom, last year when the lights went out. He thought no one saw him but everyone was talking about it the next day.

THE BURNING OF McANNIX.

A Near Tragedy.

CAST OF CHARACTERS

Dr. Stone President of Purdue University
Dr. Moran Official Voice
First Committee
"Pin" Bird Chief Flimmer
"Have Another" Worsham Big Noise
"Fritz" Mason)
"Heine" Glasser) Minor Squeals
"Rufus" Wagner)
"Runt" Babcock . . . Leader of the Rabble, Unavoidably Entangled
"Mollycoddle" Durr, "Jimmie" Rice, "Kick-a-poo" East, "Pithy"
Phillips, members of the Rabble.
Second Committee, the members of the Broken Peace,
Seniors, Juniors, Yell Leader, Mrs. Purdue, etc.

ACT I.

SCENE I.

Doc Moran's Room

Enter "PIN" BIRD and rest of FIRST COMMITTEE

"Pin" Bird:—

Hail Gang!

I take it you know why we gather here.

Comm.—You know it.

"Pin":—Our worthy classmates have as one decided

That we shall fix the last sad rites

To burn our cherished friend McAnnix.

In face of which, our faculty decrees

That he, without these rites, shall quit

This toilsome sphere.

Comm.—It cannot was.

"Pin":—Then fellows, sharpen up your rusty minds

To outwit Doc and all his faculty,

That we accord all due respect

To our departed friend.

Worsh:—We'll flim them to a finish if we can

But meantime let us leave this dry old hole:

Refresh ourselves against fatigue and toil.

And D——* the faculty.

All:—Double, double toil and trouble

Pipe burn and Bock beer bubble.

SCENE II.

Doc Stone's Office

Doc Stone and Mrs. Purdue

Enter "PIN" BIRD and rest of FIRST COMMITTEE

Doc Stone:—

Some rumors have I heard today,

To the effect, that you against my wish

Have preparations made, to burn McAnnix

Is it not so?

"Pin":—Nothing has yet been done.

Doc S:—'Tis well, and if it be your wish

For a committee of the faculty,

*Authorities differ as to the exact word which belongs here. "Ach Himmel" maintains that it should be "dod-gast" while "Jimmy" Rice says it is plain "damn."

THE BURNING OF McANNIX—(Continued).

To see these rites are carried out without
Objections, 't shall be done.

Comm.—"Tis well. (*Exeunt*)

SCENE III.

Campus Outside Doc Stone's Office
The Committee Assembled

"*Pin Bird*"—

You see he hath not said us nay;

And did he not say that he would appoint a committee?²

Look you ten minutes have elapsed since he spake

And no committee is yet appointed.

Hath he not dealt with us falsely?²

Worsh.—Let's proceed with our
Preparations and D—' the faculty.

** See note.

ACT II.

SCENE I.

Class Assembled. Enter DOC MORAN and COMMITTEE

Yell Leader—

Shall we have a burning?

Class—Y-E-S.

Y. L.—Nine rats for the committee.

Class—Rah. Rah. Rah. Committee.

Babcock—I pray you be quiet and
Listen what *Doc* would say.

Doc Moran—You gentle students—

Class—Peace ho—let us hear him.

Doc Moran—Friends, Seniors, students, lend me your ears;
I come since I have to, not because I want to.

The evil that men do, lives around them;

The good is oft interred in their bones;

So it is with Pres. Stone. Your committee

Hath told you that he is crooked;

If it is so, it is a grievous fault,

And grievously hath he paid for it.

Here, under leave of your committee, and the rest

(*For Bird is an honorable man*;

So are they all: all honorable men.)

Come I to speak in the president's absence.

He was my friend, faithful and just to me.

But your committee says, he is cold and distant:

And they are all honorable men.

You know not how tender his heart is.

That he would wade for each one of you

Up to his neck in the Wabash:

Would this in him seem cold and distant?

Then why not treat him with fairness:

I know there has been misunderstanding,

Tho' the faculty is holding down the lid

Still they are the friend of all students. (*Exit*)

Bab.—You've heard what *Doc* has told you.

Is there any discussion?

Class—Let's hear from the committee.

"*Pin*"—You see the right is on our side.

Doc has not said we can't have it

THE BURNING OF McANNIX—(Continued).

Committees he has not appointed
Let's have a Mechanics Burning.
(Applause)

Worsh.—What is the use of this hot air?
I don't care a d * * what will happen
Let's have the Mechanics Burning.

Class.—We've listened to Doc with patience,
We can't say we entirely agree,
We'll have a Mechanics Burning
And to h— with the faculty.

* * * See note.

SCENE III.

Father Teasley's. 11 P. M.

Chorus of Students.

COMMITTEE returns from meeting with DOC STONE

Committee.—

We have no use for diplomats,
Our grips we're going to pack,
For after Mechanics Burning
We never shall come back.

All.—What's the matter.

Comm.—We won't go home till morning
And then we go for good.

Seniors.—Then we'll all pack up and go with you.

Juniors.—As we always said we would. (Curtain).

ACT III.

SCENE I.

Doc Stone's house. Doc Stone Alone

ACT III

SCENE I. *McAnnix Burning*

Doc Stone Alone

If it were done when 't is done, then 't were well
It were done at once. If the prohibition
Could trammel up the consequence, and catch
With it complete success; that but this blow
Might be the end all of such customs here,
Right here we'd end the "Burning" for all time
And jump the things to come. But in these cases
We still have students here, that we but teach
Adverse instructions, which being taught, return
To defy the inventors. This even-handed justice
Commends the ingredients of our arbitrary will
To our own lot. It's here in double bond;
First as I did sanction it when it was worse
Though thrice as bad as now: then, they may burn
Instead of old I. P., myself. 'This burning hath been
So clean these last two years, that its virtues
Will plead like angels, trumpet-tongued, against
The high-handed manner of its prohibition,
And sentiment will bid them rise defiant
'Gainst our solely sovereign sway. Besides
Our established proclaimed edicts

THE BURNING OF McANNIX—(Continued).

And Continent Canons hath made these youths
So sore that they are stubborn to our will.
I have no spur to prick the sides of my intent.

SCENE II.

Class Meeting. General Incoherent Clamor

"Mollycoddle" Durr:—

Mr. President!

I move that we consider well today
Before we cast from us our sheepskins earned
Thru years of toil and blunk tests drear;
Rather concede and gain this coveted trophy.

"Jimmy" Rice:— Concede and evermore be branded
"Quitters." "Yellow," and all the rest.

Are you a man and still would put
Your neck beneath the yoke of tyranny?
Cast off your tears, then carry out your plans.

"Pithy" Phillips:— We've gone too far to think of breaking down,
And yet it with but slight concession granted,
We carry out our plans this day and still
The sanction of the faculty obtain.
Let us do it.

Enter Second Committee

Comm.:— No storms with direful fury raged,

But smiles and sunshine from the royal face
Beamed on us. So before the setting sun tonight
The fun'ral pyre of our departed friend shall burn
Upon the campus! Hie you home and don
Your Motley so that our lamented friend
With proper rites shall pass from off this sphere
Into eternal fires.

Class:— "Will the birds please sing."

(Exeunt in joyous rout).

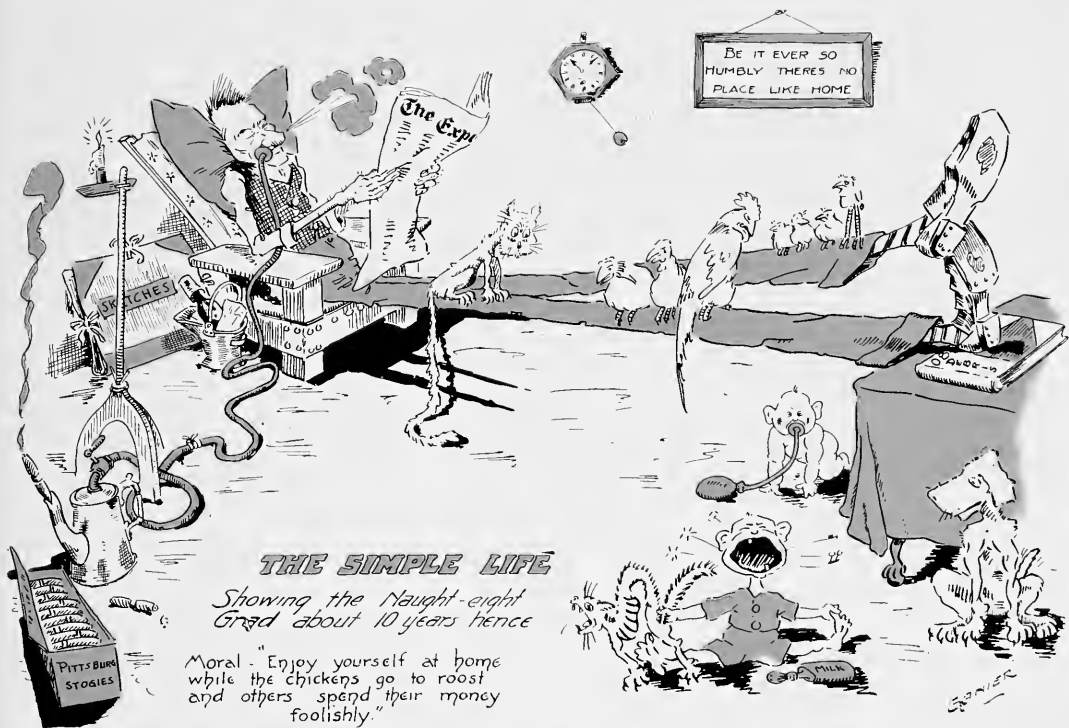

SCENE III.

*State Street. Funeral procession with bier, pall bearers (Hatties),
mourners, water wagon, etc., passes across the stage. Doc Stone
standing alone watching it.*

Doc Stone:—

I have served long enough, my May of life
Is fallen into the sear, the yellow streak.
And that which should attend my office
As honor, respect, obedience, troops of friends
I must not look to have, but in their stead
Knocks, both loud and deep, assertions, roasts
Which my poor heart would fain deny but dare not.

(Curtain)

THE SIMPLE LIFE

*Showing the Naught-eight
Grand about 10 years hence*

Moral - "Enjoy yourself at home
while the chickens go to roost
and others spend their money
foolishly."

LUCRATIVE POSITIONS.

West Lafayette, Ind.
April 30, '07.

Craig Eng. Agency, Cleveland, Ohio.

Dear Editor:—

I note with pleasure in your April employment sheet a vacancy in the list of government hen-house inspectors. I have had a wide experience with "hens," have boarded on the West Side for four years and therefore am perfectly familiar with eggs of all kinds. Am also acquainted with "Crow" Palmer. I refer you to W. E. Ahrens, 2nd vice-president of the Hoodigan Club as to my ability for "nesting." Could accept \$1,500 and expenses for both of us.

Yours truly,

R. G. KIRKWOOD.

P. S. I enclose my picture taken in the U. S. military uniform. I neglected to mention that I am major of the 2nd battalion in the Purdue Army.

R. G. K.

* * *

Dear Editor:—In reply to your communication of the 13th inst. on road work and request for references, I can say that your offer of \$2,800 per annum, though modest, is reasonable. I am not particular in what town I locate as long as it is Terre Haute. I've had experience in all kinds of road work, both public and private, under good and adverse circumstances. Have been over every foot of the Denver Pikes Peak and Kenesaw Mountain Railway and am familiar with many public roads between Colorado and Lafayette; have also worked on some roads between Lafayette and Kankakee.

Respectfully yours,

WILL GADDIS.

Cleveland, Ohio.

Mr. C. Palmer, W. Lafayette,

Dear Sir:—Your letter received and contents noted. We take it for granted that "you are pretty good," as you informed us in your letter. In compliance with conditions set forth in our letter of recent date you agree to furnish your own "Shanty" with all necessary equipment. This is satisfactory. The country about Buck Creek is just developing and much exposure will be entailed; hence, the rigid physical examination necessitated. We prefer a married man, but at all events want a man of experience. On our desk at time of writing is a communication from a Mr. Bisset, applying for a job as chairman, who states he is a married man of experience. Can you recommend him? Please report at this office as soon as possible.

Sincerely yours,

W. G. CRAIG.

* * *

Lorain, Ohio,
April 26, '07.

Editor Craig Agency.

Dear Sir:

Is there anything on tap in your office. I want something and want it bad. I would like to leave here in June. I am robust, willing, a good fusser, have excellent judgment and will accept anything with the initials J. O. B. I will obtain a B.S. degree in Purdue in June.

For references as to my general standing I refer you to the late inventor and genius, Reuben Farmer, with whom I have been intimately associated.

Very respectfully yours,

A. TUBBY JACKSON.

LUCRATIVE POSITIONS—(Continued).

Indianapolis, Ind.
April 30, 1908.

Dear Editor:—

In answer to your "want" of April 25—"Superintendent of Destruction" I find I can supply the want. I am a member of the Tau Beta Pi, have taken post work in mathematics and drove a beer wagon one summer in the city of Indianapolis.

I am not conscientious about trivial matters and would not allow actual conditions to interfere with any report I might make in regard to same. Would consider an offer any time.

Respectfully yours,
F. L. BEAL.

P. S.—I should have stated that I room in the Murdock Flats which is certainly an important consideration in connection with this position. F. L. B.

* * *

West Lafayette, Ind.
April 30, 1908.

Dear Sir:—

I enclose the following list of qualifications for the mining position, of our recent correspondence:

Tall, imposing, experienced in handling men, connected to moonshiners and night riders of Kentucky. Live in Evansville, have fired on railroad, member of American Society Mechanics (Burning). Worked on Funnel Gang, very conscientious, able to stand night work, have undergone great exposure. B.S. Purdue.

Truly,
H. WORSHAM.

Cleveland, Ohio.
May 2, 1908.

Mr. H. Worsham,
West Lafayette, Ind.

Enough. Come at once.

CRAIG.

* * *

Executive Mansion,
Washington, D. C., June 6.

Craig Eng. Agency,
Cleveland, Ohio.

Dear Sir:—

Your letter just received offering me the position with the Quaker Oats Company and I regret that I am unable to embrace this glowing opportunity. Unfortunately in April I accepted a position with the Stringem Boiler Compound Company and am at the above address today seeking the President's endorsement for the same. In passing, I might say that this compound will remove all kinds of scales, including the Buffalo and Fairbanks. Secretary Taft has placed a large order for use in removing the latter.

Both boilers and scale are removed in some cases by using it.

Indorsed by the United Mine Workers.

Thanking you for this offer, I remain,

Yours,
P.—I.—X. BIRD.

HOW TO RUN A LABORATORY.

(By Hiram T. Bumb.)

- Don't label any connections on the switchboard. Let students trace circuits by climbing under the board.
- Don't put anything that is necessary or instructive in the lab notes which are sold to the students. After hunting through the instructions for what to do, let the student hunt up his instructor, who if found, will advise after he is through with his present business.
- Take an hour and a half of the three-hour period in a fool lecture which could be given inside of ten minutes. In response to all questions state that "I won't answer that for you now." At the end of the lecture announce that everything said will be found in the Handbook anyway.
- Take visitors to the lab, for a little ride on the crane. They enjoy the novelty of climbing up where it's hot and dirty and spoiling their clothes. Also when the crane starts up every instrument reading for other experiments is knocked into an ampereturn.

- Tell students to set instrument down carefully. Then illustrate your words within ten minutes by a horrible example.
- Change each experiment each week if possible, giving the student the advantage of research work in setting up circuits. He will also exhibit his ingenuity, if he has any, trying to perform a three-phase test on a two-phase machine, following the instructions in the notes.
- Reports should be in three colors of ink. Dot your i's and don't use & for "and."
- In short, so obtrude your own freak ideas on the laboratory staff by getting each member assigned on twelve different jobs at once that their blessing in the form of three-storied polysyllabic cuss-words will be with you when you are not around.

*NOTE: These rules have been in force in the Skidue electrical laboratory and have caused more cuss-words, blown fuses, wicked thoughts and damncare spirit than the Big Nine rules.

HOT OFF THE WIRE.

(Telephone rings in the Chemistry Building. In the absence of any member of the instructional corps a Senior answers.)

"Hello! Hello!!" (brrrrrr) "D—mn this phone" (brrrrrr.)

"Hello!"

"Yes, this is the Chemistry Building. What do you want?"

"Who?"

"Littleton?"

"Yes, his class is here, but he is busy with an assay furnace now."

"Certainly he makes it go; if the blast and fire won't melt the ore he just explodes in a fit of anger and they run like water."

"What kind of a job?"

"He's such a star with the tongs and brushes I know he'd fit into your brimstone massage department nicely."

"Sure he would. He's just the man you are looking for. He's a scorcher and that brimstone howl of his would fade anything yourimps in Hades ever produced in the way of a sulphur storm."

"Most any afternoon is a good time to strike him, for he usually is feeling pretty genial after he has just been flunking all the H. E. girls."

"I guess not until next summer, but he will get dropped then, and I don't think he would turn down a chance like you offer to make a reputation. If he don't take it, it is 10 to 1 he will be fossilized in the basement of this building."

"Sure, call up then and you will get him."

"But say, don't forget to call again."

(Brrrrrrrrr.) (Brrrrrrr.)

A CHEESE KNIFE LYRIC, OR LOWRY AND HIS UMPHER.

Of all the cranks since sin begun,
The cheese knife fiend has got 'em skun.
A fire sale instrument 'tis true,
But does the work as good as new.
Designed to split Limberger blocks,
It's not partic'lar what it chops—
Tobacco, toenails, bread or cheese,
Or any bloody thing you please;
And Lowry's just gone nuts about
The way it works his problems out.
He sits in ignorance sublime
And works his cheese knife over time.

No operation so complex
But what this mighty Umpher checks,
He calls all formulae and rules,
Inventions of weak minded fools;
And slide rules are the weird creation
Of some insane hallucination.
Well, some have carved their fame with sword,
And some with pen and lengthy word,
And some in blood, and some in stone—
Onc, less partic'lar how it's done,
Will use his Umpher, if you please,
And carve his fame in Limberg' cheese.

DEBRIS' GUIDE TO THE THEATRES.

GRAND.

A. B. Jacobsen starting in "Seven Years in College" 1100th night.

The appeal and realism that Mr. Jacobsen puts into the performance has kept up interest in the production to such an extent that the run will be continued indefinitely. The truthfulness with which he presents American College life has been recognized by one of our foremost Universities. In making him the Dilbur Scholar of the Onery Fraternity of I Eita Pi, he has been placed in a position never before held by a footlight artist. There has as yet been no change in the original cast.

FAMILY.

For this week's performance the usual high class refined vaudeville bill is offered. Among the numbers it will include as a special attraction the hair raising act of Heinrich Bowleggerend, Campbello and Johannes Crottilory Driving the Crichton Mad Coach through the dingles and canyons of the Wabash valley pursued by hostile warriors. The intense interest is held throughout the act and is brought to a thrilling climax with the rescue of the passengers by the Crow chieftain, Palmer, and his trusty scouts, Rising Sun East and Water'll do Duke from the flats of the Murdock range.

MAJESTIC.

The amateur program for this week is an excellent one and is of special interest to college men. Dr. Tee Fee Horan, the Chinese sleight of hand artist, will demonstrate the mysteries of now you see it now you don't. With ve games in one hand and seven games in the other, by his lightning like interchanges the magnificent University of Michigan is made to vanish in full view of the audience. The Doctor denies exposure and declares all imitators to be impostors. The able assistance rendered by his fellow country-

man, John Wal, in his clever performance of "How I Laid the Blame on the Students," makes this act one of the best ever seen on the local stage.

LAPURDETTE.

The illustrated song for this week is entitled "War Is a Bonnil and Jaki," sung by the author, Lycurgus Antonius Scipio, of Rome; music by Slipinsky and Orchestra. The films were taken by the Lapurdette's official photographer, Professor Charles Leber, during the battle of Prophets Rock Pass, and portray such stirring scenes as: Captain Kise swimming the Wabash with a handful of volunteers in the face of the enemy unconcealed on the bluff (Lutz); Color-Sergeant Palmer of the immortal First battery defending his colors against a host; General Stillwell on his magnificent black charger directing the battle from the firing line; and above all, that famous retreat which would have glorified Napoleon and will forever rank with the "Retreat of the Ten Thousand." The moving pictures will be, "Who Stepped on the Cat's Tail and What Came of It."

ARC.

Besides the touching love piece, "Why Woody Goes to Fowler," set forth in the illustrated song, the program contains several excellent films. The one entitled "Behind the Scenes," or "The Burning of McAnnix," for the first time reveals many court secrets. Such stirring scenes as "Pin" Bird pulling the wool over His Majesty's eyes; the conspirators meeting in Hi Russell's woods beyond Snoddyville; the memorable audience with His Majesty where the committee was fired and His Royal Highness exploded, the secret preparation of the corpse and silent moonlight procession to its last resting place are all set forth with striking realism and take one back to those stirring days when such men graced the University as dared brook the ill will of the mighty. That big heart positively exhibited at every performance.

THE COLLEGE NIGHT.

We hear of the dear old "college day,"
And it may be all right,
But give to me, instead of this,
The good old "college night."

We work all day,
And some may say
That working, it is fine;
But let us have a group of boys
And give each boy a stein.

Gathered together, talk and sing,
And then our pipes we light,
And give a toast around the table
To the dear old "college night."

And when our college days are o'er,
And we do, and live, and fight,
We long for the bond of good fellow-
ship
That was sealed in the night.

We dream pipe-dreams,
Then we wake up
And blow the smoke away,
And think of the hours spent by us,
Not in the "college day."

But what we can't and won't forget—
Not even if we might—
Are the golden moments spent with
friends
In the good old "college night."

BE IT RESOLVED

1. That a crisis in the history of the class of 1908 and also in the history of Purdue University did exist.

2. That said crisis did exist immediately prior to the Mechanics Burning of the Class of 1908

3. That said crisis was averted by the strenuous efforts, influence, cool headedness and wisdom of one man.

4. That said man is Volney DeLos Cousins, by name.

5. That said Volney DeLos Cousins is alone worthy, and deserving of the honor and thanks of the Class of 1908 and the friends of Purdue University.

6. That a tablet be erected to said Volney DeLos Cousins bearing the inscription:—"I, the great and mighty Volney DeLos Cousins, did, in my great strength, slay a Louse."

7. That said tablet be placed in the trophy room of the Memorial Gym.

8. That a copy of these resolutions be published in the 1908 Debris.

ELECTRICAL ENGINEERING.

A Comedy.

Character: High Tension Plumb.

Chorus of Senior Electricals.

10:00. Chorus discovered firing chalk and erasers through door and windows at Voltmeter Brigham and his Mechanicals.

10:03. Happy McClure looks at his Manilla watch and gives signal to cut.

10:05. Grand March begins.

10:09. High Tension meets class on landing. All about face. H. T. smiles blandly. Plumb hunts window stick, finding it where Leber has hidden it under the radiator, and runs around opening windows. Practical talk on "How to ventilate a room, etc." Sits down. Spies floor.

"Will the gentleman who threw that chalk pick it up?"

No one is hurt in the rush that follows.

Again. "Will the gentleman—if you are gentlemen—that threw that chalk pick it up."

Finally Ikey Montgomery, the good little boy and the teacher's pet, who never was known to do anything naughty nor throw chalk, goes and gathers up the chalk.

Hylon T. grunts, shrugs his shoulders and looks in the classbook.

"Gentlemen, I am forced to mention a subject I should not have to allude to at this time. I refer to the habit of using tobacco in the laboratory. The test-car pit is one long cuspidor. Last week I had to stop a man from expectorating in the field rheostats and yesterday I

found that someone has been using our standard voltmeter for a spittoon and as a result all thesis instruments will have to be recalibrated. Mr. Wagner, recite."

"Red" spurs for a question as an opener.

"Stand up when you recite! Now tell us all you know about the lesson."

Wag parries with the remark that he doesn't just exactly like the author's style and wishes he wouldn't write in bunches.

"Mr. Green, state if you can, the number of electric lights in use in Spokane, Washington, October first, 1895."

"Dad" guesses at 1,500. Hylon doesn't know either, so it's "quite right."

Noise in hall. Esterline's class is dismissed at 10:25. A moment later another rumble indicates that Topping has just dismissed his 9 o'clock class.

"In a plant once, for which I was consulting engineer (George snickers) they used the mountain water from the snow-tops for cooling the transformers."

Cookoo Miller: "Sposin'—sposin' the water was too cold!"

Sheridan waves his hand violently in grade school style.

"Mr. Sheridan."

"When I was at Niagara Falls I just thought to myself how all that water was going to waste."

Horner: "We knew you'd been to Goat Island sometime." Class excused!

THE TALE OF THE ONE LUNG SHAY

Have you heard of "Baldy's" one-lung shay
That was built in such a technical way;
It ran full twenty years they say,
And then of a sudden, it—ah, but stay
We'll tell you what happened without delay.
In eighteen hundred and eighty-five,
"Baldy's" hair was then alive,
And grew profuse on the top of his crown,
His very last year in Ann Arbor town,
He made his fortune and salted it down,
Said he, "In raising hair I tell you what
There is always somewhere a weakest spot
Above or below, or within or without,
And that's the reason, beyond a doubt,
That heads grow bald and hairs fall out."
In the Michigan lab, he mixed galore,
Worried, experimented, conjured and swore,
And finally concocted a hair restorer.
Do? I'll tell you! I rather guess
She was a wonder and nothing less!
Boards grew beards and trees grew tresses
Bald heads grew hair for felt mattresses.
The principle was simple; denuded air
Was injected into the dome with care
And low and behold it sprouted hair.
But alas! the day, alas! the date,
In Eighteen Hundred and Eighty-eight—
On May the first he met his fate;

He bet, his bet was raised by ten,
He raised, his raise was raised again.

(This sheet of the manuscript relating how "Baldy" went to Richmond; got into a game with a tinsmith machine agent and lost all his money and his patent to the hair restorer, and won in return only the one-lung shay which was stolen by a spy of "Baldy". Bob's)—EDITOR'S NOTE.

In Nineteen-eight, the first of May
We find our "Baldy" on his way
In that very same technical one-lunged shay
To give his Seniors a test that day.
He had three questions and stopped for the first time
"By me Senior evils shall be hard pressed,
I have it, Moses! What's coming next?"
For all at once his shay stood still,
Close by the signboard on the hill,
That tells all drivers to stop if they will
First a shiver and then a thrill
Then something decidedly like a spill,
What think you the ambulance found
When at a merry clip it arrived on the ground?
The one-lunged shay, in a heap or mound,
And our "Baldy" lying upon the rock
At five to eight by the old tower clock,
To the hospital they carried him away,
And alas! and a-lack! no test that day,
For "Baldy" had lost his hair and his shay

THE JUNIOR INSPECTION TRIP.

Early one of the bright, cheery mornings of the pseudo-spring that preceded the big peach-destroying freeze of 1907, fulfilling Hick's prediction of earthquakes and cyclones to be more succinct, on March 26th, one hundred and sixty then Juniors, suitcase in hand, might have been seen hustling across the levee to catch the special train for Chicago.

Those who came prepared with the ninety-three centimeters of paper ribbon duly countersigned as a ticket by "Daddy" Goss, were permitted to climb into the two construction cars with rattan seats, which were provided for the proletariat. Then after seeing all the children aboard safely in the stock cars ahead, the seven dear, good, kind members of the faculty who did the chaperon stunt, with all the dignity that doth bode majesty about, climbed into their own mahogany-furnish'd coach which by this time the conductor had unlatched, and settled themselves back on the red plush cushions to enjoy the ride with the impulsive hearts locked out. Only Sheridan was allowed to ride in the faculty coach lest the rough boys up ahead might "wrong his argenteo."

The windy city by the lake came into sight about noon, and, shortly after, a close, very close observer might have distinguished, amid the usual lunch-time bustle and crowd, a little line of wonder-struck, open-mouthed Abchemists following "Jimmie" Hoffman up the dark canyon of Dearborn street. The Victoria Hotel on the lake front was the departure of the Purdue inspectors and after a hurried dinner the parties stood on Michigan avenue watching the millionaires climb in their big deep-throated touring cars until the hour for the steel came.

The trips of inspection to the various manufacturing and power plants about the city were conducted by schools. Each department had in the various instances pertinent to its work but on a few points of interest all the phases combined. The Illinois Steel Company's

South Chicago plant was visited by all. Hearth, puddling and reducing furnaces were inspected and the inspection trippers marveled at the gorgeous display of the Bessemer's. On the steps of the steel company's office building a Bertillon ordeal was gone through at the behest of an enterprising photographer who lined the Purdue crowd up between a pair of stalwart policemen.

The Electrical students first visited the Harrison street station of the Chicago Edison Company and then went out to the wonderful Fiske street station of the same company, a power plant as near the ideal in efficiency and beauty as one of Topping's phase diagrams.

J. Phylus' Chicago branch plant poured out a generous libation to the Purdue visitors the first afternoon, as Chicago papers announced that during five minutes of the short but fierce rain-fall that afternoon more rain had fallen than ever before in the history of the city.

The Chicago Tribune plant and the ingenious electrical equipment of the Chicago Postoffice interested everybody that evening.

The electricals went through the Northwest-tern Elevated plant and the testing laboratory of the Underwriters. On the elevated out to the Hawthorne works of the Western Electric Company Paul Clark saw a policeman scratch a match on his bearded cheek (the policeman's, not Paul's) and was disconsolate at the resilient softness of his own stubble. Considerable persuasion was required to pry Dietrich out of the winding room where he had become interested in the winding apparatus. "Deet" said he knew her when she worked at the Clinton street factory. It was in the factory of the Automatic telephone company that "Happy" McClure had the man impressed that he was wise all about "bridge cut-off relays and rotary connections," and then nearly bowled the superintendent over by asking if telephone cables were German silver.

THE JUNIOR INSPECTION TRIP—(Continued).

The Mechanicals, in open mouthed wonder, continued to follow "Jimmie" and "Lady" about, much as a Daschund does his master. After doing the steel works and partaking of a lunch mainly of the free accompaniment variety they were turned loose upon the unsuspecting crew of one of Chicago's indispensable plants for the providing of pure lake drinking water. After a thorough individual inspection of every detail, much to the relief of the engineer in charge, they were finally routed out and sent on their way through the "bad lands" of Chicago to the Harrison Street Power Station.

Although twenty-three usually suggests a hasty departure, it being Chicago short weights were to be expected, and 22nd street had the required effect upon certain members of the party. The much depleted squad succeeded in impressing upon the superintendent their absolute ignorance of all things electrical. It was only due to Underwood's remarkable vocabulary, in the line of end-cell entouts, positive and negative irons, polarization, horizontal and vertical converters, etc., that they were able to make a hasty and graceful departure.

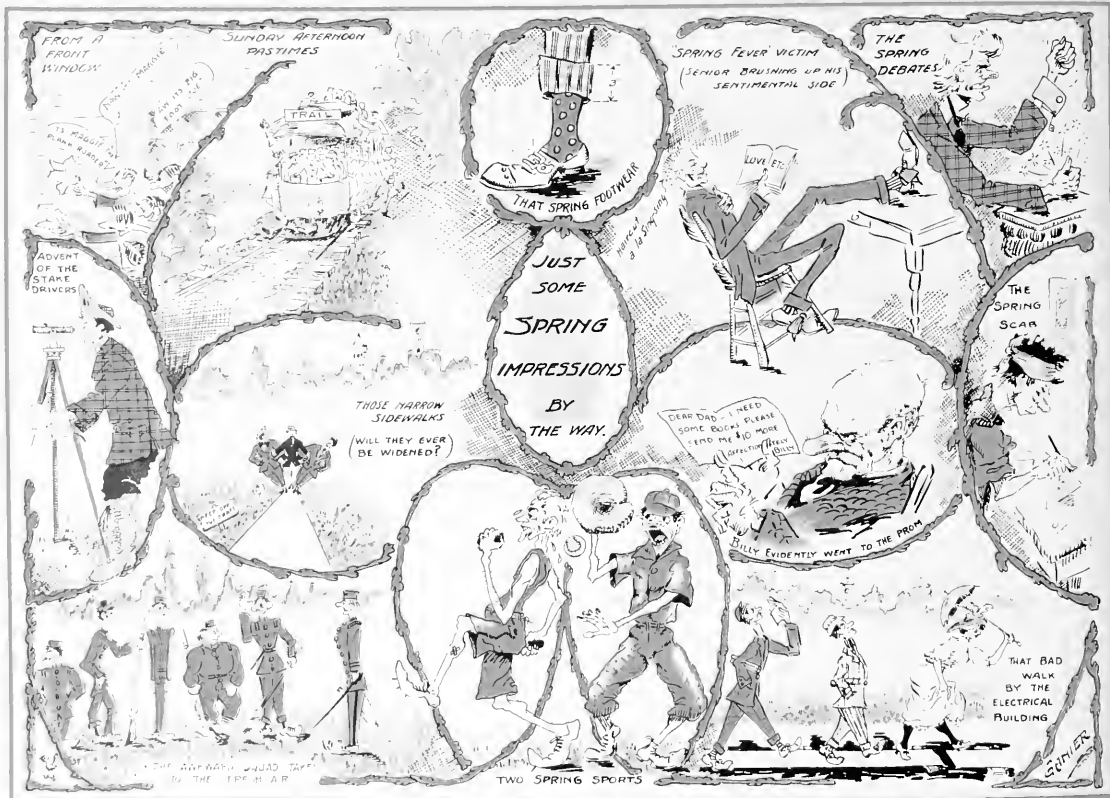

Hodge Worsham, although usually considered one of the most self-reliant men in the class, was the only victim of a come-on or carry-off man. Fortunately his wearing apparel containing all his earthly possessions, which was carried off before his eyes in the hotel lobby, was later discovered in the possession of "Flossie" Stout entirely intact except the "makins."

On the way to the Deering Harvester Works in his anxiety to catch the "L" "Jimmie" showed some of his old-time track form and succeeded in distancing a greater part of the bunch which became so lost in the mazes of the gallery entrance to the Illinois Theatre that they missed the beauty show in connection with the

twine department of the Harvester Works. It was here quite a number of old acquaintances were renewed and this trip voted the best of the list.

The trip to Chicago was enjoyed in others than a technical way. Many old Purdue graduates were on hand around the Victoria lobby to meet the boys. A wise program gave the student his own rein one afternoon and one evening. Maud Adams was playing her joyous role of "Peter Pan" at the Illinois and many took advantage of the opportunity to witness the charming little fairy story that meant so much. Others had favorite temples of amusement supposedly along all the range that Chicago's scale affords. When they got back to the straight and good old town of Lafayette some of the more daring or imaginative—did "tales unfold whose lightest word" was hung upon eagerly by their home-staying brothers.

A HINT TO SOPHOMORES.

The Freshman has his small green cap,
Which he does meekly wear,
The Junior has his "classy" pipe,
Which he carries everywhere
The Senior has his corduroys,
So he wants nothing more
The Sophomore "haint got nothin'"—
No wonder he is sore.

No one knows that he's a student,
Unless he tells them so,
But Freshman, Junior, Senior,
Why all the people know,
They say, "See that cute Freshie,
Oh my, ain't he a sight?
Or they recognize the Junior pipe
When he asks them for a light.

And when a solemn Senior
Comes walking down the street,
The girls are simply wild
This sporty chap to meet
If it's too dark to see him
"What matters that?" you say
They hear his trousers whistle,
When he's two blocks away.

Now Sophie, you get busy,
Or you'll be down and out,
Why not get something "classy"
For when you walk about,
And then when people see you
They'll say, "Well I declare,
That happy looking fellow,
Why that's a Sophomore there."

SENIOR'S REVERIE.

Jane and Sheepskins!
Dry yer weepin's
Coz th' worst is yet t' come,
Take yer sleepin's,
Optic seepin's,
Only puts y'u on the bum
Don't let old debts
And unpaid bets
Keep you in a nervous stew,
Your nerve's crusted,
You're sled-busted,
Starvin' straight ahead of you
Weddin' bells due,
Board and rent, too—
Hostess says she just can't wait,
No jobs open,
Just plain hopin',
Ain't it hell to graduate?

ENGINEERING TEAM
"A Sheep and Cut-off"

THE FLUSH TANK SIPHON THAT STOOD BY THE WALL.

How dear to each heart
 Are the scenes of our schooldays,
 When thoughts of the past
 Recall them to view,
 The well lighted draughting room,
 The Prof. who looked o'er it,
 The sink in the corner,
 Where the water did fall;
 And the flush tank siphon
 That stood by the wall
 The old iron siphon,
 The well-filled siphon,
 The much-used siphon
 That stood by the wall

How often in hours
 When vigilance was lax,
 We would turn from designing
 To loiter thereby;
 Many minutes we've squandered,
 Until duty would call,
 Then into the depths
 How the dead ones would fall
 Into the siphon
 That stood by the wall
 The old iron siphon,
 The well-filled siphon,
 The much-abused siphon
 That stood by the wall

In the years that it stood there,
 Each year that passed by,
 Added much to the holdings
 Of that hole by the wall;
 Tall late in the Spring
 Of nineteen naught-eight
 The limit of fullness
 Our Albert did call,
 Of this flush tank siphon
 That stood by the wall,
 The old iron siphon,
 The well-filled siphon,
 The quid-filled siphon
 Now gone from the wall

DER DEITCHE PUNCH.

Yon, yon, yon, yon, yon, yon,
 Der Kaiser's erl, and pony stoult,
 He took me for a sauer-krant—
 Dot's John Herl.

Der Kaiser's erl, and pony stoult,
 He took me for a sauer-krant—
 He took me for a sauer-krant—
 Dot's Dutch Herl.

Bar's voted face, and kidney feet,
 Him cooms hopin' up der street
 Mu em schmole each vin to greet
 Dot's Elias.

Der crazy von, der fresh air von,
 Der boys say der son of a gum—
 He bks' lus heer when work is done
 Dot's der Raff.

Sings der Con vacation in,
 Plack of hair and thin of chin
 Vent a vay is haldt to vin—
 Dot's der Gum.

Der Kaiser's erl, and pony stoult,
 Mit eye for graf dot will eropt out—
 Fond of his beer and sauer-krant—
 Dot's me himself.

Von eighty von, von sporty von,
 Von pizzard von, von crazy von,
 Von siekly von, all grauters some—
 Dot's mine punch.

THE OLD SETTLER'S WELCOME TO OUR DILBUR SCHOLAR.

"How' do, thar, Byron, how you be,
I heard you's hum from college,
I low you'r goin' to show us folks
That there new-fangled knowledge
About the kind o' seed to sow
To git the best results,
An' other things you seem to know
That's new to us adults.

"A squad of dern fools come this Spring
With striped poles and stakes,
An' druv them in my orchard thar,
An' fussed about, 'Lan' sakes!
A takin' notes an' sightin' through
Them crazy three-legged things,
An' workin' both arms up an' down
Just like a pair of wings.

"What! aint been studying farming none!
Well, goodness sakes! yer marn
Told me she reckoned you'd come back
An' live here on the farm,
An' settle down to raisin' crops
Accordin' to yer hook
On the same old place that was yer pop's
That you've so long fersook,

"Been studying engineerin', eh?
Nigh onter ten years now,
I don't know much about that stuff
But then I kinder low
It's just an omerly job at best
That engineerin' is,
A squintin' north an' south, an' west
An' all that sort of bis,

"I hope you aint a goin' ter be
One of them engineers,
But then you've always had yer way
An' so I've got my fears,
I'd like to see you stay to hum
An' do a little farmin',
'Cause as an engineer, I low,
You won't do nothin' 'larmin'"

THIS PAGE IS DEDICATED TO "MISS PURDUE" BY THE CLASS OF NAUGHT-EIGHT.

"Over whose countenance no smile has ever crept, and to whose credit no act of courtesy, nor even a pleasant word, has ever been recorded"

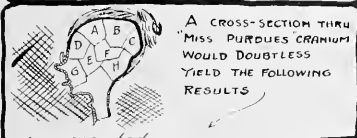

RESOLVED

That life is too short to burden others with our discontent, and that we should by kind words and thoughtfull actions, make pleasant the lives of those about us.

Further resolved, that in all our business dealings we will use the same courtesey and kindness toward our fellow men that we expect to receive from them.

BUSTER

- A = exaggerated ego.
- B = supposed business ability
- C = curtness & selfishness
- D = tactlessness
- E = "wet hen" temper
- F = lack of accomodation
- G = incivility
- H = positive impoliteness

SOME SAMPLE REMARKS.

"You will have to return again, the office has other matters to attend to besides yours"

"Sir, that is not the business of this office"

"I can't see why you dont come at a more convenient hour"

"And what do you want?"

"State your business"

"The registrars office does not have time for such matters"

GOOD MORNING

CERTAINLY

PLEASE

THANKS

WITH PLEASURE

The above expressions have been discarded by Miss Purdue from her vocabulary

IN CLOSING

We trust that next years Debris will only find it necessary to devote a half page to this unpleasant duty (STAFF)

FRESHMAN'S CREED.

I believe in the eternal greenness of Freshmen, nobly set forth by my little green cap; born just last Fall, and now begrimed by the dust and grease of laundry and shop.

I believe in Mike Golden's lectures, going to class fifteen minutes before time, and honest confessions when I do not have my lessons.

I believe in the dear and gentle Captain Lutz; and the noble wearers of the blue and brass buttons.

I believe in the Tank Scrap, in being tied up by the Sophs; marched to town, in being painted, and sleeping until Sunday. AMEN.

SOPHOMORE'S CREED

I believe in the Sophs yell at the first convocation of the year; a seat down stairs in Fowler Hall, where I can tease and torment the Freshmen above me, and that I have happily passed from that green stage.

I believe in a slouch hat; great yellow high top boots, and the general appearance of a bum.

I believe in A.L.I. Sophomore's wisdom; in my ability not to flunk; a good time with the girls, and the Lahr House on Saturday night.

I believe in the Tank Scrap; and the keen wisdom and strategy of my class in winning it.

I believe in all of this as due to, and worthy of me as a noble, brilliant Sophomore. AMEN.

JUNIOR'S CREED.

I believe in '09 as Freshmen, in '09 as Sophomores, in '09 as Juniors and shall swear by '09 as Seniors, the '09 which in noble white letters adorned the Tank for two years.

I believe in the rowdiness of my class, in their organized cuts, and in their great and noble efficiency for bluffing.

I believe in the Junior Prom; in its unsurpassed splendor, and in being broke for a month after.

I ardently believe in my Junior hat; in its conspicuous blue and white band and in wearing it everywhere.

I believe in the dignity of '09 in her first year as upperclassmen; in her control of athletics, and in her lasting ability to lord it over all. AMEN.

SENIOR'S CREED.

I believe most of all in my ugly, dirty corduroys, their big cuffs, their peg tops, and their whistling sound.

I believe in becoming a Tau Bate in my Junior year in order to Huff better in my Senior year.

I believe in the courtship and fooling of Lafayette girls; in my envied and dignified pull in society, and my ability to hike the levee.

I believe in the Mechanics Burning; in its underhanded management; the iron will and influence of Prexy Stone, and the final exercises at four P. M. on Stuart Field.

I believe in forking out nine simoleons for a Purdue ring; in the faculty finally accepting my thesis, and in the feel of that piece of sheepskin in my hand on June the tenth. AMEN.

The Faculty

An Ode to the "Also Ran."

Hear the jangling of the can—noisy can,
 How it marks the sad departure
 Of an unfortunate "Also Ran."
 How it clanks and bangs and rattles,
 Like the noise of many battles,
 How it causes great expectations—
 Just to fizzle in the pan—
 As we listen to the banging and clanging
 of the can.

after several other changes was made."

"This wooden connecting rod is made
of wood."

"The failures of locomotives is a weak
design."

"There has a few engines been built
lately with 32,000 pounds per wheel."

"The reciprocating parts is not so seri-
ous."

"If you don't git that, I wish you
would."

"There is several stokers, but there is
none perfect."

"There is appliances to increase the
power."

"Here is our large tubes in the super-
heater."

"Hatful of smoke."

"Trains have several engines on it."

TO "JIMMY."

Here's a pitcher with an iron arm,
Whose magical twists no bat can harm;
At lightning speed the ball he drives
And fans our rivals in blocks of fives.

HUGH NICOL.

"One square feet of heating surface."
"There is two motions, one perfectly
out of balance."

"These counterbalances won't bend rails
very seldom."

"In compound engines one cylinder goes
in one direction and the other goes in the
other direction."

"Each individual square feet."

"One pound of heating surface."

"There is coverings that is better than
these is."

"1000 centimeters of gas."

"Not quite absolutely accurate."

"Fire grates is a hard thing to tell youse
about."

"Is there any questions?"

This place was originally reserved for a cartoon on the girl question—a certain fair co-ed in the Freshman class—but thru the heroic efforts (?) of Paul Clark and partly to the fact that we could not secure a picture the article was omitted. All due credit and thanks must be given to the effectual and weighty influence of Mr. Clark for the suppression of this article.

"STUBBY" (ARENS) DOES SECRET PRACTICE STUDIES FOR THE "TUG OF WAR"

(H)ONERY FRATERNITY OF I. ETA PI.

Motto—To h— with the Tau Bets.

Awkward Squad—"Jimmy" Black, "Gassaway" Davis, "Shanty" Crotty, Dave Reel, Ritter, Gettinger,
"Happy" Townsend.

*Will be discharged owing to sudden reform during coming Gala Week.

Purdue and Nineteen Eight.

There's a word that strikes us trembling—
As the clapper strikes the bell;
Starts the sluggish blood to surging
As the steamer throws the swell,
Makes the drearest song sound sweetest;
Makes the darkest sky look blue,
As its mystic fancies charm us—
Its that magic word, "PURDUE."

'Tis with reverence we name Her—
'Tis with knightly pride we claim Her—
Where the battle-smoke lies thickest
'Tis the "Gold and Black" breaks through!
Let Her chieftains be the proudest,
Let Her slogan be the loudest,
Where the shouts of victory shatter,
Let the echoes ring, "PURDUE."

Sons and Daughters, Knights and Ladies—
Bravest, Fairest, Strong and True—
Children of one mighty Mother,
Win your laurels for Purdue!
'Tis a legion brings their trophies
To the old-time bivouac,
At thy feet, dear Alma Mater,
'Neath the folds of "Gold and Black"

Nineteen Eight, the future 'waits you;
New Dawn floods the Golden Track—
See the folds of "Gray and Crimson"
Mingled with the "Gold and Black!"
Through the fight let's bear those colors
Where none other dares to brave—
In the evening let us plant them
Where no other banners wave

JAQUES-MUELLER COMPANY

GEM UNION INSTRUMENTS

It is therefore generally recognized that the pivot joint is much more desirable, and any defects it may possess in its ordinary form are overcome in our improved forms.

THE UNION PIVOT JOINT

As will be noted by illustration above, the steel bolt or screw "A" passes through the entire head and fits into screw "B."

The conical-shaped parts of "A" and "B" form the pivot points which are securely held by lock nuts "C" and "C." The figure "E" indicates a steel disc that acts as an anti-friction bearing for heads of compass legs "X" and "Y."

The advantages of the "Union" joint are, as will be readily seen, of the highest importance.

“NORWAYS”

Dr. Sterne's Sanatorium for Nervous Diseases
1820 E. 10th St. (facing Woodruff Park),
Indianapolis, Ind.

“NORWAYS” is strictly a sanatorium for the care and treatment of the sick. It is not a place for persons in search of amusement. The institution is composed of separate buildings, and is thoroughly equipped in every particular. The grounds are extensive and beautiful. The cuisine is excellent. Every method of treatment of known value is employed by skilled attendants and specially

trained nurses. Patients suffering from all forms of nervous disease, both medical and surgical, rheumatism, kidney troubles, the various drug habits, are accepted. Paralytic children and those in need of the “rest cure” are especially treated. No mental cases are taken.

TERMS. All charges are payable weekly, one week in advance, without exception. They range from \$35 to \$70 per week, depending upon necessities of treatment and location of room. Regular sanatorium rates include board, room, nursing, treatment and physician's fees. There are no extra charges, unless a special nurse (\$20 to \$25 per week) is demanded. Average rate, \$50 per week. The first complete examination is \$10 to \$20, whether the patient remain in the institution or not. Fees for operations depend upon special conditions and are not included above. Out-door patients will be charged according to the treatment employed.

GARMENTS. Patients should wear comfortable clothing. No finery is advocated. Each person should have a bath or leucising table. Every patient must adhere to the printed rules and regulations of the sanatorium. These are posted in proper places about the buildings. No exception will be made to them in any case.

N. B. No person should be brought to the institution who is too weak to be safely removed from home. For further information apply to the Director,

ALBERT E. STERNE, M. D.
Telephones: Old Main, 290. New, 290.

Consulting Hours, by appointment only, from 10 to 12 a. m. and 2 to 4 p. m. Visiting Hours to Patients, 3 to 5 p. m.

Young Engineer!

Do you wish to be a success in your profession?
Do you wish to be familiar with the actual practice of the best
engineers of the day?
Do you wish to know what "is doing" in engineering fields?

We Can Help You!

We publish technical journals that are the accepted authorities in their respective fields.
The most eminent engineers read them regularly.
We are sure your professors will cordially commend them.

THESE PAPERS ARE:

ELECTRICAL WORLD

The foremost authority on electrical subjects.
Weekly Edition, \$3.00 a year
Monthly Edition, 1.00 a year

THE ENGINEERING RECORD

The most progressive journal of the world devoted to civil engineering
and allied subjects.
Weekly, \$3.00 a year

STREET RAILWAY JOURNAL

The accepted authority on all branches of electric railroading.
Weekly, \$3.00 a year

ELECTROCHEMICAL AND METALLUR- GICAL INDUSTRY

The only publication in the English language that covers all branches of
metallurgy and electrochemistry.
Monthly, \$2.00 a year

You need at least ONE OF THEM—Let us send you SAMPLES

McGRAW PUBLISHING COMPANY

239 WEST 39TH STREET

NEW YORK CITY, N. Y.

Be a Star Salesman!

Get in touch with an alert, successful sales organization—the most powerful in the world.

Develop within yourself every attribute that will enable you to meet and master everyday selling problems.

Learn the infinite power of initiative—learn how to apply it to your own creative ability and more than double your earning power.

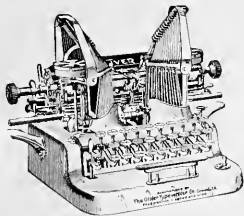

THIS IS YOUR OPPORTUNITY! PUT YOURSELF TO THE TEST.

The great sales organization of the Oliver Typewriter wants more salesmen. This company offers to any accepted, energetic, ambitious man—absolutely free—all expenses paid—a scholarship in the Oliver School of practical salesmanship—and a chance to act as local agent.

The position offers a world of opportunities—the field is unlimited.

The 
OLIVER
Typewriter

The Standard Visible Writer

The Oliver Typewriter is a mechanical marvel—a vital power in the commercial world. Business houses, great and small, are discarding antiquated machines and installing Oliver's.

Keen conservative men—"captains of industry" have awakened to the Oliver's indisputable efficiency and recognize The Oliver Typewriter as essential equipment of every good office system.

The superiority of the Oliver Typewriter emphasizes it as the standard by which all other typewriters are judged. Its supremacy is absolute. The New Oliver No. 5 has taken the country by storm.

It meets the demand for durability. Its visible writing saves strain on the eyes. Disappearing indicator shows exact printing point. The Double Release doubles convenience. Non-Vibrating Base insures stability. Our untiring efforts to seek and produce "typewriter perfection" have been fulfilled beyond our boldest expectations in the New Oliver No. 5.

Requests for demonstration are pouring in from everywhere. Our large force of thousands is unable to meet such a tremendous demand, and we must have more men at once to assist in the great task. The positions we offer to the men who can qualify are permanent—the compensation is liberal—and the chances of advancement are excellent.

This announcement should kindle the spark of ambition in everyone who chances to read it. It will appeal to every man who has it in him to "do things"—but has heretofore been handicapped. It means emancipation from drudgery and halted progress.

Send at once for a copy of the Oliver's remarkable book, "THE RISE OF THE LOCAL AGENT." It tells true stories of real life—how ambitious men started at the bottom of the Oliver's ladder of opportunity and now have reached the topmost rungs.

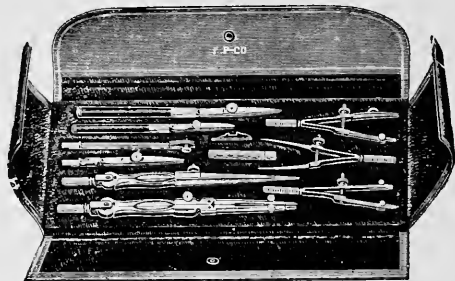

Write for a copy of the book—today—NOW—before you lay aside this book.

Kind Words from a Few of Those We Served Last Year

YOUR work and our relations with you have been most satisfactory.—EDGAR C. THOMPSON, Business Manager "Arbutus," Indiana University, Bloomington, Ind.

YOUR work for the "Cincinnati" was entirely satisfactory, and we appreciate your attention and promptness.—BERNARD C. BOWEN, Business Manager "Cincinnati," University of Cincinnati, Cincinnati, Ohio.

YOUR work has been entirely satisfactory and prompt.—H. M. FULLERTON, Bus. Mgr. 1907 "Hatchet," Washington University, St. Louis, Mo.

Thanks for the good work you did, and hope you will get the business next year.—DWIGHT L. CRAMER, Business Manager "Blue Print," University of Nebraska, Lincoln, Neb.

We wish to thank you for your prompt and courteous treatment this year.—THOS. E. GILL, Business Manager "Illini," University of Illinois, Urbana, Ills.

We thank you for the prompt service and the excellent quality of the cuts furnished, and we assure you that we will speak in your favor to the managers of next year's book.—NED E. DOLAN, Business Manager "Wesleyans," Ills., Wesleyan University, Bloomington, Ills.

The clearness and beauty of the cuts you produced for the "Aegis," drew much favorable comment, and delighted those who read it. I wish to say that the promptness with which you filled our various orders was a marked feature of our relationship, in fact, it is only fair to say that to you is due in a large measure, the success of the Alumni Aegis.—CHAS. S. KIRKPATRICK, Business Manager "Aegis," H. S. Alumni Association, Bloomington, Ills.

I wish to assure you that the work for the "Rose Technic" has been entirely satisfactory this year.—WM. KNOPF, Business Manager "Rose Technic," Rose Polytechnic Institute, Terre Haute, Ind.

No contract too big for our large and complete plant, and none too small to receive the most careful attention.
